TABLE OF CONTENTS

1. Introduction

1.5 Examples of press releases that reached number one position in google.com and how you, too, can do it again and again

2. The Secret method used to get to NUMBER 1 Position on google.com/news in less than an HOUR!!

2.5 How to choose the perfect headline to attract traffic

3. How to write an effective press release in half an hour

4. Choosing a press release distribution service (free and paid options) to achieve maximum success

5. The three key points you should keep in mind to effective press release writing

1. Introduction

Welcome to Press Release Profits

This ebook will outline the methods you can use to get your press release written, submitted and published on TOP number 1 Position on google.com/news in a couple of hours.

Many people spend tons of money and countless hours trying to work out Search engine optimization, however we all know that search engines prefer certain 'content' against any other websites. Among the preferred content of top search engines lie Press Releases.

We will delve into the issue of how you can easily tap into this resource and drive tons of traffic to your websites.

This ebook is filled with practical step by step examples that will help you achieve success. We will recommend certain services, but it is up to you if you want to use these services and we have no affiliation with them.

1.5 Examples of press releases that reached the number 1 position in google.com

We will start with some real life press releases made recently that received rave reviews because of the fantastic results that were achieved.

We will also be explaining how you can get the Number 1 position on google.com/news, but you will also find examples of Press Releases that managed to get to NUMBER 1 position on Google.com for highly competitive keywords and high competition for these same keywords. These press releases stood the test of time, so it's not just something temporary.

In a couple of hours you can also manage to achieve this same result with the tricks we will show you, and you will get tons of traffic to your website through the press release, of course.

this press release reached TOP position out of 5 million and counting of competitors, as a result the website of my client also reached second place.

Another Example is an impressive FIRST Position out of 7 Million results!

The url where you can check for yourself is:

<http://www.webwire.com/ViewPressRel.asp?aId=61264>

In just a few minutes you will learn how to reproduce these results over and over again for yourself.

2. The Secret method used to get to NUMBER 1 Position on google.com/news in less than an HOUR!!= GUARANTEED

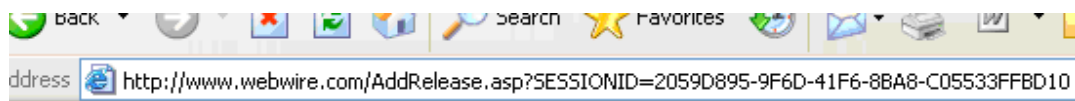

As you might already have noticed, the preferred submission service is webwire.com. Other services charge up to \$400 for a press release submission wire service that is not as half as good as what webwire.com offers for a fraction of the price.

In fact, we suggest that you go for the lowest service they offer if you ever decide to use the paid service submission of webwire.com. (At the end of this ebook you'll find a list of the best free press release submission services.)

However, for the sake of this example, to get the TOP position for google.com/news as fast as possible, we will be using the webwire.com service as it offers the best service anywhere.

After you register, which only takes a couple of minutes, select the "Submit a Release" option as shown below:

Have a look at the registration form, and later read our explanation of the terms in red which will help design a press release that will achieve notorious status in the search engines, even google.com which is known to be the most difficult search engine to crack.

2.5 How to choose the perfect headline to attract traffic

This is the most important part you must pay attention to, as experience has shown that FOUR letter headlines are the best.

Let's use the example headline above which reads "Learn social media marketing."

At first glance this headline is dull, but just imagine someone searching for the highly competitive keyword "learn social media marketing" which is a highly sought after search term. A user searching for this subject has no option other than to click on this result in the Google search engine because the search result shows a headline of exactly what he is searching for.

This will result in a highly profitable press release for you because people will follow the links in your press release to your website, and thus achieve the Traffic Boost you need!

With the methods you will discover in the next few paragraphs you will also make sure that your press release will rank high in google.com/news for more sought after short-length keywords, such as "social media marketing" and "social marketing."

But before you start splashing out 4 keyword headlines and expecting to get number one position you also have to do the following:

In the SEO Optimization fields:

At the end of the press release form you'll find the SEO optimization keywords. Many people don't use these, but you have to make sure that you use them to your advantage to guarantee top positions in Google.

