Dear Mr. President:

During your visit to Oklahoma on Tuesday, March 16, 1983 an Oklahoma Patrolman by the name of D.C. Russell was critically injured while on duty as a part of the security forces. As you will note from the attached news clippings, Mr. Russell had his leg amputated.

I have taken a personal interest in his recovery and am now arranging a trip to Washington for Mr. and Mrs. Russell on October 2 through October 8 of this year. Since he is still recovering from the trauma of his accident, this trip is very meaningful to him.

You called him while he was in the hospital and your personal concern meant a great deal. If possible, we would like to schedule a brief appointment for Mr. Russell and his wife with you during their visit here.

Thank you very much.

Sincerely,

The Honorable Paul Laxalt

Dear Paul:

The one voting block which I believe has the greatest potential to develop support on behalf of the President is the Italian-American community. To date not nearly enough attention has been focused on this group.

That is why I believe we should take advantage of a wonderful opportunity that will present itself on the evening of October 8th in New York City. The Columbus Citizens Foundation, Inc. will be hosting its annual dinner at the Waldorf Astoria in celebration of Columbus, and Sophia Loren, who is the Grand Marshall of the Columbus Day parade in New York, will be in attendance.

This group probably represents the best cross section of the Italian-American community in New York. They would certainly be most appreciative of President Reagan's attendance. I believe that the President could make a dramatic impact on the Italian-American community, not only in his attendance, but by also pointing out that the President was responsible for appointing the first Italian-American in the history of the Second Circuit Court, Judge Richard Cardamone.

Whatever you can do to assist in the President's attendance at this dinner, would, I believe, pay great dividends.

Dear Mike:

Your recent note is deeply appreciated and, regarding the American Apparel Manufacturers Association, I have advised Fred Ryan of my availability to assist in any way possible. In the event that the President does seek re-election, I can assure you this is an exceptionally fine and receptive platform for him, and it also can be instrumental in reaching a very large segment of the voting public.

The Jim Thorpe project is one I thought might be developed and tie in with the Olympic Games opening here in Los Angeles next year. As you will recall, during the campaign there were some problems with the American Indian constituency and this type of action by the President could be beneficial.

refer to Paul?

On another subject, I understand that there will be a State dinner or event for a high official from Egypt. Should this be true and there is an opportunity to extend invitations to selected individuals, I would make the following suggestion: Mr. David Lewis, Chairman of the Board and Chief Executive Officer of General Dynamics Corporation, would be a worthy invitee. Should you need additional facts about this suggestion, please have someone from your staff contact me.

I don't think a lot of people who call on you for favors take the time to thank you. Thus, this letter is to express my appreciation for your friendship, for the sacrifices you are making serving your country, and to thank you for the cooperation you have given me in matters which, I assure you, are always meant to be for the benefit of the President..

May the good Lord be with you, keep you well and healthy, and may you have even greater success in 1984.

Most sincerely,

"Dear Mr. Deaver

I will try and write you a few lines. Thank you
for your letter. Yes looked like the Democrats
are out to hunt our President and his party. First it
was Dan Crane they tried to make resign so they could
put a Democrat in his seat. Now they are trying to
take the Senate over and Dale Kessenbaum and other
Republicans are falling for their trick. Now they
are after Mr. Watt it is not him it will be
Senator Helms Dean East are my one who they
want out. So Sir you will have to help our President
Keep these people in the Senate. and explain to
Dale and Kessenbaum Goldwater Macleod Heflitz
that they may be kept. Sir Watt may have
said some things not right to some people. but
the Democrats are waiting for a wrong turn and
they are ready to take that wrong seat and
turn it over to their Democrat party. as ^{Senator} Mr.
Richard Lugar and Frank Fahrenkopf know
how the Democrats are doing. that is why ^(DEMOCRATS) they
are friends to Russia and letting them have grain
for the murder they did to these people on
board that plane. the Democrats trade grain
for likes, and the farmers are only for there

