Dear Mr. Wiesley:

Now that my office staff has been able to dig its way out from under the mass of mail that has come to us in the days since November 8, I want to take this opportunity to tell you how much I appreciated all that you did on our behalf during the campaign.

Losing the election was naturally a keen personal disappointment to Pat and to me. We often talk of the things we could have done or mistakes we might have avoided which could have changed the result. As the months and years go by, these factors will fade into the background. But we shall never forget the devoted and selfless efforts of those who worked so hard for our cause during the campaign. We only wish that we, ourselves, could have done more so that we could have won the victory which you worked so hard to achieve.

Some idea as to the tremendous contribution made by the Volunteers for Nixon-Lodge can be obtained by examining the results of the election. Before the campaign began, there were sixteen million more registered Democrats than Republicans in the country. Yet, we received over thirty-four million votes, carried twenty-six of the fifty states, and failed by only one-tenth of one percent to win a majority of the popular vote.

This result would not have been possible without the support of millions of Democrats and Independents, and a major share of the credit for that achievement goes to you and others who organized and led our hundreds of thousands of volunteer workers.

I have been encouraged by the fact that in the great amount of mail that I have received since the election I have found very little evidence of discouragement or defeatism among those who supported us in the campaign. On the contrary, I sense a renewed determination to continue to fight for the principles for which we stood. I want to assure you that, to the extent my own time will permit, I intend to do everything that I can in working for those principles in the years ahead.

With every good wish,

Sincerely,

DN

Richard Nixon

Dear Mr. Vice President:

As Chairman of the Nixon Volunteers in Mexico, I wish to report that we have been active in holding several rallies and create interest in the elections. Our organization has accomplished the following:

- 1).- We obtained 260 absentee ballots for tourists in Mexico City.
- 2).- We exhibited three of the TV debates films at the American Club to large Republican audiences. The films were furnished by Ambassador Robert Hill.
- 3).- The Republicans in Mexico sent approximately one thousand letters to our friends in the United States urging them to vote for you.
- 4).- I planned a large fund raising dinner, but I could not obtain the services of any well known Republican speaker. We could have raised seven thousand dollars in this manner.
- 5).- We hope that some Republican in the next Congress will present a bill which will permit the American residents abroad of legally to vote in the presidential elections.
- 6).- The Republicans approved a motion last night to create a permanent Republican organization in Mexico called "Republicans in Mexico". We expect to receive official approval from the Republican National Committee and permission to organize chapters in Monterrey and Guadalajara.

I congratulate you and Ambassador Lodge for making a forceful campaign and know you will be elected by a large majority. The reports

Dear Mr. Vice-President:

With reference to my previous reports on the situation in Latin America, I think that it is timely to review them because they interpret the motives of the present crisis. If you compare my reports with today's press releases, you will find that the former were truly informative.

It seems that the opposition elements in the State Department are combined with the Democrats to embarrass President Eisenhower. It was difficult to pass the bill that enables the President to restrict the Cuban sugar imports. This was an important measure as the Communist groups did not believe that we had the nerve to do it so they are now revising their programs. All respect the policy of reciprocity.

The United States is fortunate in having Ambassador Hill in a key position. He is aware of the dangers and should be selected by the Republican National Committee to make important speeches in your presidential campaign. I had several interviews with him lately. I also made this same recommendation to Mr. Peter Flanagan and to Mr. Charles Piercy. You and Ambassador Hill are the two finest speakers in the Republican party and we need more, so that we can win with a larger majority of votes.

It is a privilege for me to represent the Nixon Volunteers in Mexico. My Committee is preparing several political rallies and a fund raising dinner.

With best regards, I remain.

Dear Pete:

*Chum*

After receiving your letter I called Milton Reynolds and Harry Wright to have lunch with me at my club. We discussed the local situation and decided to call on Ambassador Hill and requested his suggestions.

As Mrs. Downs from California, a friend of yours, was in Mexico City we invited her to go with us to see the Ambassador. We had an interesting interview and the Ambassador offered to meet with us at any time.

As Ambassador Hill is a very talent speaker, it seems to us that the Republicans could use him on a speaking tour. I believe that if he were requested to help, he would resign his office and render valuable service in the campaign. Unfortunately the Republican party has eloquent speakers with international background.

We plan to held several American colony rallys and a large fund raising dinner later.

I received the literature which you sent me and find it very attractive. We would like to have the same amount sent to use at the meetings.

With best regards, I remain.

Dear Vice President Nixon:

Received your letter of April 20 and trust that you will approve the idea of a Council of Advisers on Latin America. It is a new idea and I believe it would meet with popular acclaim in the United States and Latin America.

I have lived in Mexico City for thirty two years and have served as president of many organizations. I would like to have your permission to organize a "Nixon for President Club". There is an organization here called "Democrat Abroad" which holds monthly meetings. As most of the sixteen thousand Americans residing in Mexico City are Republicans, we need an organization.

Dear Mr. Vice-President:

{ The Americans residing abroad are proud that you will be the Republican Candidate and the next president of our great nation. We like your record and your ability to evaluate the crises as they happen.

In view of your experiences in Latin America, it would be apropos to proclaim a fresh approach to our problems. You could state that you are appointing a Council of Advisers consisting of one American businessman from each Latin American country. The qualifications could be the following.

- 1.- Ownership of his company.
- 2.- Ten years residence in the country where he resides.

