Subject: Delaware Part I Crime Data

Attached are tables summarizing reported Part I crimes, clearances, and arrests in Delaware. Explanations of terms used in the tables are provided below.

- **Part I Crimes:** Serious, commonly occurring crimes, which include:
Part I Violent Crimes; willful homicide, forcible rape, robbery, and aggravated assault.
Part I Property Crimes; burglary, larceny, motor vehicle theft, and arson.
- **Complaint:** An offense reported or otherwise known to police.
- **Clearance:** A complaint reported to police is considered solved or cleared once police have identified the offender. A complaint may be cleared by exceptional circumstances, e. g., when a known offender dies or moves out of state. Several crimes may be cleared by one arrest or the identification of one offender, and several arrests may be associated with one clearance.

Please give us a call if you have any questions.

CC: CJC Executive Committee

CRIME BILL -- DOLLARS FOR DELAWARE, 1995 - 2000

(Revised 8/22/94)

LAW ENFORCEMENT

- * **100,000 POLICE** -- Guaranteed minimum of \$44 million -- more than 500 police officers at \$75,000 per officer.
 - ** Given Delaware's share of the population and the additional \$6.5 billion in discretionary dollars, Delaware should expect a total of about \$60 million over the next 6 years.
 - ** Of the total, up to 85% can be used to hire about 650 police officers. At least 15% -- \$9 million -- can be used to help pay the training, overtime and administrative costs of implementing community policing in Delaware.
- * **PRISONS & BOOT CAMPS** -- \$18 million for prison grants, including military-style boot camp prisons. An additional estimated \$18 million is possible if Delaware meets the "Truth in Sentencing" target of second-time violent offenders serving 85% of their sentences.
- * **BYRNE ENFORCEMENT GRANTS** -- \$1 billion in the Trust Fund will help continue full funding for these grants, including Delaware's \$2 million annual share.
- * **RURAL LAW ENFORCEMENT GRANTS** -- \$1.4 million for drug and crime enforcement in Delaware's rural areas.
- * **DISCRETIONARY GRANTS** -- Delaware's law enforcement agencies and courts may apply for:
 - ** \$1,000,000,000 -- Drug Court programs (treatment backed up by drug testing and certain punishment for non-violent offenders currently on probation.) Estimated \$2.7 million for Delaware -- enough for about 1,300 offenders over six years.
 - ** \$320,000,000 -- Criminal record systems (Brady Law), communications equipment, and DNA testing; and
 - ** \$200,000,000 -- Judges, prosecutors and public defenders (estimated \$500,000 for Delaware).

PREVENTION PROGRAMS

- * **LOCAL PARTNERSHIP ACT** -- \$4 million in direct grants to cities and towns in Delaware. Wide discretion permits local governments to use the dollars for education, drug treatment, and jobs programs.
- * **VIOLENCE AGAINST WOMEN ACT** -- \$2.5 million in grants for police, prosecutors and victims services; \$900,000 in grants for shelters for battered women and their children; and Delaware can apply for a share of \$500 million in several discretionary programs.
- * **AFTERSCHOOL AND IN-SCHOOL "SAFE HAVENS" FOR AT-RISK CHILDREN** -- \$1.3 million for non-profit, community-based organizations in Delaware.
- * **DRUG TREATMENT IN PRISONS** -- \$2.2 million to treat up to an estimated 2,000 drug-addicted prisoners in Delaware prisons over the next 6 years.
- * **LOCAL CRIME PREVENTION BLOCK GRANT** -- \$1.6 million in direct grants to cities and towns for various programs, including:
 - ** **ANTI-GANG GRANTS** -- to give young people positive alternatives to gangs, such as academic and athletic after-school activities, mentoring programs and scout troops.
 - ** **MIDNIGHT SPORTS LEAGUES** -- to give at-risk youth nightly alternatives to the streets, and for the U.S. Olympic Committee to develop supervised sports and recreation programs in high-crime areas.
 - ** **BOYS AND GIRLS CLUBS** -- to establish clubs in low-income housing communities, and to encourage police officers to live in those communities.
 - ** **TRIAD** -- for partnerships between senior citizens groups, police chiefs and sheriffs to combat crimes against elderly Americans.
 - ** **POLICE PARTNERSHIPS FOR CHILDREN** -- for partnerships between law enforcement and social service agencies to fight crimes against children, and for the creation of youth councils to combat crime.
 - ** **VISITATION CENTERS** -- for supervised centers for divorced or separated parents to visit their children in "safe havens" when there is a history or risk of physical or sexual abuse.

