No. 1022 May 6th, 1942

Conversation with Lieutenant General Andrew Gak in Jerusalem. Germans will muster 4,500,000 on Russian front; 3,000,000 to hold north lines, balance including 35th Panzer Division available for main offensive to Caucasus hinging upon Orel and Kursk. Objective will be Grozni northwest of Baku. If Russians have strengthened Kirch Peninsula and Don Basin Andrew Gak believes that they can hold. From Szymanski.

Andrew Gak knows Russia intimately. Says 80 per cent of heavy industries is back of Urals. Russian staff officer writes him Russians are confident, there is much talk of Russian offensive this spring.

Czech Antiaircraft Regiment being formed in camp near Haifa.

My note: attention is invited to my 1015 part 2 which gives figures at variance with those above.

Fellers

FROM: LONDON
TO: MILID WASHINGTON DC
NO: 2553 MAY 7, 1942

Australian procedure Marshall and MacArthur cables furnished London by Washington British Representatives referred informally by British Chiefs Of Staff London as AGENDA special meeting LMAB May 4. See cable AGWAR no 556. Addressed Moore from Wilson show Marshall and Burns. Board adhered to former views see LMAB (42)(13)(second draft) Para 6 sent Toulouse pending expression of views of Australian Government as to where bids should be tabled London or Washington and directed Secretary to notify British in Washington Boards action. High Commissioner Australia Bruce and Minister Evatt attended attitude of both indicating preference Washington. Evatt antagonistic talkative poorly prepared. Believe British members unanimous and firm in above views and that British Chiefs of Staff will support British members. Sending records first air pouch.

From: Chungking
to: Milid

No 129 April 30th, 1942

Talked with Wavell his CO FS and G 2 at Delhi. These consider Burma practically finished and are concerned with evacuation and supply of British' remnants falling back toward Assam. Think Jap possible moves as follows. 1. North Burma thru Assam in continuation present drive. 2. Land in land move on Bengal thru Ganges Delta. 3. Occupy Ceylon as base for control Indian Ocean and possible juncture with Nazis near east drive. Move 3 favored but believe landing at Madras or South for land based attacks on Colombo necessary while have no definite info on Jap preparations for any of these moves British Staff say enemy has sufficient troops and ships available lacking only aircraft. Estimate of plane shortage based only on estimates of Jap production and losses to date. British hope plane lack will hold up further Jap drives until Monsoon providing breather for settlement Indian political uncertainties. Wavell believes Japs must act in Siberia before long as insurance that gains can be held. He seems old tired and uncertain of Jap next moves or plans to counter.

No. 174, May 6th, 1942

Conference had with American Consul reurad May 1 security measures civil radio Greenland. Only 3 civil radio stations in Greenland capable of contact with outside stations. Recommend 1 well trained radio operator Army Non Commissioned Officer who speaks Danish be assigned to each of the 3 stations for the purpose of control in maintaining radio silence during possible air raid, supervising recognition procedure from aircraft and vessels and possible attempts at sabotage. That the Governor of Greenland be informed through the State Department that all Danish radio stations must conform to the prescribed procedure issued by base commander in the challenge and identification of aircraft and vessels and that all radio stations will maintain silence when in the opinion of the base commander such silence is to the interest of security.

No. AG 627 May 6, 1942

Following detailed information furnished for press background on April 8 on Philippine situation. "Air and artillery offensive against the fortified island entered its 5th day with undiminished intensity. Aerial attacks were concentrated on Corregidor and boats in the South Harbor. (Cite G-2) Our anti-aircraft hit and damaged several bombers and snacoast batteries were active in counter battery fire. In Mindinao enemy forces which effected landing in Macajalar Bay attempted unsuccessfully to push around our right flank in vicinity of Bugo. This attack was supported by enemy aircraft, 2 of which were shot down".

