

BRB-2800

Ride-on Floor Scraper

SPECIFICATIONS

Production Capacity:	+up to 8,000 ft ² /hr
Blade Widths:	6" through 36"
Travel Speed:	0-485 ft/min
Motor:	*27HP Kohler
Weight:	2800 lbs
Dimensions (LxWxH):	74" x 30" x 68"

FEATURES AND BENEFITS

- Adjustable blade angle
- Multiple blade holder locations
- LED work lights
- Flashing yellow strobe
- Pivoting blade holder
- Excellent work surface visibility
- High efficiency, high torque wheel motors
- Standard non-marking wheels

+Production rates will vary between material being removed and from job-to-job. This production rate represents production values under ideal conditions.

*Internal combustion engines produce carbon monoxide gas (CO). Equipment with internal combustion engines should not be used indoors. Proper air quality monitoring equipment should be used to verify safe air quality.

The BRB-2800 is a ride-on floor scraper that runs on LPG (liquid propane gas). This revolutionary machine is designed to tackle the toughest projects. It makes removing a wide range of materials faster, easier and more efficient than those out-of-date jack hammers and hand scrapers. It has zero turn capability and hydraulic steering for precise maneuvering in tight areas. The BRB-2800 will remove waterproofing membranes, tile, carpet, vinyl, hardwood flooring, thin set adhesives, rubber, elastomeric coatings, sports flooring, and pool deck coatings. The low position of the operator offers comfortable operation and excellent work surface visibility.

Available 3-Hole Tool Adapter
Manufactured under US Patent 6,343,961,