selves and have no mercy toward no one.
 and the Russians are using the farmers to get
 what they want. Grain to eat and sell for their selves.
 and I say ^{Russian} they should feed their own selves. I
 say the United States should trade with other
 Countries. I mean Grain. for all Russian is doing
 with Grain they buy it from the United States.
 in stockpiling it. to sell it to other Countries.
 You see they know the American farmers and
 teachers the main United States economy and the
 main source to save American and her people, that
 is why Russian is trying to destroy the American
 schools by using Unions to do so, and farmers
 Unions. why should America Tax payers keep on helping
 Unions. when they are out to destroy, this is breaking the
 United States Constitution, so I say the farmers and
 teachers are wrong they support each other, for
 they both are Unions. the America farmer is after
 big money and fast money, it is a Racket and Russian
 tricks and schemes to get what they want by using the
 American farmers. Don Glickman is falling for it. No
 wonder other Countries are buying Grain from Russians.
 it Russian do not have any idea in supplying it to them.
 the United States is doing so. making money out of it.

here and over there, I can't see this spread, and it should
 be stops. no wonder other Countries are buying grain
 from Russia because the American farmers give
 Russia what they want. they would sell life for grain.
 no wonder the prices are so high in our food stores
 and saying farmers did not have a crop but still
 let the people of the United States buy high food
 prices in all food stores. but they can go on feeding
 Countries free with our 747 passenger dollars. Communist
 Countries like Russia should be cut off. I do
 believe in embargoes when we need one to keep some
 American people. You see Sir bread is still a
 dollar a loaf in our Kansas stores. Don't Karetson
 and Pat Roberts do not try and keep an embargo put
 a stop to high prices in our food stores and every
 farmers know we the people have to eat. so they
 take it out on every one. but Russia. they give
 them every thing free and let me the United States
 go with out. President Reagan said he was going to
 bring prices down in all food stores. but eggs
 are still a dollar a doz. milk is 2.42 a gallon
 in every Kansas store. You see Sir what I am trying
 to say is why do people up hole not give to Communist
 Countries. when the own people here in the United States

have to go with out. We as Tax payers have to go on
 paying on waste & mud crime and abuse, and don't seem
 like the Senate and Congress care, but we are more
 important than the Tax payers then farmers. far too many at
 home would be there if it was not for the Tax
 payers. maybe Tax payers should go on strike to
 but we are the Voting People to come next year
 we will find out who will vote in and out. Our president
 wants to see a Tax cut for home owners but Congress
 is fighting him and our president is right we do
 need a strong defense program against all and every
 Communist Country. I hope the Senate and Congress give
 it to him. and cut out overtime, planned parent. Hood
 Crime in our jails. giving prisoners the men at there
 letting them go free and do as they please. Lawyers
 are as bad as prisoners letting them out on the streets
 to kill little children. so I do hope all of you
 get more strict and we do see more and better
 security in every State and we do need to see proper
 put back in every school. it was not Constitution for Mrs.
 O'Hair to be a lawyer in Washington. a spy at that.
 To do what she did. she should be arrested for the crime
 she did. on Treason. she still has friends in the
 Justice Department. we are going to come after every
 over please

one of them. with votes that Count. but do try and help our president get power in school and get a strong defense program. and stop Russia from taking over. so I say we do need another grain embargo against Russia for stating law and order's place. I would love to see you here to be on board and Russia said they would do it again. and who will be on a plane in Timber West. so I say stop all trade and from Russia grain to. Way keep on feeding murders. You are doing a great job and keep up the good work and I hope you can go on doing so. You help some America and keep with people's needs. so I say "Keep up the good work" I will have to close for now and get my letter to you. and in my ^{main} ~~main~~ concern is to help see our United States saved. and we do need to see Russia stay in their place and let us to. so I will say Good Luck.

