

NES Infoceuticals: One Facet of a Powerful, Cohesive Solution

NES Health has identified that to achieve total wellness, there are 3 critical factors, which need to be addressed:

- The Energy that flows through the body
- The Information that is created, distributed and regulated within it
- The Physiology of the body

As a result we have developed the **NES Health Total WellNES System**, which comprises a 3-step process:

1. Detect the origin of problems with **NES ProVision** anywhere, anytime
2. Remove Blockages & acute pain with the **NES miHealth Medical Device**
3. Send the right information by **NES Infoceuticals**

NES Infoceuticals are a key component of the **Total WellNES System**, and are used to re-imprint the body-field back to its original blueprint, enhancing the strength of the body-field and regulating the flow of information. **NES Infoceuticals** help to remove distortions and blockages within the information structures and energy patterns of the body-field.

Since Peter Fraser's revolutionary discovery and mapping of the Human Body-field (HBF), NES Health has led the healthcare revolution, supporting people worldwide by addressing issues and concerns relating to their health and well-being.

The body-field represents the general state of your overall physical and emotional condition. Distortions in this field can cause disharmony in your life. Correction of these distortions support and encourage a more balanced, enjoyable and rich life experience.

NES Infoceuticals

NES Health | ISO 13485 Medical Device Manufacturer

Your customised NES Programme

Following your NES ProVision scan, and after clearing any blockages in the energetic pathways of your body-field with the NES miHealth, your practitioner will advise you of your personalised Infoceutical protocol and you will be given the Infoceuticals that can best correct issues with your body-field and support your overall well-being.

What are Infoceuticals?

NES Infoceuticals are liquid energetic remedies that have been 'imprinted' with bio-information to directly correct distortions in your body-field.

NES Infoceuticals contain filtered water, plant-derived microminerals and 5% alcohol for preservation. They interact directly with the human body-field to address blockages correlated to physical, emotional, environmental and chemical toxins.

Working with these blockages restores the body's balance and enhances its inherent healing qualities. Infoceuticals are safe, effective and easy to use.

Types of Infoceuticals

At the beginning of your NES programme, you will use between 3 and 5 NES Infoceuticals at-a-time, including:

- **Big Field Aligners (BFAs):** These align your body-field with the Earth's natural fields and forces, which is important for establishing overall well-being. Proper Big Field alignment is also crucial for the accuracy of future NES scans.
- **Energetic Drivers (EDs):** These are designed to properly power your body-field so that it can efficiently coordinate the complex functions of your physical body and enhance your overall energy and vitality.
- **Energetic Integrators (EIs):** These clear away any distortions from the information pathways that your body uses to function properly. They balance the energy flow through acupuncture meridians and the clarity of mental functions and emotional communication.

As you progress in your NES programme, you may use:

- **Energetic Terrains (ETs):** These are designed to re-establish healing messages and activate energetic immunity within your body-field.
- **Energetic Stars (ESs):** These are used in cases where there are major bioenergetic blockages correlated to your body's metabolic pathways and survival mechanisms.

Taking The Infoceuticals

Your NES Practitioner provides you with a printed programme detailing the Infoceuticals and how to take them: in which order, how often, and how many drops of each.

You take the Infoceuticals by dispensing the required number into a glass of water. You can use them with other kinds of drinks and with foods or nutritional supplements, and while using other health programmes or products.

The Benefits of Infoceuticals

Most people notice an almost immediate sense of enhanced well-being and vitality. Some people report that they experience more dreams and a greater sense of personal insight. You may also notice that the Infoceuticals enhance your body's healing processes, stimulating positive shifts in the specific physical and emotional issues you are addressing.

On occasion, some people experience mild and temporary reactions such as headaches or flu-like symptoms. This is quite normal and is a reflection of your body-field working more effectively, moving out the distortions that may be contributing to your health issues. Symptoms should subside after a few days, however, if you have any concerns, please consult your NES Practitioner.

Helping Yourself

The Total WellNES system is a powerful way to facilitate profound changes in your overall well-being and all facets of your life. Making a conscious decision to maximise this opportunity will enhance your progress.

Your commitment to Total WellNES, and allowing the time necessary for the system to take effect, is an important part of the healing journey. It is recommended that a commitment is made to scheduling at least four NES consultations. While many people experience almost immediate relief, it can take time to clear body-field distortions and reactivate your body's innate self-healing processes.

Your health is your responsibility, however your qualified NES practitioner is equally committed to supporting you in addressing your current condition and returning your body to an optimal state of well-being. Your commitment to Total WellNES therapy, and allowing the time it needs to take effect, is an important part of the healing journey.

At the same time as following your recommended NES Total WellNES Programme, it is equally essential to honestly assess your diet and life circumstances, making focused efforts to improve nutrition and exercise and reduce your exposure to stress and environmental and other toxins.