- ** YOUTH DEVELOPMENT CENTERS -- to develop more effective education, training, research, prevention, diversion, treatment and rehabilitation programs for violent juveniles, including alternatives to school suspension and juvenile court diversion.**
- ** SAFE SENIORS CORRIDORS -- to provide older Americans with enhanced protection from crime by increasing police presence and crime prevention activities by community groups.**
- ** HOPE IN YOUTH -- to create Family Outreach Teams composed of youth, parents and school-parent organizers for mentoring, community organizing and peer counseling.**

*** DISCRETIONARY GRANTS -- State agencies and non-profit organizations may apply for a share of:**

- ** MODEL INTENSIVE GRANTS -- \$626 million for intensive, comprehensive and flexible aid to areas, urban and rural, hardest hit by crime and violence.**
- ** NATIONAL COMMUNITY ECONOMIC PARTNERSHIP -- \$270 million to extend lines of credit of up to \$2 million to community development corporations to provide small, low-interest loans to businesses in low-income neighborhoods.**
- ** GANG RESISTANCE EDUCATION AND TRAINING ("GREAT") -- \$45 million for school-based programs to teach children to resist peer pressure and understand the negative impact of gangs and drugs.**
- ** URBAN RECREATION AND AT-RISK YOUTH -- \$4.5 million to expand recreational facilities in high-crime areas.**

STATE OF DELAWARE
SENTENCING ACCOUNTABILITY COMMISSION
TREATMENT ACCESS CENTER

456-2564
Jon C

January 26, 1994

The Honorable Lee Brown
Director
Office of National Drug Control Policy
Executive Office of the President
Washington, DC 20050

Dear--Dr... Brown:

This letter is to follow up on the letter you received from Judge Richard Gebelein, requesting that you speak at a Legislative Seminar we have scheduled for March 11th and 12th in Delaware.

Since then, the seminar has come together quite nicely for us. James Hall, from Miami's Up Front Drug Information Center has been confirmed as a presenter, as has Bob May, the Executive Director of the National Consortium of TASC Programs. Dr. Douglas Anglin, from UCLA's Drug Abuse Research Center also recently confirmed, and there is a possibility that Senator Joe Biden will also address us.

I am convinced that we have put together a faculty that represents the best in the field of drug-involved offenders and the management of those offenders.

Your presence would greatly enhance our efforts. The Treatment Access Committee in Delaware sees this seminar as a critical opportunity to gain the endorsement of key policymakers that will enable us to transform a forward thinking and comprehensive plan into reality.

We look forward to hearing from you regarding this seminar, and hope that you can join us. If you need any additional information, please don't hesitate to contact me.

Sincerely,

Beth Peyton
Director

cc: Honorable Richard S. Gebelein, Chairman
John Gregrich, ONDCP

SUPERIOR COURT
OF THE
STATE OF DELAWARE

RICHARD S. GEBELEIN
JUDGE

COURT HOUSE
WILMINGTON, DE. 19801-3353

December 13, 1993

The Honorable Lee Brown
Director
Office of National Drug Control Policy
Executive Office of the President
Washington, DC 20050

Dear Dr. Brown:

The State of Delaware's Sentencing Accountability Commission (SENTAC) will be holding a seminar for Delaware legislators and other policymakers on March 11-12, 1994 in Rehoboth, Delaware. We would be honored if you could join us to serve as our keynote speaker during dinner on Friday evening, and to participate in any other way you or your office sees fit. This seminar, funded through a grant from the Edna McConnell Clark Foundation, will focus on managing drug-involved offenders.

Over the course of the last year, SENTAC's Treatment Access Committee has developed data, some resources, and a strategic methodology to implement a system of compulsory treatment for appropriate drug-involved offenders. Enclosed please find a brief summary of our preliminary findings and recommendations.

We are now ready to attempt to fully engage our legislature, the police community, and other leaders in a thoughtful dialogue on effective management of drug-involved offenders. We intend to provide a thorough overview of the problem of drug-related criminal activity, substance abuse treatment, its effectiveness, and its role in reducing drug use and crime. We intend to utilize notable national experts as well as local talent in both the development and delivery of this seminar, and will be happy to update your office as the speakers' list takes shape.

We believe that the provision of effective treatment, combined with sanctions as needed, with strong oversight by the courts and criminal justice system is an effective and, therefore, underutilized tool in our efforts to improve public safety and dispense justice.

As a participant in the Miami Drug Court Conference, I had the opportunity to hear you speak. As a judge involved in planning and implementing a Drug Court, I was very impressed by your understanding of the important elements of drug courts and the population they are designed to serve, as well as your encouragement to strive for comprehensive approaches and excellence.

The Honorable Lee Brown
December 13, 1993

Your impressive background and your articulation of your thinking and approach to the drug crisis would enhance our seminar tremendously.

Please don't hesitate to contact me if you need additional information regarding this request, and to indicate your ability to join us.

Yours very truly

A handwritten signature in black ink, appearing to read 'R. Gebelein', with a long horizontal flourish extending to the right.

