1966: Unidentified Flying Objects - Unanswered, April (folder
B49-2)
Gerald R. Ford Congressional Papers

To anyone who is truly interested:

There are many Saucer magazines but I consider this one the best. Since issue #18 it has been practically filled with the reports of Robert Menand telling of his communications, visits, and rides with space men from the planet Korender, 411 light years away who have bases on the Moon and also on Earth since 1962. They hover above his home in western Massachusetts and hold 2-way conversations via short wave radio. He types them out and they are published later, in the Magazine.

I correspond with him and know that he has been promised a trip to the Moon prior to 1970, all over it so he can take photographs and bring back samples, and visit the spacefolk at the many repair bases there and cities on the far side of the Moon. The Korendians have been there since 1961, at least so are accustomed to the thin air and do not complain about any cold.

It was they who intercepted Ranger 6 to prevent it from making a direct hit on their original base. It is still there if Uncle Sam wants to get it. Ranger 9 probably got a little of their base in Mare Nubium in the first photographs but we were not shown them.

Buck Nelson was on the Moon in April 1955 in Mare Criseum and saw the Criseum Bridge. Was also on the far side and saw what the Russian photo shows. Left an American flag at each stop. His new book for \$1.25 will tell more that any billion wasted on all moon shots. He often speaks in Washington so you may have heard him. He is known to Senators Hall and Long of Mo.

I recommend obtaining as many of the early issues as are still available. (\$3.00). Next, the back issue from #18 to 23 for his story thus far (\$3.00). Then another \$3.00 for issues #24 to 29, for it is an unending tale far ahead of anything ever told. It should appear in #24, due any time; also the spacemen's story of how and why they caused the big blackout in the Northeast in October. I already have it so can vouch for it.

Vantage Press was out of my book on Flying Saucers and the Scriptures the last I knew, i.e. going into a new printing. It is the most profusely illustrated of any yet published-- should have been in color, and the most comprehensive as it is a collection of the experiences of many men and women, brought together for a comparative analysis. The result approved by them as far as possible.

John Dean

AFSCA

FLYING SAUCER COLOR PHOTOS PROVIDE IMPRESSIVE EVIDENCEPublishers of
"UFO International"

The photos below are two of a series of seven photographs taken in color of a 70 foot diameter spaceship by Mr. A.A. Villa, Jr. on June 16, 1963 about 15 miles south of Albuquerque, New Mexico. The complete series is printed in issue #20 of AFSCA's magazine, "UFO International". Mr. Villa states that he was guided to the contact area by means of telepathy, where he met the spaceship's crew of four men and five women. It is the important contactee reports of this nature that we print in our magazine, which provides thrilling and informative reading for our over 2500 members located in all 50 United States and 22 foreign countries. A six issue subscription to our bi-monthly magazine for only \$3.00 includes membership in our club. You can't be adequately informed about the most important events to transpire in the history of our planet if you do not read "UFO International", so subscribe today!

THE ALBUQUERQUE SAUCER PHOTOS

The remarkable series of seven color photographs showing different views of the Flying Saucer in the photos at the right are now available from AFSCA for only \$3.00 per set of 7 - 3 1/2" X 5" Kodak color prints. Extra prints are 50¢ each. Showing this amazing set of photos provides an easy way to introduce your friends to the Flying Saucer subject and thus helps to advance the Flying Saucer cause. These pictures also provide impressive evidence that Flying Saucers are not hallucinations, figments of the imagination, or spots before the eyes, but instead are tangible hardware of a very unique nature in our skies. California residents please add 12¢ tax.

**12 BACK ISSUES FOR ONLY \$3.00**

AFSCA is offering a special sale of 12 different back issues consisting of issues #4 thru #17 minus #'s 6 and 9, for only \$3.00. These issues contain "The Dick Miller Story", "The Complete Reinhold Schmidt Story", "The Incredible Airship From Table Mountain", Dick Miller Space Tape transcripts, pictures of Giant Rock and many prominent contactees in the Flying Saucer Movement, etc. Order your set of 12 issues, while they last.

"I TALK WITH THE SPACE PEOPLE BY SHORT WAVE RADIO!"

"Yes, it's true. I, Bob Renaud, have talked with people from other planets over my short wave radio set, at regular intervals, for over 3 years. Since Jan. 6, 1962, I have viewed these people at work inside their spaceships on my own TV screen; met them in person; ridden in, piloted, and photographed their spaceships; visited their underground and undersea bases; and on Feb. 4, 1964 became the first Earthman to walk outside a spaceship in outer space!" Learn what these advanced people teach, and of their plan to help mankind solve its problems and, in our time, to build a Great Society --- advanced far beyond today's most optimistic concepts. Read it all in "UFO International" starting with issue #18. Six issues for \$3.00. Single copy - 50¢. Gabriel Green, editor. Mail cash, checks or money orders to: AFSCA; 2004 N. Hoover St.; Los Angeles, Calif. 90027.

(Note: The following special message from Master Kalen-Li of the planet Korender was received by radio by Bob Renaud. It was read at Buck Nelson's Spacecraft Convention in Mountain View, Mo. June 27-29, 1964 by ZAGGA.

Paragraph 3: "I have news for you, friends. We are more active than ever. we have been working quietly and unobtrusively amongst you, infiltrating every mode of your public life, from religion to entertainment to government. Our underground bases have been completed and are in operation all over the world.... pouring out thousands of operatives to work with you... gradually changing your pattern of living to conform with the Universal Laws..... in the end, we are accomplishing far more this way than if we openly landed by the thousands and set up schools to teach you the things you need to know.....

As to why the news has been scarce about saucers and related topics, the press is being told to censor this news, or else.... this results in the conspicuous absence of UFO news....

... we are now telling an entire convention-- we have definitely scheduled an aerial display for you in three years (by 1967) that will make believers out of the staunchest skeptics..... we are going to do it on such a grand scale that no amount of official censure will be able to hide the reality of our existence in a dark file cabinet, stamped TOP SECRET. Much greater than in 1952. 1963 was a banner year for sightings but not published.

I mentioned Universal Economics. Some of you might recall that it was originally called Prior Choice Economics. In essence, the major headache of your times, money, is eliminated.... Gabriel Green has an entire issue of AFSCA devoted to this non-money system of economics. Conversion to this system would eliminate poverty, debt, bankruptcy, and economic stagnation. It would provide lifetime insurance, old-age comfort without worry, wealth that can only increase, and a full use of your manufacturing and farm facilities for the improvement of living.

Your present money-economics causes wars, both because certain manufacturers stand to profit from warfare, and therefore they promote it. In a system where wealth can be gained without danger of loss, and where consumer use of goods can more than fully occupy all your present industry for years to come, there is no need for war--- all are too busy waging peace and enjoying the benefits.

Naturally, there will be those who oppose this. These are the ones who oppose everything new and different, mostly because they fear change, or they fear the unknown. Here is where your help is needed, my friends. You are responsible for the peace and security of the world. You will reap the rewards of plenty if you work now for this great goal. I say now, because there is very little time left for procrastination. The world situation is improving, to be sure, but there is still the increasing chance that war might come. (1964).

We are hoping that (the sighting of) our overflight will give the needed change. But it is still a year off., and before then, there is a very good chance of war, possibly starting in some spot like Vietnam, and growing into a world-wide holocaust. It is this that you are to prevent by your good works. We will do all we can short of stepping in and slapping wrists on a worldwide scale, which of course is contrary to the laws of Non-Interference.....

What can you do? First and foremost, live the good life. Love your neighbor; respect him; try to understand him. Oppose all forms of violence and warfars. Treat all men as equals. Give no sorrow or suffering to your Brothers. Help them when they ask for help, and offer them your assistance when they need it but are too proud to ask. In short-- lead an ethical, moral, and happy life. Radiate the light of a joyous being."

Money must first be eliminated.

John W. Dean
900 North Main St.
Hutchinson, Kansas 67501

Gabriel Green is the spacemen's choice for President when we join the Alliance. In another issue Renaud tells how the plan works on Korender and in another issue yet to appear Green will give his revised platform.

2
SPACE CONVENTION at Giant Rock Airport, Yucca Valley, Calif. Oct. 9-10, 65

Each year there seems to be one outstanding thing occur. We report this last year's revelation as follows.

A man who introduced himself as Mel Noel, addressed the 6000 people on both days of the Convention. He stated that he was an ex-Air Force Pilot, having left the Air Force under a medical discharge in 1957. He said that there is a 10-year statute of limitations imposed on Air Force personnel that does not permit them to talk publicly on any event they are involved in while in the Air Force. What he disclosed occurred in 1954 and he had to live with it "stuck in his craw" for 10 years and now he just had to tell it.

