Dear Mr. Madancy:

Thank you most sincerely for your recent letter and your interest in the report issued by the University of Colorado research team concerning Unidentified Flying Objects.

According to the Air Force, the reason the UFO investigation was performed by the team at the University of Colorado was to insure that the work would be done by an independent agency or group rather than anyone under the control of the federal government. I was further told that after Dr. Condon's group finished its report it had a thorough examination by the National Academy of Sciences which agreed with the Condon report. By handling the investigation in this way, two independent groups not controlled by the government or the Air Force looked into this important subject and concurred in their final opinion. The Air Force did make all their information on this issue available to these groups for their study and use.

Because of your deep concern over this subject, I know you will be interested in reading the enclosed copy of the report issued by the Panel of the National Academy of Sciences which conducted the review of the University of Colorado report.

Kindest regards.

Dear Mr. Ford.

I'm writing to you, in regards to the UFO reports from the University of Colorado, which stated UFO's don't exist. I personally believe that this statement is not true at all. I also state that two scientists from the Canadian group were dismissed from their jobs, because of disagreeing with the hold project as a unfinished investigation, and also that UFO's were real space craft from many solar systems. Everyone knows that censorship is the main reason to debunk UFO reports as much as possible. The following statement I submit to you as special evidence through official channels in our government.

1. Sept 23, 1947 - Air Technical Intelligence center, letter stating UFO's are real sent to the Commanding General of the U.S. Air Force.
2. August, 1948 - Air Technical Intelligence center - {Top Secret} " Estimate of the Situation Concluding UFO's are interplanetary space ships, sent to the Air Force, chief of staff.
3. April 27, 1949 - Project Saucer report released by U.S. Air Force, "Space visitors" considered improbable (but) many unexplained cases, 30% probably conventional objects.
4. In 1952, summer, around Washington D.C. (Tanana Tracking), The Civil Aeronautics Administration, published a restripped booklet showing how these things performed on Radar on the night of August 13 1952.

PHOTOCOPY FROM GERALD FORD LIBRARY

5. 1949-1951 Project Grudge & Sign (now Bluebook) were both classified, both were known to the public as Project Souce at the time.

6. also 51 Landings in Latin America in 1965

7. 67-car chases (1967 statistics)

9- Power Failures

27- Occupants reports

11- or more Radar Detections

35- Pilot chases.

89- Landings

62- photos taken

8. Silence Wave Reports 1951-53-54-64.

9. Great Sauer Wave 1947-50-52-54-57, 1883-1909, 1896-97

10. Major Sauer flaps were in the U.S.A - 1957, Brazil, New Guinea - 1959, New Zealand - 1960, one in Western Europe, 4 in Argentina - 1962.

a Palamar professor said that the U.S., FBI had forbidden the publication of astrophysical photos taken at Palamar. Why? There are pictures of jet planes, chasing UFO's and disintegrating in mist air.

These are only a small bunch of confirmed reports gathered by NICAP, APRO and reliable organizations, some that I have in a large file of UFO reports, besides 500 clippings of newspaper releases. Also the astronaut's moon reports behind close doors, beyond one that went up.

The civil aeronautics board, has a booklet, Illustrated with  
charts - VFO's appeared on Radar scopes on July 3 Aug.  
at Washington D.C. of 1952, this is known as -  
" Technical development Report no 180-CA13

Is it possible to have a careful investigation this year by  
NICAP & APRO organizations to carry out their jobs, and  
VFO's, and to come to a definite conclusion, with  
concrete evidence, submitted to the Congress and to  
the President of the U.S., to especially inform the  
American public on the dangers they might face  
such as, radiation burns, electromagnetic effects to cars  
and to people's health, sonic explosions, radio signals,  
and Power blackouts. Mr Ford, would you submit  
my letter to anyone, who is associated with the  
President of the United States or the president.