Two meetings a year could be held in Washington with the advisers paying their own expenses. Monthly reports could be submitted directly to you. You could solicit applications and select the most outstanding representative. Neither the Ambassadors nor the State Department should intervene because of their policies. The publicity of this new idea would be well received by the public. You would receive confidential information of great value.

Our prayers are with you constantly.

Dear Mr. Vice President:

The American residents in Latin America sympathize with Mrs. Nixon and you as we have been subjected to many indignities. Your Christianity is unquestioned as you turned the other cheek. These personal sacrifices are not in vain provided the American public and our State Department realize we have made enemies with our weak Good Neighbor policy and substitute it with a reciprocal one.

Can you imagine the repercussions if a L. A. official had been given the same treatment in Washington. American residents of that country would have been murdered, American property dynamited and the Embassy destroyed. Perhaps the Americans in other Latin American countries would have suffered the same fate.

If it had been possible to interview you last July when I was in Washington, I would have given you the report which I am enclosing. Some day we will realize that we can't force our neighbors to love us but we can live together by mutually respecting one another.

Yours very truly,

David Nixon Wiesley  
DAVID N. WIESLEY,

*has p c in

To evaluate our present failures in Latin America it is indispensable to review the history of those countries. It is easy to dismiss this violence as mere communistic outburst but they were only partly responsible. The countries involved could have prevented the desecration but it seems that some misguided officials decided it would indicate that they needed more loans to improve the relations.

The Good Neighbor Policy which was pronounced in 1933 has been misinterpreted and misused by our neighbors. Prior to that date, we used reciprocal policy whereby we forced the Latin American countries to give our citizens and our interests the same guarantees that we extended to them. The foreign policy of all L.A. is based on reciprocity but we are not intelligent enough to accept it now.

All of L. A. was inhabited by Indians except Argentina before the Spanish conquest. Later Spaniards, Germans and Italians arrived in large numbers. Most of them were poor immigrants and they married the wealthiest local girls without any discrimination as to color. Therefore, the Spaniards, Germans and Italian were accepted by L.A. and are extremely influential. The Germans were pro-Kaiser, pro-Hitler and made propaganda against us. The Italians liked Mussolini and were not friendly. Some of the Spaniards liked Franco and they hated us because we didn't aid him during their civil war. The Anti-Franquistas or the Loyalists blame us for their defeat as we applied the neutrality law. The Spaniards cannot forget that we helped Cuba and the Phillipines gain their freedom.

Although 95% of the Latin Americans are nominally Roman Catholics and may not attend church regularly, they resent the activities of the U.S. protestant missionaries. Many priests are Spanish and they are definitely against us due to the missionaries and because they, the U.S. to be a protestant country. Thousands of priests teach in the government and private schools and the pupils are not instructed to be good neighbors. An American priest told me that the local clergy gave him more trouble than the missionaries.

I have heard that the school text books in Latin America do not reveal the truth impartially in regards to the U.S. The local books emphasize that we confiscated Texas, California, Arizona and New Mexico. The communists and politicians subsidize the university student leaders. Some of these leaders are over thirty and are making a career of it. The government gives them too much importance and they strike for any petty grievance. They are seldom punished for the huge destruction of private property and schools.

Another important source of propaganda is the radio, theater, television and the L.A. movies. Any one characterizing an American is usually a half witted tourist or a sweat shop operator. The American gangster movies have also set us in an inferior focus.

The newspapers and magazines with few exceptions are anti-American. They say our fisherman steal their fish and are pirates. The U.S. is accused of every disaster. Too little rain is caused by atomic tests. Every economic disaster, inflation and crop failure is laid at our door. Unfortunately, the people believe these reports.

As the politicians have few constructive issues, they use anti-imperialistic themes. They visit the small towns as well as the cities and convince the educated and the illiterate that they are the chosen ones

to defend them against the yankee marauders. The educated men from better families will not run or accept a political office because they would be suspected of graft. Therefore, the politicians are labor leaders or professional men from the lower strata of society. Most politicians run for office to amass wealth and power instead of patriotic motives. Another underlying motive is the inferiority complex of the lower and middle class and the superiority complex of the blue bloods. This may be due to color, perhaps a trip to the U.S. or merely reading about us. They see that we have an orderly government with guarantees for individuals. They are envious of our organization, yet they are not willing to make any changes in their own system.

Scholarships have been granted by the Guggenheims, Rockefellers and drug manufacturers for years but these gifts do not necessarily result in closer relations. Thousands of Latin pay their own tuition in U.S. schools and universities every year but most of them associate with other Latins and have no particular interest in fraternities, athletics or the various activities. They do not develop a spirit of sportmanship and their dignity does not tolerate horseplay. I attended school with them and served on a student exchange committee so I have a foundation for my conclusions.

The old accusation that American residents don't mingle with the Latins is a half truth. Most American residents are executives, arrive here with their wives and families. As previously mentioned, the Spanish, German and Italian residents usually arrive here penniless and plan to marry wealthy local girls. They marry, raise families and mix wherever they are accepted. The European immigrants are largely Catholics and are more closely associated with the Latins. The religion of the American colony is similar to the U.S. although many do not attend church in foreign countries. The American school foundation admits all nationalities, 33% of the members of the American Club are Mexicans and most of the members of the golf clubs are Mexicans. The American Society finances several local charities. The Junior League girls support and teach in a government school for the blind. The American Legion donated a primary school to the city last year. Do you know every family that lives in your block? I do.