Ex-Lieutenant Noel said they were flying north toward Canada over the state of Idaho, in a formation of F-86 jet aircraft. This formation was flying at 38,000 feet, at dusk, when suddenly 16 disk-shaped objects came from above and flew in a V formation in front of them. The four jet pilots followed the saucers while they took pictures with their gun cameras, at the instructions of the Colonel in command of the squadron.

Noel reported that, at times, the saucers flew 5 or 6 times as fast as the jets, which was 680 knots per hour. The jets increased to 750 mph and the saucers "flew circles around them". This continued for 12 minutes. At one time the saucers were about 1000 feet away. All film was sent to Washington, D.C. Ten days later in the same area, the saucers again joined them and the Colonel told them to switch to another radio channel. They heard the man in charge of the saucers speaking in slow English to the Colonel.

When they landed the pilots were instructed to fill out forms telling exactly what they had seen, but nothing about what they had heard. Later the Colonel told Noel of an arrangement made by the saucer people to meet him in a certain room in a motel in Phoenix, Ariz.-- when he was flying out of Luke A.F. Base. He was furnished an Air Force Staff car by his superiors to drive to the motel. The spacemen said their names were not important. They invited the Colonel to go with them outside of Phoenix into the desert where a large saucer was parked. He said the lights on the car went out as they neared the saucer.

As the Colonel and the two men approached the saucer on foot, one of the men handed him a disk and told him to hold it between his two hands. Then they went inside where he found both men and women on board the ship. The Colonel was embarrassed when two gorgeous women came into the room and he discovered they could read his thoughts. They looked young but the commander informed him that one of them was 78 years old and the other was 146. The Colonel described the Commander as 'a super-intelligence' compared to humans. He said the craft they were aboard would be taken into a mother-craft for interplanetary travel.

They told him there was once an atomic war between people who occupied the Moon and people on the Earth at that time, and that reincarnation was a fact to them. He said one only re-embodies on the Earth when they fail to make the grade here in their latest lifetime. The Colonel later disappeared in a jet while on a flight over the Atlantic Ocean and was never found.

Noel flatly stated that the Air Force knows where the saucers are from, they know they are here, and that he believes that the Air Force should reveal the facts to the public. He is married and has 4 children. His wife was with him at the Convention. He is now trying to locate other Air Force pilots who have had experiences with saucers, and who are beyond the 10-year statute of limitations.

(Slightly condensed from the PROCEEDINGS Magazine, Vol. 8, No. 1, 1966.)

The foregoing is conclusive proof that Uncle Sam has known all along that space ships are real, that the crew men are people much like us, and that they are trying to guide us to peace and plenty out of the status quo. It would be interesting to know how many millions of dollars have been spent in trying to cover up. All of the money was worse than wasted for the millions of Americans who know the truth can only despise the Government that taxes us to pay his expert liars to misinterpret the reports of witnesses. We want our money back! We want a government we can trust, one that is worth fighting for if necessary; one that is for us instead of against us. Americans and Russians have landed on the Moon-- Buck Nelson in 1955 and 3 Russians in 1959, and the Peace Party from Korender since 1960. We have much information from them, especially how and why they intercepted Ranger 6. Robert Renaud of the UFO International Magazine has been promised a tour of the Moon prior to 1970 and will bring back plenty of evidence and proof and it won't cost us a cent. So why continue to give our money to the Washington Wasters and increase the poverty at home?

THE BOB RENAUD STORY (Cont'd)

from you. It concerns the various flying saucer research groups around your country, and indeed your world."

For the next hour, the topic was spaceships, spacemen, and saucer clubs.

Among other discussions was the policy of many saucer groups to discredit the contactees. To this she said, "It is very distressing to find so much doubt in the minds of your people, concerning the communications between yourselves and the people from other planets.

"It is fact that many of these are exactly as they claim to be. We personally have seen taped records, both picture and sound, of the various contacts of such as Adamski, Fry, Van Tassel, Angelucci, and Green.

"Admittedly, the stories which they relate are fantastic to the average man. But who could expect otherwise? Does one expect to be told of a trip into outer space on a discoid ship powered by magnetic energy, and find it no more exciting than a drive from Los Angeles to San Francisco?

"My friend, if their stories did not seem incredible, they would not be true. A ride in a spaceship is not something that one can take for a few dollars any day of the year.

"These people who give accounts of tremendous ships, rides to the planets, and talks with the Masters are not average people. Each has been screened carefully, as were you, and chosen for their particular task on the basis of their abilities and belief in the cause of Universal Brotherhood. These people are the modern-day prophets, the media between you and ourselves. They give you information that we feel you must have.

"There are also those people who, like yourself, having never seen us or been in a saucer, are nevertheless channels of information. Some are telepathic. Others use radio communication as you do. When they speak of such beings as Monka, Merku, (whose real names, I might add, are Kel-Ran and Len-Myr, respectively), Ashtar, and Kla-La, and the fact that these beings have been speaking to them or through them, they are doing no less than telling the truth, which is all that can be expected of anyone.

"We feel that this antagonism toward contactees shown by certain groups is a result of several factors. First there is the 'If we did not see it, it is not so' philosophy held by so many of your people. On this note, we feel that a little jealousy may be responsible for some attacks.

"Also, many minds are unable to cope with something contrary to everything they hold sacred, everything they believe in, everything with which they have been indoctrinated during their lives.

"Then of course there is the religious belief that Terran (Earth) man is a unique creation of God and, since that impression not only appeals to man's mysterious nature but to his ego as well, such an impression is extremely hard to counter and dispel.

"There are a few who, as a result of their contacts with extraterrestrial brothers, have become haughty and arrogant, rather than peace-loving and humble in their service to humanity. Other necessary attributes are devotion to the cause, love of mankind, desire for peace, and an unfailing drive despite obstacles. We have detected these characteristics in you, and thus have chosen you for our voice to your people."

WITHHOLDING SAUCER INFORMATION PERILS WORLD:

When I told Lin-Erri of the government policy of withholding information on flying saucers, she replied: "If that be fact, then it is completely mad."

"The public must be prepared for us, because eventually we are going to land, and the last thing in our minds is to cause panic. This preparation must be undertaken by responsible people, and by authorities in high positions whose words are respected by the multitudes.

"Any group policy which would try to conceal information vital to public needs, and which would tend to refute what is obvious to the masses, is both illogical and harmful.

"If, in truth, your government is withholding information on our existence and our presence about your planet, then we can only say that it is an extremely dangerous and precarious state of affairs. Do not the men responsible for this deliberate affront on the intelligence of their fellows realize that by withholding information that should be public, (since in fact most of it came from the public); they are not only opposing the preparedness of the populace for the inevitable, but are also losing whatever esteem they might have by turning intelligent people against them through their falsehoods, deceptions, and continued secrecy?

"It would be best if they were to reveal all information

about us and our crafts at once. They need not worry over panic that might arise from such a revelation; the people of your planet are conditioned to great shocks by now. Two world wars and the nuclear bomb will prepare a race for practically anything.

WORLD LEADERS CONTACTED: "We know through probes of their files that they possess data that could change the course of life on Earth overnight. They know for example that the leader of the United Nations, Dag Hammarskjold, was contacted three times by Venusians.

"They know that President Kennedy, during his time in the Pacific in the war, was contacted. They know that the Soviet leader, Nikita Khrushchev, was contacted twice. While on the topic of Russian leaders, Lenin was a passenger 4 times in a Martian craft, and Karl Marx was from the planet Mercury." (The contacts mentioned above are not necessarily all inclusive nor are they necessarily the latest such contacts. -Ed.)

"Their files contain information relating to meetings of U.N. officials with ambassadors from the local planets.

GOVERNMENT FILES BULGE WITH SAUCER PHOTOS:

"Finally, they have information concerning many thousands of sightings, and hundreds of photographs.

"There is of course much that they do not know. When they have released their information, we will add substantially to it. Until that time, nothing could be gained by our giving you that information, since a great deal of it is based on what they have locked away in their secret government files.

"We therefore feel that this withholding of vital information can bring only peril and harm to you, and should be abandoned in favor of a free, fast means of spreading saucer data around the world. Your people cannot be prepared otherwise."

The rest of our discussion on saucer research groups was mostly information on their operations, plans, and methods.

