Dear Congressman Ford,

I appreciate your letter of November 24, 1967.

Please be assured that we are willing to supply whatever information we can to you upon request. Particularly in regard to the new Russian Commission, I think it is important that we not lag behind in what could become "The UFO Gap."

Please do not hesitate to contact us if we can be of further assistance. Meanwhile I shall keep you informed of any new important developments.

Sincerely yours,

# Abominable Snowman in US?

## Film Taken in California Forest Shows Giant Creature; Scientist Calls It Authentic

By IVAN T. SANDERSON  
© North American Newspaper Alliance

NEW YORK, N. Y. — The most compelling evidence to date that "abominable snowmen" exist was brought here by two men from Yakima, Wash. The evidence consists of a reel of color film clearly showing a hairy, 7 foot creature ambling along a creek in the northern California mountains. The creature was sighted Oct. 20 by Bob Gimlin and Rover Patterson near Bluff Creek, in rarely penetrated forest country.

Seventeen scientists viewed the footage at a showing in Vancouver, British Columbia. The consensus was that evidence definitely called for further investigation. None declared it a hoax.

The footage was also shown to the special effects department of Universal Pictures in Hollywood, and the experts said it was impossible that the creature was a man in a monkey suit.

### Known for Century

I have studied the footage and can vouch for its authenticity.

I first heard of the California creatures in 1946. They are called "big feet" in the northwest and in Canada they are called "Sasquatch men." In 1959 I interviewed hundreds of woodsmen and Indians, who often are more familiar with their own district than scientists passing through. The stories were consistent and the evidence cumulative.

The evidence goes back well over a century, and there is a report of the capture of a Sasquatch on a railroad track in British Columbia in 1884.

Ever since, there have

been reports by mountaineers, woodsmen, road builders and trappers of very large footprints, both in the snow and mud. They are just like a man's, except they are

### About the Author

Ivan T. Sanderson holds Cambridge university degrees in zoology, botany and geology. He has led a number of scientific expeditions and has written several books. He has been for years a believer in the existence of the "abominable snowmen" and has written one book about them.

16 inches and longer. "Nests" or "beds" of these large creatures have also been found.

### What She's Like

Now Patterson and Gimlin offer the best evidence yet of the California "big feet." Gimlin, a part Apache woodsman and tracker, has been searching with Patterson, a self-employed inventor, for the "big feet" for three years.

From my careful viewing of the film footage, here is what the "big foot" or "Sasquatch" is like:

The creature seen is a fe-

from its clearly g breasts.

She is about 7 feet tall, weighs about 400 pounds, and walks upright like a human, with straight legs.

She is covered all over with shiny, jet black hair.

Her face is flat, not protuberant like a gorilla's, and with a wide, pug nose. The eyes are small and deep sunk.

Her head rises to a crest. She has no neck. Shoulders are three feet wide. the stomach is flat.

The film lasts about one minute and shows the creature walking along a dry sand bank, littered with logs and driftwood. At one point she turned around and looked directly at the camera. She left clear tracks in the sand measuring 41 inches from left heel to right heel; each print is 16 inches long.

*This same type of creature was seen in your state of Michigan. Look into this Mr. Ford, because I feel that there is "UFO" connection!*

*Please Save this for future reference.*

CONGRESSMAN  
GERALD R. FORD  
HOUSE REPUBLICAN LEADER  
WASHINGTON, D. C.

4 DEC. 1967

Dear Mr. Ford,

If you do not make the President take a stand on this "UFO" issue now, you will never have such a golden opportunity to get him out of the White House. I refer you further to the -- "1967 NATIONAL CATHOLIC ALMANAC." Now, if you will take the time to read the description of the FATIMA "MIRACLE," you will see very clearly just how much like a "UFO" this so-called "miracle" was! You do not have to mention Fatima at all, just ask the President if he will tell us the whole truth in 1968. As for this creature, if it turns out to be authentic as I now think it is, then where in hell could it come from except a extraterrestrial space craft such as a "UFO." It sure as hell is not native to this soil, and it is not a gorilla, therefore, it was brought here. Get's face it! Let's end the credibility gaps on "UFO's" once and for all!

Sincerely,  
Raymond G. Konley

R. G. KONLEY APT. E

CONG. GERALD R. FORD  
HOUSE REPUBLICAN LEADER  
WASHINGTON, D. C.

