Philadelphia, Pennsylvania.

Dear Madam:

This office is making an earnest endeavor to communicate with all women who may be eligible to make a pilgrimage to the cemeteries of Europe under the provisions of the Act of March 2, 1929, as amended May 15, 1930.

It is therefore requested that you advise whether or not your brother, the late Private William J. Brown, is survived by a stepmother or any woman who stood in loco parentis to him for a period of five years at any time prior to his reaching the age of eighteen, and if so, her name and address. It will be appreciated if you will also furnish the dates of death of your parents.

A self-addressed envelope which requires no postage is enclosed for your convenience in replying.

For The Quartermaster General.

Very truly yours,

INSTRUCTIONS FOR THE PROPER COMPLETION OF G. R. S. FORM NO. 16-A

Enter information, as noted below, on reverse side of sheet in the *corresponding numbered space*. This form is supplemental to and is to be forwarded with G. R. S. Form 1-a, reporting reburial locations. To be used in answer to Question 26, Form 114, in case no means of identification on body.

1. Show soldier's name, serial number, rank and organization, and by whom disinterred and reburied.
2. Give date and accurate information as to location from which the body was disinterred and the group and unit which made disinterment.
3. Give date and accurate information as to location of reburial and the group and unit which made reburial, and how reburial was made—in casket, wooden box, etc.
4. State to what degree decomposition has progressed, whether recognition is possible, and how the body was originally buried—in a casket, box, burlap, etc. This statement should be as complete as possible.
5. (a) State whether identification tags were found buried with body and on grave marker by reporting "Yes" or "No".
 (b) State whether or not body appears to have been a hospital case. Were any identifying articles found in or on body or grave? List any personal effects, letters, money-order receipts, and the like found on body or in grave. Give any and all information which it is thought might be of use in identifying the body, other than that tabulated under Item No 6.
6. Give all information as to body description and dental chart as nearly correctly as the condition of the body will allow. Items (e) and (f) under the body description are very important and should be very complete. The dental chart is also very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found.

MISSING TEETH	All teeth missing through previous extraction (not those fractured or displaced by recent wounds) should be scratched out, thus:	
CROWNED TEETH	Block in solid the crown of tooth (label gold, porcelain, or gold and porcelain), thus:	
BRIDGE WORK	Block in solid the crown of tooth (label gold bridge, gold and porcelain bridge) thus:	
FILLINGS	Draw filling on tooth accurately as possible (block in and label gold, silver, cement), thus:	
CARIES (CAVITIES)	Outline location and size of cavity, shade in thus:	
DENTURES (PLATES)	Draw diagram of relative size and shape of plate block in teeth attached and indicate retaining clasps on natural teeth with the word "clasp"	

7. Show name of person supervising the disinterment and the name and title of the person approving same.

8. Show name of person supervising the reburial and the name and title of the person approving same.

Mr. James Brown,
2428 South Mole St.,
Philadelphia, Pa.

Dear Sir:

The Quartermaster General desires to invite your attention to the inclosed card which gives the permanent cemetery location of the soldier's grave in which you are interested.

This American military cemetery is one of those to be maintained by the United States for all time in Europe. Each grave will be marked by a headstone of white marble, of dignified design, with the name, rank, division, organization, date of soldier's death and State from which he came. Headstones will be placed at all graves in connection with the improvement work now in progress, as soon as possible and without waiting for special action or request on the part of relatives.

Please be assured that in effecting removal of the dead, the utmost reverential care was exercised and more than willingly accorded by those who performed this sacred duty. For the future, these graves will be perpetually maintained by the Government in a manner befitting the last resting place of our heroes.

Very truly yours,

War Department, OQMG, Washington, Nov. 20, 1923--To the Chief, AGRS, OMC., in Europe, 20, rue Molitor, Paris, (16eme), France.

1. The remains of the late Private William J. Brown, 1240588, Company F, 110th Infantry, have been identified in Grave 168, Section L, Plot 4, Oise-Aisne American Cemetery, #608, formerly designated as Unknown U. S. Soldier S-22. These remains are not to be returned to this country.

2. The remains of the late Private Raymond J. Kenney, 1250786, Battery D, 107th Field Artillery, have been identified in Grave 58, Section C, Plot 2, Oise-Aisne American Cemetery; formerly reported as Omer L. Alexander. The remains of Private Kenney are to be returned to this country. The cable reference number assigned to case is 1714.

