The Quartermaster General desires to invite your attention to the inclosed card which gives the permanent cemetery location of the soldier's grave in which you are interested.

This American military cemetery is one of those to be maintained by the United States for all time in Europe. Each grave will be marked by a headstone of white marble, of dignified design, with the name, rank, division, organization, date of soldier's death and State from which he came. Headstones will be placed at all graves in connection with the improvement work now in progress, as soon as possible and without waiting for special action or request on the part of relatives.

Please be assured that in effecting removal of the dead, the utmost reverential care was exercised and more than willingly accorded by those who performed this sacred duty. For the future, these graves will be perpetually maintained by the Government in a manner befitting the last resting place of our heroes.

Items (e) and (f) under the body description are very important and should be very complete. The dental chart is also very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found.

**MISSING TEETH** ..... All teeth missing through previous extraction (not those fractured or displaced by recent wounds) should be scratched out, thus :

**CROWNED TEETH** ..... Block in solid the crown of tooth (label gold, porcelain, or gold and porcelain), thus :

**BRIDGE WORK** ..... Block in solid the crown of tooth (label gold bridge, gold and porcelain bridge) thus :

**FILLINGS** ..... Draw filling on tooth accurately as possible (block in and label gold, silver, cement), thus :

**CARIES (CAVITIES)** ..... Outline location and size of cavity, shade in thus :

**DENTURES (PLATES)** ..... Draw diagram of relative size and shape of plate block in teeth attached and indicate retaining clasps on natural teeth with the word "clasp"

Graves Registration Service,

Washington, D.C.

To the Commanding Officer;-

In November 1918 while I was head Secretary for the Knights of Columbus at Dijon we decorated the graves of all American Soldiers in the Cemetery. At that time I secured photographs of the ceremony, and I now desire to send copies to the families of the men whose graves are plainly shown. I will appreciate it, therefore, if you will let me know the next of kin of;

John T. Larsen

Arthur B. Morgan

Thomas A. Abbey

✓ Lester W. Aldridge

Berndt Jacobson

all of whom were buried near the flagstaff in the American Cemetery at Dijon prior to November 2nd, 1918.

Very respectfully,