CATASTROPHIC RESULTS OF ATOMIC WARFARE: After a few moments of informally swapping information about ourselves and our backgrounds, we turned to the questions all men are asking --- what can be done about atomic weapons?; what can these weapons do?; and how can those in power be made to see that bombs are unnecessary?

Lin-Erri's voice grew serious, in contrast to its usual merry quality. "Let me first tell you what you face if you engage in atomic warfare.

"Over 95% of your population would be wiped out in the first few days. The rest would survive the war itself, if a certain condition does not occur.

"These few survivors would degenerate to unreasoning savages, and live the lives of prowling scavengers, hunting incessantly for what little food might be available. Without food, the next step would be to eat human flesh. The survival instinct is very strong indeed, even to the extent of obliterating what principles one possesses.

"Those few remaining would soon die off because of radiation, disease, and lack of treatment, or by the hand of a fellow scavenger.

"Within 20 years the planet Earth would be a barren hell, unfit for habitation. As such, it would be destroyed by the other solar system planets, in order to erase a gruesome memory from the pages of the diary of the universe. This would make the solar status unbalanced, but such difficulties are solvable scientifically.

UNITED NATIONS NEEDS STRENGTHENING: "As to what can be done about atomic bombs --- they must be completely dismantled. All countries possessing them must do so. In a later contact, in which we will discuss the United Nations, we shall advise you how to strengthen this group so that it can become a truly effective world organization. All nuclear ability should be turned over to the U.N. in the meantime, and must not be under the control of any one country or group of countries. The U.N. must not under any circumstances use this atomic power for other than constructive purposes, such as for generation of steam for electricity in underground sealed caves. Even this should be eliminated as more efficient forms of power become available to you.

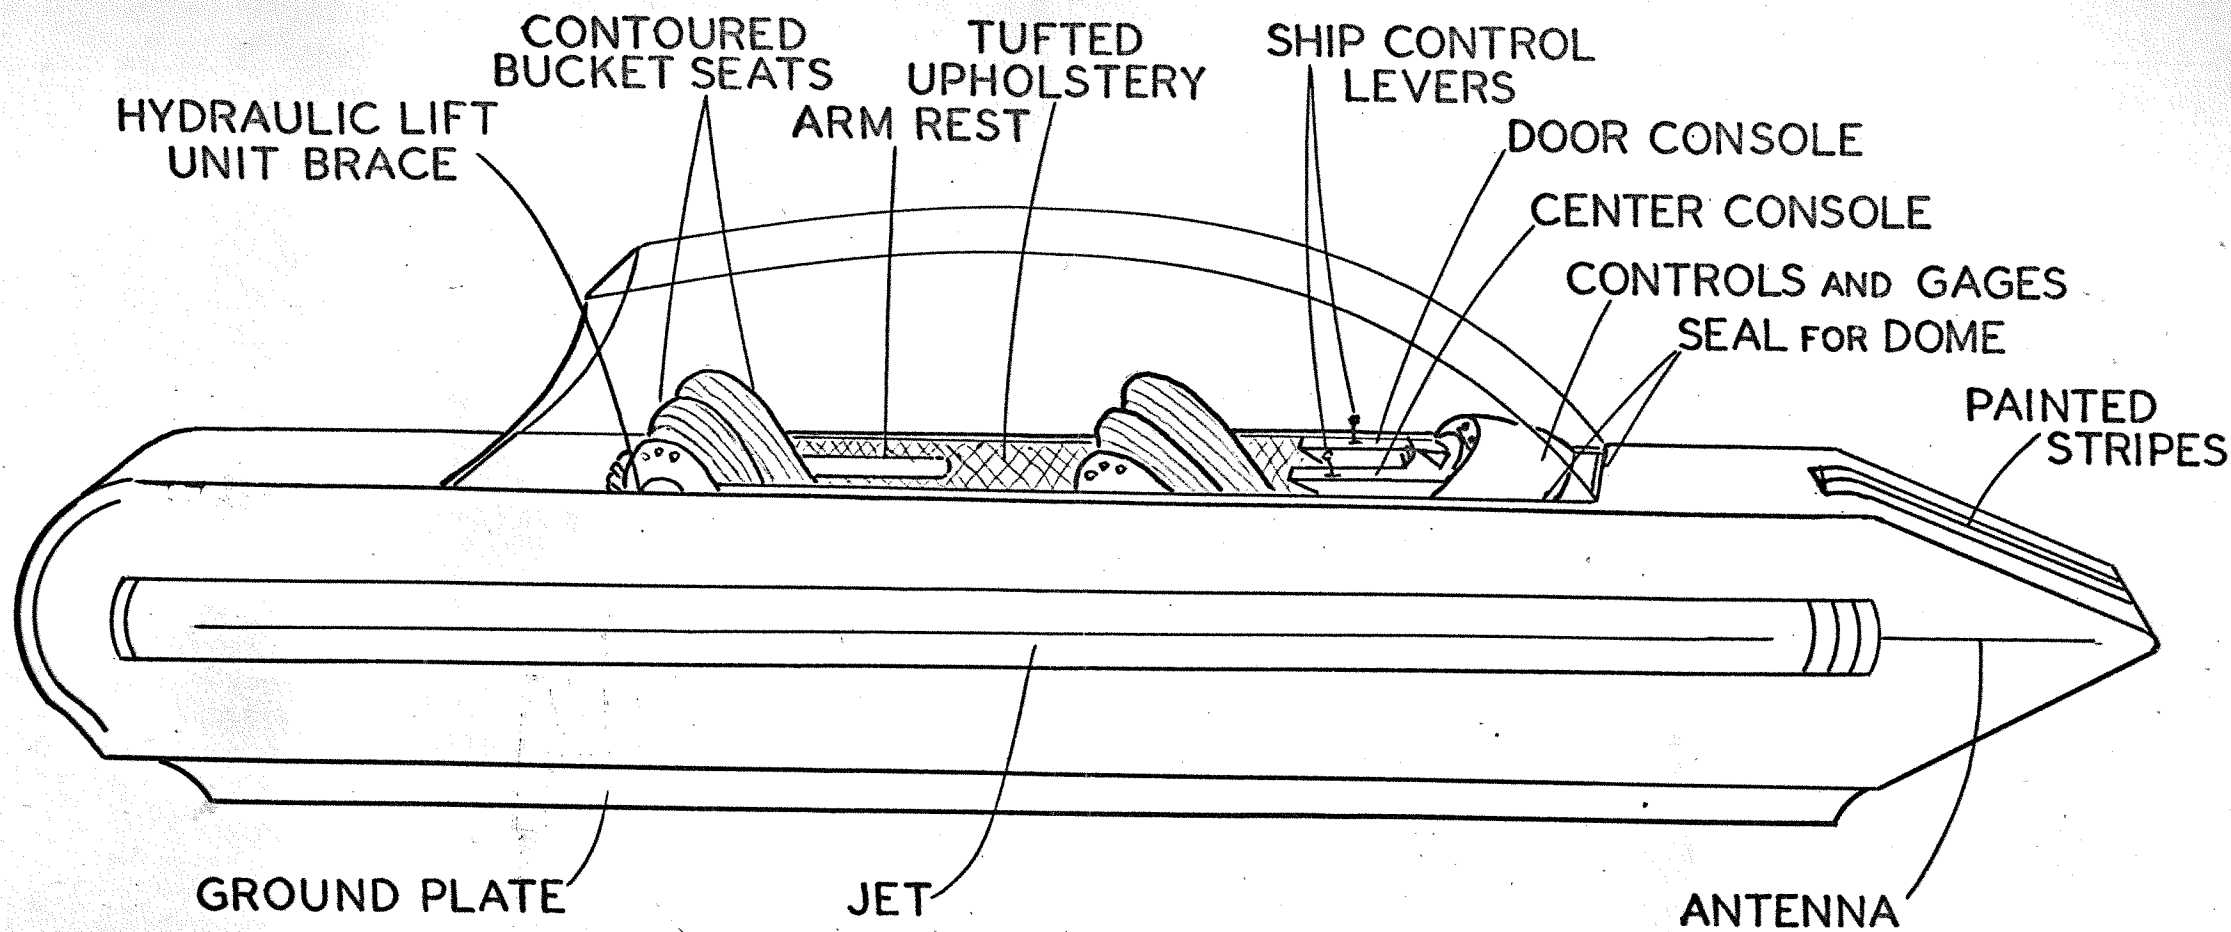

"NEW WORLD ECONOMICS" IS FUTURE CONTACT TOPIC: "The system called Prior Choice Economics, (Now called New World Economics. -Ed.), which has been proposed by a leader of your saucer movement, is a good means to insure that no nation will want war. We shall discuss this new economic plan in a future contact.