Please try!  
ask now!

*MFP*

Congressman Ford,

I hate to be so persistent about the issue of "UFO's", but if you had the time to read any number of "Sage" or "True" magazine articles on this issue, it would become very clear just how desperate the President is, and the cowardly stop gap measures he employs to keep this issue down. I cannot stress this too strongly to you, and I hope to God that you will destroy his chances for re-election with this issue. UFO's are the NO. 1 issue! Viet Nam is no. 2 and Open Housing no. 3. President Johnson can bluff his way through nos. 2 & 3 but not No. 1. So please for God sake man give it a hell of a try, and see how positive I am about this.

Thank you, Raymond G. Konley

JOHNSONS

DILEMMA!

RAYMOND G. KONLEY  
1815 E. Newberry Blvd., Apt. E  
Milwaukee, Wisconsin 53211

APRIL 7, 1967

HON. GERALD R. FORD  
CONGRESS OF THE UNITED STATES  
OFFICE OF THE MINORITY LEADER  
HOUSE OF REPRESENTATIVES  
WASHINGTON, D. C.

Dear Congressman Ford,

Here is a hand bill that I am giving to the people of Milwaukee, in order to raise the issue of U.F.O's to the President - the one person responsible for all the censorship of U.F.O's from president to president. This issue could very well cause Pres. Johnson to lose the election in 1968 if you could raise it before this year runs out. It must be faced someday, and what better opportunity will you ever have to defeat him than this issue of U.F.O's now.

Good luck Sir. Sincerely,  
Ray G. Konley

PHOTOCOPY FROM GERALD FORD LIBRARY

# "U.F.O's" (UNIDENTIFIED FLYING OBJECTS)

## QUESTIONS TO ASK YOUR SENATOR AND CONGRESSMAN:

1. WHAT ABOUT THIS ISSUE OF U.F.O'S ---- WILL IT BE STILL FURTHER STALLED; FOR SO CALLED FURTHER STUDY, IN THE ELECTION YEAR OF 1968 ---- AS PRESIDENT JOHNSON HOPES IT WILL?
2. IF U.F.O'S PROVE TO BE EXTRATERRESTRIAL ---- WHO WILL ANNOUNCE THIS TO THE PUBLIC, AND WILL THE PRESIDENT - OR THE C.I.A. EVER DARE ALLOW SUCH A DISCLOSURE?
3. IF, AS THE AIR FORCE SAYS ---- U.F.O'S ARE NOT A NATIONAL SECURITY ISSUE; THEN WHAT IS THE C.I.A. DOING IN THIS ISSUE?
4. WHY IS THE ISSUE OF U.F.O'S SO EMBARRASSING TO THE PRESIDENT AND THE CONGRESS?
5. ARE WE TO BE LEAD TO BELIEVE, THAT RELIABLE, INTELLIGENT WITNESSES, OF PROVEN UNKNOWN U.F.O'S --- ARE JUST SEEING BIRDS, PLANETS, AND ECT. ----- FOR ANOTHER 20 YEARS?
6. HOW DOES THE CLERGY FEEL OR STAND ON THIS ISSUE OF U.F.O'S?
7. WILL THE TRUTH ABOUT U.F.O'S CAUSE A RELIGIOUS HORNETS NEST TO ENSUE?
8. REMEMBER WHAT A GREAT ASTRONOMER, NAMED -- GALILEO, CAUSED, WHEN HE STEPED FORWARD WITH EMBARRASSING SCIENTIFIC TRUTHS?  
WELL, HISTORY IS ABOUT TO REPEAT ITSELF WITH TODAYS STUPID FEARS!
9. WILL PRESIDENT JOHNSON ISSUE A WHITE PAPER, OR A WHITE WASH ON U.F.O'S?

SWAMP GAS --- ANYONE?

Milwaukee, Wisconsin 53211

HON. GEROLD R. FORD  
CONGRESS OF THE UNITED STATES  
OFFICE OF THE MINORITY LEADER  
HOUSE OF REPRESENTATIVES  
WASHINGTON, D. C.

MARCH 30, 1967

Johnson will lose the  
election on this issue

Dear Congressman Ford,

I hope to prove that the C.I.A. has  
been involved, and still is involved with the U.F.O. issue.  
This is the very reason people are so afraid to step for-  
ward with proof, and if every witness is threatened or  
frightened off and any evidence confiscated kept or  
destroyed - then how in hell are we ever going to  
get this thing out in the open??

