Commanding General, USAF in Middle East, Cairo, Egypt

Commanding General, Persian Gulf Command, Teheran, Iran

Number: WARX 50250

From Marshall to Eisenhower, McNarney, Giles and Booth.

Participation by liberated Allied prisoners of war in fighting on the eastern front has recently been mentioned in the press. Believing such publicity may jeopardize the safety of those Allied prisoners of war whom the enemy can not evacuate from areas which may be captured, the Combined Chiefs of Staff have approved measures to stop all publications on this matter in the US and United Kingdom. They have also advised General Deane and Admiral Archer in Moscow to request the Soviets to take steps stopping all such publicity in Russia. To forestall the possibility of a similar release by recovered personnel in your theater or command, it is desired that any necessary safeguards be established immediately.

From: US Military Attache, London, England

To: War Department

Nr: 23766

19 January 1945

To MILID sr nr 23766 from Tindall

Reference our 019 on basis first editorial comment and Parliamentary speeches, Churchill's War Report appears to have been better received than Premier's pre Christmas statements and criticism Greek policy has moderated considerably. His recital recent events in Greece seems to have sobered some critics and liberal and labor papers have mild editorials today.

Times criticism remains sharpest and because influential position is naturally important. Truce in fighting, atrocities laid to ELAS and defections from EAM have improved Churchill's position considerably in eyes British public.

British press generally skeptical Plastiras Policy will bring Greek trouble to satisfactory conclusion. Most sections opinion regard truce in fighting and establishment provisional Government based on all Greek groups essential conditions to peaceful settlement.

Press considers Plastiras Policy as announced meaning effort suppress Elass by force and refusal to negotiate. Policy of this kind will find little public support here and use British troops to give it effect would be strongly opposed.

5 January 1945

From Graybeal CDA 1.

Internal India summary dated 30 December 44.

1. Press announcements have been issued concerning payment increments, voting and one months leave in UK for British personnel in India Army but no comments available. No comments on pay increase for Indian Troops. Morale of British Troops remains high. Early reaction to plan for leave in UK somewhat unfavorable due to doubts whether taking this leave would affect repatriation of the individual concerned. At present attitude is changing since men have started to go but there is a feeling that the limitations are not understood by families at home who expect everyone to get leave. The situation in Greece is beginning to cause some worry.

2. It is believed the rice famine in Burma was engineered by the Japanese to embarrass Allied advance. The transfer of responsibility for feeding Calcutta to the Bengal Government has caused the hardening of rice prices in Bengal. Aman harvest in Bengal is progressing in spite of shortage and high price of labor. Due to failure of late rains the crop is expected to be only average good.

3. Temporary set-back on the western front has caused undue alarm and morale is high. Speech of Viceroy to Associated Chambers of Commerce caused general disappointment in Nationalist circles as finally closing door to

political settlement during war. Non-Muslim circles welcomed his observations concerning Pakistan but Muslims resented them.

4. DIB 3.

5. Opposition to Muslim League reported from rival Muslim factions in North West Frontier Province and in Sind. In Bombay and United Provinces the Muslim League is suffering from internal differences. Owing to previous resolutions which are reinforced by temporary indisposition Gandhi is not taking part in political activities at present. Jinnah and important section of scheduled castes have refused to meet Saprus' conciliation committee. There have been further activities adding to Gandhis construction program but it is believed that there exists among left-wing congressmen a disbelief in the effectiveness of the program.
