(3) The corvette with bow missing is no longer visible in the port and is believed to have been scuttled. Another corvette, which was capsized in drydock, has now been salvaged.

(4) The previously reported active ex-French destroyer is now believed to be the FR.22 (PANTHERE - 2,126 tons) instead of the FR.21 (LION) which is now believed to have been rescuttled as a blockship.

(5) The new submarine (280 feet) has been moved near the Western entrance of the La Spezia harbor. This unit was launched at the MUGGIANO Yards during September 1944 and may possibly be the 1,300-ton transport submarine R.10.

(6) A torpedo boat 235 feet was sunk during an air raid at Fiume on 5 November. This unit may possibly be the 616-ton TB DEZZA which has been operating out of Trieste and Fiume.

(1) Carrier-borne aircraft attacked TIRPITZ 17 July. Results unobserved.
(2) ADMIRAL SCHEER probably still in the Baltic.
(3) PRINZ EUGEN previously reported Gdynia 6 July 1944.
(4) EMDEN last seen Gdynia 12 May 1944.
(5) Additional units of this type are included in the figures (below) of 15/17 unlocated DDs and TBs.
(6) The Admiralty records a reduction of one Torpedo Boat in this area. ONI has received no report of this apparent loss. On 21 July a damaged Elbing class succeeded in passing through the Straits of Dover. This would, therefore, leave only one Torpedo Boat in this area.
