Subject: Re: CDC \$\$

We would recommend that new CDC prevention money be split between:

1. national campaign to encourage HIV testing, specifically oriented to those who are at risk and don't know it (women who are partners of injection drug users or bisexual men, and adolescents) - **\$7 million**
2. a special pilot program(s) that seeks to demonstrate the benefits of improved integration between prevention for HIV and STDs with maternal and child health - **\$2 million**
3. HIV prevention community planning (established program of block grants with local decision-making on use of funds - similar to Ryan White Title I) - set-aside/earmark specifically for prevention programs targeting young persons (including young gay men) and women at high risk - **remaining balance**

We are assuming at least \$15 million dollars. If you are expecting to do a lot more, item (1) can go to \$10 million but no more, item (2) should stay at \$2 million, and the rest should go into item (3). We would also want to push for report language that admonishes the CDC to insure that young people are adequately represented in the community planning groups for item (3) since they are often excluded from participating

in prevention planning and programming.

How's that? Call or page me if you have any questions.

Subject: Revised Funding Recommendations

Don -

As per your request, here are two funding scenarios. Both assume \$165 million total, with the first showing an increase in CDC funding and the second showing none. Sandy and I STRONGLY recommend the former - it's a bad political and policy message to flat-fund prevention. Sandy's going to call Josh and tell him that we're pushing hard at CDC and HRSA to improve their data, so the increase in funding is not taking them off the hook.

Todd

\$165 million	<i>With CDC</i>	<i>Without CDC</i>	<i>Notes</i>
Title I	37	40	
Title II	19	21	
ADAP	75	80	1:1 match for states getting > \$1 million
Title III	10	10	Women and people of color - early intervention
Title IV	4	4	Focus on outreach to young people
CDC Prevention	10	0	As per earlier memo
HUD HOPWA	10	10	
TOTALS	\$ 165	\$ 165