Always write the 4 letter headline keywords in the first related keyword and then extract one or two word keywords from the same headline keywords you used.

Thus for our example you will have the following:

1. Learn social media marketing
2. Social media
3. Media marketing

There are 5 keywords but only use 3 or 4, otherwise you will confuse the search engines.

The Event box:

Many people would write some stupid things here, but you should write a two letter keyword from your heading. So to continue with our example you would write "social media" or "media marketing." This is guaranteed to boost results for these two keywords in google.com/news

Related Links:

Put your website address in the url field and use the 4 keyword headline to link to your press release.

In this case, the headline "learn social media marketing" was linked to the website url to send visitors to.

When can I expect Results?

After you submit the press release, you can expect to rank in the NUMBER 1 position in google.com/news for the terms you listed in the headline and in the SEO optimization tracks. This should happen only about 15 minutes after you submit your press release. It's practically GUARANTEED.

You can expect to start ranking highly for the press release with the 4 keyword term you selected in a couple of hours or sometimes a few days. However, this is long-term and since the main Webwire.com website is a Page Rank 7 website, your press release will get a good page rank and transfer this to the links in your press release back to your website which will immensely help your website rank higher, too.

3. How do I write my press release effectively?

Even if you know nothing about how to write your press release effectively, with the method and tips below, you will be writing effective press releases in less than half an hour.

A good press release should be between 250 and 300 words for our purposes and the search engines will rank such a press release much higher than those with a length of more than 300 words.

Important Tips About Your Press Release

It is not how the press release is written that matters but the style.

First you should start your press release announcing your website and adding a link to your website - www.yourwebsite.com would suffice.

IMPORTANT: write your press release as if the user is reading the newspaper. Keep the following important TIPS in mind.

- 1. Press Releases should be written in the "third person" and are written like a news story.**

- 2. NEVER try to include "advertising" or "hard sell" language such as "Opportunity of a lifetime"**
- 3. NEVER speak to the reader by including phrases such as "By doing this you will get that ..." or "Are you in need of ...".**
- 4. Include at least one quote. (more about this below)**
- 5. Write in proper English and always spell check your press release before submitting.**

Here are some examples of proper press release openers. Feel free to copy and paste and change to your heart's content.

Example 1:

A new blog is promising internet marketers help in finding their way through all the useless hype that is invading the internet today. In a no nonsense writing style <http://www.yourblog.com> is experiencing great success. For the vast majority of sites, good Internet Marketing can increase visitors many fold and is very often the difference between those sites that are considered hugely successful and the many otherwise excellent sites that languish around the web unloved and never realize their full potential.

Example 2:

Online Car Insurance Quotes are now easier to get in a one-stop-shop directly from <http://www.insurancequotesite.com> Requesting a quote online typically results in savings of up to \$500 per year and it will only take a couple of minutes for you to receive quotes and results.

Example 3:

Your Name is an experienced Internet Marketer, having started <http://www.your-home-biz.com> two years ago, she has since had great success with this internet marketing website. For the vast majority of sites, good Internet Marketing can increase visitors many fold and is very often the difference between those sites that are considered hugely successful and the many otherwise excellent sites that languish around the web unloved and never to realize their full potential.

Example 4:

Learn Guitar lessons online – it is now possible thanks to a new website which makes it extremely easy to learn guitar online. A quick look at this website shows that you will learn How to tune a guitar to 'standard' tuning, How to locate all the notes across the fret board fast, How to "warm up" with your guitar, What the "fan", "palm" and "forearm" stretches are and much more. But most importantly you will learn Basic music theory which is EASY to understand.

<http://www.GuitarSite.com> has been launched with the sole purpose of teaching Guitar fans worldwide a quick way to start playing the guitar. Rather than just teaching the theory, this guide will show guitar enthusiasts how to start with a hands down guide to entertain themselves and their friends with hours of guitar playing.

These examples have all been taken from press releases that achieved high success rates in Google and other search engines.