We have an inherent obligation under the Monroe doctrine to guard the lives and property of all foreigners in Latin America. When we prohibit other countries to send troops for protection, we must assume this responsibility. We haven't fulfilled our obligation and this permits some Latin America countries to take advantage of the situation.

**The accusation that we are responsible for their mining crisis is phony. It is a self inflicted catastrophe. The mining taxes have been raised so many times that they represent 70% the selling price. If the taxes were lowered, they could export all of their ores. They want the U. S. to guarantee the mineral prices so that our taxpayers can absorb the losses and so they can maintain their high taxes. The alternative would be to eliminate some of the questionable public works projects from their budget and lower the mining taxes.**

There are many poor people in L. A. and without much hope for improving their situation without radical governmental changes.

Dear Mr. Wiesley:

It was most thoughtful of you to write as you did on May 12 and 30 with regard to my visit to San Marcos University in Peru.

I only hope that the end result of this incident will be an increased awareness in both the United States and Latin America of the determination and ruthlessness of those who instigated the riots, and a strengthening of the economic, political, and cultural ties between this country and our neighbors to the South.

In view of your interest, I thought you might like to have a transcript of some remarks I made at the National Press Club on May 21. As you will note, I pointed out why I considered it so important to visit Universities wherever possible and to explain United States policies to those who will be the leaders of the Latin American countries in the years ahead.

Dear Mr. Vice President:

With reference to my recent report, I had the privilege of entertaining Ambassador Robert Hill and Mr. Ezequiel Padilla, former Mexican Minister of Formulation for lunch yesterday. We conversed for two hours and I am sure that Ambassador Hill obtained valuable information.

I arranged this meeting because Mr. Padilla probably be the next Secretary of Foreign Relations and because he is pro-american in his ideas. I have never heard a local politician express these views on foreign policies as clearly as Mr. Padilla spoke yesterday. He indicated several times that until our State Department adopts a policy of reciprocity, there can not be any prosperity or guaranties in Latin America. Both of them called me later to express their appreciation of the opportunity of meeting each other. I suggested that the Ambassador should continue the interviews with Mr. Padilla who will be very influential in the new regime.

With my best regards, I remain.

Dear Mr. Vice President:

With reference to your trip to South America, it seems that the State Department and United States Ambassadors exposed your life and jeopardized interests. There was nothing to gain by meeting the students. I think that Ambassador Achilles, of Peru should be dismissed immediately.

The communists knew that if any student were killed in the demonstrations or if they were persecuted, the University students would have a common cause in all of the South American countries for Anti-American demonstrations. If the students were not punished for attacks on the Vice President and desecration of our flag, then any assaults on our ambassadors, Americans, or American interests would be pardoned. The result will be more anti-american demonstrations. More American residents persecuted and a new wave of expropriations.

The State Department must know that the South American politicians make violent Anti-American election speeches and blame the U.S. for every disaster. The newspapers accuse us daily for all their dilemmas. Our Ambassadors never refute these charges in the press ( as other countries do ) so the populace believes them. The countries will not make any changes to solve their internal problems because Uncle Sam will bail them out or they will cry "Russia". All of our loans given to the governments has not made us one friend or helped private enterprise. No South American country should be granted a loan until they de-nationalize their railroads, oil and natural resources. Why must our taxpayers support a capricious code of nationalistic laws which impoverish the S.A. people? Extreme taxation and increased labor demands are responsible for our own depression.

This is not a diatribe against the Administration. However, I feel that some policies of State Department must be changed before there can be any prosperity in Central and South America.

You should not risk your life as we need you for our next president. Let the Ambassadors take the chances as they are supposed to comprehend the local situation.

Washington, D.C.

Dear Mr. Vice President:

Received your kind letter with the interesting photograph of President Eisenhower greeting you and your family when you returned from South America. It is a worthy tribute to the sacrifice which you made.

As I am the Honorary Consul General of Iceland and Vice President of the Consular Corps, I attend frequent diplomatic parties and consular reunions. It seems that Latin American countries are anxious for a Pan-American meeting to discuss their export situation. They expect a guaranteed price for their raw materials, but they do not realize that this guaranty would involve a larger investment than the Marshall plan. If we set a precedent by establishing a price for one product, we will make many enemies because they would expect us to finance a complete program. The parity prices on our agricultural products has cost the United States billions of dollars and has eliminated some of our crops from the international market.

Every Latin American country has big problems which they will not face. Until they make certain changes, their economy can not be sound. As Lic. Ezequiel Padilla, former Mexican Secretary of Foreign Relations told Ambassador Hill, "It is the obligation of the United States to insist that Latin America correct these errors before the loans are available".

I trust that our State Department will obtain the immediate release of the Americans in Cuba. We can not permit any nation to hold our citizens as hostages because it could become a common occurrence.

Yours very truly,

Dear Mr. Vice President:

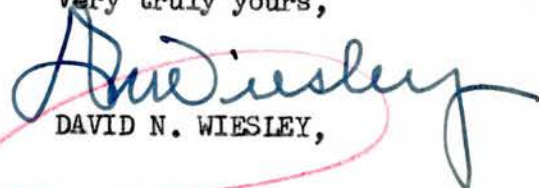

Received your letter of June 9 and the address which you delivered before the National Press Club. It is very informative and should be read by all of the American citizens. Your trip has awakened a new interest in Latin American affairs in the United States which should result in a new approach to our relations with Latin America. An advisory council composed of business men in each foreign country could keep you advised of the pending problems and the solutions.