In the May 1967 issue of "FATE" magazine  
is a quote taken from Dr. Edward U. Condon, head of the  
University of Colorado research project, is quoted as stating  
last January 25 in a speech at Corning N. Y. that - - -

NOTE 66 "It is my inclination right now to recommend that the  
government get out of this business. My attitude right  
now is that there's nothing to it - - but I'm not supposed  
to reach a conclusion for another year," Dr. Condon  
stated according to Dick Olive reporter of the  
Elmira, N. Y. Star-Gazette.

PHOTOCOPY FROM GERALD FORD LIBRARY

(1967)

In the April issue of "SAGA" magazine there is an article titled - "Had the U.S. Air Force captured a Flying Saucer?" Now from this article are some very interesting passages such as - - - - -

QUOTE! Dr. James E. McDonald, professor of meteorology at the University of Arizona and senior physicist at the Institute of Atmospheric Physics. For some 12 years, Doctor McDonald has been investigating U.F.O sightings in the Southwest and interrogating on-the-spot observers. Leveling an accusing finger at the USAF's handling of U.F.O investigative procedure, he labeled it as 18 years of "administrative foul-up" and deliberate Government "debunking" of U.F.O sightings which frightened away scientists and left needless confusion in the public's mind.

Also from the same article of "SAGA" magazine April issue 1967 - - - (Editor's note: On October 20, 1966, Dr. McDonald stated that he had found evidence in U.S.A.F. documents that the C.I.A., in 1953, had asked the Air Force to "debunk" flying saucer reports because they were clogging vital military reporting channels and demanding too much time of investigators.) The C.I.A. further declared that the conclusion had been reached that sighted UFO's were not hostile, were not the "artifacts" of ->

(CON.)

(CON.)

... a foreign power or extraterrestrial in origin.

Now, how in hell does the C.I.A. know so damned much when they are not scientists??? If legitimate outfits like yours cannot face this issue, then trash outfits like the Communists, Nazis, John Birch, and Ku Klux Klan just might raise this issue for you people.

Tell the President not to bury this issue of U.F.O.'s like a dog does his manure on a lawn, because the stench will rise up and overwhelm him in the political long run. Tell the President to get the damned C.I.A. out of the U.F.O. issue so so honest people can step forward and testify with the whole truth. Just check with Maj. Hector Quintanilla Jr. of "Project Blue Book" and just you see how much the C.I.A. is involved in this, because he can tell you plenty right now if you dare to look into it.

The President is not worried about Viet Nam - it is this issue of U.F.O.'s that has him so damned worried, and you should know this by now.

The Civil Rights movement, College students, and the president's political rivals for president, will make this U.F.O. business a prime issue and defeat Mr. Johnson if he does not end this U.F.O. credibility gap.

I hope you will give this issue further study Mr. Ford, because I am quite sure you will uncover the greatest stink this country has ever known or ever will.

I hope you hear from you very soon,  
and good luck.

Sincerely,

Raymond J. Rowley

P.S. I intend to print hard bills on this issue to further antagonize the CIA and the President until the truth comes out. We shall not have to live in threats of fear because the President is so damned worried of the truth hurting religion in some way.

Galileo made a fool of religion in the past, and there is no sure fire guarantee that science will not make a fool of religion again.

Mr. Mark Rosenman  
Deerfield Academy  
Deerfield, Massachusetts

Dear Mark,

Thank you for your recent letter and your interest in unidentified flying objects.

As you may be aware, I have repeatedly recommended that thorough investigative action be taken and the public be informed concerning this matter. I had called for an investigation of this matter in the Spring of 1966. Enclosed are some of the news releases which I issued at that time.

As you <sup>also</sup> undoubtedly know, the Air Force has authorized a thorough and complete investigation of UFOs. This investigation is being conducted at this present time at the University of Colorado under the chairmanship of Dr. Edward U. Condon and we hope it will provide the public with all the facts we need about UFOs. I am looking forward with all other interested citizens to seeing the results of this important investigation. Enclosed are two news articles concerning this current study.

// Because of your interest in UFOs I am also enclosing a booklet prepared by the Legislative Reference Service of the Library of Congress entitled, "Facts About Unidentified Flying Objects" and the latest copy we have of Project Blue Book explaining the work on UFOs by the Air Force. I trust that this information will be of assistance to you.

