</tr>
<tr>
<td>Current NICHE Hospital - Additional staff training</td>
<td>$1,650</td>
</tr>
<tr>
<td>per individual</td>
<td><strong>May train individuals as needed</strong></td>
</tr>
</tbody>
</table>

*Fees and requirements are subject to change. **Systems are defined as a group of hospitals owned or sponsored by a central organization, operating in a local geographic area and sharing services. Large systems operating over a broader spectrum may be eligible for discounts. The add-on pricing structure is for the local geographic shared service systems which in many cases are operating as subsystems within larger systems. Hospitals that share the same license may be subject to an administrative fee. Terms and Conditions: All NICHE members agree to comply with the general terms and conditions of NICHE: Hospitals which are not currently designated as NICHE hospitals (hereinafter referred to as “New Hospitals”) are required to successfully complete the Annual Recommitment Process and pay the Annual Fee. Additionally, Member Hospitals are required to develop and submit to NICHE an action plan. Upon completion of the Leadership Training Program, approval of the action plan by NICHE, and the payment of all required fees, the Member Hospital is granted a limited license to use the name NICHE and to represent itself to the public as a NICHE facility. Hospitals that are currently designated NICHE hospitals (hereinafter referred to as “Member Hospitals”) are required to successfully demonstrate central coordination of the NICHE program. The aforestated limited license in addition to granting the approved hospital the limited right to use the name NICHE, said approved hospital is granted limited access to all NICHE community, resources and materials subject to the restrictions contained in the appropriate copyright limitations and restrictions, which are incorporated herein by reference. All fees are subject to change. Member Hospitals may be eligible for discounted annual fees based on system pricing. Discounted fees are subject to the designation of one hospital as the full fee paying hospital within the system (hereinafter referred to as “Flagship”) maintaining designation. One hospital within the system must be designated as the Flagship. If the Flagship hospital does not maintain designation, discounted hospitals within its system will be subjected to an increase in fees to the full Flagship price. Hospitals receiving discount as additional hospitals within a system (hereinafter referred to as “Add On”) must receive approval to have “Add On” status and hospital must demonstrate coordination with the Flagship and other hospitals deemed part of the system receiving discounts.**

NICHE Resources

Improve your practice using the resources that reside in the NICHE Knowledge Center and the NICHE website. NICHE resources include online educational programs, methodologies and tools developed by experts and experienced NICHE sites and platforms to facilitate interaction with NICHE faculty and other NICHE hospitals. These resources help bridge the training gap and achieve real improvement specifically with...

Leadership Training Program
An affordable, adaptable six-week, web-based training program to bring NICHE to your hospital.

Planning & Implementation
Provides the most current content and protocols for full implementation of NICHE in an acute care setting.

Courses
NICHE Training and Education Courses include curriculums designed to provide the most current knowledge and skills in geriatric patient care to bedside nurses, patient care associates, and hospital personnel. Core curriculums include: Geriatric Resource Nurse (GRN), Geriatric Patient Care Associate (GPCA) and Introduction to Gerontology.

Organizational Strategies
NICHE Organizational Strategies are a series of toolkits designed to assist you in securing financial and organizational support for the NICHE program.

Clinical Improvement Models
A series of modules providing an overview of system-level adoption of clinical best practices.

NICHE Encyclopedia
A comprehensive reference tool to help users answer a wide variety of healthcare questions related to the care of older adults.

Membership Profile
Developed by NICHE for use by its designated sites, the GIAP enables hospitals to quantify staff knowledge, attitudes and perceptions in the care of geriatric patients.

Annual Institutional Survey
As part of the three-step Annual Re-commitment Process this survey is meant to provide the NICHE program with institutional data for each NICHE organization, so that NICHE can better meet each institution's needs.

Annual Program Evaluation
As part of the three-step Annual Re-commitment Process this evaluation is designed to be used internally by NICHE sites to plan and evaluate the current state and future goals of their NICHE program.

"Solutions"
Success stories from NICHE hospitals based on the application of best practices related to NICHE Clinical Improvement Models and other NICHE resources.

"Need to Know by NICHE"
Simple, easy-to-understand information bulletins designed to help prepare patients and families for the realities of hospitalization.

Media Kit
Contents include a variety of high profile marketing materials available to NICHE hospitals to help communicate the older adult care quality message.

NICHE Conferences
Annual gathering of healthcare professionals to share the latest innovative practices and ideas in the care of hospitalized older adults.

Speakers Bureau
Provides you with fast, easy access to geriatrics and other experts for speaking engagements.

Discussion Boards
Serve as forums for you to interact with others involved in the NICHE designation process, other NICHE sites and NICHE experts.

Live Webinars
Informative live presentations based on the “Solutions” success stories and other innovative practices at NICHE hospitals.

 Archived Webinars
An extensive library of presentations that describe the use of NICHE models and best practices to improve the quality care of older adult patients.

A Crosswalk: Joint Commission Standards and NICHE Resources
Document details how NICHE resources comply with the Joint Commission Standards in terms of care of the older adult patient.

Hospitals Reports
Details initiatives and outcomes at NICHE Hospitals.