At one of the recent luncheons with Ambassador Hill, I made a statement with which he agreed. I said that our loans and gifts do not buy friendship or respect but it is impossible to convince the citizens of the United States of this basic truth.

Each Latin American country has fundamental problems which must be solved before democracy and prosperity can exist for the masses. It is a duty of the U.S. Government to recommend the reforms so that there can be a general prosperity instead of enormous wealth of the politicians.

Congratulating you again on your interesting address, I remain.

Very truly yours,

Enclosed please find three articles which appeared in the Ultimas Noticias of Mexico City. I think that they should be translated because they reveal the dangerous situation in Guatemala.

I trust that you found the reports in my previous letter to be interesting. They gave the only composite background of the Latin American relations.

# El Comunista que Dirigió en Venezuela el Ataque a Nixon, Viene a Recibir Instrucciones

Por **RAUL RODRIGUEZ**,  
reportero de  
**ULTIMAS NOTICIAS**

Se ha internado en nuestro país el autor intelectual de la comentada agresión comunista de que resultó víctima el pasado mayo, durante su estancia en Caracas, Venezuela, el vicepresidente de los Estados Unidos, Richard A. Nixon.

Gustavo Machado, líder del comunismo venezolano, viene a recibir orientación y ayuda material de la embajada rusa, por conducto de Vicente Lombardo Toledano, para desatar en su país una campaña terrorista que permita a los rojos adueñarse del poder, en las elecciones del próximo noviembre para instituir un Gobierno constitucional, en sustitución de la Junta que maneja los destinos de esa nación sudamericana.

Desde luego, Gustavo Machado trata de organizar en México un ejército filibustero para que, llegado el caso, refuerce a los comunistas venezolanos en su lucha por el poder, según denuncia que hizo

ayer a **ULTIMAS NOTICIAS** la señora Belén Valarino Sucre, directora de la revista "Mundo Social" de Caracas, quien asegura que Vicente Lombardo Toledano sigue siendo el dirigente del movimiento comunista en Hispanoamérica.

## TRATABAN DE ASESINAR AL SEÑOR NIXON

La señora Valarino, al volver a referirse a la agresión de que resultó víctima en Caracas el vicepresidente de los Estados Unidos, hizo esta revelación: los comunistas venezolanos querían asesinarlo y hubieran logrado su objetivo de no ser porque la policía, oportunamente, decomisó a los rojos de Caracas un lote de cuatrocientas bombas "Molotov", que hubieran utilizado en la agresión al visitante y su comitiva.

Nos asegura la señora Valarino, que la noticia respectiva fue censurada para no aumentar el escándalo que produjo la agresión contra Richard A.

**SIGUE EN LA PAGINA DOS**

**LA SEÑORA Belén Valarino Sucre**, directora de una revista en Caracas, Venezuela y descendiente directo del mariscal Antonio José de Sucre; denunció a UN que se encuentra en México el autor intelectual del atentado al vicepresidente de los Estados Unidos, Richard Nixon, en su país.

# Reconquista Bolchevique del Poder en Guatemala

## Se Prepara Desde México, y el que la Dirige Goza de Pasaporte Mexicano

El recién iniciado gobierno del general Miguel Ydígoras, de Guatemala, tendrá que encarar un grave e inmediato problema: la recuperación del comunismo en la República del Quetzal.

Según informa la revista cubana "Bohemia", el más destacado comunista guatemalteco, José Manuel Fortuny ha trazado, desde su exilio en México, el programa más conveniente para este resurgimiento político del Partido Comunista en su país.

Fortuny, según "Bohemia", viaja con pasaporte mexicano, bajo el nombre falso de Martín González Frías, y recientemente fue hasta Moscú, para recibir instrucciones y consignas sobre las tácticas de lucha a seguir en esta "reconquista de posiciones". La Secretaría de Relaciones Exteriores de México proporcionó este pasaporte a Fortuny, bajo nombre falso, con fecha 24 de octubre de 1957, según la misma información.

### NO ES EL UNICO CASO

Por lo que nosotros sabemos, no es el primer caso de un comunista extranjero, más bien dicho, internacional, que usa pasaporte mexicano para encubrir su personalidad. El italiano Vittorio Vidali, conocido comunista que actuó en la Guerra Civil de España con el sobrenombre de "comandante Carlos", también viaja con pasaporte mexicano, y bajo esta nacionalidad fueron denunciadas no hace muchos años sus actividades pro comunistas en los sucesos de la ciudad de Trieste, cuando las pugnans entre la Yugoslavia de Tito e Italia, por el control de este puerto del Adriático.

## Homenaje de los Leones a Benito Juárez

Una gran columna de "Leones" desfiló esta mañana en pintoresco espectáculo presenciado por miles de capitalinos.

Los delegados a la XXIV Convención Nacional de Clubes de Leones de la República, inaugurada anoche por el secretario de Gobernación, Angel Carbajal, después de las 10 horas, iniciaron su desfile en el monumento a Francisco I. Madero.

Siguió por la avenida 20 de Noviembre; la columna; prosiguió por el Zócalo y continuó por 5 de Mayo y Avenida Juárez, hasta el Monumento a la Revolución.

En el camino hicieron un alto en el Hemiciclo a don Benito Juárez y colocaron una corona floral. El "león", liderado por Bernardo Reyes, prosiguió para rendir homenaje a don Benito Juárez en Guetlatoo.