Kindest regards,

Sincerely,

Gerald R. Ford, M.C.

Gerald D. Ford  
House of Representatives  
Washington D. C.  
20530

Dear Mr. Ford:

I am 16 years old and a junior  
in high school and very interested in  
the subject of Flying Saucers. Three  
years ago I started to do research  
on this subject, after writing to the  
Air Force and various other people.  
I came to the conclusion that  
Flying Saucers were Substantiating  
Spacecraft, but I also believe  
that no one has ever talked to  
the beings inside them or been  
taken for rides into space. I do  
believe though that many times people  
who have seen small beings near  
a landed saucer actually saw

the beings who operated these vehicles. I am convinced of these beliefs and no one can ever change them, for one day we may be the flying saucers to another world.

This year as a science project I am discussing the subject of flying saucers, I have several questions which I would like you to answer for they will help me greatly in my project.

- 1) Do you think that flying saucers are spacecrafts from outer space, or are earthly power?
- 2) Have you ever seen a flying saucer, and would you like to see one?
- 3) Do you think that the Air Force is withholding information from the public?
- 4) Do you think a congressional hearing is needed on the subject, and has there ever been a congressional hearing on this subject?
- 5) If a flying saucer landed in a large city especially Washington D.C.

what do you think the peoples  
reactions would be?

6) If flying saucers do, or might exist  
where do you think they would come  
from?

I would appreciate any information  
you have on the subject that would  
be of help to me. Also please try  
to increase the space program especially  
flights to Mars you hear I think  
has the answers about the flying saucers.  
Thank you for your help.

Sincerely  
Gary Tulgar

Narath -  
Have we written  
him before?

Dear Congressman Ford:

I told you I'd help in the A.F.O. investigation if Congress would just have one. I meant it to, if they would only let those of us who have seen them say our piece with out fear of reprisal and etc. Now about it? Do we get one? I'm tired and in a hurry, but read the enclosed photo-copies. I urge you to contact Senator Warren G. Magnuson so he may inform you further about my findings etc, regarding A.F.O.s. N.A.S.A. said they may use my findings, but I need help fast to protect my research efforts and I have more findings etc. than you find enclosed. If no help I'll have to go to the public as best I can.

P.S. I have more info if you need it.  
Bill.