No. 133 May 5, 1942

Following from Lieutenant Colonel Rothwell Brown who arrived from Calcutta via Dinjun and Kinming: General Stillwell with remnants of Chinese troops now between Swebo and Myitkyina. Railroads reported blocked south of Katha. Bhamo occupied by Japanese May 1st and Japanese may reach Myitkyina ahead of General Stillwell. CNAC reports Myitkyina bombed May 4th. Standard Oil personnel report capture of Wanting May 3rd or 4th. British forces who evacuated Swebo are trying to make their way to Imphal. Lt Colonel Rothwell Brown after careful survey situation believes that Japanese can land on East coast of India practically without opposition probably at Madras and either simultaneously or immediately thereafter take Ceylon without difficulty.

INCOMING MESSAGE

PRIORITY

From: New Delhi
To: Milid

No. 116, May 6th, 1942

This is a reencipherment of our 116 of the 2nd
"Three plane reconnaissances Arkan coast on 1st gave negative results and no reconnaissance reports were received from Ceylon. Same morning 6 bombers bombed Akyab without causing damage: Plane reconnaissance of Rangoon saw nothing because of cloud. Plane bombing Rangoon on night of 1st/2nd saw no ships at docks. Official British comment follows. Congress tend increasingly to support Gandhi's policy of meeting invasion wardaion violent non cooperation and to repudiate Rajah Palaphariars proposal that demand for Pakistan be acknowledged. British and Indian troops in Burma continue to have high marbie, latter resenting Burmese attitude. 350 Indian officers are commissioned monthly but standard is falling. Intake of Indian Air officers is sufficient. March recruiting normal tho Madras increase tends to balance falling figures for best of fighting groups. Newly raised Afzidi Battalion is keen and has no desertion.

INCOMING MESSAGE

From: Chungking
To: Milid

No. 134 May 5, 1942

Although fall of Lashio perhaps heaviest blow of war to Chinese because brings possibility of attack which cannot be evaded by retreat or withdrawal, do not expect to see any immediate serious effects. Chinese fully realize reckless Jap offensive tactics, so far so successful, may result in invasion of Yunnan from Burma in spite of Terrain difficulties, and possibility of 2 way squeeze from both Indo China and Burma can not be ruled out. Consensus best opinion is however that Japs will continue push thru Burma into India rather than attempt invasion China at present. Collapse of British Chinese forces and present desperate situation there has given certain leaders particularly Paichung-Hsi who consistently opposed dispatch large Sino forces to Burma, chance to cry "I told you so" but so far no indications of resentment against Americans for our connection with debacle. Gen Stilwells sound leadership and courage and self sacrifice in sticking with retreating troops has aroused most favorable comment. Little apprehension felt here over possible turnover to Jap by Governor of Yunnan as generally agreed his troops not able materially hinder defense of Province by Natl Govt troops and latter not relying on him for much assistance. Present situation good field for activities of war - weary, faint hearted and anti western elements, but believe gissimos iron will and general feeling that US is China's best hope will predominate.

No. 1021 May 6, 1942

With General Scott visited Greek Camp near Hedera between Tel Aviv and Haifa. Commander, Major General Moraves, is very weak, soon to be replaced by his Chief of Staff. There are 10,000 in camp now with 200 to 300 arriving daily. Expect group of 2500 to arrive in 10 days. Division will soon be moved to Syria to join General Freyberg's New Zealanders. From Szymanski.

Colonel Sampson, Senior instructor, New Zealanders stated: Greek soldiers are tough individual fighters, have no conception of team work, are not adept in handling mechanical equipment. Junior officers fine, Senior officers very poor.

Greeks could easily raise 2 to 3 divisions in middle east but would need equipment. Greek priests just returned from Russia told Moraves that 80 per cent of industries are back of Urals, that Russians are very confident.

No 1017 May 5th, 1942 Part 2

Due to increased shipments from North Africa to Dakar during past 6 months maintenance and supply positions of French West African Air Force has been greatly improved. A large portion 1st line strength of French West African Air Force is American aircraft. Presumably, therefore, spare parts and replacements are not readily available and efficiency of these planes would diminish rapidly during long period of operations.

Aircraft reinforcements can be transferred from French Morocco to West Africa readily. Such transfers however would weaken the Casa Blanca defenses where RAF believe the French expect an attack. Present tendencies appear to be to strengthen fighter defenses of French Morocco at expense of Tunisia and Algeria.

