Dear Sir:

This office is making an earnest endeavor to communicate with all women who may be eligible to make a pilgrimage to the cemeteries of Europe under the provisions of the Act of March 2, 1929, as amended May 15, 1930.

It is therefore requested that you advise whether or not your brother, the late Private first class Ralph Colella, is survived by any woman residing in the United States who stood in loco parentis to him for a period of five years at any time prior to his reaching eighteen years of age, and if so, her name and address.

A self-addressed envelope which requires no postage is enclosed for your convenience in replying.

For The Quartermaster General.

Dear Madam:

The Quartermaster General desires to invite your attention to the inclosed card which gives the permanent cemetery location of the soldier's grave in which you are interested.

This American military cemetery is one of those to be maintained by the United States for all time in Europe. Each grave will be marked by a headstone of white marble, of dignified design, with the name, rank, division, organization, date of soldier's death and State from which he came. Headstones will be placed at all graves in connection with the improvement work now in progress, as soon as possible and without waiting for special action or request on the part of relatives.

Please be assured that in effecting removal of the dead, the utmost reverential care was exercised and more than willingly accorded by those who performed this sacred duty. For the future, these graves will be perpetually maintained by the Government in a manner befitting the last resting place of our heroes.

INSTRUCTIONS FOR THE PROPER COMPLETION OF G. R. S. FORM NO. 16-A

Enter information, as noted below, on reverse side of sheet in the *corresponding numbered space*. This form is supplemental to and is to be forwarded with G. R. S. Form 1-a, reporting reburial locations. To be used in answer to Question 26, Form 114, in case no means of identification on body.

1. Show soldier's name, serial number, rank and organization, and by whom disinterred and reburied.

2. Give date and accurate information as to location from which the body was disinterred and the group and unit which made disinterment.

3. Give date and accurate information as to location of reburial and the group and unit which made reburial, and how reburial was made—in casket, wooden box, etc.

4. State to what degree decomposition has progressed, whether recognition is possible, and how the body was originally buried—in a casket, box, burlap, etc. This statement should be as complete as possible.

5. (a) State whether identification tags were found buried with body and on grave marker by reporting "Yes" or "No".

(b) State whether or not body appears to have been a hospital case. Were any identifying articles found in or on body or grave? List any personal effects, letters, money-order receipts, and the like found on body or in grave. Give any and all information which it is thought might be of use in identifying the body, other than that tabulated under Item No 6.

6. Give all information as to body description and dental chart as nearly correctly as the condition of the body will allow. Items (e) and (f) under the body description are very important and should be very complete. The dental chart is also very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found.

MISSING TEETH	All teeth missing through previous extraction (not those fractured or displaced by recent wounds) should be scratched out, thus:	
CROWNED TEETH	Block in solid the crown of tooth (label gold, porcelain, or gold and porcelain), thus:	
BRIDGE WORK	Block in solid the crown of tooth (label gold bridge, gold and porcelain bridge) thus:	
FILLINGS	Draw filling on tooth accurately as possible (block in and label gold, silver, cement), thus:	
CARIES (CAVITIES)	Outline location and size of cavity, shade in thus:	
DENTURES (PLATES)	Draw diagram of relative size and shape of plate block in teeth attached and indicate retaining clasps on natural teeth with the word "clasp"	

7. Show name of person supervising the disinterment and the name and title of the person approving same.

8. Show name of person supervising the reburial and the name and title of the person approving same.

INSTRUCTIONS FOR THE PROPER COMPLETION OF G. R. S. FORM NO. 16-A

Enter information, as noted below, on reverse side of sheet in the *corresponding numbered space*. This form is supplemental to and is to be forwarded with G. R. S. Form 1-a, reporting reburial locations. To be used in answer to Question 26, Form 114, in case no means of identification on body.