The second paragraph of your press release

After the introduction always include a quote either by you or by some member of your organization, as well as a link to your website in the second paragraph.

Example 1:

"As adware and spyware developers are finding more and more ways to sneak into your computer, everyone should pay more attention to what they download from the internet. But most importantly, one should use an adware and spyware protection program. There is no need to use a high priced adware protection software, in fact www.free-adware-site.com outlines many tips you can use to make sure that your computer remains spyware and adware free" commented a spokesperson for this website.

Example 2:

The Website owner, when interviewed, stated that "Overall <http://www.toysforrichboys.com> is a fresh idea for a website. It is targeting a particular niche of internet users, since not everyone can afford a Ferrari, but everyone can dream of having one. With this site

anyone can try to find a second-hand, well-kept Ferrari that is within his budget, so this makes the website not just for the rich, but for all Ferrari lovers around the world.”

Example 3:

In an online interview, the creator of guitar guide said that “Even if you are a complete beginner and never held a guitar in your hand before, you should read this ebook. You will be amazed by how fast you can pick up a guitar and get confidence in playing tunes after you read this simple step by step guide. You’ll be comfortable playing in front of an audience in no time.”

Example 4:

In an online interview, Dean states “To set up a profitable business, you have to do 3 things: attract highly targeted prospects to your website, convert these prospects into buyers, and convert these buyers into repeat buyers. While this sounds really simple, the fact is that it isn’t! The words you choose to display on your website can literally make or break your business. They are of the utmost importance! Business owners are only now starting to realize how important sales copy is.”

In the second paragraph you can ‘talk’ directly to your readers with the excuse of a mini interview taking place, but in reality your aim should be to include another link in the press release so that people will click it and visit your website. And as we all know More Traffic = More Sales!!!

Ending your press releases:

If you are lucky, your reader would have no need to read through to the end of the press release because you already provided two links back to your website, but just in case you didn’t manage to convince him enough you should do the following...

Outline the major advantages of whatever website / product / service you are providing in easy to read sentences and later at the end of the press release include the following sentence:

For more information please visit: www.mywebsite.com

Example 1:

Among some of the topics you will read about on the blog you will find myths about internet marketing debunked, strategies and techniques that work, and a detailed analysis of products that may help any internet marketer.

In this ground-breaking blog, internet marketers will finally learn how to leverage the marketing expertise of others and instantly drive highly-targeted traffic to your website that results in sales. The website will not only point you in the right direction, but will provide educational material that will motivate and teach you how to start earning from your online business.

For more information please visit:

Example 2:

Auto insurance today is compulsory in most states. After all, a car is probably one of the most valuable assets that one purchases in a lifetime, so it makes sense to insure it, especially since costs of damages after a car accident may sometimes run into hundreds of thousands of dollars. However, where and how you buy your insurance policy makes a difference and online policies typically cost 20 to 30 percent less.

When looking at car insurance, you'll want to get enough coverage so you can buy another car in case of theft or an accident. The website itself helps potential insurers to estimate the actual cost of buying a similar car by providing online licensed insurance tools. On the website one may find tips to reduce your auto insurance premiums before you start shopping around and comparing.

For more information please visit www.autoinsurance.com

Example 3:

The ebook contains the answer to such questions as How to Get indexed by Google in under a week, How to Optimize your website for the search engines, How to Get Backlinks from .edu sites, Creating Viral linking schemes and getting the most from traffic exchanges.

www.21WaysToMakeMoney.com

Top Web2.0 traffic generation techniques are also discussed in the ebook, with techniques on how to get Squidoo traffic, for instance. And as the icing on the cake, the ebook also includes 3 Powerful Ways to Get Quality One Way Links to Your Website, which as a stand alone report might be sold for a hundred dollars, but Nick decided it's better to let everyone know about these traffic generation secrets!

For more information please visit www.ebookforsales.com

Tip : when previewing your press release, make sure the links to your website work before you press the "Submit" button!

Choosing a press release distribution service to achieve maximum success

Although we prefer the \$19.00 webwire.com press release submission services, your ideas may differ, so read the reviews below for some other services which do the job rather well, too... some of them are even free.