THE PEOPLE SHOULD MAKE THEIR DESIRES KNOWN:

"We must now speak of you, the layman, the people who are affected by the policies of your governments.

"In a free society, relatively speaking, such as the United

The above is a photo copy of page 6 of issue #18 of UFO International magazine, dated June 1963. Renaud's conversation was with the Korendian woman, Lin-Erri Elani on August 5, 1961 via 2-way short wave radio.

FLYING SAUCERS AND THE SCRIPTURES

by

John W. Dean

The Holy Scriptures are replete with mysteries, and there are almost as many explanations as there are readers. Among the most challenging of these mysteries has been the sudden appearance of a "cloud" and the subsequent disappearance into the heavens of patriarchs, prophets, and even Jesus. A particularly difficult problem has been the identification of the "wheel" that Ezekiel saw. John W. Dean, who recalls that his grandfather, when a boy, was warned against even discussing such things as the railroad or the telegraph because they were contrary to religion (since they were not mentioned in the Scriptures), here presents a reasonable argument that the "clouds," and the "wheel" were space ships.

In this fascinating and controversial book, documented by reports published or made in conversations with the author by men who have had communication with inhabitants from other planets, indeed, some men who have traveled to the Moon, Mars, Venus, Jupiter and Saturn, Mr. Dean uses scriptural references to show that on the other planets there very likely is a connection between the disappearance from the Earth of the great teachers and the high moral and spiritual standards of the men from Outer Space. In them there is a total lack of the greed and envy that Jesus and the prophets found so discouraging in Earthmen.

As a background for his book, Mr. Dean gives a brief section on elementary astronomy, definition of terms, and reasons why all planets must be inhabited. He also discusses one of the arguments skeptics think most devastating—the use of earth languages by inhabitants of other planets. He writes of their own languages, of their moral codes—similar to our Ten Commandments, but sharply differing in some aspects.

One of the most startling points made in the book is that we could save billions of dollars on our so-called exploration of Outer Space, if we, particularly the heads of governments, would accept the cooperation of men from other planets. In the past, these offers of help have been curtly ignored or cruelly ridiculed. And time is growing short—as readers of the daily newspapers are aware as nuclear development continues.

Gentlemen:

Please send me _____ copies of
Flying Saucers and the Scriptures by
John W. Dean at \$3.95 each.

If not pleased, I may return them
within five days for full refund.

Name _____

Address _____

City _____ State _____

Dear Friend:

I have read the book, "Flying Saucers and the Scriptures," by John Dean, and found it very interesting and informative, packed with material about which so little is known, yet well documented and authenticated. It is profusely illustrated and the index shows that over half of the ninety illustrations were made by the author who was an art teacher and a commercial artist for many years, so the drawings and charts depict just what he had in mind.

The language is not highly technical, yet the book deals with the questionable theories of light and gravity, weightlessness and instantaneous travel, the Beginning of all things and the planetary and galactic languages; of one universe and one God over all, and the Elohim as the family of God; and of Christ, the Master, traveling about the Universe in his own ships, meeting with the Solar Tribunal on Saturn and the Galactic Tribunal on the Planet Zakton, 75,000 light years away.

I know you will want to read it again and again.

Your friend, _____

If you like, you may use this as an order blank, or purchase through your local book store.

Dear Congressman Ford;

I have enclosed another pair of clippings which you may find pertinent to your call for Congressional hearings into the U.F.O. situation. It would seem that the Air Force is playing the old shell game--at the expense of the American public.

Sincerely yours,

J. Douglas Stewart

Air Force Denies Hush Put on UFO Reports

WASHINGTON (AP)—The Air Force said Wednesday it has an open mind about Unidentified Flying Objects (UFOs) and makes no attempt to hush talk about flying saucers.

A spokesman, asked about allegations that the Air Force tries to squelch UFO reports, said:

"IN THE first place, we'd be utterly foolish to try to keep people from telling about something they've seen with their own eyes. Our job is to explain what is seen—not necessarily to change anybody's mind."

Retired Marine Maj. Donald E. Keyhoe, head of a group called National Investigations Committee on Aerial Phenomena (NICAP), told newsmen this week the Pentagon has a top level policy of discounting all UFO reports.

He said the Air Force over the years has used ridicule to discredit sightings.

KEYHOE MADE the assertion while endorsing a suggestion by House Republican leader Gerald R. Ford that a congressional inquiry into the flying saucer matter might be a good idea.

The Air Force has a special public relations office which answers thousands of letters a year from inquisitive persons — among them school children, corporate officials, housewives, flying saucer club members and foreigners.

Last year it turned out 3717 replies to letters about UFO's. The count for January and February already has run more than 800 requests for information or explanations, and scores are being received in the wake of recent Michigan sightings.

SOME REPLIES by the Air Force are practically a form letter which says the Air Force has no pictures of flying saucers, that it does not censor or keep secret reports about UFO's and that Congress has not yet seen fit to conduct an investigation in the matter.

Other replies give specific explanations to people who report seeing strange lights or mysterious objects.

Virtually all are accompanied by an annual report of "Project Blue Book."

THIS PROJECT, started in 1947, has produced explanation for 9501 of a total of 10,147 sightings reported through 1965.

Project Blue Book has been unable to explain the 646 other UFO incidents and of these merely says:

"The description of the object or its motion cannot be correlated with any known object or phenomena."

BASED ON the bulk of its findings, the Air Force has decided that most people do not see interplanetary space ships but bright stars, balloons, satellites, comets, fireballs, aircraft, moving clouds, vapor trails, missiles, reflections, mirages, searchlights, birds, kites, spurious radar indications, fireworks or flares.

In the case of the Michigan incidents marsh gas was pinpointed as the source of colored lights observed by a number of people.

COLUMBUS 'DISPATCH' UNSHAKEN BY NEW REPORTS

Lockbourne's UFO Policy Still 'Silence'

Lockbourne Air Force Base officials continued their 'sealed lips' policy Thursday as more Central Ohio area residents reported sightings of unidentified flying objects (UFOs).

The latest UFO report was made by James Curtis, 60, of 6962 Clymer Rd., Reynoldsburg. Curtis told The Dispatch he and his wife first noticed a "bright and erratic moving object" at 8:40 p.m. at the rear of his home near Downtown Reynoldsburg.

CURTIS SAID he watched the object for about six minutes and then called LAFB to make an official report.

Employed by the Columbus Defense Depot, Curtis said he was connected with someone who did not identify himself but wanted to know what Curtis had to report.

"I told him just what my wife and I had seen. Although whoever I spoke to was very polite he only asked one question. In fact he did not even take my name or telephone number. He just

said he would pass on the report."

CURTIS SAID he had no explanation as to the identity of the object he saw. "It could not have been a plane, star or satellite," Curtis said, "it was zig-zagging and moving much too quickly."

Spokesmen at the LAFB public information office

TURN to Page 4, Col. 2

UFO

Continued from Page 1

said they were not permitted to release any information concerning UFO reports.

One spokesman, who asked his name and rank remain unidentified, said, "I don't like to be hard-nosed and the news media have been giving us a good barbecuing but I've got to play the game; my hands are tied."

HE CONTINUED, "Regardless of my personal feelings I must follow orders. And the orders concerning the release of information about UFOs comes direct from the Pentagon."

Other officials at LAFB admitted receiving "some" calls from persons reporting UFOs but declined to reveal the exact number of reports.

April 5, 1966

Congressman Gerald Ford
House Office Building
Washington 25, D. C.

Dear Jerry:

I am very happy that you took this position as evidenced by the article in the Detroit Free Press that came out about the last of March.

I have always been a little hesitant in reporting experiences, but I just checked back in my lawyers handbook for 1962, when on Sunday, November 18, while up deer hunting, 19 miles east of Vanderbilt, at our Beaver Dam Club I saw the following:

It was 5:07 A.M., I walked out on the front porch, it was pitch dark, very cold (no marsh gas) and from the south going in a north east direction it appeared to be a shooting star. When it was almost due east at an angle of about 40 degrees up in the sky it stopped. You can imagine my amazement when I noticed what would be described popularly as a flying saucer shaped object with a red metallic glow around the bottom, standing still in the sky. I ran inside, woke up a friend of mine, brought him on the front porch, pointed the object out to him, and while we were watching it, it took off from the east in a north west direction and disappeared. The speed was extremely fast and it would be difficult for me to estimate the height, but if I had to make a guess I would say somewhere between 7 and 10,000 feet MSL.

