An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found.

1. With further reference to the case of your brother, the late Private Mario Camparsi, Company A, 364th Infantry, you are advised that information has been received from the Chief, American Graves Registration Service, Q.M.C. in Europe, to the effect that the father of the deceased in Italy desires the remains of his son shipped to that country for final burial. In order that his wishes may have been complied with the father was furnished a certificate requesting that he execute same, to the effect that the deceased resided in Italy for a period prior to his enlistment. Follow-ups were sent to the father but he has failed to submit this certificate; therefore, in view of this fact the body will be left in Belgium for final burial in a permanent American Cemetery.

2. You are assured that the grave of your brother will be marked by an appropriate headstone and will be tenderly and fittingly cared for by this Government for all time.
