Mr. W.J. Carter,  
Snow Ball,  
Arkansas.

Dear Sir:

The Quartermaster General desires to invite your attention to the inclosed card which gives the permanent cemetery location of the soldier's grave in which you are interested.

This American military cemetery is one of those to be maintained by the United States for all time in Europe. Each grave will be marked by a headstone of white marble, of dignified design, with the name, rank, division, organization, date of soldier's death and State from which he came. Headstones will be placed at all graves in connection with the improvement work now in progress, as soon as possible and without waiting for special action or request on the part of relatives.

Please be assured that in effecting removal of the dead, the utmost reverential care was exercised and more than willingly accorded by those who performed this sacred duty. For the future, these graves will be perpetually maintained by the Government in a manner befitting the last resting place of our heroes.

## INSTRUCTIONS FOR THE PROPER COMPLETION OF G. R. S. FORM NO. 16-A

Enter information, as noted below, on reverse side of sheet in the *corresponding numbered space*. This form is supplemental to and is to be forwarded with G. R. S. Form 1-a, reporting reburial locations. To be used in answer to Question 26, Form 114, in case no means of identification on body.

2. Give date and accurate information as to location from which the body was disinterred and the group and unit which made disinterment.
3. Give date and accurate information as to location of reburial and the group and unit which made reburial, and how reburial was made—in casket, wooden box, etc.
4. State to what degree decomposition has progressed, whether recognition is possible, and how the body was originally buried—in a casket, box, burlap, etc. This statement should be as complete as possible.
5. (a) State whether identification tags were found buried with body and on grave marker by reporting "Yes" or "No".

(b) State whether or not body appears to have been a hospital case. Were any identifying articles found in or on body or grave? List any personal effects, letters, money-order receipts, and the like found on body or in grave. Give any and all information which it is thought might be of use in identifying the body, other than that tabulated under Item No 6.

6. Give all information as to body description and dental chart as nearly correctly as the condition of the body will allow. Items (e) and (f) under the body description are very important and should be very complete. The dental chart is also very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found.

TO : Mr. John Carter, Snow Ball, Ark.  
SUBJECT : Place of Burial.  
Private 1st class Isaac H. Carter, Company A, 18th Infantry,  
Commune of Chatel-Chehery, Ardennes, France.

It is a matter of grief to me that word must go from my office that is sure to cause sorrow to people at home, whose brave men have made war's supreme sacrifice for the sake of civilization.

You have probably already received some notice of the regrettable casualty that causes me to write to you; and, if so, it may be that you will derive some measure of comfort and satisfaction from the fact that the body you cherish has been buried as noted above.

The grave location has not been confirmed by the field force of this Service, but the notification of burial has been made to us, as herein stated. As soon as confirmation of the location has been completed, you will be promptly advised.

Thousands of such letters must be written, and my office is deluged with correspondence which is being attended to as rapidly as our men can work.

We want to serve you, sympathetically and satisfactorily, and you may be sure that our best efforts are being given to that end.

May I count myself as your friend and be permitted to hope that you may have Divine comfort in your grief?

CHARLES C. PIERCE,  
Lieut.-Colonel, Q.M.C., U.S.A.

HEADQUARTERS SERVICES OF SUPPLY  
OFFICE OF THE CHIEF QUARTERMASTER, A.E.F.  
GRAVES REGISTRATION SERVICE.