Go ahead and put me in the nut file, but this is what I actually saw.

Delighted to hear that you will be at the Congressional Dinner on Monday evening, May 2, so I will have a chance to visit with you at that time.

Cordially,

Richard L. Chapman
Executive Vice President

Whitewash Charge Scorned

Detroit Free Press April 1966

'Saucer' Uproar Draws a Laugh

"The sheriff doesn't have a leg to stand on."

Thus a Northwestern University engineer Tuesday laughed off a claim by Washtenaw County Sheriff Douglas Harvey that the Air Force investigation of the county's nationally-publicized "marsh gas" flying saucer was "a whitewash."

The engineer, William Powers, said in Evanston, Ill., that Dr. J. Allen Hynek, the Northwestern astronomer who probed two Michigan-sighted UFO's, "got the feeling that some of the group (of UFO observers) had a fever for flying saucers."

HOWEVER, HARVEY stuck to his assertion that Dr. Hynek, special consultant to the Air Force, hurriedly came up with his findings under Air Force pressure.

Dr. Hynek, Powers' director at Northwestern's Dearborn Observatory, in Evanston, Ill., said last week that the UFO's observed in a Dexter swamp March 20 and near Hillsdale March 21 were caused by marsh gas.

Meanwhile, these developments occurred in the UFO phenomena that has spread from Washtenaw and Hillsdale counties to a dozen or so states around the nation: —The Air Force announced in Washington that it plans

no further investigation of UFO sightings in Michigan unless such an investigation is requested by the Government.

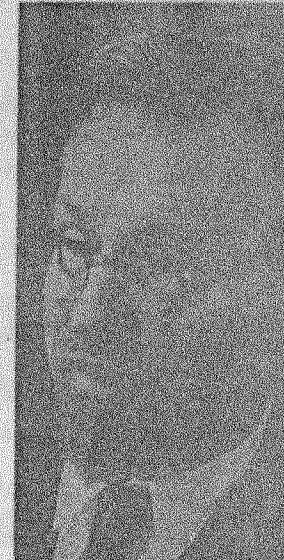

—William Van Horn, Hillsdale civil defense director, said that reports of radioactivity being given off by a circular impression in a Hillsdale gravel pit were erroneous. He said the impression was made by well-digging equipment.

* * *

—REP. GERALD FORD (R., Mich.), House minority leader who Monday called for a congressional probe of the nation's UFO sightings, said he has received numerous telegrams supporting his request.

—Rep. L. Mendel Rivers (D., S.C.) said he would give Ford's request "every consideration in discussing it Thursday with senior members of his House Armed Services Committee.

—UFO's were reported sighted over Bad Axe, Detroit, Macomb County, Flint, Ann Arbor, Dexter, Hart, Stockbridge, Hell, Mason, Royal Oak Township, Ingham County; Breton Woods and Passaic, N.J.; De Kalb, Ill.; Los Angeles, Calif.; Los Vegas, Nev., and Toledo and Lima, Ohio.

UFO

11/17/77 unless
you feel differently

April 7, 1966

Congressman Gerald R. Ford
Congress of the United States
Office of the Minority Leader
House of Representatives
Washington, D.C.

Dear Sir:

This concerns proposed hearings on unidentified flying objects,
of which I have written you of before.

Although I have found it difficult to obtain information on the
result of the Congressional discussion with Mr. Harold Brown and
Dr. Allen J. Hynek (of the USAF and an astrophysicist, respective-
ly), I have learned a few of the details.

It is my understanding---and I may not be entirely correct due
to lack of details---that the Air Force has agreed to appoint a
panel of scientists to look into a few of the Air Force's UFO
reports.

This in itself would be a start toward finding the answer to
the phenomena. However, I find myself very disillusioned at this
result.

First of all, who will be appointing the panel of scientists---
Congress or the Air Force? Will each member of this panel be
questioned before the analysis begins, concerning just how im-
partial the members are? It is my firm belief that an impartial
team of scientists will be difficult to come up with---and I
would question the sincerity of any such panel which, if chosen
by the Air Force, is formed quickly. It will take a great deal
of time to find a team which will investigate thoroughly, with-
out any pre-conceived opinions.

Secondly---and this factor irritates me more than any other:
who will decide what reports will be investigated by a panel
of scientists---Congress or the Air Force? Because of certain
military regulations prohibiting the release of serious UFO in-
formation by the various units (e.g. AFR 200-2 and JANAP 146(D)),
I do not believe the Armed Forces Committee should be involved
in deciding what Congress will do. A special Committee should
be formulated. If the Armed Services Committee chooses a few UFO
reports for the scientists to analyze, I do not find it unlikely
that the panel will soon reach a conclusion that there are no
UFOs. The reason? There are certain UFO reports which appear ex-
cellent for analysis at first, but a team of analysts would be
able to deduce nothing conclusive from them.

Therefore, please be cautious that only the best-authenticated,
most complete reports are submitted for scientific study.

PHOTOCOPY FROM GERALD FORD LIBRARY

Please, sir, if at all possible, enlist the assistance of the National Investigations Committee on Aerial Phenomena (NICAP) in choosing reliable reports. Members of NICAP's Board of Governors include many retired military men and scientists, most of whom are well known as experts in their field. I'm sure that you have already been in contact with NICAP.

The UFO and Air Force censorship situation must be delved into in length. To ask the Air Force or Armed Forces Committee about UFO hearings is to invite misleading answers. To put one or the other in charge, as they are both connected, (and both realize the UFO evidence available) is to endorse ridiculous results. In my opinion, the Air Force will try anything to satisfy Congress and defeat public interest.

You summarized the situation of "swamp gas" theories in one excellent word---"flippant." This term applies to Air Force UFO investigative practices.

A few years ago, I believe that Senator Harry F. Byrd was misled by the Air Force. NICAP can supply you with further details on this incident.

Just out of curiosity, I might pose this question concerning a denial you may have received from the Air Force when it was asked about hearings. Were you told that Congressional hearings would only aid science fiction writers and would prevent the Air Force from making an investigation of UFOs, and that only sensation-seekers would profit from such hearings?

In truth, hearings, if proving that there are no unidentifiable objects in our atmosphere, would help the Air Force tremendously by ending the mystery. However, if public hearings presented the testimonies of veteran pilots and other trained observers, the reality of UFOs may be proven and the Air Force would find itself in trouble for hiding and ridiculing reputable people and reports by implementing senseless denials.

~~Because it has denied UFOs for so many years, the Air Force would undoubtedly be looked upon with disappointment and anger by Congress if the facts come out in the open.~~

Because it has denied UFOs for so many years, the Air Force would undoubtedly be looked upon with disappointment and anger by Congress if the facts come out in the open.

Therefore, I urge you and the entire Congress of the United States to form a special Committee to look into all serious UFO reports and to investigate unwarranted AF censorship of UFO reports. If the Air Force or its associates are allowed to handle most of the proceedings into UFO investigations, it will do everything possible to assure that censorship is not uncovered. This would have to lead to the conclusion that there are no UFOs.

For years, the Air Force has been asked to look into UFOs in depth, but the only result---time after time---was more ridicule and denials, many of which were given to the press before there was any Air Force investigation into the sightings concerned. Now that pressure is being applied and Congressional suspicion is growing, the U.S. Air Force has no other choice but to attempt to make worthless propositions to Congress, suggestions that will prove nothing in the end.

In closing, I would like to state one more thought:

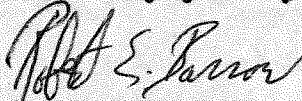

For each and every UFO sighting reported, anyone---the Air Force included specifically---can, if they search at length, find an explanation which will fit the sighting. There is always a conventional explanation which may be applied to every sighting and seem reasonable. This is the method used by Project Blue Book, the Air Force UFO investigative department.

You have my permission to present this letter to your colleagues should you find any applicable points within it.

I would appreciate any opinions you may have on the possibilities I have listed. Thank you for reading this letter, and I hope that Congress will not let the Air Force escape hearings by substituting a small panel of scientists to examine a few of the thousands of reports. Contrary to what Air Force spokesmen say, information is being withheld. There is ~~absolutely no other~~ absolutely no other answer they can give because they are under orders. I am as much for the Air Force as anyone else, but I am strongly against withholding information unnecessarily and needless ridicule of reputable people.

Best wishes,

Most Sincerely yours,

Robert E. Barrow
Member,
National Investigations
Committee on Aerial
Phenomena (NICAP)

Gerald R. Ford
House of Representatives
U.S. Capitol Wash., D.C.

