4. State to what degree decomposition has progressed, whether recognition is possible, and how the body was originally buried—in a casket, box, burlap, etc. This statement should be as complete as possible.

5. (a) State whether identification tags were found buried with body and on grave marker by reporting "Yes" or "No".

(b) State whether or not body appears to have been a hospital case. Were any identifying articles found in or on body or grave? List any personal effects, letters, money-order receipts, and the like found on body or in grave. Give any and all information which it is thought might be of use in identifying the body, other than that tabulated under Item No 6.

6. Give all information as to body description and dental chart as nearly correctly as the condition of the body will allow. Items (e) and (f) under the body description are very important and should be very complete. The dental chart is also very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found.

MISSING TEETH All teeth missing through previous extraction (not those fractured or displaced by recent wounds) should be scratched out, thus :

CROWNED TEETH Block in solid the crown of tooth (label gold, porcelain, or gold and porcelain), thus :

BRIDGE WORK Block in solid the crown of tooth (label gold bridge, gold and porcelain bridge) thus :

FILLINGS Draw filling on tooth accurately as possible (block in and label gold, silver, cement), thus :

CARIES (CAVITIES) Outline location and size of cavity, shade in thus :

DENTURES (PLATES) Draw diagram of relative size and shape of plate block in teeth attached and indicate retaining clasps on natural teeth with the word "clasp"