I know its quite alot to ask of you, I'm sure you'll  
do your best, as you always have in the past.  
If possible could you send me a copy of the  
Congressional records based on VFO's, and also  
material on the 1967-68 news release sheets from the  
Secretary of Defense, and the "Booklet" "Technical  
Development Report no 180-CA13. If it is still available.  
I thank you for reading my long letter, and hope  
that steps can be taken to support the VFO movement  
in the United States, as well as world wide. one thing  
also, I left out, the Civil Force regulation (AFR-PO-17) →

PHOTOCOPY FROM GERALD FORD LIBRARY

Any personnel, that discuss VFO's are threatened with a court martial, and dishonorable discharge, along with 10,000 fine, plus 10 years in prison, if they dare to talk to anyone about this. Also Regulation JANAP-146 is a document that covers the release of information in connection with reported sightings of VFO's. So as you can see, its really a shame to let this go, without proper investigations. and still reports pure in all cases. NICAP has 11,000 sightings in their files, only 3,000 are unknown and unexplained. No one seems to understand this big problem. It is not panic to worry about, but truth and good knowledge & education to know all about these things. The VFO situation is not best besides the Viet Nam war, according to the United Nations speech. Hope it for now Mr. Ford, sorry to let this letter get so long, but as you can see, it does get out of hand. Mr. Donald Dyke, retired U.S. Marine Corp Major of NICAP will confirmed these reports & have stated to you. Thank you for your time.

Sincerely & Respectfully  
Yours,  
Ranuel MacLary

Dear Congressman Ford:

In April of 1966 I wrote to you in support of your plea for a Congressional investigation of unidentified flying objects. In your kind reply you showed some disappointment in that the investigation would not be made by Congress but you did feel that the Condon Investigation was, at least, a good first step.

I am wondering if you still feel that way.

In your reply you also stated that the Air Force assured you that the investigation would be fair and thorough and the the report resulting from the inquiry would be made fully available to the public.

Now then, I am assuming that the Air Force has made good their promise to you and that the report is, in fact, available to the public. Therefore could you please supply me with the necessary information so that I may acquire a copy.

Begging your kind assistance

Dear Mr. Ford:

53048

Last nite on television I saw a report on former Americans in Cuba and fanaticism towards Castro by American students.

You read this carefully - this type of insanity is caused by evil blinding astral forces that are trying govern the world - the reason for campus riots etc. This can be stopped if people are made aware of higher life planes such as some UFO's, which I stress.

That is why these satanic forces don't want UFO's revealed and why that report is going to be a psychological smoke screen.

That the psychopath Castro gained power was no mere happenstance.

Also the communists want nothing to do with the fact of UFOs. How be it we of the free world also cover them up?

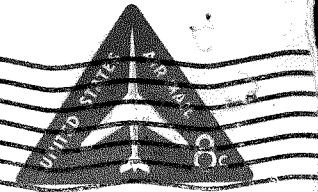

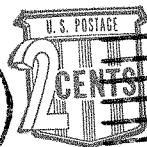

When I read the report I will write again - I want to hear from you and what you intend to do for the demands of those of us who want the truth exposed!

Sincerely

Bob Luhr

P.S. Don't worry there is enough concrete evidence about UFOs to prove them and not give the negative <sup>attitude</sup> report of the UfC. However the UfC clearly ignores this. They didn't have psychologists on that panel for nothing!

Dear Sir:

Part III Findings

- "that about 90 percent of all UFO reports  
Prove to be quite plausibly related to ordinary  
phenomena". Boy their wording!

The truth is somewhere around  
20% or much less of all UFO sightings  
are ever explained, or excuse me, they  
do explain about 90%, such as  
that weird whining machine with  
an antenna and rough coral surface  
in a marsh in Mich. to be marsh gas  
or just plain gas, but they never tell  
what it really was.

Dr. Hynek under pressure from  
the AF made public statements that =====

II

the man and his son saw marsh gas.  
80% of all UFO sightings go  
unanswered such as a cigar shaped  
object that floated over Lomira about  
8 years ago.

Next I want to say all these  
other excuses such as optics and  
electric phenomena are fingers that  
point away from the truth and the  
scientists that make them up know  
it is a lie - why shouldn't they?

Write Dr. Hynek - he has  
personally told some one I know that  
the only possible explanation for  
UFOs is extraterrestrial and then  
lamented that he could not make  
this statement because he would  
ruin himself professionally.

III

I want to stop here and emphasize that I am telling you the truth - that this person I know is a professor and did hear that statement from Dr. Hynek when he personally visited him. Remember Dr. Hynek was one of the big de bunks!

Pardon my redundancy, but there is a force that knows if man ever gets a hold of the truth of UFOs he will not be so readily steered around by his nose. I give 9 years time for a change in mans thinking - or we are bound to the road that leads to 1984 via a military complex. TWO YEARS! you want that for your kids or grand children?