3. Reference is made to Board of Review letter from your office of August 22, 1921. It is the belief of this office, after checking all bodies in trench 2 from Brecy, Aisne, in which trench was reported Private Peter Schwenkler, 1631385, Company L, 110th Infantry, that the body formerly reported as Raymond W. Good, Headquarters Company, 11th Infantry in Grave 159, Section L, Plot 4, Cty. 608, is that of Private Schwenkler. His dental chart per The Adjutant General of the Army, at time of enlistment, gives, missing 17, 18, 19, 29 and 30. The relatives have no knowledge of any dental work. The A. G. O. dental chart checks in part with Form 16-A for Raymond W. Good, dated April 28, 1921, in Grave 159, Section L, Plot 4, body having corroded tags. This is the only body from this trench that is now questionable and the only one that will show any evidence of being Private Schwenkler.

4. You are directed to make a thorough search of the remains in question. Every effort will be made to decipher tags, and determine teeth missing before and after death, in upper jaw, together with a report on teeth 29 and 26. A result of your findings will be submitted to this office.

5. The remains of Raymond W. Good, were identified in Grave 79, Plot 2, Section C, Cty. 608.

SUBJECT: Bodies in mortuary

TO : Quartermaster General, Munitions Bldg., Washington, D. C.

1. The case of Pvt. William J. BROWN, Co.F, 110th Infantry exhumed from Cemetery #608, Seringes-et-Mesles, Aisne, and whose identity was questionable, was referred to your office by the Board of Review, these headquarters, under date of August 16th, 1921. No reply having been received from your office, these remains have been held in the mortuary at Belleau, Aisne since that date.

2. It is requested that this office be advised of your decision in this case in order that these remains may be removed from the mortuary.

Letter to Europe in reply to Board of Review August 22, 1921
Cty. 608 concerning Peter Schwenkler; also Board of Review (no date
found) concerning Wm. J. Brown and Raymond J. Kenney and
advise that Brown has been identified in 168 L 4 formerly #S 22
and Kenney in 68-C-2 formerly reported as Omer L. Alexander.

Advise that it is the belief of this office, after checking all
bodies in trench 2 from Brezy Aisne, in which trench was reported
Schwenkler, that body formerly reported as Raymond W. Good,
Hd. Co. 111th Inf in grave 159 Sec L plot 4 Co8 is that of
Schwenkler. That the dental chart for him per AGO is missing
17, 18, 19, 29, 30 at enlistment and relatives have no knowledge
of dental work. Advise that this checks in part with 16A for
Good dated 4/28/21 in 159-L-4, body having corroded tags. That
this is the only body from this trench that is now questionable
and the only one that will show any evidence of being Schwenkler.
Request that Europe make a thorough search of remains in question,
make every effort to decipher tags, and question missing teeth in
upper jaw as to before and after death together with a report on
tooth 29 and 26 and advise the results and their opinion.

Furnish disposition on bodies of Brown and Kenney.

INSTRUCTIONS FOR THE PROPER COMPLETION OF G. R. S. FORM NO. 16-A

Enter information, as noted below, on reverse side of sheet in the *corresponding numbered space*. This form is supplemental to and is to be forwarded with G. R. S. Form 1-a, reporting reburial locations. To be used in answer to Question 26, Form 114, in case no means of identification on body.

1. Show soldier's name, serial number, rank and organization, and by whom disinterred and reburied.
2. Give date and accurate information as to location from which the body was disinterred and the group and unit which made disinterment.
3. Give date and accurate information as to location of reburial and the group and unit which made reburial, and how reburial was made—in casket, wooden box, etc.
4. State to what degree decomposition has progressed, whether recognition is possible, and how the body was originally buried—in a casket, box, burlap, etc. This statement should be as complete as possible.
5. (a) State whether identification tags were found buried with body and on grave marker by reporting "Yes" or "No."
 (b) State whether or not body appears to have been a hospital case. Were any identifying articles found in or on body or grave? List any personal effects, letters, money-order receipts, and the like found on body or in grave. Give any and all information which it is thought might be of use in identifying the body, other than that tabulated under Item No. 6.
6. Give all information as to body description and dental chart as nearly correctly as the condition of the body will allow. Items (e) and (f) under the body description are very important and should be very complete. The dental chart is also very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found.

MISSING TEETH	All teeth missing through previous extraction (not those fractured or displaced by recent wounds) should be scratched out, thus:	
CROWNED TEETH	Block in solid the crown of tooth (label gold, porcelain, or gold and porcelain), thus:

Dear Sir:

In reply to your letters of Nov. 15th and Dec. 17th, 1921, addressed to my sister, Miss Mary Brown, 2037 Crosby St., but who for the past two years has been living with me at 2428 S. Mole St., may I advise in reply to your request that we secure from the local dentist, a statement showing all dental treatment performed for our brother, Sergeant Wm. J. Brown, Co. F, 110th Inf. prior to his entering the service, that we are at a loss to understand your letters as neither of us know of our brother ever having had any dental treatment prior to his service.

We do not understand why this is requested and would appreciate any information you could give us in regard to the matter, as we are anxious and willing to be of any assistance to you necessary.

Respectfully yours,

James Brown