Believe demands on German Air Force are such that it can ill afford to spare strong force for Dakar. However last year there were no German aircraft on Sicily

No: 1, May 4

Test for Surles tentatively set May 8th repeat May 8th 2,000 GMT. Soviets ask receipt following priority test 2 reference May 17th program: type description of subject matter, will there be programs from other nations and what will be Moscow's relative position? Whom do you desire to talk MAGIDOFF or Soviets? If more than one how long each? 1 way or 2? Do you desire front line recordings requiring 15 minutes? Following my comment: Soviets thought their Broadcast would be 1 hour, they ask above-mentioned information because representative will not assume responsibility or make decisions hence Extemporaneous arrangements likely to be canceled later. Soviets want to confine tests to technical aspects only and should be assured tests will not be broadcast and not include political economic or military discussions. Magidoff most willing cooperate but desires specific instructions his role he has not been informed through his organization

From: Cairo
To: Milid

No. 1015, Part 2, May 4th, 1942

German man power: As of April 1st 9,850,000 men had been mobilized. Of this number 6,500,000 were trained. Losses: 950,000 killed and prisoners; 1,500,000 badly wounded not able to fight; as available for duty, they are sent to occupied countries for light duty.

From remaining 4,050,000 men fit for duty 3,000,000 are on eastern front and in Norway and Finland organized into units as follows: 150 Infantry Divisions, 40 motorized divisions, 30 armored divisions, 14 Storm Troop Divisions (young soldiers), 2 air borne divisions.

In Germany in training camps Berlin, Hanover, Weimar Triangle are 250,000 men: 8 Infantry Divisions, 10 motorized Divisions, 2 armored divisions, 4 air borne divisions.

Yugoslav officers also disclose that great apathy is observed throughout Germany.

In Balkans are service troops only; here also is observed a great change in the German attitude. They are now kindly to population, hoping they may forget evil treatment of former days. Germans confess openly they cannot win war but must fight to end. Theirs is an attitude of resignation.

Yugoslav officers believe Hitler will demand a Russian offensive which his army knows cannot succeed; that in order to stage this offensive at any cost Hitler may be obliged to liquidate some of his best leaders.

In U. S. S. R. same source reports there are 330 divisions of which 220 are on western front that there are 130 fresh divisions to be committed of which 100 are new and 30 rested. My notes: Colonel Popovich believes that these figures are reasonably correct. If this be true there is no sound reason to believe a German offensive against Red Armies will succeed. Should Hitler attempt a drive through the Ukraine the advantage of pressure from heavy bombers based on Middle East against his rear area, communication lines, Roumanian oil are apparent. In addition an Allied invasion of the Balkans by late fall might collapse Germany the winter of 1942-1943.

No 644 Annisca May 4th, 1942

After being out of communication 2 days, message despatched by Stilwell on May 2d received here 2AM May 4th reports he with Commander Chinese armies is moving North by train which now is "stalled" at an undesignated point. Apparently he is continuing by motor. He is believed to be between Shwebo and Katha. He queried about situation on Lashio front and at Kalewa, instructions from War Department and messages from Generalissimo. He was told Japs in or near Waiting; no information of Kalewa area; Loiwing burned and abandoned by Chinese. All instructions from War Department have been transmitted. We are still in radio communication. Generalissimo has transmitted no messages through us. No details known of situation around Mandalay but Chinese believe it to be disintegrating.

Unnumbered, May 3, 1942

Reliably reported that 24 cavalry now stationed Matamoros Reynosa and Monterrey will exchange stations with 19 cavalry now stationed Santa Tosalia Chihuahua prior to May 15th. Some indications that German aliens in northern Mexico are receiving considerations over and above that accorded other aliens. Source of undetermined reliability report that several Germans in Mexico are now forming a "Free German Movement" similar to Free French Movement the basis of which is to work against Hitler.

INCOMING MESSAGE

URGENT

From: Chungking
To: AGWAR for Ammisca

No. 636 Ammisca, May 3, 1942.

Brereton furnished Ammisca Chungking with brief extract from Directive he had received regarding Wavells request for American transports for use in India. Brereton stated he was directed "to strengthen General Wavells hand to such an extent as you find possible". Brereton was requested to furnish Chungking complete text of your message and it was suggested that he be most circumspect in the execution of his directive in view of Presidents message to Generalissimo April 21st, your 523.