Richard S. Gebelein
Chairman, SENTAC

A Coordinated Approach for Managing the Drug Involved Offender in Delaware

Executive Summary of the First Annual Report of the Treatment Access Committee

May 14, 1993

Members

The Honorable Thomas P. Eichler
The Honorable Richard S. Gebelein, Chairman
James A. Inciardi, Ph.D.
The Honorable Marlene Lichtenstadter
Samuel S. McKeeman, Jr.
Terence McSherry
The Honorable Carmen Nazario
The Honorable Alex Smalls
Robert Walls
The Honorable Robert J. Watson

Staff

Elizabeth A. Peyton, Director
Caroline Hendry
Catherine Raich
Amy Spaans

The Treatment Access Committee is a permanent committee of the Sentencing Accountability Commission (SENTAC).

Acknowledgements

This project would not have been possible without the efforts of a number of people. The Edna McConnell Clark Foundation provided funding for this project. Research oversight and statistical analysis was provided by Dr. James Inciardi and Dr. Dorothy Lockwood from the University of Delaware Center for Drug and Alcohol Studies, and by Jack O'Connell, Statistical Analysis Center.

The Department of Correction must be commended for the outstanding cooperation that was shown at each institution, as well as by the Administration.

Finally, the case management staff at the Treatment Access Center worked very hard under tremendous pressure and tight deadlines to implement this project.

Beth Peyton
Director
Treatment Access Committee

INTRODUCTION

At its creation, the Treatment Access Committee (TAC) was directed to "report annually to SENTAC and the General Assembly on its activities and on the status of substance abuse problems in Delaware".¹

This memorandum provides a summary of TAC's findings on the status of substance abuse among incarcerated offenders and includes an outline of its initial recommendations to the General Assembly for responsive action. A full report will also be submitted, and a report describing substance abuse among the non-incarcerated offender population will be issued in the fall.

TREATMENT ACCESS COMMITTEE STRUCTURE AND ACTIVITIES

The Treatment Access Committee is a legislatively created multi-agency body representing all three branches of government and the treatment community. The committee is developing an organizational structure to expand treatment for offenders, organize treatment programs into an effective system to provide compulsory treatment, and provide supports for providers of both supervision and treatment so that effective strategies for managing drug involved offenders can be implemented. In addition, they are overseeing the development of the Treatment Access Center. Based on the Treatment Alternatives to Street Crime (TASC) model, the Center will assess, refer to treatment, and provide case management for offenders as they move through both the criminal justice and treatment systems.

A Director was hired in November, and case managers began conducting a formal needs assessment of the incarcerated population in February, 1993. This assessment was designed to describe the offender population in terms of their substance abuse, as well as to make specific recommendations about treatment program expansion.

APPLICABLE RESEARCH

As part of its analysis and before preparing its recommendations, TAC did an extensive review of research to determine strategies for reducing the drug use and criminality of drug-dependent offenders. The following research findings provide the foundation for TAC's recommendations:

- Reducing drug use by drug-addicted offenders reduces their criminal activity

- Punishment alone has not proved successful in reducing the drug use or the criminal activity of addicts
- Both voluntary and compulsory treatment have proved successful in reducing drug use by addicted offenders
- Assessment tools are available which indicate which treatment options are most likely to be successful in a given case
- A continuum of treatment options must be in place. Offenders who are correctly matched to appropriate treatment do better than those who are unmatched or mismatched. Initial treatment should be followed by relapse prevention, skills remediation and social support
- Addicts typically lapse or relapse one or more times before treatment has a positive effect on their drug use and hence upon their criminal activity

SUBSTANCE ABUSE AMONG INCARCERATED OFFENDERS

To determine the nature and scope of the substance abuse problem among the criminal offender population of the State, TAC assessed a representative sample of the inmates² currently serving time in Delaware's prisons. 30-minute structured interviews were conducted using the Offender Profile Index (OPI), a substance abuse assessment instrument developed specifically for offenders. Based on drug severity and "stakes in conformity" (educational attainment, residential stability, employment level, etc.), offenders are "sorted" into treatment program types.

MEN: For purposes of analysis and policy development, male offenders can be categorized as follows:

- 17% light or non-users
- 24.5% moderate to heavy users of alcohol and marijuana
- 4.3% moderate to heavy users of multiple drugs
- 41.5% regular amphetamine or cocaine users
- 12.3% intravenous users

Male offenders were broken down into subcategories for comparison purposes. In terms of initial treatment needed:

<u>All</u>	<u>Drug</u>	<u>Traffickers</u>	
12.3%	7.7%	2.8%	Long Term Residential
41.1%	51.2%	55.0%	Short Term Residential
4.3%	3.8%	2.8%	Intensive Outpatient
12.6%	9.0%	6.4%	Outpatient
11.9%	14.1%	14.7%	Urine Only
17.0%	14.1%	18.3%	None

Drug use was even more severe in offenders incarcerated for property offenses and probation violations, with a 70% need for residential treatment.

