Folder Title:
7 X 3 [Frankel Proposal--Emissions--Climate Change]

Stack:	Row:	Section:	Shelf:	Position:
S	20	5	1	1

Frankel proposal:

7 × 3-yr.

Must attain
5 out of 7.

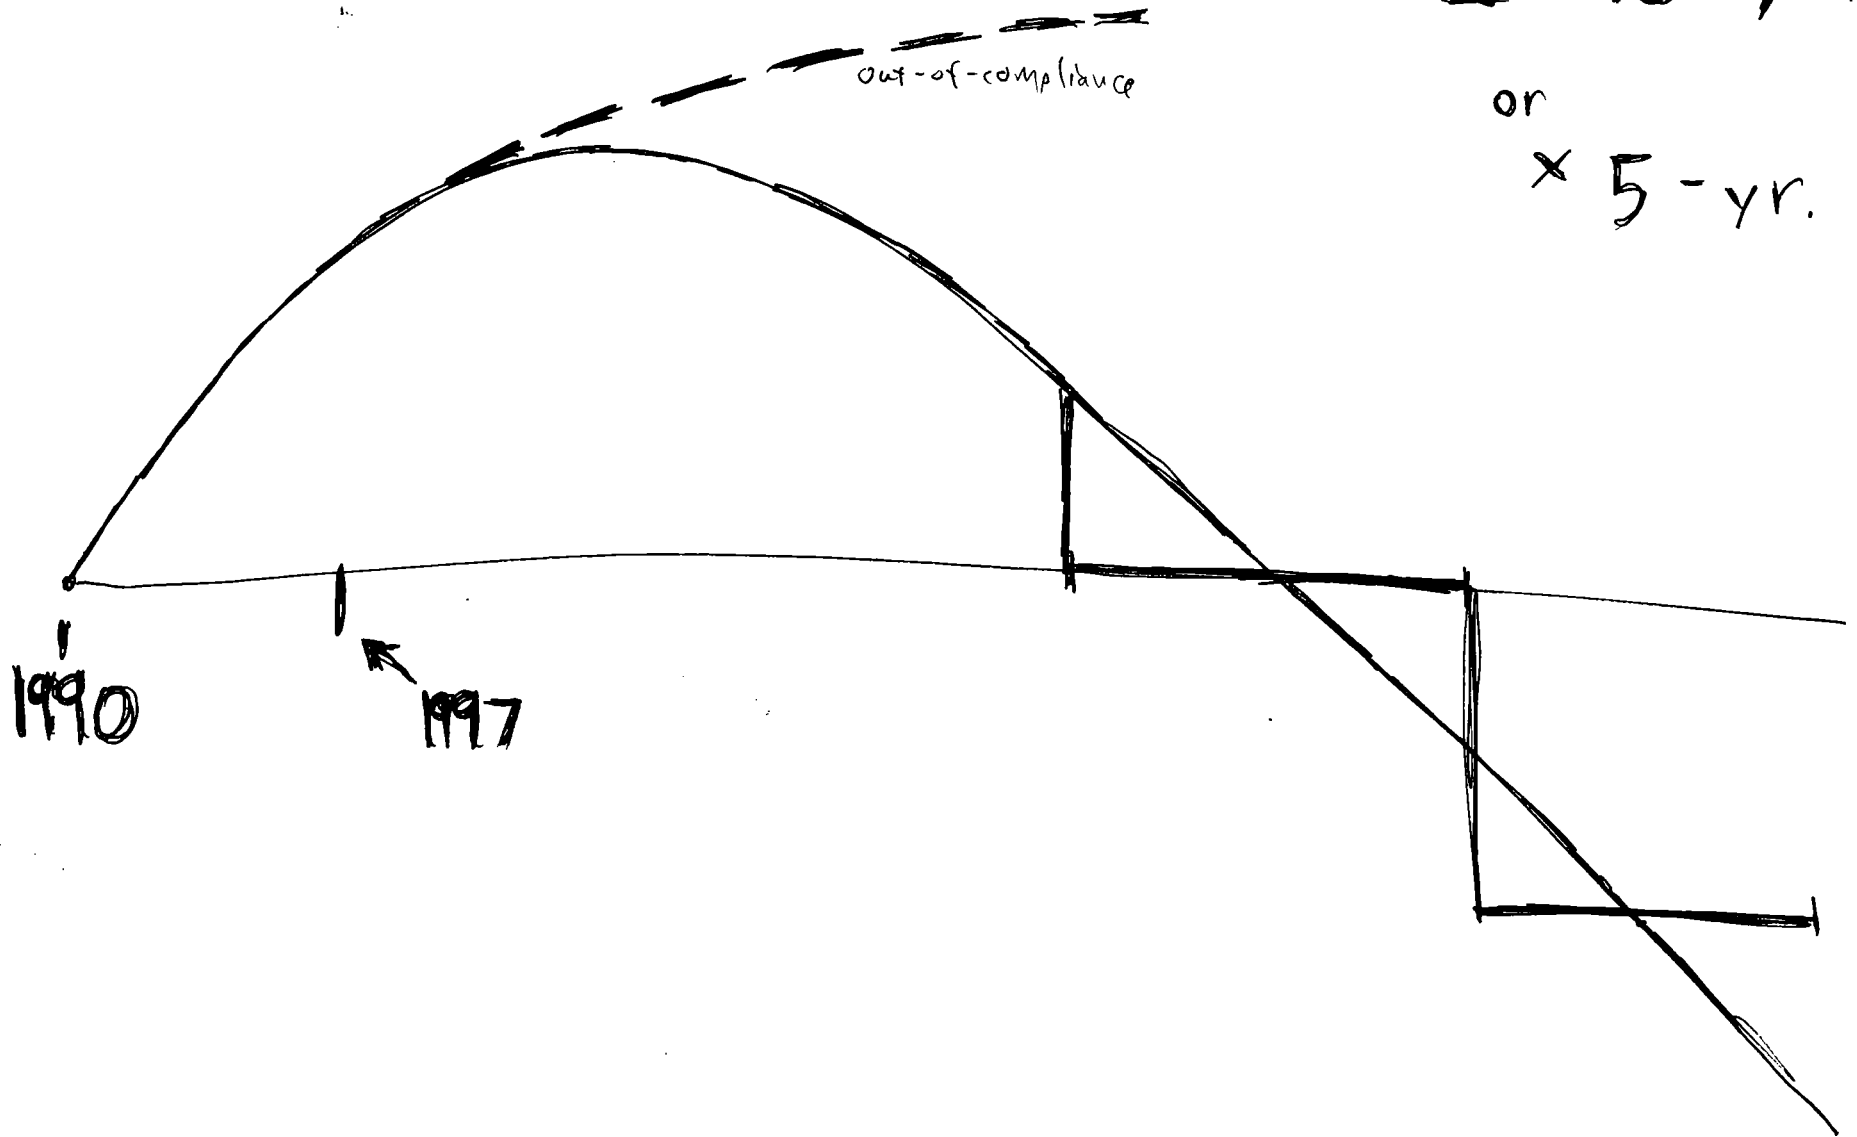

Existing plan:

$2 \times 10\text{-yr.}$

or

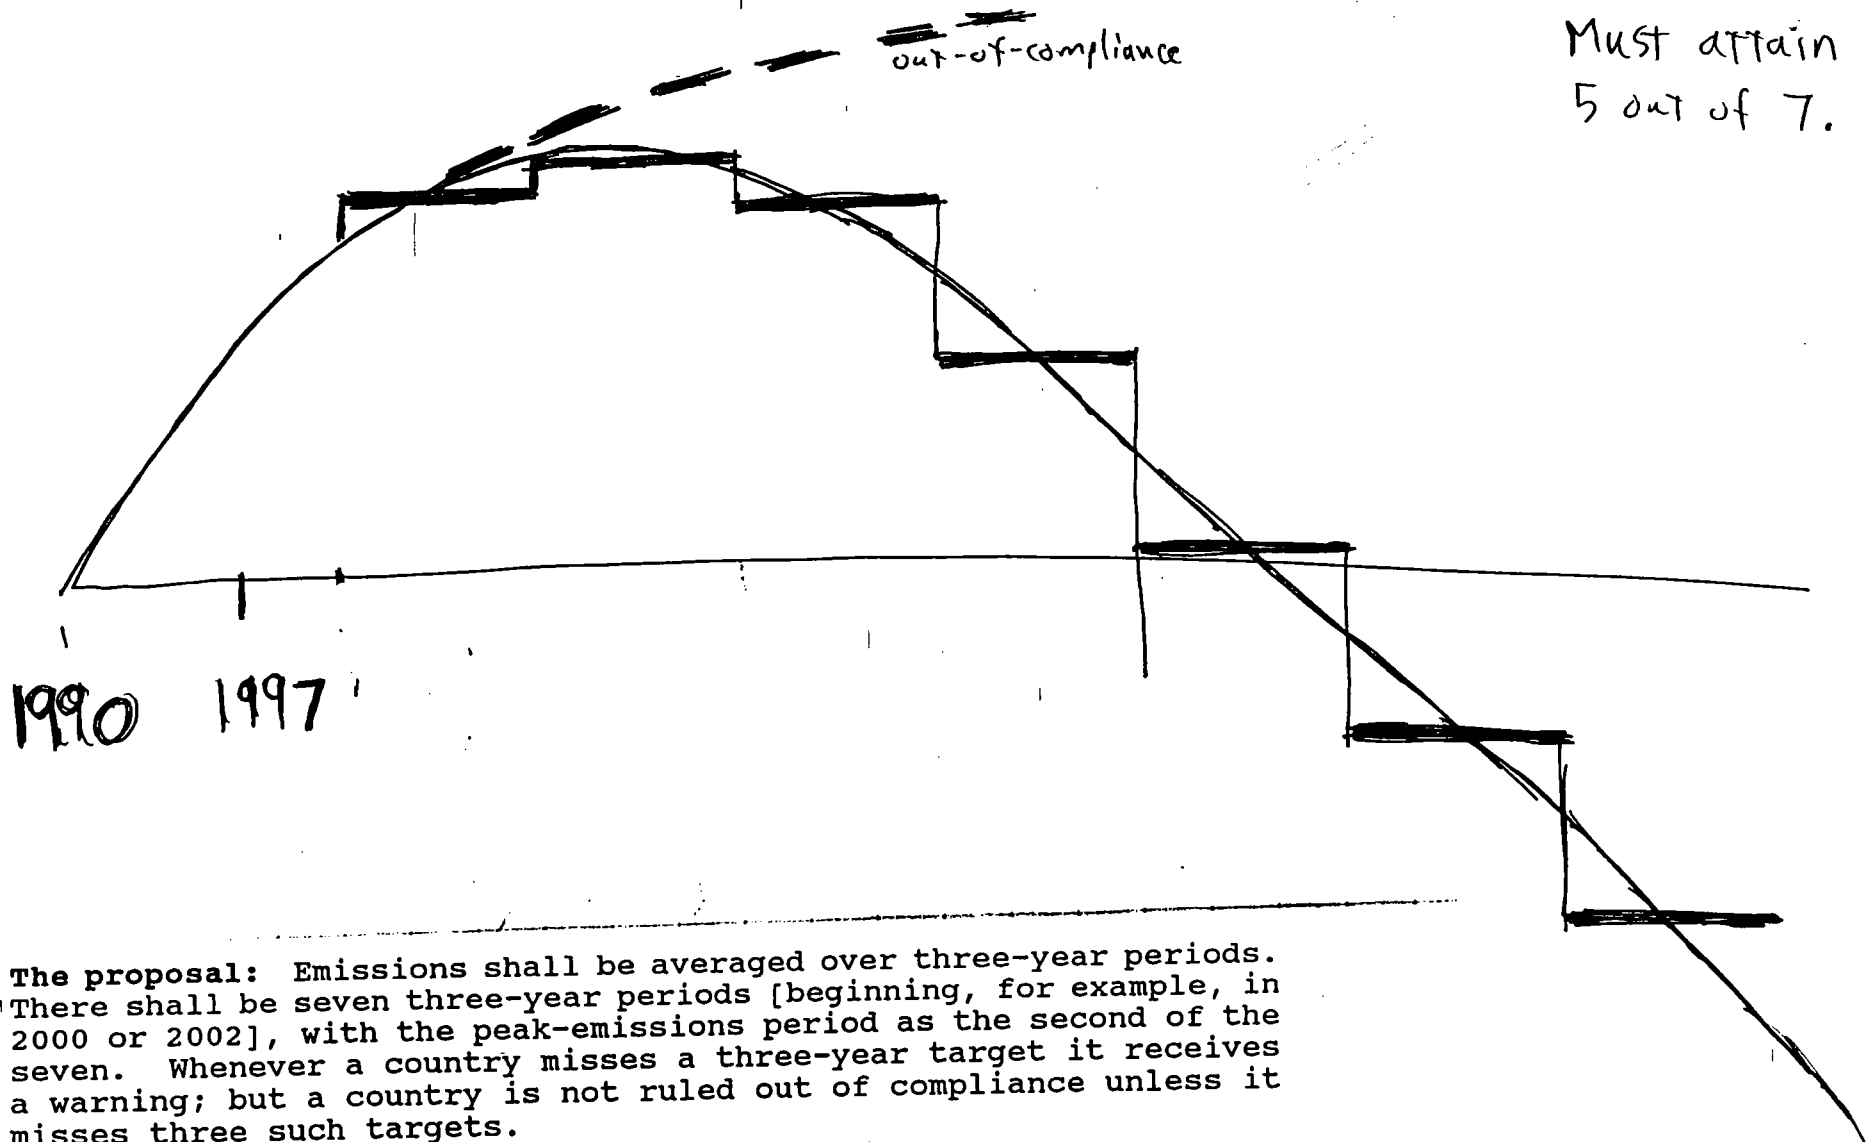

$\times 5\text{-yr.}$

Frankel proposal:

7 × 3-yr.

Must attain
5 out of 7.

The proposal: Emissions shall be averaged over three-year periods. There shall be seven three-year periods [beginning, for example, in 2000 or 2002], with the peak-emissions period as the second of the seven. Whenever a country misses a three-year target it receives a warning; but a country is not ruled out of compliance unless it misses three such targets.