The President told General Iissimo these transports were for operation under General Iissimos direction and were being delivered to General Iissimo.

It is requested that Ammisca be fully informed of any change in the policy indicated in your 523 if any change is contemplated. Due to strong anti British feeling of General Iissimo and Madame and their suspicion and distrust of Wavell as well as the increased importance of Air Transports to China since the reverses in Burma, unusual caution is recommended to prevent adverse political and military repercussions by the Chinese. Bissell.

From: Embassy London
To: Milid Wash

No. 2530 May 3, 1942

Latest rept from Brit Burma timed 3:30 hours GMT 2d briefly said Japs had captured Monywa on Chindwin River and were moving toward Yeu that Brit had virtually no rpt no fces in Kalewa where early Jap threat would be serious. Also said had no recent info of Chinese.

No says all Brit troops are being withdrawn from positions North of Irrawaddy.

Rept from Burma does not mention Mandalay and no rpt no Official confirmation here of capture but little doubt has been.

Comment : above rept from Burma did not rpt did not show any changes dispositions Brit Troops from those shown our previous messages. If true that no rpt no changes made will be seen latest Jap move up Chindwin River leaves part of Brit Troops South of New Jap Thrust and in very serious situation for withdrawal.

Another rept Just recd London shows Chinese situation on first as follows: 96th Div was moving no Norwest Bank Irrawaddy to Entrain for Myitkyana and believed this Div would occupy positions Katha Area. 22d Div was withdrawing from East Bank to cross at Singu. 38th Div was in Sagaing Area covering withdrawal. 1 Chinese Regt was moving Norwest cross country from Wetwin, noreast of Maymyo. 28th Div and at least 1 regt of 29th Div were at wanting.

Same date 55 Jap Div was north of Kyaukse. Regt of 18th Div was lashio-Hsipaw with 2 hund men and 3 tanks astride road Terminus at Maymyo.

No. 2532 May 3, 1942

Recommend that production men familiar with manufacturing processes be sent to U K to observe British methods on New weapons and munitions that have recently been standardized or will likely be standardized soon. Re Ma letter 47447 and numerous reports on items listed Below. Some of major items are probert type rifling and shell, plastic explosive missiles, missiles containing coned explosive charges, missiles containing coned explosive charges lined with thin sheets of low melting metals, missiles containing coned explosive charges with heavy desk rings, Little-John muzzle squeeze attachment and projectile, molins fuze setter and loading device, 3 pound antitank spigot for firing from shoulder, another very promising anti-tank shoulder weapon upon which no report has yet been made, Tungsten carbide armor piercing cores, strikerless fuzes and high explosive incendiary charges for aircraft ammunition, Martin Baker feeding device for Hispano suizza 20 MM gun. In event of our adoption of majority of these items considerable revision of ordnance production program must follow and it is believed that immediate steps should be taken to facilitate the production these new munitions.

Talked with Wavell his COFS and G2 at Delhi. These consider Burma practically finished and are concerned with evacuation and supply of British remnants falling back toward Assam. Think Jap possible moves as follows. 1. N north Burma thru Assam. Continuation present drive. 2. landing and move on Bengal thru Ganges Delta. 3. occupy Ceylon as base for control Indian ocean and possible juncture with Nazis near east drive. Move 3 favored but believe landing at Madrasor south for land based attacks on Colombo necessary first while have no definite info on Jap preparations for any of these moves British staff say enemy has sufficient troops and ships available lacking only aircraft. Estimate of plane shortage based only on estimates of Jap production and losses to date. British hope plane lack will hold up further Jap drives until Monsoons providing Breather for settlement Indian political uncertainties. Wavell believes Japs must act in Siberia before long as insurance that gains can be held. He seems old tired and uncertain of Jap next moves or plan to counter.