WOMEN: Our sample included about 25% of the population of incarcerated women.

<u>All</u>	<u>Drug</u>	<u>Traffickers</u>	
25.6%	14.3%	16.7%	Long Term Residential
44.2%	57.1%	50.0%	Short Term Residential
7.0%	7.1%	8.3%	Intensive Outpatient
4.7%	7.1%	8.3%	Outpatient
9.3%	0.0%	0.0%	Urine Only
9.3%	14.3%	16.7%	None

AVAILABILITY OF TREATMENT FOR OFFENDERS

Two facts stand out:

1. There is little or no coordination or cooperation between the criminal justice system and the treatment system.

Judges who sentence and probation officers who oversee the serving of the sentences know little of the availability of treatment or what would be most effective for a specific offender. Similarly, those who deliver services know almost nothing of the sentences imposed on offenders whom they treat or of the judicial processes that place them in treatment.

2. Fully 65 percent of male offenders and 79 percent of female offenders have never been treated for their drug use. Existing treatment resources are grossly inadequate to meet the needs of the offender population.

Currently, there are enough offender-dedicated resources to impact only three percent of the offender population; 17% if all state resources were devoted to offenders.

DISCUSSION

The findings in this report are both startling and daunting. Over 70 percent of the incarcerated population has a drug use problem serious enough to warrant at least outpatient treatment, and a substantial portion need residential treatment.

A sizeable portion of those incarcerated for drug offenses, including those incarcerated for drug trafficking, are heavy drug users. There is also an identifiable percentage who are not. Many non-violent offenders are heavily drug-involved; interrupting their drug abuse can substantially reduce their criminal activity as well.

We don't claim a causal relationship between drug use and crime, but research shows that drug use focuses and intensifies criminal behavior in addicted offenders. Effective treatment, coordinated with sanctions and oversight by the criminal justice system, can reduce the drug use and criminality of addicted offenders -- at less cost than a lengthy prison sentence.

The criminal justice system can provide the necessary "motivation" to place and retain drug-involved offenders in treatment. The Treatment Access Committee and the Treatment Access Center can provide the structure to focus our limited resources in a concerted fashion. **REDUCING THE DRUG USE OF DRUG-INVOLVED OFFENDERS IS A GOOD CRIME CONTROL STRATEGY.**

PUBLIC OPINION

In 1991 the Edna McConnell Clark Foundation contracted with the Public Agenda Foundation of New York to conduct a survey of the attitudes of Delawareans toward criminal justice issues. The report, called "Punishing Criminals", includes the following data on public attitudes toward illegal drugs and how to solve the problems their use creates:

- 94 percent said that illegal drug use was the most important or a major cause of crime;
- 67 percent favor providing drug treatment to every addict who wants help even if it means a modest tax increase or a cutback in other state services; only 15 percent disagreed and 18 were not sure;
- only 2 percent were for building more prisons if it meant cutting back on services like education or health care; less than a third (32%) were willing to pay more taxes to build another prison.

RECOMMENDATIONS

Based on the information above, TAC makes the following initial recommendations to the General Assembly:

1. Increase the availability of compulsory treatment by augmenting the existing continuum of offender dedicated treatment. Fund the recommendations made by SENTAC:

- Short-Term Residential Treatment.....\$ 700.
- Intensive Outpatient Treatment.....\$ 250.
- Outpatient Treatment.....\$ 550.
- Treatment Engagement Groups.....\$ 150.

TOTAL \$1,650.

2. Support the Treatment Access Committee's efforts to develop a systematic approach for managing drug involved offenders.

3. Increase our ability to supervise and control offenders by funding SENTAC's recommended expansion of Level II, III, and IV offender supervision.

4. Modify the "drug trafficking law" to allow for more flexibility in sentencing.

5. Begin to reduce the demand for drugs by enforcing the laws against casual users that include imposing fines, forfeitures and compulsory treatment.

ENDNOTES

1. Delaware Code, Title 11, Section 6582
2. 389 offenders were assessed: 52 females and 337 males.
3. Availability of Treatment for Offenders in Delaware:

The following number of persons were served last year in State-funded, offender-dedicated programs. The capacity of the programs described in "slots". Each "slot" can serve one person at a time. When a person leaves a program, that "slot" becomes available for someone else.

	<u>State</u>	<u>Offender Dedicated</u>
Prison TC		70 slots/70 served
Work Release TC		60 slots/120 served
Residential	70 slots/ 658 served	16 slots/88 served
Intensive Outpatient		40 slots/120 served
Non-residential/ Outpatient	NA/ 2148 served	NA/250 served
