Mr. Henry B. Carnwell  
Route #1, Box 124  
The Quartermaster General desires to invite your attention to the inclosed card which gives the permanent cemetery location of the soldier's grave in which you are interested.

Dear Sir:

This American military cemetery is one of those to be maintained by the United States for all time in Europe. Each grave will be marked by a headstone of white marble, of dignified design, with the name, rank, division, organization, date of soldier's death and State from which he came. Headstones will be placed at all graves in connection with the improvement work now in progress, as soon as possible and without waiting for special action or request on the part of relatives.

Please be assured that in effecting removal of the dead, the utmost reverential care was exercised and more than willingly accorded by those who performed this sacred duty. For the future, these graves will be perpetually maintained by the Government in a manner befitting the last resting place of our heroes.

Very truly yours,

Assistant.

## INSTRUCTIONS FOR THE PROPER COMPLETION OF G. R. S. FORM NO. 16-A

Enter information, as noted below, on reverse side of sheet in the *corresponding numbered space*. This form is supplemental to and is to be forwarded with G. R. S. Form 1-a, reporting reburial locations. To be used in answer to Questions 26, Form 114, in case no means of identification on body.

1. Show soldier's name, serial number, rank and organization, and by whom disinterred and reburied.
2. Give date and accurate information as to location from which the body was disinterred and the group and unit which made disinterment.
3. Give date and accurate information as to location of reburial and the group and unit which made reburial, and how reburial was made—in casket, wooden box, etc.
4. State to what degree decomposition has progressed, whether recognition is possible, and how the body was originally buried—in a casket, box, burlap, etc. This statement should be as complete as possible.
5. (a) State whether identification tags were found buried with body and on grave marker by reporting "Yes" or "No".  
(b) State whether or not body appears to have been a hospital case. Were any identifying articles found in or on body or grave? List any personal effects, letters, money-order receipts, and the like found on body or in grave. Give any and all information which it is thought might be of use in identifying the body, other than that tabulated under Item No 6.
6. Give all information as to body description and dental chart as nearly correctly as the condition of the body will allow. Items (e) and (f) under the body description are very important and should be very complete. The dental chart is also very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found.

<p><b>MISSING TEETH</b>..... All teeth missing through previous extraction (not those fractured or displaced by recent wounds) should be scratched out, thus :</p>	
<p><b>CROWNED TEETH</b>..... Block in solid the crown of tooth (label gold, porcelain, or gold and porcelain), thus :</p>	
<p><b>BRIDGE WORK</b>..... Block in solid the crown of tooth (label gold bridge, gold and porcelain bridge) thus :</p>	
<p><b>FILLINGS</b>..... Draw filling on tooth accurately as possible (block in and label gold, silver, cement), thus :</p>	
<p><b>CARIES (CAVITIES)</b>..... Outline location and size of cavity, shade in thus :</p>	
<p><b>DENTURES (PLATES)</b>..... Draw diagram of relative size and shape of plate, block in teeth attached and indicate retaining clasps on natural teeth with the word "clasp"</p>	

7. Show name of person supervising the disinterment and the name and title of the person approving same.
8. Show name of person supervising the reburial and the name and title of the person approving same.

Dear General: -

Manassas, Virginia

In reply to your inquiry wish to state that I, his father, am the nearest living relative of Edward Cornwell (deceased) I notice the blue arrows indicate his widow and children. My son was a single man when he joined the army and I'm most confident that he remained single. If he ever married I never heard any thing of it and we corresponded with him as long as he lived. The space on the other side allowed for the brothers is so limited that I hope you can see I've written the names of his seven brothers and one sister.

If I've failed to give any information requested by you I'm not aware of the fact.

Yours Resp.

Henry B. Cornwell
