Dear Walter:

I would like to say that it was good to hear from you this past week. I certainly would have enjoyed seeing you again and meeting your children when you were visiting in Washington, but unfortunately upon my return from Africa the official schedule was exceptionally heavy and I have had to forego the pleasure of seeing some of my good friends.

I hope you will let me know the next time you and your family are planning a visit to Washington so that a mutually convenient time can be arranged for us to get together. It would be a pleasure to have a chance to talk about our Law School days again.

With every good wish,

Sincerely,

Richard Nixon

OFFICE OF THE VICE PRESIDENT

Your Excellency:

Our court is in recess for this week. Therefore, we have planned to visit Washington. My son and daughter aged 15, and 13, respectively will accompany us.

I have hesitated to write this note. But my favorite morning newspaper says that you have recovered from your indisposition. I don't know how you do it.

I don't have any desire to trespass on your time, but if I can have the children say hello to you when we are at the Capitol, I shall appreciate it. If you were in better shape, I should like to suggest a game of golf.

Cong. Sadlak's office or Senator Purtell will assist us with the rest of our tour.

Sincerely yours,

Walter J. Sidor

JUDGES' CHAMBERS

My Dear Mr. Vice-President:

You cannot imagine how happy my family and I were made by your telegram Thursday Feb. 18th. It was nice to greet you at New Haven on Feb. 11th and receive your personal congratulations, but it was such a pleasant surprise to get the telegram during my installation by Governor John Lodge. May I express to you my most sincere thanks.

It seems that you have led the way for Duke Law grads to make their way in the world. We know of the wonderful way in which you are spreading the name of Duke Law School. We are all proud of your accomplishments.

The demands which are made upon your time leave me wondering whether you are able to lead any kind of a home life. May I recommend the judiciary as a place where you can get some rest from public demands.

Your kindness and thoughtfulness on the most important day of my life shall ever be in my memory.

Gratefully,

Walter J. Sidor
