Dear Madam:

In connection with the investigation which has been conducted by this office in the case of your brother, the late Private, first class Frank C. Phillips, 735547, Company D, 11th Infantry, you are advised that his body has been identified in Grave 26, Row 3, Block C, Meuse-Argonne American Cemetery, Romagne-sous-Montfaucon, Meuse, France.

This cemetery is one of those in France which will be permanently maintained by this Government. Each grave is marked with a white marble headstone inscribed with the name of the soldier, his rank, regiment, division, date of death and the State from which he came, such headstones being erected without necessity for special action or request on the part of relatives. Instructions will be given at an early date for the erection of a suitably inscribed headstone at the grave of your brother.

The enclosed card showing the permanent grave location above given is furnished for your future reference.

1. Show soldier's name, serial number, rank and organization, and by whom disinterred and reburied.
2. Give date and accurate information as to location from which the body was disinterred and the group and unit which made disinterment.
3. Give date and accurate information as to location of reburial and the group and unit which made reburial, and how reburial was made—in casket, wooden box, etc.
4. State to what degree decomposition has progressed, whether recognition is possible, and how the body was originally buried—in a casket, box, burlap, etc. This statement should be as complete as possible.
5. (a) State whether identification tags were found buried with body and on grave marker by reporting "Yes" or "No".
 (b) State whether or not body appears to have been a hospital case. Were any identifying articles found in or on body or grave? List any personal effects, letters, money-order receipts, and the like found on body or in grave. Give any and all information which it is thought might be of use in identifying the body, other than that tabulated under Item No. 6.
6. Give all information as to body description and dental chart as nearly correctly as the condition of the body will allow. Items (e) and (f) under the body description are very important and should be very complete. The dental chart is also very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found.

<p>MISSING TEETH.....All teeth missing through previous extraction (not those fractured or displaced by recent wounds) should be scratched out, thus :</p>
