## DEAD BLOW HAMMER

The DF-DB69 is a unique Dead Blow Hammer that is three paint less dent repair (PDR) tools in one.

The dual head gives the user two striking ends to knock down high spot on dent repairs. Depending on the situation the metal end can be used for bare steel panels. Use the rubber end for a softer touch when performing paint less dent repair on painted surfaces or aluminum panels.

Blowback is eliminated thanks to the dual flex neck that cushions each strike.

Flip the tool over and the chiseled end is perfectly suited for prying off door panels or removing glue residue and glue attached PDR pulling tabs.

The tool is seven inches in overall length

**ONLY - \$19<sup>99</sup> EA!**

## ULTRA SLIM RECHARGEABLE LED INSPECTION LIGHT

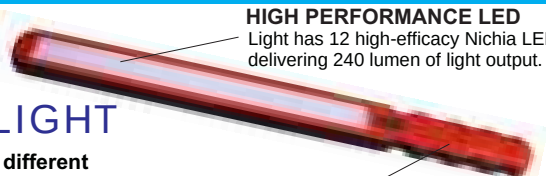

Unit has switch which allows for two different brightness settings.

Start from low lux to high 200 lux.

- Input over current protection
- Input reverse protection
- Charging overtime protection
- Charging temperature control protection
- 4 Hours at Full Brightness
- 8 Hours at Half Brightness

No. 12SL

REGULAR SHOP PRICE - \$112.50

**HIGH PERFORMANCE LED**  
Light has 12 high-efficacy Nichia LED delivering 240 lumen of light output.

**LONGER LIFETIME & SAFE CHARGE**  
3.7v 2400mAh Li-Polymer rechargeable battery typically has 500x life cycle, comes with an integrated PCM to prevent Over Charge.

## Aluminum Repair Isolation Station

Aluminum repair is a unique process that requires a dedicated set of tools and an isolated area in order to prevent contamination from compromising the repair. GFS' aluminum repair stations are flexible, effective solutions for proper isolation of aluminum repair processes. The Aluminum Repair Isolation Station is GFS' most cost-effective environment for aluminum repair. **Heavy-duty, non-combustible curtain walls prevent against contamination during the aluminum repair process**

## 12 Volt Portable Power Supply & Emergency Jump Start Kit

- Jump starts a vehicle more than 20 times when fully charged
- Comes with both home and car chargers
- Supports 12V vehicle jump start and charges most electronics, including cell phones, PSP, MP3/MP4 players, PDA, Notebooks, Cat Refrigerators, etc.
- Charges all popular cell phones including iPhone 5 and Samsung Galaxy
- Able to charge multiple devices at once and can cycle up 1,000 times
- UL Approved.

No. 7775 - Regular - \$133.34

**SPECIAL - \$119<sup>95</sup>**

**SPEEDGRIP™**  
STRUCTURAL ADHESIVES

### EPOXY PANEL-BONDING ADHESIVE

Two-part epoxy adhesive designed to bond SMC, FRP, fiberglass, steel and aluminum auto parts and body panels to each other and to metal frames (no primer required).

No. 6418

**ONLY - \$32<sup>29</sup>**

**SPEEDGRIP™**  
STRUCTURAL ADHESIVES

### SEAM SEALER CONTROLLED FLOW

Two-part epoxy (1:1) is a permanently flexible epoxy sealer that features a controlled leveling characteristic. Formulated for use on horizontal and sloped areas, trunk and roof seams, drip rails, and core supports.

No. 6402

**ONLY - \$39<sup>29</sup>**

## OEM BED LINER

- A **Water-Based** Rubberized Coating that provides professional results and performance in a DIY system.
- Ideal for protecting truck beds and all other metal, aluminum, fiberglass and wood surfaces that are exposed to impact and scuff related environments.
- Formulated with POR-15® rust preventive technologies
- POR-15® OEM Bed Liner offers superior adhesion, impact resistance and flexibility, as well as an attractive, textured semi-gloss black finish providing the ultimate in truck bed protection.
- UV Stable and will resist damage typically caused by exposure to UV
- Low-Odor product that can be cleaned up with soap and water and does not have a limited pot-life.
- Can be brushed, rolled or sprayed

