

Willow Grove Del. May 9th 64
Dear Sir,

Yrs. 19th ult. rec^d.
Our children have recovered
from measles. M^r. R.
is quite unwell.

The general health of people
here about good. Weather for
a few days past very warm.
I've not heard any thing
from any of your relatives
on this side or the other of
the mountains, since I
last wrote you. I would like
to visit you but can't say
any thing definite about it
at yet. I wish Milton would
have come on, a few hours
ride on the Cars from Phila
would have brought him
to me a daily stage
to our place

from Camden Station
Del. R. Road, only five
miles distant. Two other
Stations, nearer, Dover
is only nine miles from
our place.

I keep two horses, and
hired hand-roads are
excellent.

I respect Lucetta is a
promising young lady.
Aunt Williams can
give you a history of
our last fall's tour. I
would like to be along.
But my business is such
that I can't consistently
leave when I please.

I want to attend our
meeting in New York next
June if I can.

Truly

Is New Lisbon still in
the same place? Do the
people in your part
eat, ~~and~~ sleep and work
about as usual? —

I learn from a reliable
source, that Gen. John
Morgan is a relative
of one; it was not the
first time he was in
Columbiana County.

You will probably
hear from him before
long. A great slaughter
is now going on between
the Armies of Lee and
Grant. Richmond will not
be taken — neither will
Washington. —

All parties here
are tired of the war, and high
prices. —
