Dear Mrs. Rodeffer:

I wish to acknowledge and thank you for your recent letter concerning the unidentified flying objects which you have sighted, and the photograph which you enclosed.

I was interested to have your remarks and in turn, thought you would like to see the enclosed release giving the most recent status of the request that I have made for a Congressional investigation of these sightings.

Although I will not be the one to receive evidence of this type, I am pleased to see it and have it for my files.

Kindest personal regards.

Dear Congressman Ford:

*Newsman says she is

Enclosed please find a still photo taken from the 8 mm color movie filmed on 2-26-65 in my front yard, of a Venusian Scout Ship. It will be possible to arrange a showing in the near future if you wish.

This is one of the many Interplanetary Space Ships which I have been privileged to see since learning of their presence among us, then calling the Late Mr. George Adamski, and offering my services three years ago.

The Scout Ship did not land in our yard that day although it was very near. I have spoken to a number of these Visitors from our Solar System before the filming, and I still see them, the ships and people, quite frequently.

An increasing number of our citizens here in America, and in other countries are aware of the shameful way we have treated these Noble Visitors from nearby planets who are helping us in so many ways.

The BELLIGERANT, GESTAPO LIKE TACTICS OF THE NATIONAL INVESTIGATIONS COMMITTEE ON AERIAL PHENOMENA, headed by Major D. Keyhoe, and R. Hall will not keep the reasons for the presence of these visitors from Space hidden from the people.

The citizens from which organizations in our Government steal evidence from, including 14 feet of my film of the Venusian Scout Ship, have every reason to expect that this kind of approach will bring you great embarrassment later. These people are coming in greater numbers. They wish to bring their ships on TV- world wide immediately.

What has become of integrity, and consideration for the people? Why do you allow the citizens to be used in such a manner, while you in our Government insult their intelligence, and integrity? Is this the way of hiding political guilt?

Since these people from our neighboring planets live for hundreds of years in healthy, youthful condition, could we not learn more from them than how to breath the atmosphere of space and their planets?

All people from our neighboring planets in this Solar System, and beyond are greatly affected by our progress, or our lack of it, more than you seem to realize. We of this Earth are in reality, part of a unit.

Dear Mrs. Martin:

I wish to acknowledge and thank you for your telegram of March 30th concerning the sighting you experienced of an unidentified object thirteen years ago.

I am sure that there are many others such as you who have seen objects of this type and who would like to have them definitely identified. For that reason I have called for a Congressional investigation of Unidentified Flying Objects. Because of your interest I thought you would like to see the enclosed releases.

Thank you for relating your personal experience with this type of phenomena.

I have your letter of April 1st and your telegram of April 5th and appreciate your views and recommendations.

I do expect to be in my office in Washington during much of the month of June but because the Congress will be in session will not be able to be in the Grand Rapids office.

Enclosed are copies of press releases which I made relative to an investigation of the Air Force especially in connection with the unidentified flying objects. As you know, both the Committee on Armed Services and the Committee on Appropriations carry on a constant study and investigation not only of the activities of our Air Force but also of the Army and Navy.

Mr. Gerald R. Ford M.C.

Dear Mr. Ford,

I want you to start an investigation into the activities of The United States Air Force...The newspapers print enough lies and outright fabrications without having the Defense Department or Bureau any other branch of this Fabian Socialist ~~Bureaucracy~~ mis-lead the cracy people...For over 15 years the Air Force has withheld information vital to an informed public.. Further I consider that in this Monolithic Matriarchy the censoring of material, not of a security nature is inimical to the spirit and traditions of any Free Society and especially of America.

I shall be in touch with your office within the next 6 months in order to ascertain what progress you are making in this direction.

I am concerned,--for if our Congress can permit the Defense Dep't. to withhold information of this nature; they can hold back any news or facts they consider is not for the public good...This is thought control, and I am sick and tired of this nonsense.

I am looking for a full report of the activities of the Air Force in this respect, and you are in my estimation the best person to conduct or at least to start this investigation.

As I wrote you nearly Two (2) years ago I think the Orlando Plan a good one. What happened??

That we should even consider permitting any organization (THE UNITED NATIONS) in this instance, to hold sovereignty above that of our Congress shows how far we have drifted from the original concept of government as outlined in our Constitution... I refer to the Civil Rights Legislation which I understand Mr. Goldberg has succeeded in pushing thru The United Nations.. How are you going to vote on this?

Back to thought control: if an atomic bomb can obliterate all of Grand Rapids as well as part of Kent County, what have we to fear from a few space vehicle's from outer Space? What do we have to fear? I am not apathetic.. I am not going to rest until I have full and detailed answers to these problems which Washington has believed to be in the best interest's of a "GREAT SOCIETY".

Yours truly,

Warren W. Ford

Dear Congressman Ford.