"Thank You"

Dear Mike:

When Helene Von Damm was at the White House she arranged for the President to personally autograph two photographs for Panamanian friends of mine. Mike, I certainly would appreciate it greatly if you could have the President autograph a photograph of himself for:

Raul "Baby" Arango, Jr.

Mr. Arango is a very close friend of mine and is a son of a former Vice President of Panama. He is one of Panama's most prominent businessmen, and a great admirer of President Reagan. Everyone in Panama knows him by his nickname "Baby."

If you could arrange for the President to autograph his picture for Mr. Arango, could he sign it personally instead of the machine signature. I certainly would appreciate this. Also, as I will be flying to Panama, I could take the photograph with me.

With warm regards.

Sir,

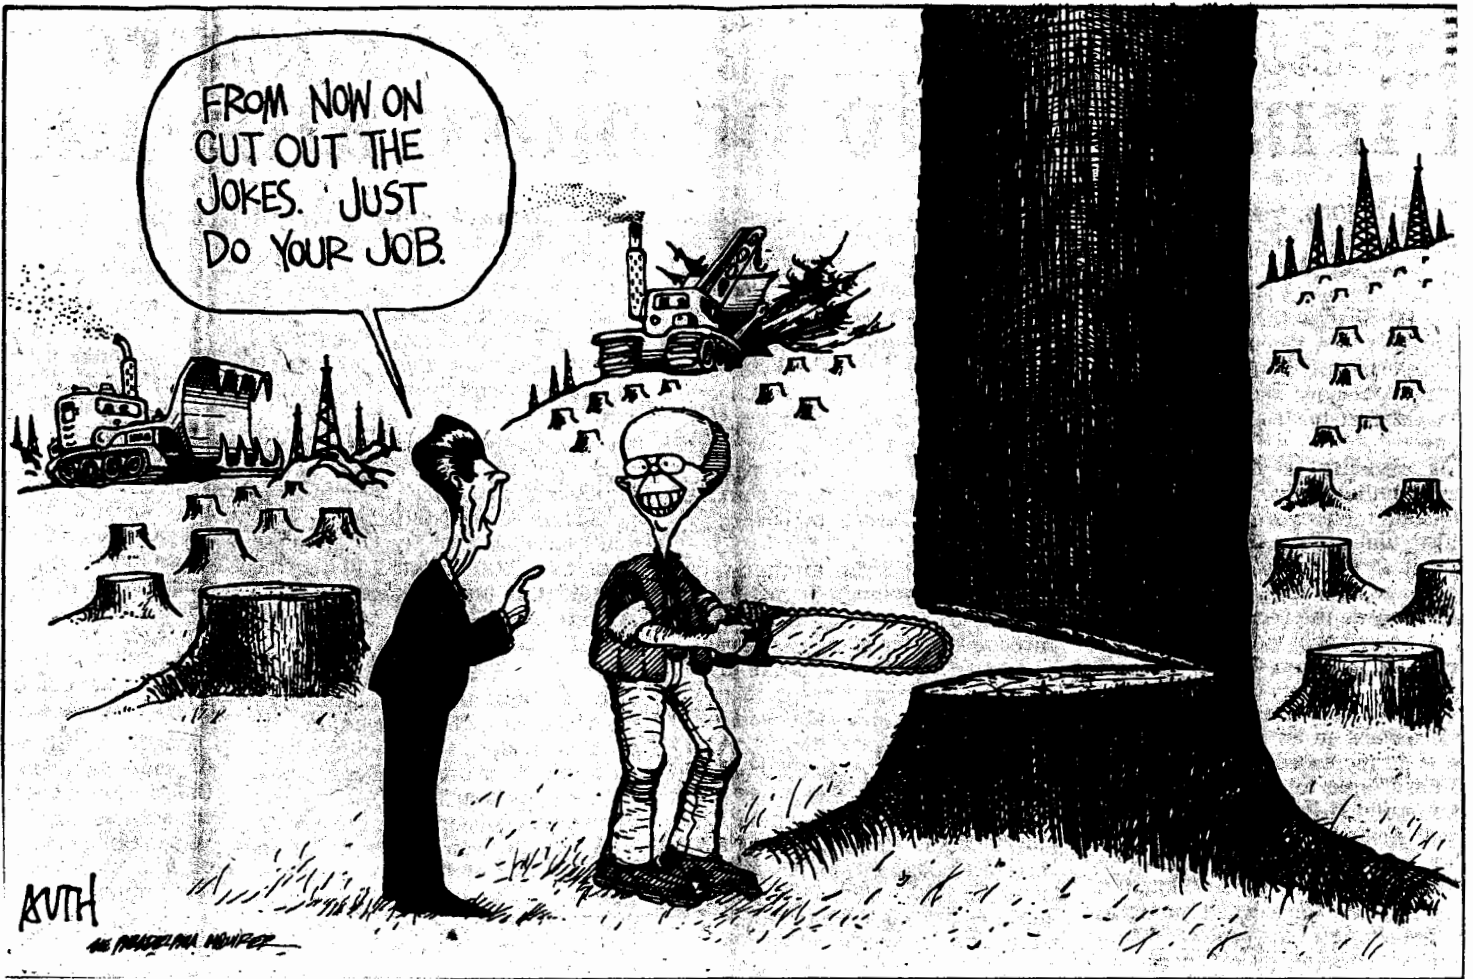

Enclosed are some news items that might be of interest to you showing how the people in general feel about the present administration.

I wonder what V. Galt has to do in order to be removed. It seems that anything he does or says is O.K. There is no doubt that he is a definite liability to the President and has been since his name was first mentioned in 1980.