IV

Do you want to see a world  
stripped of all individuality and  
nothing left for motivation except  
the monster war, and finally when  
the really high powers take over  
from the now in power bush leaguers,  
nuclear oblivion - back to darkness.

If you are acquainted with esoteric  
teachings you will know that this is very  
akin to the fall of Satan and his  
tampering with the fiery life forces  
of creation, the reason why the material  
universe was created to offset his  
doings. He is still out to set back the  
progression of man, to take as much  
of the universe apart as he can, atom  
by atom.

## IV

You many UFO are watching at this crucial time on earth and showing themselves, even making mental and physical contacts - it is up to man whether he will grasp what is being revealed to him or be hood winked from the truth

People some times ask why UFO's dont just set down in some big city and reveal themselves this way if they are interested in us? Well the reason is because mans nature being what it is, if given just a little too much help will want every thing handed to him. For an interesting comparison think about our welfare condition today. The average person is on the brink of throwing his brain completely out of gear and

VI  
becoming a vegetable. He is easily led! Our students demonstrate because their cause for living is so dull they find something to rebel against. They are conformed block heads with little or no imagination. WHY? Because that is what happens when we become over educated and full of thoughts pumped into us be megalomaniacs who want to think for the masses. I could see this coming about 15 years ago - an idiot could if he just looked!

I'm just speaking of the group that has been effected by this - there are still many thinking people young and old that have their own mind, but I believe the number is dwindling.

VII

You listen - these reports are always saying UFO do not constitute a threat to our national security - well I know this, they've been around since biblical days and never declared war and won't. Next they say they have no scientific value. Well that's hog wash; as it is natural to learn from new things. But what they never say is they could stimulate mans thinking and their reality should be discussed in the UNITED NATIONS!

President Johnson never mentioned UFO and will President Nixon?

I wrote him 2 letters and never received any comment from anyone.

VIII

I'm not writing these letters to start  
a pen pal club - but I am writing them  
because they are some of the most  
pertinent letters coming into D.C.  
at this time. They demand attention!

I believe ~~that~~ any man who  
is president today is caught between  
the industrial complex the Devil and  
the deep blue sea.

You let's look at Biafra and  
Ghana; England the U.S.A. and Communist  
demons are setting up this cancer of  
war by supplying the goods. And so  
it has always been, the evil demons  
use countries as pawns and cause them  
to supply <sup>other</sup> countries to get a good juicy  
war going.

~~ST~~ ?  
The complex of industries make out and even the mafia while vampire like demons, the same scum that crawled up pig rectums in bible times live off mutilated bodies in the battle field. Pain and fear to them is a vital essence from which they live.

Sure it sounds crazy - but it is happening! Then you might be thinking, happening yes but not because of what I say; to which I would reply find out why there is a world<sup>wide</sup> suppression of UFOs and you also will know that this is the truth.

That you might say - but people can believe as they want about UFO, the government won't stop them.

My answer would be - "That is very true but the stigma of diverting away from the truth and the effect on the masses is overwhelming; all a very clever psychological trick".  
See what I mean!

an influenced  
news men's  
swayed mind

But now, even our fond imaginings that there might be thinking beings elsewhere in another star system have been bruised by the findings of University of Colorado scientists after a two-year study of Unidentified Flying Objects that there is "no direct evidence whatever of a convincing nature for the claim that any UFOs represent spacecraft visiting earth from another civilization." They recommend that no further money be wasted on the inquiry.

See how I have to write these letters?  
- no one will ask me any questions or comment directly - so I asked my own. I really don't know if you appreciate these letters or

if you think I am absolutely insane.  
It's not easy. What to do? If I  
quit writing I feel this most important  
thing will be forgotten. I still say  
3 years and we can forget it.

There would not be much to  
do. Some affirmative statements to the  
public and open hearing. Talks amongst  
other countries of higher forces watching  
us and a program to unbrain wash ~~the~~  
the public.

I told President Nixon that our  
military of the world would be turned into  
huge training programs ~~for~~ for construction  
rather than destruction. We don't need war  
- there's ~~so~~ so much living to do.

Our colleges aren't big enough. We need a place where people when out of high school can go and get a good rounded out experience and learn different things crafts, physical culture and more than anything adventure.