## Bumper Mate Plastic Repair Work Station

- Solid polyethylene table with strategically placed openings for clamping parts in many different locations.
- Slotted tabletop allows use of bungee cords to secure odd shaped parts like headlights and taillights.
- Five (5) inter-connectable arms for holding parts of nearly any size in virtually any position. Great for holding fenders, bumpers and more.
- Wheels make it easy for one person to pick up one end of the table to move it around a shop floor, even with a bumper attached!
- The strong steel frame will support heavy loads, but the legs fold up easily for compact storage.
- The compact, lightweight, and flexible design of the Bumper Mate is perfect for shop floors of any size.
- Includes specially-molded bumper pads to allow you to hold the bumper face up for complete access to backside when pushing out dents

No. 6070 - Regular - \$699.95

**SPECIAL - \$650<sup>00</sup>**

## E-Z MIX Paint Sticks

- **Mixes Faster**
- **Rounded Edges for use with delicate paint cup liners**
- **New Shape suits all mixing cups**
- **Get more out of your mixing cup with unique design!**

No. 81500 - 100 Per Box

**ONLY - \$37<sup>50</sup> Box**

## 1K Direct-To-Metal Sealer/Adhesive

Developed for OEM professionals, Fusor 800DTM/803DTM duplicates a factory appearance on standing seams, cosmetic seams, truck bed seams, tooled door skin seams, floor pan seams, core support seams, brushed seams and other applications in which a non-sag cosmetic seam sealer is required, while eliminating the need for a substrate primer.

**Product features:**

- \*Reduces touch and cycle times
- \*Skins in 25 minutes or less
- \*Duplicates all types of OEM seams
- \*Holds brush marks without die back
- \*Excellent flexibility with 500% elongation
- \*Easy to dispense product
- \*Welds through with no burn back

**LORD Fusor™**  
Automotive Repair Adhesives

No. 800DTM - Neutral - 9.5 oz

No. 803DTM - Black - 9.5 oz

**ONLY - \$17<sup>42</sup> EACH!**

## SEM'S No 1 Selling Protective Truck Bed Liner is Now Available in a 1.7 VOC Compliant Version

- **Free Applicator Gun Included**
- **Durable Textured Finish**
- **Chemical & Corrosion Resistant**
- **Use on Metal, Wood, SMC, Fiberglass, Concrete**
- **Sound Dampening**

No. 42280 Kit contains 4 Sprayable Quarts, a mixing cup and **FREE GUN!**

**ONLY - \$170<sup>23</sup>**

\* Free gun offer good only while supplies last.

## Adjustable Fluid Line Stopper Kit

- Use to seal metal lines once disconnected
- Prevents fluid leaks and contamination during service
- For use on fuel, brake, A/C, banjo, power steering and transmission lines
- Use with all automotive fluids
- Supplied with two each of four Stoppers: Banjo Bolt, 5/16, 3/8 and 1/2 inch
- Adjusts and locks to 3 positions
- Installs in seconds

No. 19700

**ONLY - \$64<sup>95</sup>**

## SEM 40913 1K SEMI-GLOSS HS Clear

### A semi-gloss acrylic clear for duplicating OEM panels

- **Matches underhood gloss**
- **Saves mixing time and eliminates waste**
- **Sprays evenly without streaks**
- **6H Rule Compliant: no booth required**
- **Quick drying for increased production**
- **Professional spray pattern**

## 3M™ Quick Grip Filler

Make the change today to 3M™ Quick Grip Filler to see and feel the difference in how easily this product sands and creates a feather edge. 3M™ Quick Grip Filler is engineered for fast adhesion to your repair substrate and improved sandability over comparable competitive products.

- **Fast Adhesion**
- **Easy to Sand & Feather Edge**
- **Tack Free Finish**

## DTK-7700 Uni-Vac Dent Puller

- A quality machined dent puller for professional use
- Comes with three different sized vacuum cups and a durable storage case
- Self-contained vacuum feature, no air lines required
- Can be used anywhere: inside a shop or outside on a lot
- Quick and easy approach to dent repair
- Works on steel or aluminum panels, as well as bumpers

REGULAR SHOP PRICE - \$229.00

SPECIAL - \$208<sup>95</sup> %

## 3M Cubitron™ Clean Sanding Hookit™ Abrasive Disc & Belts

Use for fine featheredging, last final sanding step before priming, or prepping before blending. 3M™ Cubitron™ II Clean Sanding Discs are a revolutionary advancement in automotive abrasive technology. They feature triangular shaped ceramic mineral that:

- Cuts 30% faster than premium abrasives
- Lasts up to twice as long
- Delivers a finer, more uniform finish

Triangular-shaped grain (right image) is electrostatically oriented to form sharp peaks, each acting like individual cutting tools that slice through paint and body filler, wear evenly, and provide long life and consistency.