No. 1009 Part 2 May 2, 1942

During 9 day period ending April 28th weight of Malta attacks continued. 68 alerts were sounded. All attacks were accompanied by heavy fighter escorts but fighters strengths are not reported. Average bomber and dive bomber sorties daily was 175. RAF reports 38 aircraft lost, 79 damaged, 171 casualties. Germans lost 56, probably lost 20, damaged 73. April 20th there were 330 bomber sorties. April 21st RAF reported 8 aircraft lost, 10 damaged. Report further reads as follows: "All remaining fighters were damaged in combat".

Antiaircraft ammunition is being flown in every night by bombers. Allowance is restricted to 8 to 15 rounds per gun for each attack. Underground hangars are being built but none yet completed.

As of April 23rd British had 2,149 operational aircraft in Middle East exclusive of Malta. Of these 884 were with squadrons with 612 serviceable, 1265 in maintenance units with 144 serviceable. There were 152 aircraft in Malta with only 24 serviceable. These include 73 Hurricanes with 12 serviceable, 50 Spitfires with 12 serviceable, 8 torpedo carrying planes with 2 serviceable, following unserviceable planes: 2 Blenheims, 8 Wellingtons, 3 Maryland, 6 Beau fighters, 2 Beauforts.

INCOMING MESSAGE

From: Chungking
To: AGWAR for AMNISCA
No: 623 AMNISCA May 2, 1942

Instructions for Brereton generally similar to those in URAD 576 April 30 had previously been transmitted to Brereton with directive for him to advise War Department as specified URAD 479 April 15. Stilwell's action on Radio 497 delayed by Garbles and communications difficulties. Fundamental difference in War Department instructions to Brereton and orders from Stilwell is that War Department placed Brereton under wavelle's control while Stilwell directed Brereton to carry out missions requested by British until further orders but retained Brereton's force under American control. Refer to AMNISCA 611 April 29. Communications from Brereton indicated he is acting under Stilwell's directive. Strongly recommend no further action regarding the command set up be taken by War Department pending receipt of recommendations from Stilwell because of possible adverse effects on our relations with Chinese. Bissell.

INCOMING MESSAGE

From: London
To: MILID

No. 2526, May 2, 1942

WO lacks any official info Burma sit since that contained our 2511.

Press repts from Chungking enemy is moving north-east from Lashio and that this indicates move into China not repeat not accepted by WO as positive indication such plan. WO considers Jap move northeast along road from Lashio as natural move in development Jap plan to reach and occupy North Burma and cut off Chinese from supply from India.

From: Amembassy, London
To: Milid

No. 2525, May 2nd, 1942

Ngt 29th Brit on Libya carried out oprn to establish enemy strength and dispositions and test reaction by moving armd fce to area 25 miles southeast of Bir Hakeim. Daylite 30th fce split into 3 columns. First advanced 10 miles westward and engaged 20 MT, 3 tanks and 4 armd cars. Second column went further 20 miles westward and engaged scattered MT and AFVS. Third column made northward sweep of 70 miles and restd 50 MT in area 3 miles northeast of rotunda segnali.

Afternoon 30th main body moved southwest from original area and was to return to Brit line ngt 30th. Final repts have not been recd but whole oprn hampered by dust storms.

INCOMING MESSAGE

From: USAFIA
To: General George C. Marshall
No. AG 558

The directive to the commander in chief in the Southwest Pacific area was delivered by Colonel Osterander on April 25th. With the limited forces at my disposal the missions assigned must be construed in large measure as a pattern for future development. None of the three elements of Naval, air or ground strength are at present adequate. The situation with regard to each is as follows;

(1) The Naval force has direct air support due to the absence of a carrier and is therefore suitable only for operations of a minor and subsidiary nature.

(2) The Australian Air Force will require many months for its development. This force will always be absorbed to a large extent in the defence of the very extensive coast line of this continent.

The United States Air Corps strength comprises 2 heavy bombardment groups, 2 medium bombardment groups less 2 squadrons, and 3 pursuit groups with 100% T/O operating aircraft plus 50% in reserve, no specific number having been assigned for wastage. Air Corps organization and training are far below the required standard and it will require at least 4 months of the most intensive effort to reach a satisfactory condition.

(3) The ground troops are not prepared.

