FAQs For Create an Infographic about Mitochondrial Diseases

Q. What are we doing?
   a. At the Children’s Hospital of Philadelphia, there is a special group of doctors and support staff who are studying mitochondrial diseases. You will review their website and video about mitochondrial diseases and create an infographic that they can publicly display for children and their families. Review this link and watch the video on the webpage: [https://www.chop.edu/conditions-diseases/mitochondrial-disease](https://www.chop.edu/conditions-diseases/mitochondrial-disease)

Q. What is an infographic?
   A. An infographic is a collection of imagery, charts, and minimal text that gives an easy-to-understand overview of a topic. Infographics use striking, engaging visuals to communicate information quickly and clearly. Click for more information: [https://venngage.com/blog/what-is-an-infographic/](https://venngage.com/blog/what-is-an-infographic/)

Q. Why are we doing this?
   A. We are learning about cell respiration and mitochondria. I want you to know that these two things are important to the proper functioning of the body and everyday life. If you develop a high quality infographic, I may reach out to CHOP (Children’s Hospital of Philadelphia) and see if they would be interested in your design.

Q. How will I make it?
   A. Canva. Most of you have already set up an account and used it before. Let’s do it again! They have templates or you can create your own.

Q. When is it due?
   A. Next Sunday 12/13 at 11:59pm

Q. How should I submit it?
   A. You can share it with me through Canva or submit a link on Schoology. Make sure that the link will work if you do that!

Q. How many points is it?
   A. It will be worth 30 points.