El comunista guatemalteco José Manuel Fortuny, quien viaja con pasaporte mexicano expedido falsamente a nombre de Martín González Frías, según informaciones publicadas en Cuba. Fue expedido por Relaciones Exteriores, con fecha 24 de octubre de 1957 y tiene validez hasta el 23 de octubre de 1959.

Dear Mr. Wiesley:

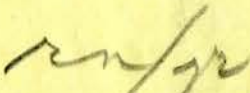

This is just a note to tell you how much I appreciate your letter of November 5, in which you so generously offer your support for 1960.

I am sure you know how grateful I am for your expression of confidence, but I believe you will agree with the decision I have made not to engage in any activities with regard to the 1960 elections at this time. I personally am concentrating my efforts exclusively during this period on the Senate, House and Governatorial races for 1958 because I am convinced that if the Republican Party is to win in 1960 we have to begin with a good showing two years before.

You can be sure, however, that I shall appreciate receiving any suggestions or advice you may have from time to time with regard to my own activities. In the meantime, if circumstances should develop along the lines you suggested, I shall be in touch with you.

With every good wish,

Sincerely,

Richard Nixon

Mr. Richard Nixon

 Washington, D.C.

Dear Mr. Vice-President:

Your speech in San Francisco last month was well received and most opportune. As the public learns your policies, you will be the logical Republican candidate and our next president.

In due time I will organize the Mexican chapter of "The Nixon for President" group. If we could hold a fifty dollar a plate banquet with you as the principal speaker, we could raise fifty thousand dollars for the Republican Campaign Fund. This would be a small banquet compared to the large ones in the U.S.A., but it would be a tribute to the thousands of Americans who are residents of foreign countries that pay American income taxes without any representation.

Awaiting your comments, I remain,

Yours sincerely,

Memo

It was reported to me last month that Mr Lopez Mateos would be the official candidate for president of Mexico. He was supported by ex president Cardenas (decorated with the Stalin Peace Prize) and the labor chieftain Fidel Velasquez. Other middle of the road ex-presidents tried to stop the nomination but the President made the final decision. Lopez Mateos is the Secretary of Labor and considered far left of center. It is reported that the Russian Embassy is delighted. It is apparent that Ambassador Hill will have more problems. Have the millions spent in economic aid been wasted?

PERSONAL

MEXICO D. F.  
23 DE SEPTIEMBRE DE 1957

QUERIDO EMBAJADOR Y AMIGO:

EN LOS TRÁGICOS DÍAS DE LA ÚLTIMA GUERRA MUNDIAL, CUANDO LOS HOMBRES LIBRES ESTABAN ACONGOJADOS POR LOS TRIUNFOS DE LAS FUERZAS TOTALITARIAS Y LOS ESPÍRITUS DÉBILES COMENZABAN A FLAQUEAR, CREYENDO INMINENTE LA DOMINACIÓN DE LOS QUE PARECÍAN INVENCIBLES, EL PRESIDENTE F. D. ROOSEVELT PROCLAMÓ LAS CUATRO LIBERTADES, COMO POSTULADOS DE LUCHA Y DE DEFENSA EN LA LID QUE SE LIBRABA PARA CONSERVAR LA LIBERTAD HUMANA. ESAS CUATRO LIBERTADES QUE FUERON UNA REAFIRMACIÓN DE PRINCIPIOS DEL DERECHO CONSUECUDINARIO, YA PRESCRITAS EN PARTE POR LA CONSTITUCIÓN DE MUCHOS DE LOS PAÍSES DEMOCRÁTICOS, SIRVIERON PARA REVITALIZAR EL ESPÍRITU DEMOCRÁTICO Y PARA DARLE ALIENTO A TODOS LOS HOMBRES QUE SUFRÍAN PERSECUSIÓN Y MARTIRIO, Y A TODOS LOS PUEBLOS QUE ERAN AZOTADOS POR LA HECATOMBE DE LA GUERRA.

LOS MISMOS EJÉRCITOS ALIADOS SE SINTIERON ABANDERADOS DE UN MÁS ALTO Y NOBILÍSIMO IDEAL Y SUS SOLDADOS OFRENDARON LA VIDA, EN TODAS LAS LATITUDES DE LA TIERRA, SEGUROS DE QUE SU SACRIFICIO ASEGURARÍA A LOS PUEBLOS UNA VIDA MEJOR, LIBRE DE TEMOR Y DE MISERIA. LA FUERZA DEL PENSAMIENTO DIÓ, A LA FUERZA DEL BRAZO, Y A LA VOLUNTAD, EL MÁS PODEROSO IMPULSO LIBERTADOR PARA ALCANZAR LA VICTORIA; Y LA HUMANIDAD VOLVIÓ A RESPIRAR LIBREMENTE, SALVADA DE LAS AMENAZAS DE ENCADENAMIENTOS Y DISCRIMINACIONES.

