Subject: Assignment to Duty of Anti-Submarine Personnel.

Reference: (a) CominCh serial 2898 of May 9, 1943.

1. Reference (a) is quoted herewith for information and appropriate action:

1. In view of the urgency of building up quickly a large and efficient anti-submarine element of the Navy, I desire that personnel specially trained for and experienced in anti-submarine operations and activities be retained in duties concerned with anti-submarine warfare to the maximum possible extent.

- From: Commander in Chief, United States Atlantic Fleet.
To : ATLANTIC FLEET.
- Subject: Degaussing Installations — Operation and Maintenance of.
- Reference: (a) ATLANTIC FLEET CONFIDENTIAL MEMORANDUM 19CM-43.
1. Reference (a) is cancelled.
 2. The following instructions are prescribed for degaussing equipment:
 - (a) The engineer officer of the ship shall be responsible for its care and maintenance.
 - (b) Insulation to ground readings shall be taken and recorded daily for each circuit. Immediate action shall be taken to remedy a reading less than 50,000 ohms — especially if the drop to such a value occurs suddenly as evidenced by the daily recordings.
 - (c) Coils shall be energized at full rating for at least thirty minutes daily unless they are in use for protection purposes.
 3. If opportunity offers, ships shall be calibrated on a magnetic range;
 - (1) upon completion of the degaussing installation;
 - (2) immediately after deperming when so advised by the officer in charge of the deperming station;
 - (3) upon receiving from a channel range or an American or British Degaussing Authority a recommendation for recalibration.
 4. Ships shall pass over magnetic channel ranges at every opportunity.