UFO

Mr. Billie Alanzo,
Golden Mo. 65658
April 9, 1966

MA

The following letter was sent to the White House:

Dear Sir;

We are under invasion by extra-terrestrial beings. As I watched a fireball hovering at the top of a ridge a mile from my home, I marveled at the absence of fear, at my almost commonplace acceptance of that phenomenon. Such is the attitude of the American people; except that they are more apathetic than we.

Our leaders have a responsibility to an America greedily grazing like sheep in the shadow of the abattoir indifferent to the sights and sounds presaging their fate. The question is, are the leaders ball-wether goats leading the flock to slaughter or are we to sound the alarm and steer at least a sizeable portion to safety?

I have been reading about some of the goats: H. Allen Hynek's discrediting of detailed descriptions by reputable observers with a wave of his hand, declaring the Michigan UFOs to be "swamp gas"; David Moody and Hector Quintanilla's echoing "amen"; the work of D.H. Menzel and L.G. Boyd in discrediting bona fide observations... Goats! Deliberately misusing their reputations as men of science to lull a people who want to be told "all is well" so that they can complacently graze on.

But after the recent articles in "Look" and "Life", and some other publications, the people are dimly aware that something is going on — only, no one has stepped forward to tell them what to do about it.

The space ship that swooped upon the harbor at Perth, Australia ("Life", April 1) may have deposited an atomic mine which can be detonated at will. The flying objects hovering over our swamps and lakes may have created...

PHOTO COPY FROM GERALD FORD LIBRARY

deadly instruments and agents of war beneath the slime and mud. One large spaceship with a payload of 100 tons of some mind-distorting chemical of such potency as LSD (one ounce could affect 300 000 people) could send the whole population on a "trip" into madness for several months if that chemical were distributed and released in controlled amounts in our sources of drinking water. (I believe that we are already under some sort of chemical attack; that is why crime and obscenity are increasing so much and why we are so apathetic concerning alarming happenings.)

This is to suggest that the government officially acknowledge the presence of extra-terrestrial flying objects and candidly assess the menace of invaders who have not deigned to establish diplomatic relations or to communicate in any way with us.

I expect that they intend to issue an ultimatum with the threat of destroying our cities unless we comply; when they do officially reveal their presence. Perhaps they will negotiate with the government secretly, threatening destruction if the people are informed. In that case I would pray and ask God for a stay of execution; then inform the people anyhow — they have the right to decide whether to resist or to capitulate.

These invaders are probably of the Nazi type, and it would be better to die fighting than to be tortured and exterminated eventually in pogroms.

They may pretend to ally with any or all of the major powers. Their true affinity will probably prove to be for the Chinese Reds. Pacification is out of the question.

Personally I don't think America has a ghost of a chance unless we truly repent of all the wickedness we

3.

...have done and can prevail upon God to save us.

The government could at least reorganize Project Blue Book, removing the old goats; and could have our harbors and swamps searched and scanned by electronic metal-detecting gear to remove any mines or Trojan horses.

Perhaps you fear a panic. It is almost impossible to arouse the people from their lethargy and apathy. Besides; does the captain refrain from informing the passengers and crew when the ship is sinking?

Do not lightly discard these words. I am placing a copy in hands unlikely to. And whether or not my words are accepted here on earth, they are on record with God; this administration will be held accountable. What will His findings be? Pray, not goats; not slaughterhouse goats in the employ of the butchers of the abattoir!

Billie Alongo

Congress of the United States
Office of the Minority Leader
House of Representatives
Washington, D.C.

March 31, 1966

Mr. Harry F. Tapp
717 Solar Isle
Fort Lauderdale, Fla.

Dear Mr. Tapp:

Thank you for your recent communication endorsing my proposal that Congress investigate the rash of reported sightings of unidentified flying objects in southern Michigan and in other parts of the country.

It is proper for the Federal government to look into a matter which is causing alarm to the people of our nation as these sightings have, and it is for this reason that I have called for the investigation.

Such an inquiry is necessary and wholesome because of the incidents that have occurred and I assure you that I will continue to press for this investigation. I want you to know that your specific comments were helpful to me in this respect, and that your remarks do not go unheeded. I am aware of other reports such as the UFO Evidence which pose questions that, like the most recent sightings, cannot be answered by a few "pat" solutions.

Kindest personal regards.

Sincerely,

Gerald R. Ford, M.C.

PHOTOCOPY FROM GERALD FORD LIBRARY

UFO

Fort Lauderdale, Florida
April 5, 1966

Hon. Gerald R. Ford
Washington , D. C.

Dear Mr. Ford:

Thank you for your letter in response to my recent communication to you regarding UFO 's. I think my note must have been filed in the wrong pile as I definitely did not endorse your idea of having a congressional investigation of the reported sightings.

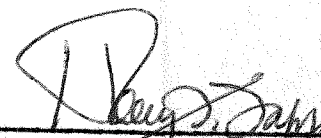

Send info

I did say that as a Republican I have been disenchanted with the present party leadership and that I thought it would be much better for the Congress to devote its time to the serious problems facing our country rather than waste it on hysterical reports of UFO's. As far as UFO's are concerned there are plenty of qualified scientific brains working on this subject. The Congress particularly the Republican party should devote its time to such matters as inflation; the loss of gold reserves to countries that still have not paid their World War I debts to us; the irresponsible conduct of the War in Viet Nam; rampant crime in the U.S. not excluding Washington. If the hearings on the Bobby Baker case are any example of Congressional hearings it would be better that all hearings be forgotten.

I did listen to a news report on your talk at Palm Beach yesterday and was glad to note that you did mention the problem of inflation and tried to make out that the Republican party leadership had been trying to do something about it. I would say that any efforts in this regard have been woefully weak and ineffective. Instead we have had too many "Me To" republicans. The War in Viet Nam is certainly going to be an issue in the coming elections but the Republican party is going to have a hard time cashing in on this issue with a, ME TO, record.

If you want to have hearings, lets have hearings on the conduct of the war. There is a fertile field for votes in the families of husbands and sons killed and wounded because of stupid military and political policies and decisions.

Sincerely,

Harry F. Tapp

Note:

Somehow I seem to have omitted this letter from the ~~brochure~~ envelope I mailed to you, too hurriedly, yesterday. I wonder if I sent two copies of something else. N/A

Sheet 6, enclosed, is a portion of a letter I received from James Hill on April 5, edited and slightly reduced. That I would have a picture of the hill mentioned but was disappointed.

Learned that my broadcast has stirred up about half of the state so there is fertile soil for your efforts out thisaway. UFO

Yours truly,

John Dean

9001N. Main Street,
Hutchinson, Kansas,
April 5, 1966.

Hon. Gerald Ford,
Washington, D.C.

Dear Sir:

As you may see by the enclosed literature I am a space fan and so receive clippings and bits of information in regard to sightings as well as reports from all over the world in UFO magazines.

We have known all along that Uncle Sam has been squelching saucer news and the space folk know it even better. He also knows that they come here for our good, i.e. many government officials know it. We know that some congressmen have been contacted and one was taken up to another planet and fears to tell it. I have never heard of any valid excuse being given for keeping the general public in ignorance or for infutiating the well informed. Possibly the official reports are accurate so the files appear all right but the "experts" belittle them and delay their decisions and hope the incidents will be forgotten.

We know that the ships come from other planets so there emissaries of good will have far better intentions than does our(?) own government for they come, each time, for millions of miles to aid us. I know how little Uncle would do for a soldier in an army hospital for a dying American soldier for I was there.

I enlisted twice in Phony War 1, physically unfit both times but passed by the crooked Draft Board here in Hutchinson each time, and went to the State University camp at Lawrence as the only place taking enlistees. I played out and spent a term in the field hospital where nothing was done for me.

I was far under the minimum weight the first time I enlisted; was rejected at camp for a bad hernia for which I had not been examined in Hutchinson. Had an operation at Halstead Hospital and returned to the same camp, too soon. Was accepted on falsified records. Had hired civilians to feed us; were fed spoiled meat and refused medicine. In the hospital I was penalized by total starvation for being underweight. I missed 91 meals straight, der cook got extra pay for my special diet-- breakfast, nothing; dinner, nothing; supper nothing, but our ever-loving Uncle Sam provided a liberal snack of castor oil between meals, interspersed with insults, curses, and lies, ad infinitum, ad nauseum.