The Australian Army has one division and one division less two brigades which have returned from the middle east which are undoubtedly effective troops. One additional division in the home force is approaching combat condition. The remainder of the Army is composed of a militia in a very indifferent state of training and equipment which can be prepared for combat only by prolonged and intensive methods. It will be several months before these ground troops are ready.

of ~~INCIDENTING MESSAGE~~

In view of the assigned mission and the size and composition of the forces now available or allocated I find myself in need of the following additional basic information in order to perfect my plans:

(1) The nature of the offensive that is contemplated to be launched from this and adjacent areas.

(2) The size of the force that is expected to be eventually allotted for its accomplishment.

(3) An approximate idea of the date when such an operation could be expected to be initiated.

With this information regarding the basic strategic concepts of the allied nations I will be in a position to perfect local plans EYD

INCOMING MESSAGE

From: Ambassador London England
To: Milid Washn

No. 2516 May 1, 1942

Resume status Russ Campaign including info recd to
29th follows: Germ Air Atcks Murmansk continue.
Activity some sectors Finn Front revived specially
along River Svir where Finns claim repulsed Russ
Atck on 23rd but believed only small oprn

Leningrad Sector increased local activity but
reduction by Russ of isolated Germ Fce Staraya Russa
now seems improbable

Dent Dec Local Atcks and counteratcks continue on
greatly reduced scale

In Ukraine Oprns restricted to minimum by thaw
conditions

On Crimea little military activity but Germ Air Fce has
intensified atcks against Kerch and the Caucasian Ports

Conclusions: Late thaw especially in Ukraine Any will
be delaying Germ Preps for offensive and cause its
postponement Until end May possible later. In Crimen
however Germs are increasing scale air effort and Mil
Oprns should be possible early date

Paraphrase

Telegram No. 642

Dated: April 30, 6 p.m.

From: Vichy

Rec'd: April 30, 5: 27 p.m.

Reference our telegram of April 18th, No. 572. Armored division reported in that message as identified as the 10th has now been positively identified as the 24th armored division. In the near future this division is scheduled to transfer to Russia in two eschelons. We have received reliable reports to the effect that in Eastern France another armored division is being constituted.

It has been learned from an excellent source that the German General Staff has estimated that five month's large scale offensive will require ten million tons gasoline. Unless the stocks can be strategically spotted only small scale operations can be undertaken. The much heralded offensive scheduled for this spring can at best be nothing more than a summer offensive it is believed.

INCOMING MESSAGE

From: London,
To: G-2,

No. 2511, May 1st, 1942,

Sit Burma at 5 HRD GMT 30th: First Burma Div less 2nd Bgde completed crossing Irrawaddy at Sameikkon Ferry NHT 28th without opposition. Whereabouts 2nd Bgde not rptd.

38th Chinese Div completed crossing NTH bank Irrawaddy from Sagaing area NHT 28th.

No official repts from Chinese Shan States Front but reliabley rptd Lashio in Jap hands. Unofficial but reliable info recd here indicated Lashio captured by combined armed fce and air atck. Also unofficial rept that Hsipaw captured.

Dispositions Brit 17th Div remain as shown our 2503 and apparently being ignored by Japs. Also sofar as known here are still considerable Chinese fces Taunggyi or vicinity apparently by passed by Japs in thrust from Loilem and there is some wishful hoping these Chinese Troops may operate against Japs between Loilem and Lashio but is probable Japs would foresee that and have already attended to.

McClure.

From: Kouibychev
To: Milid

76, May 1, 1942

Conversation with Soviet Liaison Officer today: Southern Terrain now sufficiently dry to permit operations, Soviets consider Germans considering delayed Southern offensive somewhat reasoning suggested Hitler watchfulness 2nd front, 2/3 German Forces now concentrated in South (my estimate 140 to 160 divisions). Soviet Liaison Officer reiterated probable Germans plan to form frontal security north along Don River to Stalingrad and Volga River to Astrakhan, then operate against Caucasus and Persia followed by attack to north late summer. Soviets do not expect German drive through Turkey and believe Turks will fight if such attempted. Bitter fighting progress near Staraya Russa, Terrain there very swampy now.

~~PARABRASS~~

Dated: Apr. 30, 7 p.m.

