

BRB-1500

Ride-on Floor Scraper

SPECIFICATIONS

Production Capacity:	+up to 3,000 ft ² /hr
Blade Widths:	6" through 18"
Travel Speed:	0-300 ft/min
Weight:	1580 lbs
Dimensions (LxWxH):	30.25" x 31.75" x 52"

FEATURES AND BENEFITS

- Fits through a 36" door
- Adjustable blade angle
- Fits into most elevators
- Pivoting blade holder
- Excellent work surface visibility
- High efficiency, high torque wheel motors
- Standard non-marking wheels
- Comfortable operator position

+Production rates will vary between material being removed and from job-to-job. This production rate represents production values under ideal conditions.

The BRB-1500 is a battery-powered, ride-on floor scraper. This state-of-the-art machine is all electric with zero emissions. It makes removing a wide range of materials faster, easier and more efficient than those out-of-date jack hammers and hand scrapers. It has zero turn capability to maneuver in tight areas. The BRB-1500 will remove waterproofing membranes, tile, carpet, vinyl, hardwood flooring, thin set adhesives, rubber, elastomeric coatings, sports flooring, and pool deck coatings. The low position of the operator offers comfortable operation and excellent work surface visibility.

Pivoting head maintains contact with the work surface.
