

NES Feel Good Infoceuticals

Your Personal Energetic First-Aid Kit.

What are Infoceuticals?

NES Infoceuticals represent a quantum leap in helping you achieve optimum wellbeing. They are liquid energetic remedies 'imprinted' with bio-information. Infoceuticals address issues in your energetic system from the ground up, helping to correct blockages and imbalances that can affect your overall physical and emotional condition.

An appropriate number of 'drops' helps return your body's energy flow to its perfect, natural state, where its own innate healing intelligence can do what it is designed to do. Your body's ability to heal itself is a miracle of nature. NES products encourage that miracle by helping activate your body's own healing systems.

Infoceuticals are safe, effective and easy to use.

NES Feel Good Infoceuticals are a special range of Infoceuticals designed for symptom-based home use, to be used alone or in conjunction with the NES Total WellNES system.

NES HEALTH

SHARE THE GOOD FEELING

Introducing little bottles of energetic rejuvenation you can carry in your pocket. This is your guide to the good things NES Infoceuticals can do to help restore your body's energetic systems.

Congratulations on choosing one of the most natural ways you can achieve good health.

Please share your NES experience with family & friends. They will love and appreciate the good energy!

NES Feel Good Infoceuticals - Activate Your Body's Healing Potential

Chill

This infoceutical encourages a calm mental state by helping your bio-energetic system process an overload of emotional and sensory data. It's particularly helpful when your abilities become impaired by constant, long-term stress.

Cold Flu Immunity (CFI)

Accelerates the body's natural recovery from colds and flu symptoms. Provides relief from fatigue, promotes drainage, and retunes cellular function. Supports lung and large intestine meridian. Use with ESR for enhanced effects.

Electromagnetic Field (EMF)

Helps correct energetic imbalances from radiation exposure (computers, cell phones, WiFi, etc.) that can contribute to poor concentration, headaches, heart palpitations, blood pressure variation, or immunity depletion. Helps improve your ability to deflect electromagnetic fields that may affect your body-fields. May be used topically on the hands, back of neck, or other areas of radiation exposure.

Emotional Stress Release (ESR)

Neither a sedative nor a stimulant, ESR helps support your entire body-field's ability to release emotional stress. It's especially soothing for the digestive tract and assists in the absorption of nutrients. May be applied topically to areas of physical trauma.

Fat Metabolism

Energetically normalises liver function and hormonal activity to encourage correct metabolism of fat in the body. Also supports nervous system and appetite regulation. Not a stimulant nor appetite suppressant.

Female

Helps support the correct female endocrine function to enhance social abilities, attractiveness, sexual function and charisma. Also helps promote confidence, willpower, social warmth and a general feeling of wellbeing.

Heart Driver

This aids your heart field as it relates to decision-making processes, mental clarity and integration, identity and self esteem. It also helps regulate emotions and can have a beneficial affect on skin tone and appearance.

Heart Imprinter

Energetically enhances the heart's ability to imprint nervous system information onto the bloodstream. Helps re-establish the head-heart connection, promoting mental clarity and an overall positive emotional outlook.

Love

Promotes feelings of unity and unconditional love for oneself and others. Supports personal transformation, and helps to clear the crown chakra.

Male

Helps support the correct male endocrine function to enhance social abilities, attractiveness, sexual function and charisma. Also helps promote confidence, willpower, social warmth and a general feeling of wellbeing.

Taking NES Feel Good Infoceuticals

The NES Feel Good Infoceuticals are safe and effective in restoring energetic coherence within the body-field.

Dispense 9, 15, or 28 drops, as desired, into a glass of water or other beverage, and drink.

May be taken with foods, nutritional supplements, medications, or while using other health programs or products. May also be applied topically to areas of pain.

Muscle Driver

Assists in the energetic clearing of metabolic waste stored in muscle tissue to help restore flexibility, mobility and muscle strength. Improving the muscle field helps promote personal independence and supports the ability to animate dreams and desires. You may experience some muscle soreness initially when taken.

Nerve Driver

Supports your entire nervous system's energetic field, helping your body better deal with stress. Nervous System energy fields can also be affected by pollutants. Nerve Driver helps shed those toxins, as well as promote feelings of calmness and aid your ability to get restful sleep.

Peace

Helps promote a calm mental state, mental clarity and honesty with oneself. Enhances the head-heart connection to help resolve conflicts between emotions and logical thought, as well as memories that have caused disharmony.

Polarity (PL)

Aids in correcting energetic distortions brought on by air travel, over-exposure to electromagnetic fields, chronic illness and geopathic stresses. A realignment of the body's energetic polarity helps promote positive health changes and assists in physical and emotional detoxification. It's especially useful for jet lag.

Rejuvenation

Energetically helps rejuvenate the body after sports participation, strenuous physical activity, physical injury, impact or shock. Also helps with tissue regeneration, muscle recovery, muscle tone and may ease muscle strains, swelling and trauma. May be applied topically to injured areas.

Sleep

Helps promote a balanced sleep cycle and optimum regulation of your body's natural rhythms. It can have a harmonizing affect on your entire energetic system. It's not a sedative, is non-addictive and does not stimulate hormones. Use 3-4 times throughout the day, with the last dose before bedtime to reset your sleep cycle.

Source

This can enhance your source energy available for physical activity. Also may be useful when you're energetically depleted due to chronic illness, mental exhaustion, stress, toxic exposure, malnutrition or poor breathing. Use before and during sports or other physical activities.