From: Bern

Rec'd: Apr. 30, 6:27 P.M.

The following information should be transmitted to the War Department immediately at the request of the Military Attache:

1. Every large unit in the army of Switzerland was issued on April 17th a summary of intelligence, parts of which follow:
2. It is reported that the German offensive will begin on the morning of May 4th, at 4 o'clock.
3. The offensive will consist of 2 major attacks which will begin at the same time, 1 directed at Syria and Cyprus from Crete, the Dodecanese and Greece, and the other directed at the Caucasus from the Ukraine along a front 500 kilometers long from the Sea of Azov north. This plan is based on rumors of general staff conference of the Axis in Munich.
4. The sources of petroleum in Iran, Iraq and the Caucasus are the objectives of both of the above attacks.
5. The number of divisions which the Germans have in line is not known but the greatest concentrations are in the bend of the Danube. That area holds 25 Panzer divisions as well as 55 infantry divisions in reserve, 25 being motorized.
6. Reports indicate that each Panzer division has only 180 tanks and that the divisions are reorganized.

No. 119, April 30, 1942.

I have received this date the following message dated April 28 from General J Salvador S Sanchez, Chief of Staff, Mexican Army, for transmission to General George C. Marshall "The Mexican Army conveys to the great American Army its deep appreciation for the latter's welcome felicitations on the occasion of the Dia Del Soldado, a felicitation which reaffirms the close spiritual understanding which in these moments unites our armies, ready to fight as a single man for the liberty and for the democracy of the American continent."

Aquila No. 648, April 30, 1942

DEC 7 1972

Four parts. Part 1. During past 60 days freight moved by air from India into Burma and China totalled 270 tons divided as follows: China National Airways 80, US Air Force 170, and RAF 20. No freight moved by other means during this time. This replies to your number 219 April 23rd. Part 2. Estimated maximum monthly tonnage capacity of United States Assam-Burma-China Ferry Command from India into China beginning November 1st when all equipment and fields in operation as follows: 10,000 into Myitkyina or 8600 into Paoshan or 5600 into Kunming. During May and June monthly maximum estimated about 1/3 of above figures and during July through October 23rd. Part 3. Capacity Hukawng Valley Land route estimated about 200 net tons per day during January and February increasing to about 300 net tons per day thereafter. Net tonnage estimated about 1/3 of gross tonnage. Capacity land route insignificant before January. Part 4. Following information is submitted on 3 proposed land routes Assam into Burma: 1st Manipur Road-Imphal-dash Chindwin River route scheduled for completion in August by British who estimate capacity about 1,000 gross tons per day but this road not repeat not available for through traffic to China since it is reserved to supply British troops on Burma front; 2nd route from Ledo to Myitkyina via Fort Hertz and Kora-waddy River Valley will not repeat not be improved at this time by orders of Generalissimo who directed improvement Hukawng Valley Route only at this time; 3rd route from Ledo to Myitkyina via Hukawng Valley and Mogaung scheduled for completion by Chinese near end of year. Road construction progress is greatly delayed by heavy rainy season from June through October.

No 987 April 24th.

Although Roumanian oil is the strategic target of the war it can be reached only so long as Middle East is secure. Today this theater is secure not because of British strength but rather because the Axis has not yet elected to attack.

Our proposed American task force therefore will serve a dual role. While it launches heavy bomber attacks against decisive objects it also insures the security of Middle East. If invasion threatens long range bombers can be diverted to break up potential Axis attacks from either East or West while still in their formative stage. If invasion occurs our infantry and armored divisions supported by our own air units can assist in repelling invasion.

To insure harmony and achieve decisive results American Task Force should be assigned its separate theater and mission; should provide own maintenance, supply, communications; should be commanded by at least a lieutenant general.

Conclusion:

1. That an American task force strong enough to secure Middle East and heavy bombers for sustained attack against Roumanian oil and decisive Axis objectives offer most effective American contrib-

bution atainst Germany in 1942.

2. That in Middle East more than in any other theater an American task force offers the United States possibilities for the greatest achievement with the least expenditure of means.

Recommendation: That an American task force such as is indicated this cable be sent to Middle East without delay.