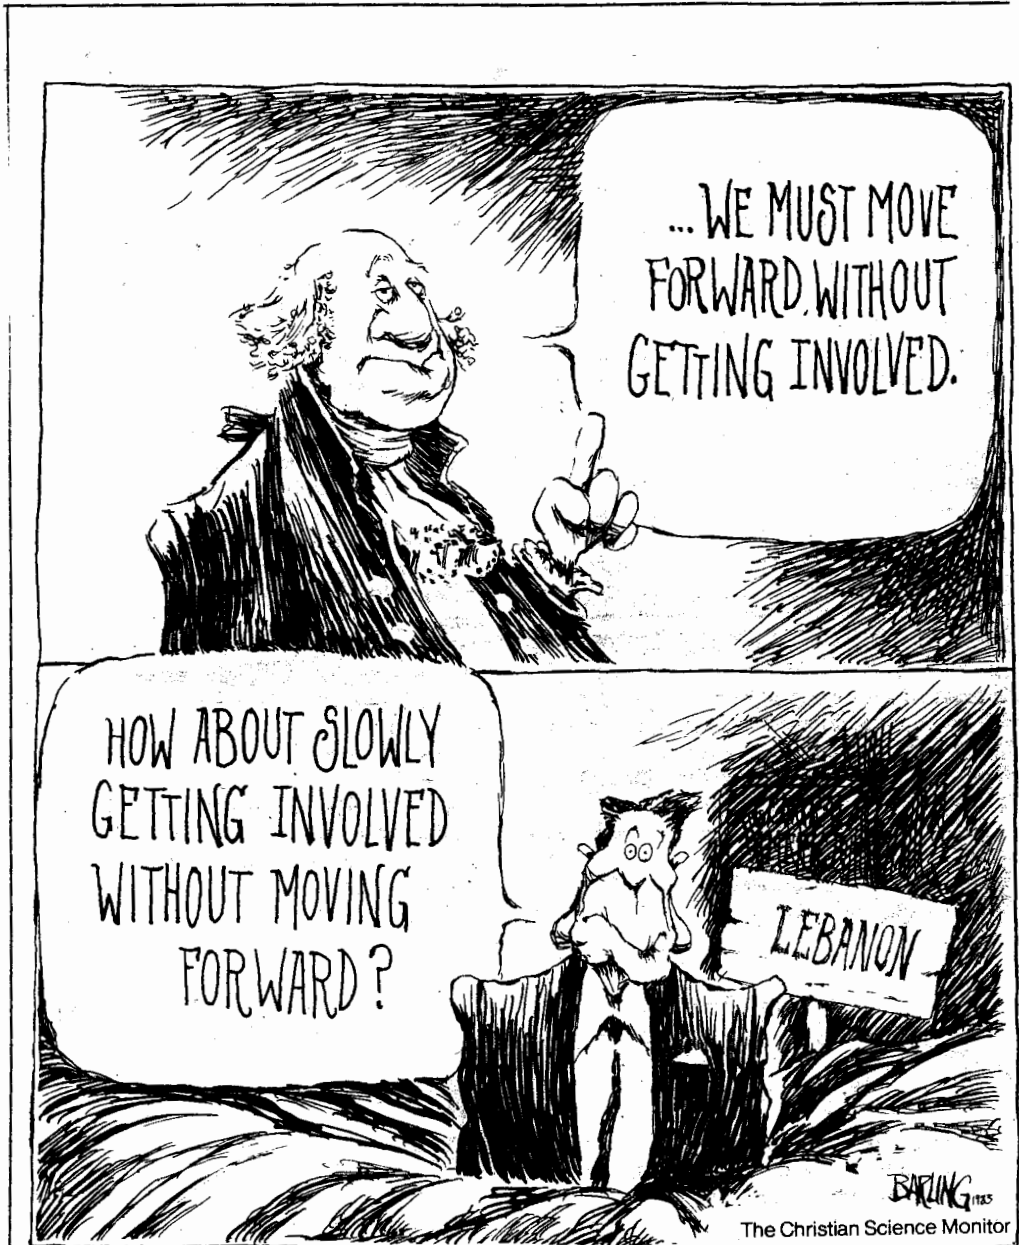

Thank you for reading the enclosed items.

Mr. Michael K. Deaver

Dear Mike:

It has been almost a year since you were kind enough to come up to New York and share with some of our editors your unique view of the workings of the White House. I am reminded that it has been that long because the lunch with you was shortly before we began putting together our year-end issue, and here it is, that time again.

As I think you know, our year-end issue has always featured an interview with the President or the First Lady (and in the Reagans' case in 1981, with both of them at the same time). This year I am hoping that we can do something a little different that will be an even more intriguing look at the Presidency. I gather from remarks Mr. Reagan has made that he keeps a diary or daily journal of some sort, and I am hoping that he will consider sharing selected sections of that diary with PEOPLE'S 34 million readers of this special issue.

Few volumes have stirred more interest or shed more light on the personal qualities of a President than Harry Truman's letters written to Bess while he was in the White House. Mr. Reagan's enjoyment and appreciation of the Truman letters seemed apparent from his reference to them in a televised news conference a while back. What a delight it would be to present President Reagan's thoughts in a similar way that reflect his feelings on his own experiences throughout this year. The subjects covered would, of course, be those he is willing to share, but perhaps they could touch on favorite moments in the White House and at Camp David as well as from his travels. Photographer Harry Benson, who took the wonderful pictures at the Reagan ranch featured in this month's LIFE, told me how devoted the Reagans are to all the animals that they have accumulated there. What, I wonder, does he have to say about such un-presidential concerns as the care and feeding of these animals? I am not the only one who would treasure insights such as this.

I'm sure that you could suggest several events of the year that might be fascinating to read about from the president's journal, and I am eager to hear what you think about this idea. You can respond to me directly or through our Washington Bureau Chief, Garry Clifford.

Thank you again for your New York visit and for every cooperation you have shown to PEOPLE.

Sincerely,