1. Show soldier's name, serial number, rank and organization, and by whom disinterred and reburied.
2. Give date and accurate information as to location from which the body was disinterred and the group and unit which made disinterment.
3. Give date and accurate information as to location of reburial and the group and unit which made reburial, and how reburial was made—in casket, wooden box, etc.
4. State to what degree decomposition has progressed, whether recognition is possible, and how the body was originally buried—in a casket, box, burlap, etc. This statement should be as complete as possible.
5. (a) State whether identification tags were found buried with body and on grave marker by reporting "Yes" or "No".
(b) State whether or not body appears to have been a hospital case. Were any identifying articles found in or on body or grave? List any personal effects, letters, money-order receipts, and the like found on body or in grave. Give any and all information which it is thought might be of use in identifying the body, other than that tabulated under Item No 6.
6. Give all information as to body description and dental chart as nearly correctly as the condition of the body will allow. Items (e) and (f) under the body description are very important and should be very complete. The dental chart is also very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found.

MISSING TEETH

All teeth missing through previous extraction (not those fractured or displaced by recent wounds) should be scratched out, thus:

CROWNED TEETH

Block in solid the crown of tooth (label gold, porcelain, or gold and porcelain), thus:

BRIDGE WORK

Block in solid the crown of tooth (label gold bridge, gold and porcelain bridge) thus:

FILLINGS

Draw filling on tooth accurately as possible (block in and label gold, silver, cement), thus:

CARIES (CAVITIES)

Outline location and size of cavity, shade in thus:

DENTURES (PLATES)

Draw diagram of relative size and shape of plate block in teeth attached and indicate retaining clasps on natural teeth with the word "clasp"

7. Show name of person supervising the disinterment and the name and title of the person approving same.

8. Show name of person supervising the reburial and the name and title of the person approving same.

To be prepared in triplicate.

File No. 78004 - Registration

From: O.Q.M.G. Cemeterial Division, April 29, 1920, To: Chief, American Graves Registration Service, Q.M.C. in Europe, #8 Avenue d'Iena, Paris, France.

1. Returned. Grave marker erected over Grave #14, Section 8, Plot 1, American Cemetery #593, Ploisy, Aisne, to be marked Colella, #53412, Ralph, Private 1/cl, Company E, 26th Infantry. Grave marker erected over Grave #123, Plot A, American Battle Area Cemetery #593, Ploisy, Aisne, to be marked unknown, and all records corrected accordingly.

2. This decision is made from the following facts: According to the dental charts given in the letter from the Supervisor, Area #2, February 18, 1920, the body in Grave #123, Section A, Plot 3, still retains tooth #8 on the right side, tooth #8 on the left having apparently dropped out. The body in Grave #14, Section H, Plot 1, shows #8 tooth both right and left side of jaw missing. According to the dental chart furnished by the Adjutant General's Office, #8 tooth both right and left sides, upper and lower jaws were missing on the date of this man's enlistment. It is the opinion of this office, therefore, that the body buried in Grave #14, Section H, Plot 1, is that of Ralph Colella.

CASE PAPERS

4/23/20

CASE OF : Ralph Colella, 53412,
Pvt. 1/cl Co. E, 26th Infantry.

This man first reported in C-36, Grave #3, D-11449. This Commune moved to Cemetery #593.

Searched Cemetery #593 - find two graves, one marked "Ralph Collella, Co. E, 26th Infantry" - reburied 6/13/19, Grave #14, Plot #1, Section H. The other grave is marked "Ralph Colella, 53412, Pvt. Co. E, 26th Infantry" - Grave #123, Plot A.

Original grave slip gives no location.

The Adjutant General's Office identified these names as one, Ralph Colella is only man of similar name in this organization.

Therefore asked for a dental chart and description of soldier in question.

Inclosed find Dental Chart, also description of bodies exhumed from these two graves - you will note missing upper right tooth #8 in Pvt. Colella's dental chart, therefore this description eliminates the body in Grave #123, as this body gives #8 intact. Body in Grave #14 gives #8 tooth missing. *(as per A.G.O. information)*

Only one Form #16 was found on this case, and it can not be located at present.

* Would request that Grave #123, Plot A, American Battle Area Cemetery #593, Plaisy, Aisne be marked "Unknown".