Also we were completely dehydrated and American boys died of thirst because water cost money-- 100 gallons for one cent, institutional rates-- a US short pint for 1/1000 of one cent, and our carcasses were sold to the school medical dept. for dissection, dead or alive-- three a week, and yet I lived. But my records were so falsified that I could not get into a Vets Hospital, nor get compensation or a pension. All because Uncle Sam was trying so hard to save money!

The drunken medics poured iodine into my punctured eye and laughed at my shriek of agony. When I went in I could read to the bottom of the eye chart-- recorded as 20/20; when I came out I could read only the first 3 lines (20/50) but recorded as 20/20 by his paid liars.

They offered a pint of water for a pint of blood; I insisted on the water first so they took all of my blood and gave me no water! It could be sold to provide liquor money. I was given two or three shots of meningitis germs directly into my spinal cord and yet I lived for the space-men-- these messengers of God-- saw me through. The drunken Chaplain would have nothing to do with us for he was a German as well as Herr Captain. He passed me by when the drunken army doctor told him I couldn't live through the day.

A sargeant, the local censor opened, read, and burned my farewell letter

PHOTOCOPY FROM GERALD FORD LIBRARY

home, and yet I wouldn't "die for my country,"

-A spaceman appeared to my sister in Nickerson, 150 miles away and told her that I was very sick. She phoned the drunken army doctor and he admitted that I was there with the flu but lied about the pneumonia, and no mention of meningitis. Murder-minded medics came each hour to pull the covers off so I would freeze in the unheated barracks of the Torture School and I was miraculously warmed. My records burned before I got out.

And I lived, only to despise that traitor government and the enemies in our ranks, more and more with every meeting with him.

Recently, I have been able to check with superior beings of the Solar Tribunal of Saturn and was told that ^{they} did those things for me as they had better use for me than did Uncle Sham.

As a teacher I have been driven out of schools repeatedly for being too much American; for teaching too well when the aim was to lower the standards to ridiculous levels. And I got no help from the so-called American legion. Hence my loyalty is to the kindly space folk. I have been favored by seeing three space ships fairly close over our place in Nickerson--one, the Polarity Tester 500 feet above us. And to have known ^{men} and women who have met and talked with them and have been taken up in space ships to the Moon and other planets and around the world. I call one man from the Galactic Tribunal on Zakton my dear friend.

I lecture on space matters rather widely-- Chicago, Topeka, Denver, ^{Nichita} Fort. Worth and locally and have put my lecture into a book which is the most profusely illustrated for I am somewhat of an artist, and is the most comprehensive of any yet published. Descriptive literature enclosed.

I spoke on radio station KWBW April 4 and am slated for the 11th and possibly longer. The local store's stock of my books was sold out within two hours. I loaned them ~~ten~~ more and they were almost gone by evening which proved that people want the truth. I will speak at the Nichita State University soon for the third time. Educated people gladly accept and trust a local speaker for I have pictorial proof.

I find extreme disgust everywhere with Uncle's "hush, hush", "SHUT UP" policy. Rebellion against the ubiquitous rottenness is barely under the surface; even children are finding that the government is not for us. I understand that, now, the Congressional Committee is busy with the white wash to downgrade anything that you may work for. I hope that before this week is over you will be fully justified for I received the latest news today. Will add it to this letter.

We have known for a long time that Eisenhower was called to Edwards AFB in 1954 and told to stop the bombing tests and to tell his subjects. He did not obey completely and they sent him a heart attack as a lifelong reminder. I know that Kennedy was contacted at least once; no doubt President Johnson more than once. His Great Society may be a diluted substitute for the paradise the spacefolk offer us.

Spacemen do not say why Kennedy was eliminated but declare that Oswald did not kill him. Spacemen accompanied the USSian delegates to confer with Castro and Khrushchev were responsible for the former backing down and the latter getting out. Surely someone around the D.of C. ought to know about these things if we, out here, do.

In issue #19 of the UFO-I magazine Renaud was told that, "In the 1964 election there will be 10 U.S.Senators and 24 U.S.Representatives working for us." I sincerely hope that you are one of them and can identify the others. I suggest Senators Long and Hall of Missouri.

I am enclosing several photo copies of ~~the~~ material which you may use with confidence in your efforts to get the facts made public about space ships, space people, and their reasons for coming to Earth.

I call your attention to an underlined heading in column 1 of the sheet numbered 3: WITHHOLDING SAUER INFORMATION PERILS WORLD. How does that compare with a disgusted American youth burning his draft card or deserting the rotten conditions in the army? They also say DIFFERENCES CANNOT BE SETTLED BY WAR. If they are right then war is morally wrong and the

Objectors are also right, but the unjust minority wins.

Another heading is AIRFORCE COVER UP DECEIVES PUBLIC, and GOVERNMENT FILES BULGE WITH SAUCER PHOTOS, deny it as they will. Surely they didn't burn all of those 60,000 they had years ago, just to make room for more. If not, then they may have all of my first 50 slides, processed by Eastman in Chicago, paid for by me, and delivered to the Blue Book Gang. It was an enormous amount of work and I couldn't afford to lose them. I had a chance to give my lecture in a big M.E. Church in Evanston 10 years ago, and Dr. Hynek might have learned something that would have helped him at Hillsdale, Mich. I have a 3-page typed report from Mrs. Hearn and I think the Dr. just made a fool of himself. Wasn't it enough that Uncle Sam should confiscate all of my blood in the SATC without paying for it?

I recommend the same punishment for every lying stooge of Uncle Sam as was used on us, the deluded (damned) patriots for having committed the great crime of volunteering to fight for America: death by prolonged torture from hunger, thirst, and cold and constant reminders of the dissection awaiting them, or vivisection if they would not "die for their country".

Fles/sed are the merciful for they shall obtain mercy, and Uncle's murderers showed none. I hope I may be one of the Judges when Uncle Sam is called to infinite justice.

Cruel and unusual punishment? It is nothing like the vile curses heap upon us as we died-- begging and pleading and praying for water. They could not go through the mail when given in sworn testimony, at the Vets Maladministration in Chicago. Instead: "We will never accept any evidence that is for you and against us!" "Never, under any circumstances will there be any justice if we can help it!" Under oath and telling the truth got "Shut up! You can't talk like that about our government even if it is true." What a farce! Why should any American boy look forward to ~~the~~ fighting for a country like that? I was there and they did it to me and I lived because of the spacemen; the others died and were damned to hell by the U.S. Almighty. Or maybe it is he who is damned. God is just.

If you ever find Slippery Sam tell him for me, "Give us a government worth fighting for and I will cease to oppose enlisting." And I haven't forgotten about the regiment of drafted Americans on Okinawa who, when they had served Killer Sam were lined up and all shot dead in a minute by white USSians because the others were black Americans.

The space folk say the brown race preceded the whites on earth by 1000 years.

In that division of the so-called Army I was in, it figures that they deliberately killed 100 D.Ps in each of 50 states. Admittedly 5000 and "as many more would die after discharge." If \$100 each was paid by the states to the killers it would cost the taxpayers only \$500,000 and Sam might have saved 5¢ more on his water bill.

We are told that about 2500 American boys have been killed in Viet Nam, and consider what it cost us, just to get rid of that many loyal youth so Uncle Sam can join up with the Russians against China, and then turn their bombs on us again in the Great War soon to come.

I and a few other loyal supporters of the space program are promised a trip to another planet for the duration so why should I care? It's not my country and Uncle has been my implacable enemy for 50 years. I am an American and not very proud of it. Knowing Uncle so well from bitter experience I discount anything he says 150%, especially space matters.

My book, Flying Saucers and the Scriptures should be in the Congressional Library (also one on Leathercraft Techniques and Designs). I do not know if you will find the UFO International Magazines there or not. If sincerely interested The Vantage Press might give you prompt service if you order one of my books. I have sold out the last of my sets of the six issues from #18 to 23 but have ordered ten more from California.

Could probably supply you with a set in half the time at cost-- \$3.00 plus 15¢ postage.

I am not permitted to give Bob Renaud's address but perhaps he would be willing to cooperate to the limit if the space folk OK you and your efforts. I will write him or you may write to him and send the letter to me to be forwarded to him. A slight chance that he has already offered his services.

My sheet No.4 is a drawing of a floating car described in issue #21. I sent a sketch to Renaud; he held it until the sapcemen visited him and they made corrections and labeled the parts. In appreciation for my efforts they gave me, via Renaud, their alphabets as I am interested in lettering and I made the comparative chart No.5. They have no ABC order so Bob did a lot of preliminary work. It took 3 trials before they approved it and convinced me that they had no symbol for Z.