G.R.S. )  
BULLETIN ) INFORMATION FOR THE FRIENDS OF OUR DEAD.  
NO. 10-B )  
-----

1. THE GRAVES REGISTRATION SERVICE, a branch of the Quartermaster Corps, is the official organization of the War Department, charged with the acquisition and control of cemeteries in every country embraced within the Field of Operations. It is also responsible for the marking and preservation of all graves. No other organization shares this authority, or has power to effect arrangements or make promises concerning this work. It must be remembered also that this Service does not bury the dead, but confines its operations to the location and control of graves. It is not prepared to give information on other subjects.
2. CIRCUMSTANCES OF DEATH. The Graves Registration Service does not receive information relative to the circumstances surrounding the death of soldiers, and inquiries under this heading should be addressed to the chaplain of the organization in which the soldier was serving at the time of his death.
3. OUR FIELD FORCE operates within all areas, and every effort is made to perfect identifications and to guard the resting places of our dead. The Government has undertaken to do everything which is humanly possible, in view of the extreme difficulties involved in the stress or consequence of the greatest war in the history of the world.
4. THE EXACT LOCATION OF A GRAVE is communicated, whenever possible, to the person whom the soldier had previously registered as the proper one to be addressed, in case of casualty. The great mass of information to be gathered, verified, and transmitted, will generally account for delays in notification.
5. FLOWERS, FLAGS, ETC. We are frequently asked to accept commissions to place flowers, flags and other gifts on separated graves, but such requests must necessarily be denied because of the wide extent of our territory, the exhausting nature of the work, and the impossibility of reaching a thousand or more burial places under the difficult conditions which obtain. Such requests are also discouraged for the reason that there should be no inequality in the treatment of our nation's dead.
6. MONUMENTS. For the same reason, in addition to the fact that the Government would eventually be obliged to transport monuments with bodies to designated places of final burial, it is not at present permitted to erect any permanent monument; all graves being temporarily marked with a cross or the regulation headboard, such as is used in National Cemeteries in the United States. No other markers can be authorized until the final disposition of the dead has been made.
7. PERSONAL EFFECTS. Personal effects are not handled by this Service. Inquiries concerning the same should be addressed to the Adjutant General of the Army, Washington, D.C.
8. DISINTERMENTS. The exhumation of bodies is at present prohibited by the laws of the countries in which we are operating. No exception can be made until the War Department shall have completed its plans for the shipment of bodies to the States. This applies also to disinterments for emplacement in metal caskets; such action, for military reasons, having been disapproved.

9. RETURN OF BODIES to the U. S. will be made in due time, except in cases where a specific request to the contrary is made; which request should be addressed to The Adjutant General of the Army, Washington, D. C., who will issue proper instructions. Due announcement of the return of bodies will be made, and the time cannot be hastened by appeals for priority, precedence, or favoritism in the listing of claims. The final disposition of bodies will be considered and executed as an entire project, at such time, probably after the conclusion of peace, as the vastness and difficulty of this almost inconceivable task may make possible.

10. While some of these restrictions may seem unreasonable to friends in the first outburst of their sorrow, experience has shown the same to be necessary, and our people are asked to accept the sacrifice which they impose, in the same spirit in which our men on the world's battle-field have offered up themselves, viz., for the good of a great cause.

PHOTOGRAPHY OF GRAVES  
AMERICAN EXPEDITIONARY FORCES

1. PHOTOGRAPHY OF GRAVES is entirely controlled by the Chief of the Graves Registration Service. American Expeditionary Forces, France. No photography of graves should be taken except by the special photographers of this Service, who, under the operation of military orders, are assigned to the Staff of its Chief, by the American Red Cross.
2. An officer of the American Red Cross, designated as Director of Photography, is assigned to the Staff of the Chief, Graves Registration Service, for this work, under his direction, and funds are provided through the War Chest contributed by the American people. No funds should be sent to the Graves Registration Service, the Red Cross, or individual officers for this purpose from any private source.
3. Operators are now photographing graves in France, Belgium, Italy, Great Britain and Ireland, and it is expected that within a very few months the finished photographs will be transmitted to the relatives of our dead.
4. Owing to the difficulties of obtaining the necessary technical staff, and the inadvisability of setting up a large photographic laboratory in France, it has been decided to distribute these photographs through the Bureau of Communication, American Red Cross National Headquarters, Washington, D. C., and all applications for pictures should be filed there, as soon as notification of the location of grave has been received by a relative from the Chief, Graves Registration Service.
5. The photographers work under route instructions issued by the Chief, Graves Registration Service, and in the interest of economy and labor-saving, it has been decided that these operators will not be able to make special trips to distant points to take individual photographs in response to urgent request received from the United States or elsewhere. The time so consumed would prolong the period of waiting on the part of many others.
6. It is the desire to furnish the best possible service to sorrowing friends at home, and with this end in view, it is earnestly requested that relatives of our dead will be as patient as possible in awaiting these photographs. It will be appreciated that if requests are forwarded directly to the Graves Registration Service of the Army in France, it will only add to the burden of the work, without achieving the end in view; as, for reasons given above, appeals for priority, precedence or favoritism in the listing of claims cannot be considered, and photographs can only be forwarded from Washington.

By direction of Lieutenant Colonel Charles C. Pierce,  
Chief, Graves Registration Service:

MAURICE B. DIX,  
Captain, American Red Cross,  
Director of Photography,