EL PANORAMA SOMBRÍO DE LAS PROVOCACIONES Y LAS AMENAZAS DE ESCLAVIZACIÓN, SE REPITEN NUEVAMENTE, BAJO DISTINTAS BANDERAS PERO CON SIMILARES MOTIVOS, EN CUANTO A LA EXPANSIÓN Y A LOS PROPÓSITOS DE DOMINACIÓN MUNDIAL. Y LOS ENEMIGOS DE LA DEMOCRACIA ESTÁN TRABAJANDO INCESANTEMENTE EN TODOS LOS SECTORES DE CADA PAÍS, CATEQUIZANDO, SOBORNANDO O ALQUILANDO, HOMBRES QUE LES SIRVAN PARA LA EJECUCIÓN DE PLANES DE SOCAVAMIENTO Y DEBILITACIÓN DE LA RESISTENCIA DE LAS FUERZAS DEMOCRÁTICAS, O PARA EJERCER EL SABOTAGE TÉCNICO EN TODOS LOS PUNTOS VITALES, YA SEAN CIENTÍFICOS, INDUSTRIALES O MILITARES. Y TODO ESTO SE HACE APROVECHANDO EL FANATISMO QUE HA PRODUCIDO EL HALAGO DEL DESPOSEIMIENTO DE UNOS PARA "EL MEJORAMIENTO DE TODOS" O SEA LA DESTRUCCIÓN DEL CAPITALISMO. Y ES NECESARIO RECONOCER QUE ESTE ALICIENTE, CON TODO Y SER MENTIROSO O QUIMÉRICO, TIENE UN PODER EXTRAORDINARIO PARA SEDUCIR A QUIENES LA NATURA NO LES DIÓ SUFICIENTE CAPACIDAD PARA DISCERNIR ENTRE LA VERDAD Y LA MENTIRA Y ENTRE LA RAZÓN Y

EXCMO. SEÑOR DON ROBERT C. HILL  
EMBAJADOR EXTRAORDINARIO Y PLENIPOTENCIARIO  
DE LOS ESTADOS UNIDOS DE AMÉRICA  
MEXICO D. F.

LA RAZÓN Y LA SINRAZÓN, O LOS HIZO SIMPLEMENTE IRRESPONSABLES.

PERO FRENTE A LA POSIBILIDAD DE UNA AGRESIÓN QUE DESATE LA GUERRA, CUANDO MENOS LO ESPEREMOS, EL GOBIERNO DE SU PATRIA, POR MEDIO DEL EXCELENTÍSIMO SEÑOR PRESIDENTE DWIGHT EISENHOWER, DEBE PROCLAMAR YA UN NUEVO CREDO DEMOCRÁTICO, EN EL CUAL SE LE DECLARE GUERRA A MUERTE A LA MISERIA, A LA IGNORANCIA, A LAS ENFERMEDADES, AL TERROR, A LA ESCLAVITUD Y A TODO AQUELLO QUE DENIGRA O NIEGA LA PERSONALIDAD HUMANA, PARA FORTALECER LA RESISTENCIA DE LOS CAUTIVOS Y LOS OPRIMIDOS, Y PARA QUE TODOS LOS HOMBRES LIBRES DE LA TIERRA ADVIERTAN QUE EL IDEAL DEMOCRÁTICO TIENE UN NUEVO CONTENIDO HUMANO Y CON EL NUEVO CREDO-MOTOR CONTRIBUYAN A DISLOCAR LAS MANIOBRAS "REDENTORISTAS" DE LOS TRAGA-PUEBLOS.

EL GOBIERNO NORTEAMERICANO, QUE ES EL LÍDER MÁXIMO DE LOS PUEBLOS LIBRES, NECESITA RESTAURAR LA FÉ Y LA ESPERANZA, QUE HAN SIDO PARA EL HOMBRE SUS DOS MÁS GRANDES SOPORTES EN TODAS LAS HORAS DE SUFRIMIENTO Y DE DOLOR, DÁNDOLE A ESAS VIRTUDES UN NUEVO Y MÁS HONDO SENTIDO PARA QUE LOS DESHEREDADOS Y LOS DESAMPARADOS NO DESEPEREN Y SE ENTREGUEN A LOS ENEMIGOS DE LA DEMOCRACIA, COMO EL ÚLTIMO Y TRÁGICO RECURSO DE SU OSCURA EXISTENCIA. NECESITA BUSCAR LOS MEDIOS PARA QUE SEA LLEVADA A LOS PUEBLOS LA VERDAD DE SU DESINTERÉS EN EL AUXILIO TÉCNICO Y ECONÓMICO Y PARA QUE ESTOS COMPRENDAN LA VERDADERA RAZÓN DE LA DEFENSA CONTINENTAL Y SUS EXIGENCIAS. NECESITA, EN FÍN, DAR AL ESPÍRITU HUMANO, CON ESE NUEVO EVANGELIO DEMOCRÁTICO, LA POTENCIALIDAD INDISPENSABLE PARA LIBRAR RECIAS Y VICTORIOSAS BATALLAS CONTRA LAS FUERZAS MATERIALISTAS QUE TRATAN DE ANIQUILARLO.

UNA DE LAS RAZONES POR LAS CUALES LA GENEROSA AYUDA ECONÓMICA QUE EL PUEBLO NORTEAMERICANO HA DADO A MUCHOS PUEBLOS —POR MEDIO DE SU ILUSTRE GOBIERNO— NO HA RENDIDO LOS FRUTOS QUE ERAN DE ESPERARSE, ES PORQUE LA ACCIÓN INTERGUBERNAMENTAL NO SIEMPRE TRASCIENDE HASTA ESOS PUEBLOS, EN TODA SU MAGNITUD, O PORQUE A TRAVÉS DE LAS AMBIGUEDADES O PUDORES OFICIALES LOS PUEBLOS NO VEN EN ELLA EL REMEDIO DE LOS MALES QUE LES AFLIGEN. LA ACCIÓN EXCLUSIVAMENTE OFICIAL TIENE, ENTRE ALGUNOS INCONVENIENTES, EL DE QUE SATISFACE PLENAMENTE A UNA MINORÍA, QUE ES A VECES IMPOPULAR, Y LE DEJA AL ENEMIGO LA MAYORÍA, IGNORANTE O MAL INFORMADA, PARA QUE CON SUS INTRIGAS DEFORME LOS BENEFICIOS DE LA AYUDA Y ENCIENDA ODIOS Y NO SENTIMIENTOS DE GRATITUD.