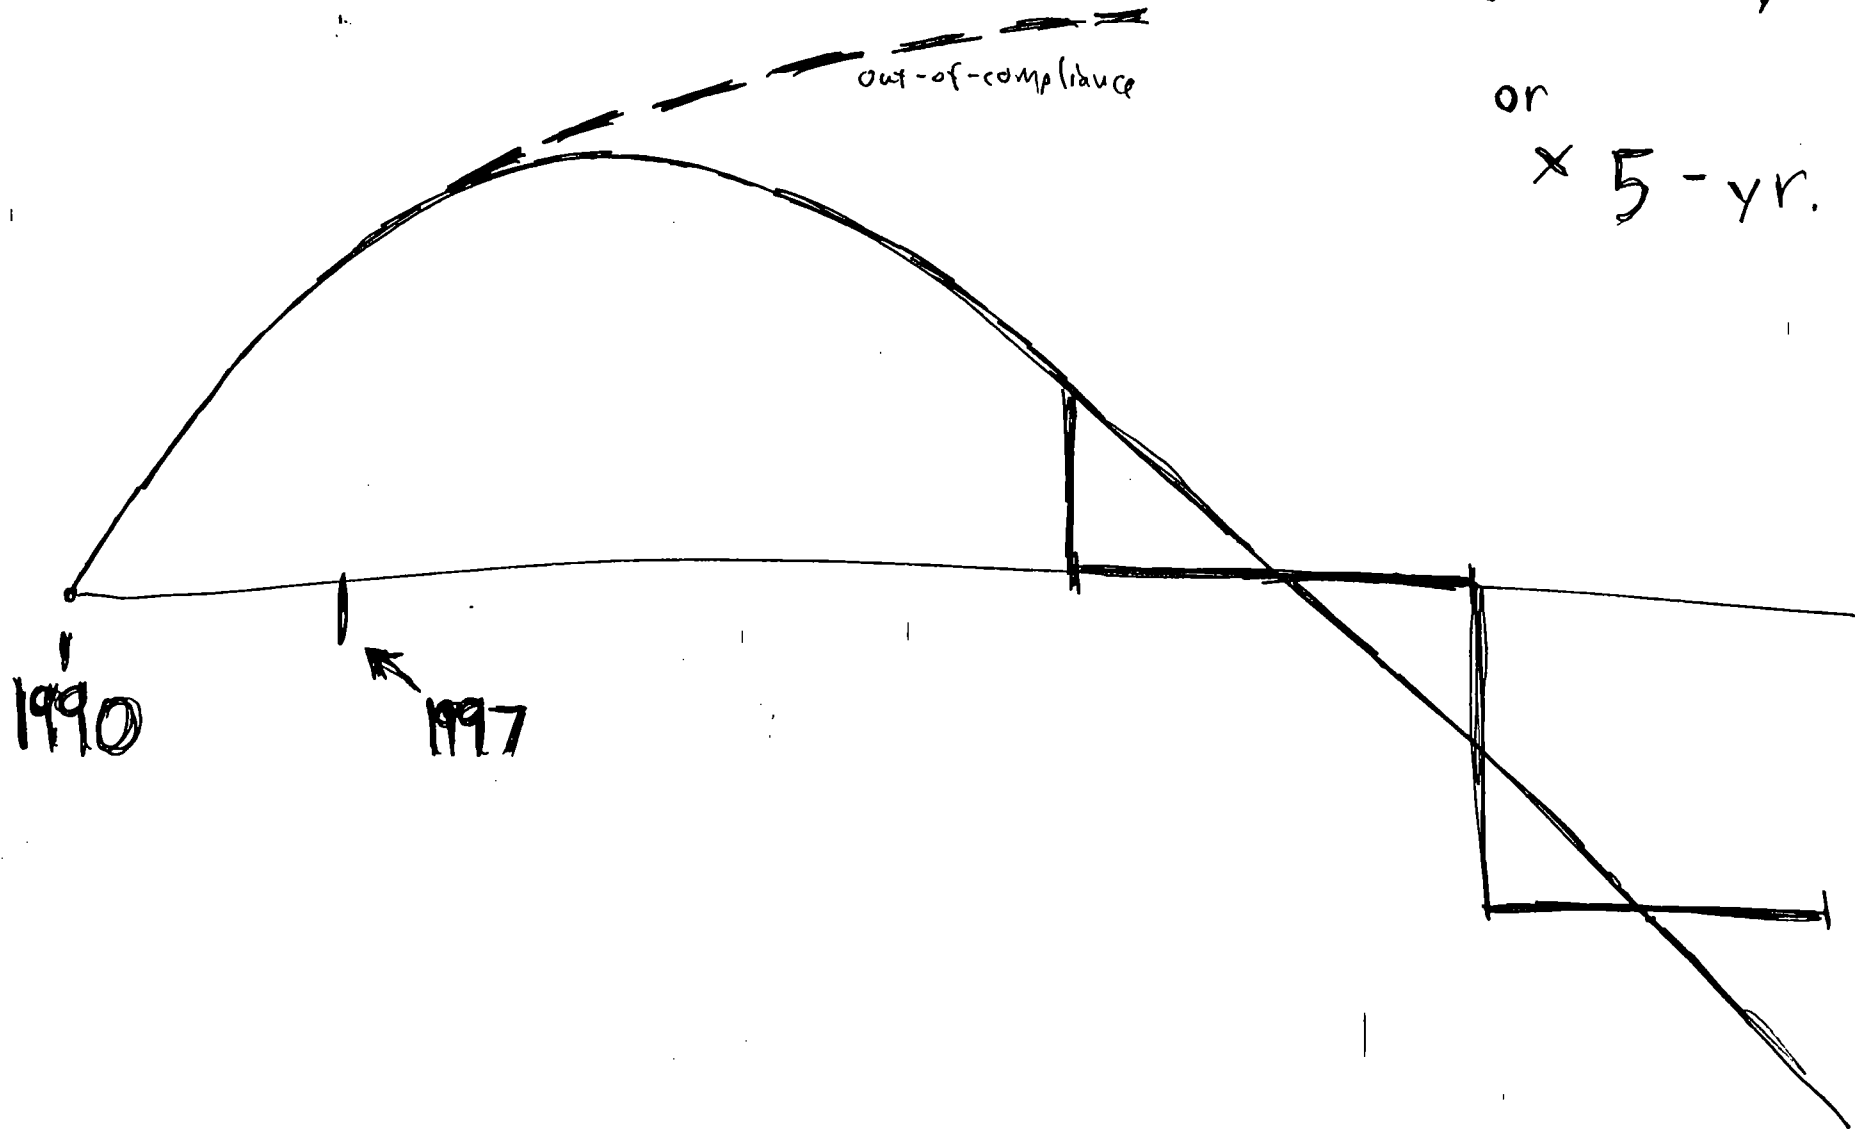

In other words, the binding requirement is to hit at least 5 of the 7 targets. Thus a country receives a clear warning at a stage when it is still feasible to get back into the system.