I believe they should learn flying, sailing and to the arts. It would cost less than those damn wars and there would be little crime. When people's minds are constructive you don't think about other corruption or even have any taste for it.

Johnson had a little concept of this in the peace core - but it's not too good, it turned out a government welfare thing or such. He got lost some place with trying to set up America as an image

- or big brother. That smoke after  
Marxism too much for me. Countries  
should help themselves but ideas should  
be exchanged along with some material  
help.

I'm just showing here what really  
could be done in the world if we only used  
our minds a little more. If we would  
not have to pour everything into war. No,  
war has no merits! I hate it!

Another thing this space thing is  
being led into war - I see where they have a  
satellite up for ~~emergency purposes~~ relaying  
messages from the front lines of battle. This  
evil thing I talk of is just like the Mafia  
only on a grand scale - it has its tentacles  
into everything

There is evidence of what I say  
and none for the nonexistence of UFOs.

There is evidence that they are being  
~~suppressed~~ suppressed and lies are being  
perpetrated by tax money -

THIS IS VERY SERIOUS  
MR. FORD AND SHOULD  
NOT BE TAKEN LIGHTLY

The government is being run  
by something very strange. Get me  
right the government is not crooked but  
there is something affecting it. Even a  
blind man can see it. It is as clear  
as the photographs our astronauts took  
of several UFOs. Incidentally ~~no~~ never  
mentioned this either. Sincerely  
(over) Bob Fuchs

P.S Here's the gist of the matter -  
as I told Congressman Roush, I don't  
poke an accusing finger at no one in  
our government as I know they are  
honest but they are ignorant of a  
few things and neglect some things  
and are human.

Don't after some thing else and I  
can smoke it out of its hole by opening  
up the facts on UFOs - id stake  
my life on it - and I like life!

Former Congressman Roush said  
I was a little rude and demanding - then  
I told him about some people the government  
deals with that are really rude - never  
answered anymore!

Was wondering about this UFO report which is ridiculous. But this, it states "UFO's will not show up for 10,000 more years and we should forget them".

So I'm asking you Mr. Ford, do you think our country is based on this type of deceitfulness? ; deception that people like my self pay  $\frac{1}{3}$  million for.

I don't care about what the academy of sciences think, they are trying to fool the public and why? I know why! And I wish I could get some of you people in office to take more interest in this most important phenomena.

Those who are running the UFO show now want UFO's slanted towards natural phenomena. That is a damn lie!

They are controlled by intelligent beings  
not of earth. I spent 20 years finding things  
out and I know what's going on. Also I  
am scientifically minded and not easily  
fooled. Also UFO are not secret  
weapons of any country on earth.

Now in all sincerity will you  
write me a short letter telling what can  
be done about this terrible distortion  
and if you will help? Do you think  
it is fair for people to be fooled this  
way?

I appreciate your interest and some  
thing must be done - soon!

I am waiting for a direct reply -  
This is the most important issue confronting

Dear Sir:

Corally

According to recent news releases the University of Colorado UFO report has been released and they claim it don't say much very definitive. In other words it looks like the tax payer had some more of his money squandered to pull wool on UFO's.

I know these UFO are real and there is some force in back of the suppression and I know it has a lot to do with perpetrating wars. This force is found in most world governments or pulling the strings in the world governments. It fears the masses mind ~~being~~ being stimulated by the existence of UFO's and thus refusing the stupid world situations we are in today.

I think you must be aware of this. You know if we don't wake up we are going to be geared to a military industrial complex —

II

and line like robots.

Well I'm going to have a look at the report when it is made public and if it isn't the truth I want an investigation or a hearing. The fact that we are being watch by beings originating from earth must be pumped through the U.N. to all countries, and other U.N. countries must come clear about what they are seeing. Like 3 months months ago when Spain chased UFOs with air force planes.

You know there are reliable UFO witnesses that can crack the UFO thing wide open. If Cordova's report has not done this then you people in Washington must do something - quick! This world situation aint good in plain words and we could go into wars that will last for decades

III

You Mr. Ford I'm not kidding in the least in these letters and I do believe more of the same from other people you'll be getting. I do trust our government but there is some thing behind the scenes that is terrible and this thing knows that somehow the UFO phenomena is going to pull some skeletons as Drew Pearson once said.