LOS ENEMIGOS DE LA DEMOCRACIA, ENCABEZADA POR LOS PODEROSOS ESTADOS UNIDOS DE NORTEAMÉRICA, HAN VENIDO TRABAJANDO, DESDE HACE VARIAS DÉCADAS, ENTRE LOS ELEMENTOS MÁS SENSIBLES DE TODOS LOS PUEBLOS HISPANOCAMERICANOS: LOS MAESTROS, LOS ESTUDIANTES UNIVERSITARIOS, LOS PERIODISTAS, LOS RECLUTAS, ETC, PARA QUE ESTAS PARTES VITALES FORMEN LAS FUERZAS QUE HAN DE DAR APOYO A TODA OBRA DE SUBVERSIÓN, O PARA FORMAR GOBIERNOS SUMISOS QUE REPUDIEN LA SOLIDARIDAD CONTINENTAL, O LA PERTURBEN, EN LAS HORAS EN QUE SUS DIRECTORES PONGAN EN PELIGRO  
O ROMPAN LA PAZ

O ROMPAN LA PAZ DEL MUNDO. TESTIMONIO DE ESTA OBRA ANTIAMERICANA SON LOS DISTURBIOS QUE SE ESTÁN PRODUCIENDO EN VARIOS DE NUESTROS PUEBLOS.

PARA DETENER TODA OBRA DE DESQUICIAMIENTO SOCIAL Y DE DERROTISMO, URGE LA NUEVA FÉ DEMOCRÁTICA, LA NUEVA FÓRMULA POLÍTICA QUE DEBE SER USADA INMEDIATAMENTE, PARA QUE LOS DESHEREDADOS DE LAS DEMOCRACIAS ADVIERTAN QUE NO ESTÁN SOLOS, NI ESTÁN ABANDONADOS, Y QUE HAY QUIENES SE DESVELAN YA BUSCANDO LA SOLUCIÓN DE SUS DESVENTURAS.

SI ESTE PASO ES DADO A TIEMPO, SI SE JUSTIFICA EXACTAMENTE LO QUE VALEN LAS FÓRMULAS HUMANAS QUE PUE- DAN HACER REFLEXIONAR AL HOMBRE PARA ESCOCER EL CAMINO QUE DEBE SEGUIR, ES POSIBLE QUE AÚN SEAN GANADAS MUCHAS BATALLAS PARA LA PAZ, O QUE SI NOS FUERZAN A LA GUERRA NO VAYAMOS A ELLA CON TALONES DE ARCILLA...

SABIENDO QUE SU EXCELENCIA ES UN VEHEMENTE SOLDADO DE LA DEMOCRACIA, FERVOROSO CREYENTE EN LOS ALTOS DESTINOS QUE LA AMÉRICA TODA ESTÁ LLAMADA A CUMPLIR, Y GRAN DEFENSOR DE LA LIBERTAD, ME HE PERMITIDO HACERLE ESTA MODESTA SUGERENCIA, CON EL ÚNICO PROPÓSITO DE COOPERAR EN LA DEFENSA DE NUESTRA CIVILIZACIÓN CRISTIANA Y DE LA DEMOCRACIA LIBRE.

CON LAS DEMOSTRACIONES DE MI MÁS ALTO APRE- CIO Y CONSIDERACIÓN MUY DISTINGUIDA, ME REITERO DE SU EXCE- LENCIA SU ATENTO SERVIDOR Y AMIGO,

Hon. Richard Nixon  
Office of the Vice President  
Washington, D.C.

Dear Mr. Vice President:

Received your kind letter of August 1st. and trust that we can meet during my next trip to Washington.

I met Ambassador Hill and believe that he will be our best representative since the late Dwight Morrow. It will be a pleasure to know him and I hope to play golf with him soon.

Milton was lavishly entertained by the Mexican officials. They expected him to announce that the duties would not be increased on lead and zinc. He made no commitments so they have forgotten him.

A new conservative party has been formed in Guatemala. Their candidate for presidente will be Jose Gregorio Diaz Lorca, who is a very close friend of mine. He was a candidate in 1945, but was defeated by the communists. It is my opinion that our Embassy officials here cooperate closely with him. He would make an ideal president for Guatemala.

Enclose is a memorandum of interest.

Yours very truly,

As my secretary told you, my schedule had been completely committed during your four day visit and, as a result, we could not work out a mutually convenient time for us to get together.

I hope that the next time you are planning a trip to Washington, you will drop me a note because I would enjoy having the opportunity of a visit with you.

Dear Mr. Vice President:

Am attending the Shrine Imperial Council Sessions in Minneapolis on July 14-18th. Will be in Washington D.C. on July 19th as I have an appointment from 9 A.M. - 10 A.M. with the Ambassador of a South American Country. I have been offered the honorary position Economic Attaché in Mexico.

I realize that there are many more important requests for interviews, but I thought that you might be interested in an explanation that a Mexican ex-Secretary of State gave me last week on the Mexican Foreign policy. It was the most revealing interpretation of their doctrines and answers many questions. If you can't give me an appointment on July 19th or 20th, I will write the contents on some future trip to the United States, as the risk involved would be too great if mailed here.