PR Newswire

PR Newswire (www.prnewswire.com) is one of the first press release wire services, with a large client base, because of its efficient and professional setting. It is a very helpful website, because of its mass amounts of information. When clicking on a tab or a link, there is always information that explains its function to the viewer; proving its helpfulness and ease.

In addition, there are also many spots within the website that allow for the consumer to add their feedback. There are also many interesting features that one can use to enhance their service. They offer an eWatch service that monitors and tracks your press release. It automatically emails you with any changes.

www.21WaysToMakeMoney.com

In addition, PR Newswire offers MEDIAtlas which distributes your press releases 24/7 automatically to over 460,000 contacts. There is also a free service called ProfNet, which connects you to many experts in each field.

These features are all optional but according to PR Newswire are very useful. However, one thing to keep in mind is that sending a press release through them is very expensive, thus for starting businesses it might not be in your best interest to spend the extra money.

BusinessWire

BusinessWire (www.businesswire.com) has a similar feel to it as PR Newswire. They provide all the basic information about sending press releases, but also offer a little more. They have a section that will actually help you write a press release, for those who are not sure how.

In addition it clearly shows the distribution of where your press release will go, and who will view it. Another helpful tool is that the website comes in five different languages. This can be very helpful if you are doing business with companies overseas, or simply for people whose first language is not English.

PRWeb

PRWeb (www.prweb.com) is one of the most informational and user friendly press release websites out there. The homepage has the most recent press releases within fourteen days, rated by "importance" which depends on how much the sender paid for the release.

One helpful feature is their "release features" tab, which will tell you everything you need to know about your press release. They have broken it down to four packages. Each package states what it offers and how much it costs. This lets the business or agency know what they are going to be offered right away, while also keeping their budget in mind.

In addition, if you are not clear as to why you should use a press release wire service, PRWeb has a YouTube™ video which plainly and

cleverly describes why, by showing the benefits. Along with the video, there are many pictures and descriptions throughout the website that further guide you. PRWeb also has helpful tips and samples on how to write a press release, making sure your best work is distributed.

Marketwire

Upon first seeing the Marketwire (www.marketwire.com) website, its bold color choice makes it stand out more than the other websites. The layout is very simple and very clean in its appearance. It has very few tabs, but once you start clicking on them, it leads you to other links, which easily navigates you through the website.

Marketwire speaks to the busy person who does not have a lot of time, which most business owners and employees can identify with. However, you are not able to look at packages or other information about the service you will get until you have opened an account with them, which is a drawback in our opinion.

PressZoom

PressZoom is a budget friendly way to distribute your press release. The look of the website is very modern and clean, with no pictures, but a lot of text. PressZoom gives a lot of helpful tips about press release writing. For example, how to keep your press release from looking like an advertisement, which would make it susceptible to going into spam mail.

Basic distribution is \$19.00, but you have an option of a free XML feed. There is also an option of premium distribution that is only \$47.00, which guarantees a wide variety of options. In addition, there is no account necessary, and if you use the premium distribution option your press release will go out quickly.

Press Media Wire

Press Media Wire is very similar to the other websites that offer press release wire services. It is helpful in the fact that it offers a simple FAQ section that answers any questions you may have.

In addition, it also has three press release packages laid out with all the options that each one offers. You are able to submit a press release from \$20.00 to \$100.00, and each has an option of two day or three day distribution.

Press Media Wire also shows where your press release will be distributed, proving helpful if you want a specific category. Another important feature is that Press Media Wire offers free press release, for those who want to quickly get their news out.

Emailwire

Emailwire has no annual fees when you create an account. Unlimited numbers of press releases can be sent for a flat rate. Your news is delivered through other major wire services, allowing your release to reach more people. In addition to these features, Emailwire offers EmailWireClip™ for free. This allows you to view your press release on online news sites, newswires, databases and search engines.

Eworldwire

Eworldwire includes a feature that most other press release wire services don't -- the features of their competitor's websites. On their homepage, Eworldwire compares their features and benefits with those of other websites, showing why their service is better.

