Dear Kevin:
P-803

18

Dear Mr. Nixon

I am a 13 year old boy very concerned about my country and what happens to it.

I am very glad that you were elected as the President for the next four years.

The things that you have done such as the trips to China and Russia. I think they are, the trip, a big step for peace for the world, since the United States, China and Russia are the most powerful nations in the world.

I want to thank you and Mr. Kissinger for the peace in Vietnam.

I grew up with with wars. I was born in the Korean war, and grew up with the Vietnam war. Final the Vietnam war has stopped, all we have to do now is to stop the violence in Ireland and then the world will be free of war.

After we get all the boys home, we have to start thinking about our

country, the pollution, crime and
the unemployed. I have an idea that
will get rid of some of it. Every city
should have one of more groups of people
just to clean up the pollution of
the cities.

Your Truly
Kevin