You will hear from me when I sift that report through and I want to know what can be done. I'm not going to drop this.

You know the common person has a right to poke his nose in things when something is wrong. This country is not set up only for the big shots.

You think about this as you'll be hearing from me soon and I want action.

<sup>TV</sup>  
You might be a little irate at  
this letter - don't be! I'm not a hot head  
and if you have an interest in the future  
for yourself and family you ought to be  
glad there are a few of us who got guts

You one other thing, I'm not a crack pot  
or a psycho in any way. Your government  
personel listen to all types of people, hippies,  
black militants, Adam Clayton Powell and  
worse. You want it about time you listen  
to some of us that want some sanity and  
and truth put back in this world. (well  
Powell isn't the worst, he hates war)  
We need the truth of these U F o s

and no credibility gaps. Give me straight  
answers and questions about what you will  
do and what you want to know from me.

I'm not going to pull any punches. An  
honest investigation will rock the world and  
change things beyond belief

(over)

Sincerely  
Bob Cushman

P.S. Just think if men wakes up and begins to realize there are higher things, he could use all this effort and money for war to better the world. Stop pollution, conservation programs, ridding the cities of slums better education programs and better yet an inward awareness that would stop crime.

We are so dumb, we set off blasts under the earth that cause earth quakes eventually by disturbing the faults, then we poison the air with those damn bombs. All for defense purposes of course.

Don't you see, if the world wakes up we won't get any more? These UFO are trying to do this - the benevolent ones. Could be they all aren't good and that is important to remember. But I think the majority mean well for man.

Dear Sir:

I sure do appreciate your answering my curious letters - curious but very important.

First off, it is very good to hear your announcement concerning President Nixon's decision of the missile system. If I can just get through to a few people how the perpetration of war and suppression of extraterrestrial visitation of intelligent beings by UFOs is very closely related - I will have accomplished something.

I don't think you quite understand what I am saying. I'm not saying this government or any government is causing these curious conditions -

but a curious <sup>II</sup> force behind them. I believe very sincerely they are evil demons that live off the negative vibrations of crime and war. Do you know more and more psychologists are looking into this, - because they cannot answer so many strange phenomena with their own mundane theories.

There is a psychologist from a university who is going to interview me this spring - if we can get together.

I am very sure I know what caused Jack Kennedy's death - and why.

He would have avoided Viet Nam because he was changing his mind on some things. I know flesh and blood pulled the trigger but there was something else behind the man with the gun.

These devils might now try to pin a rap on some one to make the assassination seem like just another Billing.

Those 13 or more people that followed Kennedy to his death did not do so by their own volition right down to Dorothy Kilgallen.

Don't worry they can't just bump off anyone at any time. They have opposition and other inconveniences and <sup>suffer</sup> ~~the~~ severe repercussions from most of their evil deeds.

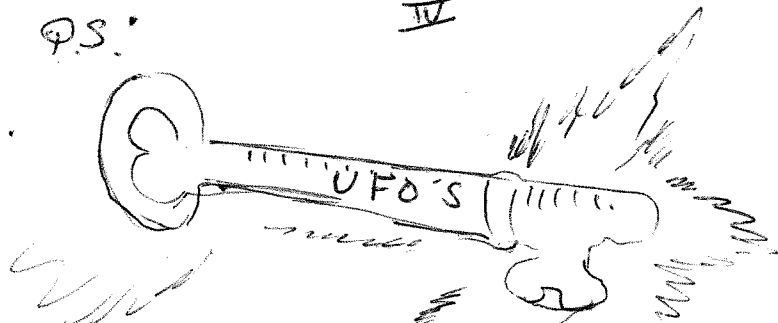

I have written President Nixon and told him to ask Billy Graham about a few things. Also wrote Sen. Mc. Govern.

I will write soon again and comment on the Review of U.C. I will have some very startling questions towards this smoky report. It is a fine psychological lie.

Sincerely  
Bolt Pusha

I've drawn a picture of a key —  
UFO are the key of UFOs are  
what I say they are and I know they  
are, they will automatically open  
many mysteries that confront the world.

The suppression mystery

" war "

" crime "

" morality "

But men still must do <sup>this own thinking.</sup>  
In the bible it says about signs  
in the skies — they should not be lied  
about. Think about this. I know  
you will