In addition, Eworldwire prides itself in meeting the needs of their users. Eworldwire makes sure your press release goes to the webpages that will most benefit you.

The most basic press release distribution service only costs \$75.00. However, they do have a large variety of other distribution options that offer everything from podcasts to University Press Newslines.

Eworldwire also gives advice about what will catch a journalist's attention in only 2.7 seconds, because that is how much time it takes to see if a press release is interesting.

24-7 Press Release

24-7 Press Release is a fairly new and affordable press release service that offers 48 hour submission approval to over four hundred channels. 24-7 Press Release also has a helpful FAQ section that shows you exactly how a press release on their website will look.

They have an option to send your press release free over the web, or to pay as little as \$50.00 for basic distribution. However, they do have other packages that allow for much faster and better quality distribution. They also offer a featured press release option that puts your press release on the top three of that day. This will guarantee more hits and easier access for viewers.

PR Free

Although the word "Free" is in the title, there is nothing free about this site. The minimum "contribution" to distribute a press release is \$30.00. Even though this is not a large amount, PR Free does not state how much it will cost until you have entered in your press release and are about to click "Submit."

Nevertheless, this website is the only press release distribution service that is backed by "a true wire service, Eworldwire." It also states that it is the only press release service that actually has copywriters and people with journalistic experience working for them. PR Free also gives tips about what a good press release is. In addition, it gives ten most common "blunders" that can make your press release get ignored.

PR Leap

PR Leap is a fairly new company that was started in 2003 and is quickly growing. They had more than 30,000 organizations as of December 2007.

PR Leap has discontinued their free service, but their paid service is not very expensive, only costing around \$50.00. There is a small biography about the owners of PR Leap, and much more information about their company on the company blog. In addition, they have a very helpful question and answer page, where most questions about their services can be answered.

FREE Press Release Wire Services

The Open Press

The Open Press is a very professional website that offers the distribution of press releases for free. The free press releases will only show the release in plain text and they will only be on The Open Press for six months.

In addition, they reject about thirty percent of the press releases and do not allow you to fix your mistakes and repost. However, they do have another option, press release with stars, which puts your press release on The Open Press' PRO PR section. This ranks it higher on other websites, allowing for more viewers.

The minimum price for this option is \$10.00 and if you would like more stars, which gives you more options, then it is around \$50.00. Another perk is that your press release will stay on the website for a year, rather than six months. The Open Press also provides you with email alerts about your press release, making it easier to track.

NewsWire Today

There is no fee to start an account with NewsWire Today, and also no fee to send out a press release. They offer the basic options for free press release distribution. For example, your submission is published in the order it was received, with third party advertisements.

However, they do have a Premium option in which your press release is published the same day, with a company logo, statistics, and no third party advertisements. The Premium options can range from \$95.00 to \$400.00.

My Free PR

My Free PR offers free distribution of press releases. The site's layout and navigation is a little more complicated than the other sites. Every link that you click has another one that comes up, and then another one, and eventually you lose track of where you wanted to go. In addition, there is very little information about the actual website and what it can offer.

5. The three key points you should keep in mind for effective press release writing

1. Always make the press release short and compact. Do not get too lengthy with your press release material as we already discussed. Just under 300 words is enough, because of the diversity in medium used.
2. The body of the press release can contain the detailed description of the endorsed product. You can go enumerate all the distinct characteristics, in detailed format, the product has. You can also include some testimonial statements from those who have had actual encounters with the product. These will make a good catch to potential buyers.
3. Make use of your concluding statement to finally make a call to action from the prospective clients. Make sure that you end your press release as powerfully as you started it.

Closing Statement

By this time you should be armed with enough tools and know-how to start writing your press release. We suggest you first write the press release in Microsoft Word to check for grammatical and spelling errors.

Later you can paste it in the press release distribution service of your choice.

As we said earlier it is not what you write that is most important in the press release, but rather the way you convey the message to your readers and we really suggest that you give webwire.com a try and use their lowest priced package.

Be assured that you will reach the number one position in google.com/news and later in google.com with the methods outlined above.
