President Johnson
Washington, D.C.

Dear Mr. President,

We are three teenagers who love the BEATLES! We have started
a BEATLES Fan Club.

We have decided to make you an honorary member, if you would
like to.

We would like to have your permission to attend the press
conference with the BEATLES when they come again to San Francisco.

Inclosed is an article about what the BEATLES feelings are
on the coming election.

Thank you for your time and effort.

Yours truly,

Karyl Somerton

A Beatle 'Yeah' For LBJ

CHICAGO (UPI) — President Johnson picked up some new backing Saturday night — Paul McCartney, one of the Beatles.

The Beatles were asked at a news conference preceding their concert here: "From what you have observed so far do you think the senator from Arizona should be elected president or President Johnson?"

McCartney answered, "Well, we don't know too much about it, but just from what I read or heard I think Johnson should be president."

In reply to a question whether the Beatles were glad the colonists won the Revolution, the four in unison answered "Yeah."
