As an editor and college instructor
I have often wondered, sometimes
vaguely, often with an accute irrita-
tion, why there was no Black Press
Periodical Directory of a comprehen-
sive nature. The Announcement that
the Black Press Clipping Bureau was
doing such a Directory was sweet
music to my ears.

Chester Higgins
Special Assistant to
Mr. Benjamin L. Hooks
of the Federal
Communication Commission

The BLACK PRESS CLIPPING BUREAU was founded in 1972. It was created to provide press service of the entire Black Press on the following two principles:

The combined Black Press represents a huge stimulating news complex. A growing print media comprised of the correlative and relevance of press importance. Difficult to discreetly handle except by the objective dedication manifested by a responsible clipping bureau. Whose clear objectives are dispensing press source informatively, employing the broad aspects of analytical news research. Offering the service accuracy and the trade responsibility of careful reading.

Our clipping bureau sells the associated ethics of a special news research service.....and not clippings. What a client wants is the reflection of what we give. Showing the comprehensive reliability that each issue of every periodical is being discriminatedly read with related interest and securing analysis. Exhibiting the same care and beneficial enthusiasm that the client would use himself.

These two principles are the foundations of our service perspectives, the prerequisites required to secure our objective counterpoise. Therefore as time evolutionizes the Black Press in terms of coverage, our creative spheres will automatically exact the terms of service compliance. The consistency of press involvement will permit this harmonizing insight. In other words, continuously refining and improving our operations to achieve the perfect press coverage that affords service excellence. Herein lies the satisfying formulae to meet client's approval.

The Staff,

For various reasons as might be expected, certain information is hard to come by. So it was with the realization of this Directory. Yet, regarding all the difficulties encountered, the purpose of our endeavor was to make it as comprehensive as possible. Through our extensive effort, this listing is current as far as we know. Besides addresses, key personnel, date of first publication, frequency, circulation and general description are given wherever we could. But because of the unavoidable such as, late and unanswered questionnaires, relocations, or out of print periodicals by press time, we accept the responsibility for inaccuracies.

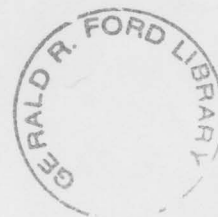

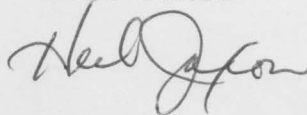

The contents herein does not necessarily warrant our endorsement, although Black Press is applicable.

We would like to thank the many publishers who had faith in our undertaking. That returned questionnaires and sent copies of their publications for review. Also, we are grateful to those who offered suggestions and leads that helped to materialize this Directory.

Research continues, therefore further inquiries should be made with the Black Press Clipping Bureau.

Special thanks goes to the dedicated staff of the Bureau: Arthur Jackson, Stratford Bumpass, Coraleen Williams, Susan Dante, Lawrence Jackson.