Again we find the press filled with reports of the sighting of Unidentified Flying Objects ,with sigbs that some people tend to become pertrurbed by such sighting.

It is not my intention to claim I'm an experts of such UFO's.on the other hand I do recall haveing seen such object since I was a small lad ,living on a farm in Kansas, Since that time I have seen them in every part of the world that I have visited. Aswell as many time during my years at sea.

When I was in Navel Avation during the early tw-enties, I gain considerable knowledge of the atmosphere as well as the some of the unusal manifastation of gasses. The study of atmospleric condition was a prt of my training as an instructor in theroy of flight for boty lighter and heaiver than air.

Against this back ground with the fact that one accumulates during a life time,and some recent study of the component parts of which the air is composed,along with tempatures,density and other forces that are present. I feel that there is nothing extra-terrest-ial about such sightings.

On the other hand I would be one of the first to say "Yes these people do see some thing, Some thing which they do not know what is is". Yet a little time spent in study of material that is nearly every home,and surely in every public library,these people could learn or understand to some extent that what they are seeing is nothing to fear,but to be much admired.

One thing that can give a clue to these is the refraction of light rays, such as accures in a mirage, Starting from this . It is ny felief that ninty nine of such sighting that are mistaken sighting of known objects can de accounted for. With a reasonable doubt cast on the other one percent.

Most Respectfully Yours

Dear Sir: Enclosed is a drawing of a so called U.F.O.
 I saw this object at about 4 PM October of 1963
 just west of Warrenton, Mo. as I was driving East
 on Route Interstate 70. I first noticed this object
 in the Northeast about 7-8 miles away and traveling in
 a Southwesterly direction which brought it within $\frac{1}{2}$ to $\frac{3}{4}$
 miles from where I stopped my car. I estimate that
 this object was at least 100 feet long and traveling at slow
 speed less than 100 miles per hour as I was able to
 observe it for 5 or 6 minutes. There was no noise ~~or~~ or
 any apparent means of propulsion that I could see.
 The hull gleamed as though it were highly polished

Dear Miss Thorp:

Thank you for your recent letter requesting my opinions of the sightings of unidentified flying objects for use in your term paper in high school. I am pleased to enclose copies of the press releases that I have made calling for an investigation of these sightings and giving the most recent status of the investigation.

You have asked for my views as to whether there are really UFO's. In one sense there is no question but that there are unidentified flying objects. In the strict sense of the term, there have been a number of sightings which even the Air Force admits are unidentified as being any aircraft or other known phenomena. Speaking in this way, there is no doubt that there are unidentified flying objects.

As to whether they come from other planets and as to whether the situation is being completely "white-washed," I cannot say. However that is the very reason that I have called for the investigation. I hope the enclosed comments will be helpful for your paper. You may also wish to write to the National Investigations Committee on Aerial Phenomena, 1536 Connecticut Avenue, N.W., Washington, D.C.

Dear Bill,

I appreciate your kind letter of April 3rd backing up my stand for a Congressional investigation of unidentified flying objects.

I did indeed realize there would be some degree of derision about this matter, as I indicate in the enclosed statement. However if the Federal government could spend large sums to research the affectional ties between mother and baby monkeys, they can certainly afford to look into a matter which has some people very disturbed and concerned. Indeed, as you say, the only way to clear the air is to have a probe of the matter.

Jerry...

You have my deep admiration in calling for a congressional investigation of UFO's. I'm certain you realized the pundits would laugh... as well as many other congressmen and average citizens, but the majority agree with you. That is my honest belief...and I for one appreciate the courage you demonstrate in asking for the probe of something which may or may not be a laughing matter.

It is extremely puzzling to have so many persons...many of them expert witnesses...report such phenomena. While I personally do not agree with them, many persons feel certain the Air Force is doing an intentional whitewash of the whole matter. The only way to clear the air is to have a congressional probe. It may be that such an investigation would reveal only that there is something up there...but we don't know what it is. So be it. We're entitled to know that much.

Again...my thanks for showing courage in a situation which almost certainly would lead to ridicule. If I may ever be of assistance to you, let me know.

Dear Representative Ford:

I continue to support your suggestions for an open congressional hearing about UFOs.

Many local law authorities here in southern Michigan are dissatisfied with the explanations given by Dr. Hynek. In fact, the Hillsdale civil defense director says that Hynek had no good explanation, but that the next day, on Air Force orders, was told to use the swamp gas theory. I have the recorded interview on tape.

Now there is a larger issue at stake here than just UFOs. This concerns military control and censorship. If you (and other congressmen) examine the cases in the UFO Evidence, you'll see that the Air Force has no real explanations. And the AF has other cases which NICAP is unable to obtain.

Now if the military (Air Force, in this case) is not to be trusted or believed, why should the military (Army) be believed or blindly followed with the activities it is engaged with on another continent? I have no personal quarrel with the military-I have fellowship for graduate school-but I can strongly sympathize with those who disagree with the military policies currently in practice.

