

Pullman Ermator

T8600 Propane HEPA Dust Extractor

Creating Clean Air for Construction, Abatement, and Restoration

With 18HP, 410 CFM and a 115" water lift the T8600 Propane is the strongest and safest propane vacuum on the market.

With the continuing development of dry diamond tooling and equipment for cutting, coring, and grinding, collection of harmful dust is more and more important. Electrical power supply is hard to come by on many jobs so propane units are needed. Pullman Ermator makes the best direct drive with magnetic clutch system that puts all the power to the turbine. Dry cutting and grinding saves expensive disposal costs of wet slurry and water. It is also more productive and leaves job sites cleaner.

- Drop down Longopac® disposal system
- Certified HEPA filtration to 99.99% @ 0.3 microns
- Coated pre-filter socks
- JetPulse filter cleaning
- Cam lock hose connection
- Direct drive magnetic clutch

T8600 Propane Specifications

Weight:	530 lbs
Dimensions:	49" x 27" x 69"
Motor:	Kawasaki
CFM:	410
Water Lift:	115
HP:	18
Product code:	200600404L

The T8600 Features Longopac®

A drop-down dustless disposal system

Large 3" Camlock

Secure and easy to reach for tank exchange

Easy opening for maintenance checks

Easy battery access

Pull the bag down.

Attach two ties with a 5" gap

Cut between the ties.