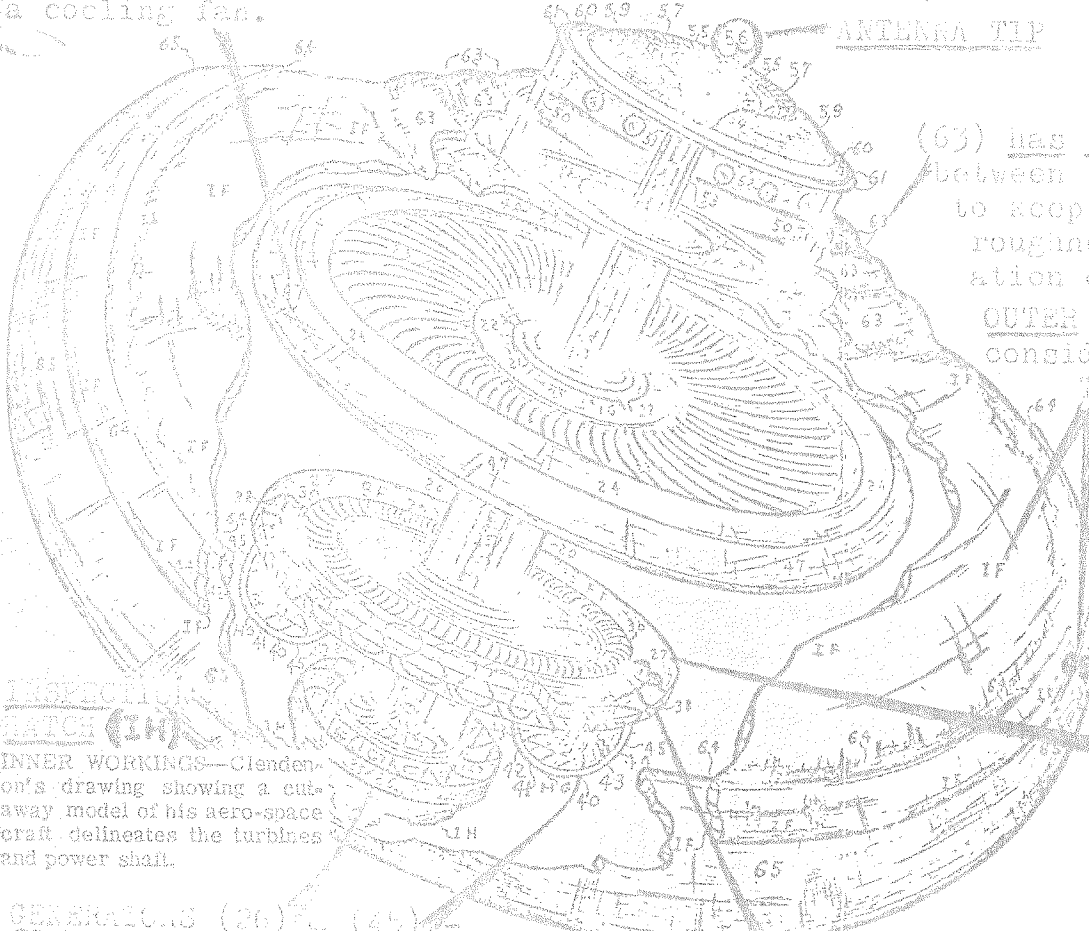

Respectfully

Bill  
Clendenon

Drawing & information by WDC:JR

ALL NUCLEAR POWER PLANTS ARE NOT THE SAME, BUT USUALLY THEY HAVE THREE MAIN PARTS. (1) Nuclear reactor with its control system that furnishes heat. (2) Heat exchanger which produces steam and pressure to turn (3) the turbines and generators which produce electricity.

VALVE FAN (47) - Acts as a valve by controlling air or gas flow efficiency as well as sound wave pitch by slicing up or down the shaft, etc. Obeys law of gyros and acts as a cooling fan.

INSPECTION PATCH (IN) - INNER WORKINGS - Clendenon's drawing showing a cut-away model of his aero-space craft delineates the turbines and power shaft.

GENERATORS (26) & (45) - Produce electricity for ship's operational purposes, etc. The atomic powered electro-magnetic steam turbine in this case may be considered a uni-axial motor; that is, the polarities within the armature, fields, etc., will change simultaneously, & the turbines, etc., will revolve in the same direction all the time.

ANTENNA TIP

(63) has several functions: (a) They act as DIFFUSION POINT between (1F) and (50); (b) provide a rough or grooved cut to keep the air flow, etc., from being distorted; and (c) roughness and amount of surface are important for generation or absorption of heat, etc. (They do not revolve, OUTER FLANGE (65) as well as INNER FLANGE (1F) are to be considered stationary and acting as one in most cases.

They perform several functions. A base or support of the power plant, etc. act as a lifting-carry, air-lift wing, help control heat by their large circular surface, so that heat is distributed more evenly over a large area. acts also as a plenum chamber when operating in ground effect, and helps to control sound waves in regard to noiseless flight, etc. The round shape is structurally stronger, withstanding pressures, mechanical forces, temperature changes, etc., in a more efficient manner.

DRIVE TURBINES (27) - Three nuclear reactors, etc., (45), in a Y position for better efficiency, supply heat. They are controlled through electro magnetic transformers which also perform functions similar to a clutch to engage and disengage valve fan (47) etc., and a governor to control speed of turbines, etc.

HEAT EXCHANGER (38) - Produces steam and pressure to turn the turbines, etc. Also the combined overall system controlled by high speed computers which command prop timing with the aid of mercury, sound waves, etc., at radio frequencies help to produce gravitational and mechanical forces that apply law of gyros to allow ship and its occupants to perform and curvive high speed acceleration, deceleration, right angle turns, etc. Ship must obey law of gyros and tilt to some degree to fire one boiler. (See caption on Sheet 2 regarding Hofman's UFO photographs, etc.) Ship must be level to fire all three boilers at the same time, for hovering, etc. The ship tilt for one boiler to fire (to move off in a ack direction). Ship may move vertically in a level position up or down when all three boilers are firing by controlling the speed of the turbines, etc., which in turn control the amount of air flow and thereby also control the amount of lifting forces, etc., etc.
