// Dear Franklin:

x482
You probably remember me as a "younger" boy
at Groton, or else in connection with the flight of
the NC-4.

My children and I are much interested in the
Boulder Dam and I have promised to take them out there
this summer. I know we would have a much better op-
portunity of viewing the project if we had a letter
of introduction to the Chief Engineer from you.

If this is not too much trouble, it would be
appreciated by us all.

With kind regards to you, and wishing you
success in your courageous work,

Sincerely yours,

Jim Breese
