Former Chart S.R. 04-50-40.

The F.Y. 1941 Program has been added to the Current Procurement reflected in this chart. This Current Procurement includes both that for the Regular Army and that for Seacoast Defense. Stocks on Hand prior to Current Procurement have accordingly been increased to include the Seacoast Defense inventory.

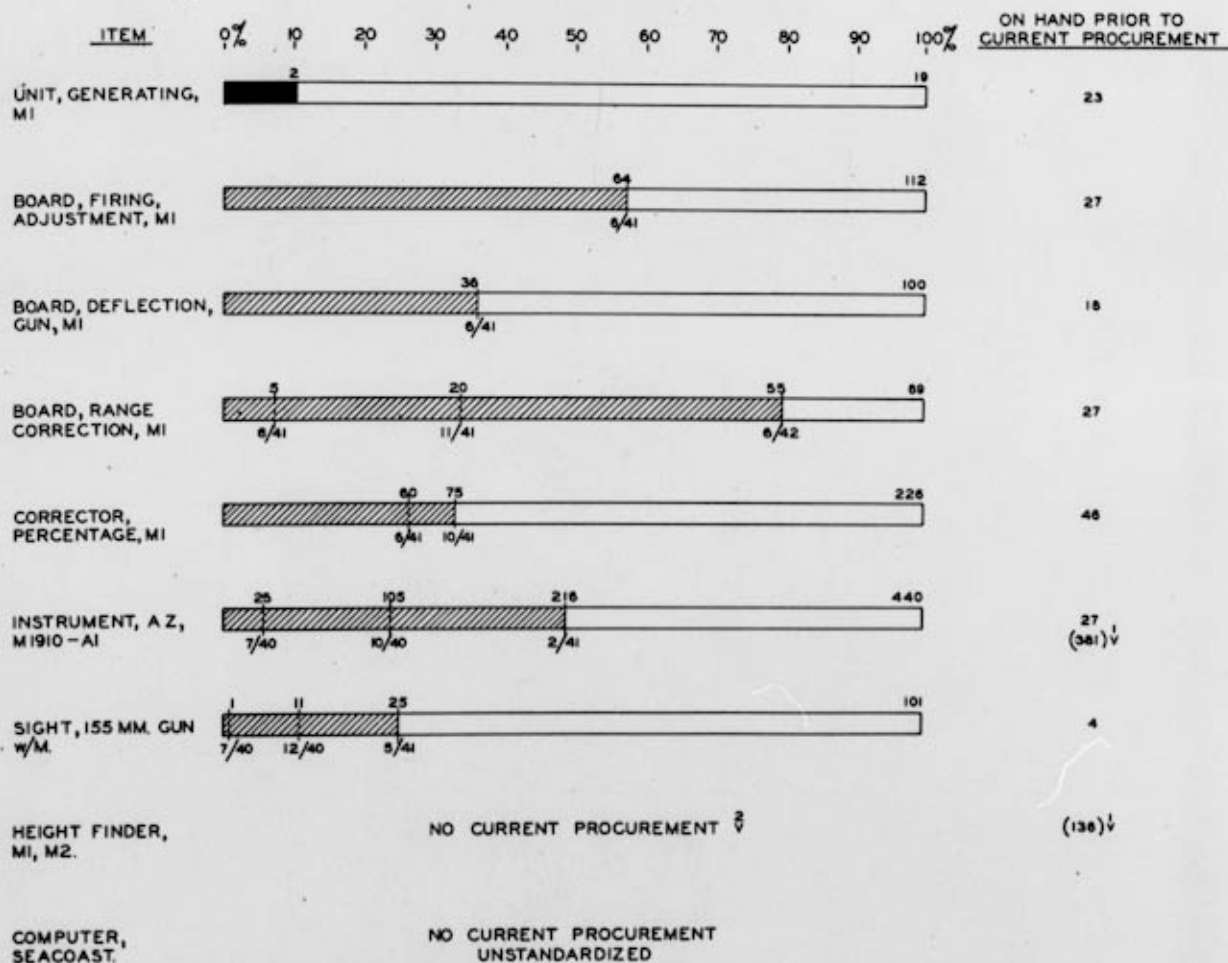

Sighting Equipment for the 155 Mm. Gun, w/Mount, does not come in this category, however, inasmuch as it cannot be used interchangeably between the Mobile M1 Gun and the Seacoast Defense Gun. The Current Procurement reflected in regard to this item is therefore only for the Mobile Gun inasmuch as it is the Sighting Equipment for this use which is classed as Critical by G-4.
