"Borzillo and Pvt Beck were together when they were killed on about Oct. 14th 1918. There were only a few of us left in the company at that time, and the two men were "digging in" on the side of a ravine. There was a great deal of small brush in the way, and I did-n't see the two men when they were killed, but I heard the shell come over. When Sgt Peurifoy who discovered them while looking for blankets told me they were dead, I went over to where their bodies were. The two men apparently died as a result of concussion from the shell. Borzillo was a good man in the line, a splendid soldier, brave, and invariably ready to do his part to the fullest extent. He was killed near St Juvin."

It is a matter of grief to me that word must go from my office that is sure to cause sorrow to people at home, whose brave men have made war's supreme sacrifice for the sake of civilization.

You have probably already received some notice of the regrettable casualty that causes me to write to you; and, if so, it may be that you will derive some measure of comfort and satisfaction from the fact that the body you cherish has been buried as noted above.

The grave location has not been confirmed by the field force of this Service, but the notification of burial has been made to us, as herein stated. As soon as confirmation of the location has been completed, you will be promptly advised.

Thousands of such letters must be written, and my office is deluged with correspondence which is being attended to as rapidly as our men can work.

We want to serve you, sympathetically and satisfactorily, and you may be sure that our best efforts are being given to that end.

May I count myself as your friend and be permitted to hope that you may have Divine comfort in your grief?

G.R.S. )  
BULLETIN ) INFORMATION FOR THE FRIENDS OF OUR DEAD.  
NO. 10-B )

---

1. THE GRAVES REGISTRATION SERVICE, a branch of the Quartermaster Corps, is the official organization of the War Department, charged with the acquisition and control of cemeteries in every country embraced within the Field of Operations. It is also responsible for the marking and preservation of all graves. No other organization shares this authority, or has power to effect arrangements or make promises concerning this work. It must be remembered also that this Service does not bury the dead, but confines its operations to the location and control of graves. It is not prepared to give information on other subjects.
2. CIRCUMSTANCES OF DEATH. The Graves Registration Service does not receive information relative to the circumstances surrounding the death of soldiers and inquiries under this heading should be addressed to the chaplain of the organization in which the soldier was serving at the time of his death.
3. OUR FIELD FORCE operates within all areas, and every effort is made to perfect identifications and to guard the resting places of our dead. The Government has undertaken to do everything which is humanly possible, in view of the extreme difficulties involved in the stress or consequence of the greatest war in the history of the world.
4. THE EXACT LOCATION OF A GRAVE is communicated, whenever possible, to the person whom the soldier had previously registered as the proper one to be addressed, in case of casualty. The great mass of information to be gathered, verified, and transmitted, will generally account for delays in notification.
5. FLOWERS, FLAGS, ETC. We are frequently asked to accept commissions to place flowers, flags and other gifts on separated graves, but such requests must necessarily be denied because of the wide extent of our territory, the exhausting nature of the work, and the impossibility of reaching a thousand or more burial places under the difficult conditions which obtain. Such requests are also discouraged for the reason that there should be no inequality in the treatment of our nation's dead.
6. MONUMENTS. For the same reason, in addition to the fact that the Government would eventually be obliged to transport monuments with bodies to designated places of final burial, it is not at present permitted to erect any permanent monument; all graves being temporarily marked with a cross or the regulation head-board, such as is used in National Cemeteries in the United States. No other markers can be authorized until the final disposition of the dead has been made.
7. PERSONAL EFFECTS. Personal effects are not handled by this Service. Inquiries concerning the same should be addressed to The Adjutant General of the Army, Washington, D. C.
8. DISINTERMENTS. The exhumation of bodies is at present prohibited by the laws of the countries in which we are operating. No exception can be made until The War Department shall have completed its plans for the shipment of bodies to the STATES. This applies also to disinterments for emplacement in metal caskets; such action, for military reasons, having been disapproved.

9; RETURN OF BODIES to the U.S. will be made in due time, except in cases where a specific request to the contrary is made; which request should be addressed to The Adjutant General of the Army, Washington, D.C., who will issue proper instructions. Due announcement of the return of bodies will be made, and the time cannot be hastened by appeals for priority, precedence, or favoritism in the listing of claims. The final disposition of bodies will be considered and executed as an entire project, at such time, probably after the conclusion of peace, as the vastness and difficulty of this almost inconceivable task may make possible.

10. While some of these restrictions may seem unreasonable to friends in the first outburst of their sorrow, experience has shown the same to be necessary, and our people are asked to accept the sacrifice which they impose, in the same spirit in which our men on the world's battle-field have offered up themselves, viz., for the good of a great cause.

2. Give date and accurate information as to location from which the body was disinterred and the group and unit which made disinterment.
3. Give date and accurate information as to location of reburial and the group and unit which made reburial, and how reburial was made—in casket, wooden box, etc.
4. State to what degree decomposition has progressed, whether recognition is possible, and how the body was originally buried—in a casket, box, burlap, etc. This statement should be as complete as possible.
5. (a) State whether identification tags were found buried with body and on grave marker by reporting "Yes" or "No".  
 (b) State whether or not body appears to have been a hospital case. Were any identifying articles found in or on body or grave? Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspid (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found.

**MISSING TEETH**.....All teeth missing through previous extraction (not those fractured or displaced by recent wounds) should be scratched out, thus :