*Feb-31-77 Km. 418*

If it is possible to grant my interview, I can be contacted at the Nicolet Hotel in Minneapolis from July 14-18th. You will be the next President of the United States and confidential information on Latin-American policies should be valuable in improving international relations.

OFFICE OF THE VICE PRESIDENT

Hon. Richard Nixon,  
Office of the Vice President,  
Washington, D.C.

Dear "primo":

Received your kind letter of May 21st. and appreciated the information about your grandparents. One of my aunts kept the family records and I will see if some of the relatives lived in Pennsylvania.

I read in the Chicago Tribune about some statements made by Senator Morse after giving due consideration to his inopportune remarks and decided to give you a memorandum on the true course of events.

I will continue to keep you informed and if you need any additional information, I can get it for you.

With best regards, I remain,

Yours very truly,

David Nixon Wiesley

## MEMORANDUM

OIL.- A popular fallacy is the old story that the U.S. oil companies cheated the natives when buying their oil leases. The truth is that the smarter natives and the politicians bought the leases and sold them to the oil companies.

Another popular story is that the oil companies financed revolutions and intervened in Mexican politics. When the rebels took over the refineries or oil fields during the revolutions, the companies were forced to contribute to save the installations. Owing to the political uncertainties, the oil companies did not intervene directly or indirectly in the elections.

The exaggerated annual demands of labor leaders and the refusal of the Mexican Government to permit an increase in the gasoline price were responsible for the strike in 1937. Lombardo Toledano, who is considered to be the Russian-backed labor leader, induced ex-President Cárdenas to expropriate the oil companies. Cárdenas received the Stalin Peace Prize two years ago. Many people believe that Toledano was instructed by Russia to instigate and consummate the confiscation. Morris Cooke, a leftist engineer, was sent by Roosevelt to evaluate the oil properties and eventually the companies received approximately ten cents on the dollar.

Since the expropriation in 1937, the politicians managing the oil administration quadrupled the number of employees, but the oil production has declined. Consequently, Mexico imports more oil. The California Standard Oil is delivering more gasoline to the Mexican west coast than they did before the expropriation. The Venezuelan American companies are bringing in oil and gasoline to the Mexican gulf coast. Therefore, it is illogical to assume that the American oil companies would be interested in returning to Mexico. The ex-Republican renegade, Senator Morse, is incorrectly informed if he thinks that the oil companies prefer strikes and governmental restrictions to free trade.

Mexico spends more money on oil and gasoline importations than on any other commodity. Unless new authentic fields are discovered, the situation will be aggravated. Cárdenas would not permit any foreign oil company to operate here during his lifetime but after his demise, some changes may be made.

I have no personal interest in this matter. I sold machinery to the oil companies and to Petroleos Mexicanos. I visited the fields and refineries many times. The workers were better paid and the housing conditions were superior when the companies operated. The old employees will tell one confidentially that they regret the expropriation.

With reference to the protests by the Mexican Ambassador against higher duties on lead and zinc, please take into consideration that Mexico collects an export tax on all metals. If they eliminate this tax, they can still export at a profit.

Dear Mr. Wiesley:

This is just a note to thank you for your recent letter giving me some background information concerning your work in Mexico over the years. I shall appreciate having the benefit of your thinking from time to time.

It was a pleasure to meet Mario Cantinflas here in Washington last month and we had a brief visit in my office. From what I understand he is a very talented actor as well as a good will ambassador.

I was interested to learn that your grandfather was born in Bainbridge, Ohio. My grandfather, Samuel Brady Nixon, was born in Pennsylvania but moved to Vinton County, Ohio, when he was very young. My father was born in Vinton County and spent his early years there. No doubt there are quite a few members and relatives of the Nixon family still living in that area.

With best wishes,

Sincerely,

Richard Nixon

Office of the Vice President  
Hon. Richard Nixon,  
Vice President of the United States of America,  
The White House,  
Washington, D.C.

Dear Mr. Vice President:

It was a pleasure to meet you in Mexico City a few years ago at the reception given by the American Club and the American Chamber of Commerce. It is extremely gratifying to the American Residents to have a Republican Administration in the White House, as all Americans residing in foreign countries become loyal Republicans.

During the Truman regime, a fraternity brother of mine, Harry Vaughn, requested reports from me on Mexican affairs and I cooperated. I am convinced that my briefs were read by Truman, as his statements on his visit to Mexico City co-incided with my suggestions.

I was opposed to the policies of the Truman era but considered it my patriotic duty to keep them informed. It seems that all reports written by our State Department must conform to political policy format of the Secretary, so objective reporting is indeed rare. As you will be the next president, I would be delighted to keep you abreast of the Mexican developments.

My grandfather, David F. Nixon, was born in Bainbridge, Ohio. Many other Nixons whom I have met are of Scotch Irish descent and came from that area. Did your relatives live in that state?

After graduating from an American College, I established a machinery company in Mexico City. I was president of the American Club for four terms and at present am a director in one Mexican bank and a consultant of another. I am president of my company and was Potentate of Anezeh Temple here in 1950. My companies are well organized and I have time to analyze the situation on a strictly honorary basis.

(Continuas)

Congratulations on entertaining Mario Moreno. He is the most popular Mexican actor and a gentleman. His cooperation and goodwill are extremely advantageous for future relations.

With best wishes for your continued success, I remain,

Yours very truly,

David Nixon Wiesley
