NYSCA/NYFA Artist Fellowship 2018/2019 Application Guidelines

Overview

Established in 1971 as an independent organization to serve individual artists throughout the state, the mission of New York Foundation for the Arts (NYFA) is to empower emerging artists and arts organizations across all disciplines at critical stages in their creative lives and professional development. NYFA serves individual artists through providing financial and informational assistance across four flagship programs: Fiscal Sponsorship, NYFA Learning, Online Resources, and Awards and Grants.

For over 30 years, in partnership with New York State Council on the Arts, the New York Foundation for the Arts has awarded Artist Fellowships of \$7,000 to individual originating artists living and working in New York State and/or Indian Nations located therein for unrestricted use. Application Process

1. Create a new application online.

All applications and supporting materials must be uploaded and submitted online via the Submittable platform. Applications can be accessed at <https://apply.nyfa.org/>.

NYFA does not accept physical copies.

2. Begin your online application.

Select your category or categories. Applicants may apply in up to two categories per year but can only be awarded in one. Should you receive an award in two categories, you will have to choose the category in which you'll be recognized. Applicants use the same login details to create applications in either category, but must submit a separate application for each category. However, applicants may use the same work samples for both applications, if appropriate to the disciplines.

List any collaborations. Collaborating artists must apply together under one application. A collaboration is defined by NYFA as up to three artists who can clearly demonstrate an ongoing collaborative career.

Collaborating artists can apply with an account under a collaborative artist name or with an individually named account providing that, in either case, all collaborators are listed under the *Applicant Information* section of the application form. Collaborator's names should be separated by a "/" in the *Name* field. Should a collaborative application receive an award, the grant will be divided evenly between the collaborating artists. All collaborating applicants must meet eligibility requirements and clearly state their respective roles.

3. Fill out your online application.

You must fill out your Applicant Information, Work Statement, any additional supporting statements, and upload your work samples. Each application will have varying requirements depending on the discipline in which you are applying, so please refer to the discipline specific guidelines for further assistance in completing your application.

4. Prepare your Work Samples.

Work samples are a representation of your artistic work created within the last five years. Work samples should be completed works. All work samples are submitted online as part of your application. NYFA accepts the following file formats:

Image Files	.jpg
Manuscripts/Score Sheets	.pdf
Video/Film Files	.mp4/.mov
Audio Files	.mp3/.wav/.aiff/.m4a

Before you upload your files to your application, you will need to title your files. **Do not label any work samples with your name.** Applicants’ names are not made known to the panel during the preliminary rounds of the review process.

Label your work samples. Label each uploaded work sample starting with a number (ex. 01 through 10), followed by the title of the work. Number your files in the order you would like them to be reviewed. If your discipline requires excerpts, please include the word “excerpt” within the file name before uploading to your application.

Add descriptions. Once your work samples have uploaded, Submittable will allow you to add work sample descriptions, including title, date, materials, etc.

During the review, moderators will read aloud the title, materials, dimensions, and date of the first and sixth images, and/or both video/audio work samples. Panelists will also have access to all work sample additional information on individual laptops.

5. Provide your Supporting Statements.

Every application requires a 100 word Work Statement. Depending on the discipline category you are applying in, you may need to also submit a Technical Statement, Excerpt Explanation, and/or Cultural Statement. These statements are not uploaded, but are instead submitted directly within the application form. A full description of each of these statements is available in the discipline specific guidelines.

6. Submit your application.

When you have finished filling out your applicant information, completed the work statement and additional supporting statements, and uploaded your work samples, simply click on the *Submit* button on the bottom of the application form to submit your application.

Once submitted, you will no longer be able to make changes to your application. Please make sure you have carefully reviewed the guidelines for your discipline and the entirety of your application before submitting. You will receive an automatic confirmation notification from Submittable once your application has been successfully submitted. If you do not see this confirmation, please contact fellowships@nyfa.org.

Applications submitted after the deadline will not be accepted and no exceptions will be made. We highly recommend completing your application before the deadline to allow time for work samples to upload and to avoid potential technical problems.