I find it hard to believe Army reports about 'progress' in Viet Nam when our own Air Force tells us that things we see in the sky are not really there! How far away from Big Brother tactics are we now, really???

Gentlemen:

I wish to urge your committee to undertake a complete and open investigation of Unidentified Flying Objects. Disregarding the wild tales by persons who are obviously mentally unbalanced, disregarding the known phenomena misinterpreted by normal persons, there are still a considerable number of "sightings" that have not been intelligently explained in a manner appropriate to the circumstances involved.

I find Dr. J. Allen Hynek's silly "marsh-gas" theory, in the instance of the recent Michigan sightings, has caused some intelligent people to wonder if "these things might be a new Russian secret weapon." I do not believe this, but this shows how suspicious people have become of foolish explanations.

Some years ago, we Americans sat on our ample derrieres and laughed at ole "Moony" Goddard. (How anxious was Congress, in "the early days", to give Dr. Robert H. Goddard the backing he deserved? To be sure, Congress eventually woke up along with other Americans--but Germans were making V-2's by then, weren't they?) It would be my fervent hope that we not be penny-wise and pound-foolish. If sincere and intelligent investigation proves there is nothing to UFO's, then they shall forever be put to rest. If the investigation does reveal something of interest, then we should remember that we inherited our Earth from Him in fee simple--we are neither the Creators of the Universe nor its masters. Recent surveys I have heard about indicate that people believe, by about 4 to 1, that UFO's are of extra-terrestrial origin.

How many members of the committee have ever seen anything strange in the sky? I have. About 1959 on a starlit, moonless November evening, I saw five UFO's (steadily shining red lights) pop into the sky. These undulating objects (about the size of your thumbnail at arm's length) wavered in the sky as if they were attached to a kite tail that fluttered back and forth. I am familiar with the aircraft that fly over this valley. I

PHOTOCOPY FROM GERALD FORD LIBRARY

served with the Air Force during World War II. I am a school teacher; and I am also an amateur radio operator, licensed by the Federal Communications Commission. Let me assure you: as I watched these strange lights swiftly pass silently overhead and then almost instantly disappear from view, I had the eerie feeling that someone was watching me! Others in this area, I later found, had also seen these lights. We did not report them to any official agency because we were well aware of the public humiliation that surely follows (as happened the other day to the fine and truthful people in Michigan!).

I hope you gentlemen have the courage and the determination to launch a complete, public investigation immediately. Such action is long overdue.

Respectfully yours,

James Van Detta

 Cuba & Peru to make bullets & munitions to kill
 our boys in South Vietnam. West Germany for years
 has been making Plutonium cheaper than we and
 isn't it a coincidence that China has the Bomb &
 now West Germany is going to build steel mills
 in China. They are building chemical plants in
 the Iron Curtain Countries and Russia & China.
 This is nothing new it has been going on since
 Konrad Adenauer was the Chancellor of West Germany.
 America's First lies were all ways with the Chicago Tribune
 is proven right up and down sup to the world to those
 agnostic & atheistic internationalists who sold out
 to the Nazis. Great Britain was attacked while
 getting its second Breaths after the Battle of Britain
 by Domestic Fabians abetted by the British Branch
 of the Communist Party. Our Country is the Christian
 Country chosen by God to be mystics and cross

God has chosen us to be his soldiers &
to be sanctified by the World for his sake. We
are Gods soldiers for God Home & Country.

We hear a lot about flying saucers in
the Bible we read of burning Bushes &
Moses & Mount ~~Sinai~~ Sinai & the Transfiguration.

The Serpent & Eve & Adam, A Rod that changed
to serpent. Recently in the Alaska Earthquake
the North American Continent rose one inch & tidal
waves occurred in the Gulf. The Earth a living

egg of magna, marble, & rock with soil & water to
cool it off. it rotates the axis of its pidgee around
the Sun. 365 days a year as in a vacuum with
a speed out of our comprehension or ken.

Our Catalogues of knowledge the Professors
& judges of our Supreme institutions for their
short span of longevity. can not divine
Flying saucers as Saturn, Mars or Venus or Jupiter,
I am for People who speak out
for those who would like to be heard but

I am for a Flying Saucer investigation
 also for School Prayers & Bicameral Legislature
 in State Courts. For fighting inflation by raising
 the Deductions on Federal Income Taxes from \$500.00
 to \$1,000 one thousand dollars. I am against
 being taxed to avoid extortion by so called
 civil right interests who threaten long violent
 summers if their groups do not get Federal
 money to spend on their captive audiences at
 so called ghetto People. I would vote for
 Nixon or Goldwater but not for a Rockefeller
 or Scranton. The Chuck Percy & Lindsay
 will most tax ideas than the Democrats.
 Wishing God will help you

Sincerely Yours

Glenn Palmer
