Detroit, Mich

Dear President Nixon:

From all that we have read and heard of Judge Burger, whom you have nominated as Chief Justice of Supreme Court, we think you have made a fine choice and hope the future choices you will make, will be men who have also served as Judges.

The appalling thing in the past as regard the Court has been that THEY have been making the Law. This is the function of Congress, as we all know. Therefore it would seem very important that one experience of the men picked, should be having knowledge *aquired* on the Bench. *over*
