

December 29, 1953

Dear Oppie:

I hope you enjoyed England and the lectures. I read you in The Listener with admiration. We missed you at our December meeting.

Alice and I are going for three weeks to Antigua -- January 2 to 23. So I informed the brethren who were present last month that we would not be able to meet with them in January. Messrs. Rusk, Graham, Earle and Sprout were not there and do not know about it. Would you ask Mrs. Jaffin to write all members, reminding them that the January meeting is off and that we hope to meet as scheduled on Saturday, February 13 and Sunday, February 14, and that at these meetings we hope to finish discussing Western Europe and get well into Korea. Dean Rusk, Phil, Averell, and Ed Barrett will be particularly important participants.

With warm greetings to you and Kitty.

As ever,

Dr. Robert Oppenheimer, Director,  
Institute for Advanced Study,  
Princeton,  
New Jersey.