Copies of both went to Korender to aid them in understanding our peculiar alphabet with varying sounds for each vowel. They have only the one shown, no capitals; printing and script are the same.

Dr. Pronko, head of the Psychology Dept. of Wichita State University plans to give a copy to each of the students attending my next lecture there as it is the best evidence available. I do have some of the hair of Queenie, the Venusian dog (Figs. 85 and 86, my book) but could not give it away in such quantities and it would soon be lost.

And now the latest news. A letter from Hill today, written April 3, says he was over to Buck's place over night, 65 miles away. Coming back about 11 P.M. they reached a hilltop with a fine view to the northeast. I have a good colored picture of it but haven't been able to locate it so will have more prints made if it proves important. From there they could see the ridge that extends from Fairview to Van Buren, 50 miles long, and they saw millions of flying saucers lighting the whole ne. sky, bobbing up and down. They watched for three hours and drove home to Hill's, the morning of April 2, 10:45 A.M.

Told his wife about it and they drove back to Nelson's, picking up Mr. and Mrs. Henn of Willow Springs and they went up to the hill again and saw about a hundred still around. Seems they are making the promised peaceful invasion and plans to spread out to different parts of the world simply to show themselves.

If they cause a panic it will be because of adverse propaganda and lack of cooperation of newspapers, so use your influence to overcome that.

Hutchinson is certainly stirred up over them. A boy came Monday after school to tell me that someone here saw 4 or 5 Sunday night and I went to Station KWBW and asked them to tell it today and ask that whoever it was should tell them and they could broadcast it, as the Hutchinson NEWS has not even mentioned any of the hundred sightings of the past week or two. One seen in Massachusetts but I do not have a clipping yet. Hope it was one from Korender.

Best wishes in your crusade to save America from the enemies within.

Yours truly,

John W. Dean

American-American D.P.

6
PART OF A LETTER FROM JAMES L. HILL, Seymour, Mo. Sunday, April 3, 1966.

Dear Friend Dean:

...I was down to Buck Nelson's home (Friday) and stayed over night, as we were driving back from the home of Mr. and Mrs. Henn (Rt. 3, Willow Springs, Mo.) where we had been visiting to about 10:45 PM.

If you remember, about a mile before you get to Buck's home there is a high hill and you can see for many miles in nearly all directions. About 50 miles, looking northeast, Buck and I saw this distant mountain all lit up with flying saucers by the millions. Buck said there must be billions of them.

They were bobbing up and down and moving sidewise, covering the mountain solid, as thick as your fingers are on your hands. And they were all Buck and me for at least three hours, or perhaps all night long, until daylight. We are sure of that.

Buck and I also watched them down at his spring, all over the place. (I understand this refers to spacemen on the ground.) We did not go down to visit them but we could hear them talking down there at the spring. We have an understanding with them, not to bother them. Nor did any of them come up to the house, yet they were all around us by the millions, I tell you. They did not give us a message of any kind either, as they were silent about their business down there.

Buck said they were having some kind of Convention and assigning them out to other parts of the world, etc. I believe Buck and my own eyes and thoughts on this statement that they were assigning saucers that way.

So I drove home (65 mi. to Cedar Gap, about 6 mi. east of Seymour) arriving there about 10:45 A.M. I told my wife about our experiences of seeing so many flying saucers so I and my wife, Iva, went back to Buck's as we knew they would be back Saturday night, or at least we had that impression that some of them would be back Saturday night on the mountain. Buck said that mountain (the Ozark Plateau?) was 300 miles long and no homes built near this mountain, not even within 50 miles of it.

So I and Iva drove by and picked up Mr. and Mrs. Henn and took them with us down to Buck's, arriving about 5:20 P.M. and had lunch with him. About 7:00 P.M. I and Buck walked back up the road to the top of the hill to see if any flying saucers were still there and, sure enough, there were at least a hundred of them still around. (On the mountain?) We walked back to Buck's house, got my wife and Mr. and Mrs. Henn and drove back up to the top of the hill, got out of the car and watched those saucers for two hours or more, bobbing up and down, move about, come over Buck's house, and they were all around us again but not one of us could get a word from any of them. They were all silent but were full of action in every direction. I wish you could have seen this display of saucers—something you would never forget if you lived to be a million years young.

Buck was going to try to contact the space brothers last night some time if he could. I never got one word from them either, nor as I try to write this letter. Not one word from the Space Brothers (Laskon?) But we think there is something BIG about to happen to this wicked old world, is why they will not tell us. But we know, as we were told many years ago, that if something was about to happen to this planet they would come and take us out of it to another planet, including my wife (and Dean) and those who believed in them, etc.

Perhaps tonight (Sunday) they will be around down there at Buck's. Buck will make a report to me, pronto, (via telepathy) if they are still around. If so, we will drive down there again. Mind you, Mr. Dean, that flying saucers are NOT new to us. Buck and I have seen more than the others."

Mr. and Mrs. Henn reported having seen a group of five ships the night of March 17 at their home and another family also, near Cedar Gap, 25 miles east. A schoolboy told me four or five were seen over Hutchinson Sunday night over the west side of town, possibly looking over Station KWBW. I hope it was a sign of approval of my talk there Monday morning.

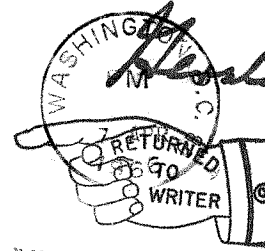

Yes, I do remember the wonderful view from the hilltop near Nelson's place. For I got a fine colored picture of it. I took the film to the Deming Studio Tuesday evening to get some prints made. I chanced to mention the foregoing to Deming, a high school boy who had read my book and was "saucer minded". He told of being out to the sand pit, fishing, Saturday afternoon and was conscious of a buzzing or humming sound in the sky tho nothing was visible. He could not locate it for it seemed to come from all directions. Yes, saucers can make themselves invisible and one alone would be called noiseless. But several thousand fairly low in the air might be heard. I think this is only the visitation promised for 1966, in greater numbers than anyone expected. So carry your camera, loaded, and set for long distance, on the seat of your car, ready to get photographic proof. I know of no reason for fear, so enjoy whatever you may see of them.

Congress of the United States
Office of the Minority Leader
House of Representatives
Washington, D.C.

April 6, 1966

Mrs. Dolores M. Coyne
23513 Avenue
St. Clair Shores, Michigan 48080

Dear Mrs. Coyne:

Thank you for your recent communication endorsing my proposal that Congress investigate the rash of reported sightings of unidentified flying objects in southern Michigan and in other parts of the country.

It is proper for the Federal government to look into a matter which is causing alarm to the people of our nation as these sightings have, and it is for this reason that I have called for the investigation.

Such an inquiry is necessary and wholesome because of the incidents that have occurred and I assure you that I will continue to press for this investigation. I want you to know that your specific comments were helpful to me in this respect, and that your remarks do not go unheeded. I am aware of other reports such as the UFO Evidence which pose questions that, like the most recent sightings, cannot be answered by a few "pat" solutions.

Kindest personal regards.

Sincerely,

Gerald R. Ford

Dear Sir:

I have long been convinced of the reality of UFO's and hope you will insist that Congress publicize all available details on the sightings which could not be hoaxes or weather balloons, etc. I am a graduate of Univ. of California, have never been treated for mental illness & am definitely not a member of the crackpot group interpreting UFO's to suit their peculiar religious beliefs.

Yours truly,

(Mrs. Roy C.) Eleanor Tremoureux

RE: HIS SLANT
ON THE
WORLD
IN
GENERAL

April 1, 1966.

Hon. Gerald Ford.
House Office Building,
Washington, D.C.

Subject: U.F.O.

U.F.O.s in Michigan and elsewhere, are the work of
1966 "Bright Students" who have enough knowledge of the
reaction of certain chemicals, to concoct plastic objects
and release them - in our opinion. *editorial "we"?*

If Dr. Hydeky can blame the phenomenon on "Marsh Gas"
why have people failed to notice them before, during the
last 100 years? Surely we have had "Marsh Gas" longer than
100 years. **(STUDENTS TOO!)**

If President Johnson is worried about two extra rooms
for Lady Bird, he can now worry about 8 railroads.

ARE YOU SURE? Linda Baines Johnson will join the Jews before 1968. **WOW!**
U.F.O.s in Michigan are worthy of Congressional Action,
before the activity of "Cuties" spread to all States and
the White House. **TOP NEWS! BIG STUFF!**

Respectfully offered,

Lloyd E. Ashe
(PROFESSIONAL BIGOT)