E-Z MIX®

ONLY - \$75<sup>00</sup> BOX! (\$1.50 EA)

## Soft Strike™ Aluminum Conversion Kit

With many vehicles now using aluminum, including the new Ford 150 body, using everyday steel tools can cause galvanic corrosion on aluminum components. Many rubber dollies are simply not heavy enough to work effectively. Maximize your existing steel body tool investment by using **Soft Strike Aluminum Covers** to also work on aluminum body components.

**Soft Strike Rubber Dolly Body Covers** and the **Soft Strike Dinging Spoon Cover** are made from Buna rubber for use on a steel heel dolly or a dinging spoon.

The **Soft Strike Dolly Body Cover** also eliminates the problem of a rubber dolly not being heavy enough to work effectively by allowing a technician to simply add the cover to his existing steel dolly.

The **Soft Strike Hammer Cover**, made from vinyl, allows the quick and easy transition from using the body tools on steel to aluminum, without the worry of cross contamination and galvanic corrosion.

**Labor/Material Savings:** The Soft Strike Covers eliminate the need to invest in redundant, special aluminum application tools. Allows the safe and uncomplicated conversion of existing steel tools to work on aluminum; the removable covers prevent cross contamination and galvanic corrosion

No. 35000

ONLY - \$75<sup>00</sup>

## The "Kneeler" High Quality, Long Lasting Kneeling Pad

This handy padded Dan-Am Kneeler will work great for any job requiring you to kneel down on hard or rough surfaces.

- Enhanced molded knee cups
- Washable and Drable
- Resist chemicals and grease
- No water absorption
- Non-slip back for added safety
- Mechanics, body shop, maintenance, masonry work
- Provides ultimate comfort on any surface
- Cushy 1" thick nitrile/PVC foam with handle

# NEW STUFF

## Big Changes Coming . . .

### Aluminum

Ford will launch the 2015 aluminum bodied F-150 in just a few months. While aluminum has been used in automobiles for over a hundred years, in the recent past aluminum bodied cars have been relatively low volume production and primarily exotics. Closure panels like hoods, deck lids, and some doors, have been increasing in usage dramatically over the last 20 years or so. BMW combined a steel body with an aluminum engine box on the 2003 E60 5-series and then with the 2013 ATS, Cadillac became the first domestic auto producer to integrate a cast aluminum shock tower with a steel structure. But with the new F-150 you will see a high-volume vehicle whose cab and bed is entirely aluminum other than the dash panel ("fire wall").

In anticipation of the new F-150, Ford has made an immense investment in planning for the repairability of the aluminum bodywork including designing in "partial replacement" locations, AKA "sectioning", for internal structural components like the hinge pillars, while also attaching other components such as the upper fender rails or "shotguns" so they can be replaced without cutting into overlapping panels. The truck is assembled primarily with self piercing rivets, SPRs, and adhesive, which will be a very new design for many repairers to deal with. Ford has also investigated and released multiple service procedures and parts which will allow complete body repairs to be performed by any trained technician.

How should you prepare for all of this? Training! Ford is including installation instructions for most of the service panels with the service parts! This is something new for sure, but training is still needed to create awareness of new methods and procedures. Adhesive use is increasing in production and repair and there are some very specific requirements coming along with this.

### Crash Durable Adhesives

Very quietly over the last 8 years, new adhesives have proliferated in automobile production which have "toughness" versus just "strength". Lots of descriptions have been applied such as "crash durable" and "crash toughened" but what this all really boils down to is their ability to resist peeling forces. In automobile production these materials are 1K products which cure in the e-coat ovens, but for field service a 2K material must be used. LORD just launched its 2098 FUSOR adhesive at NACE in Detroit and it is the first crash durable repair material which will be widely available through normal jobber channels. Interestingly, the 2098 material is the lone adhesive being recommended by GM for repair of its products beginning with the 2014 models.

But how do you know when you need these adhesives? First look in OEM repair documentation. If no information is there, look at the adhesives in the vehicle being repaired. There are red, orange, purple, and black adhesives, all from different suppliers, which are used by the auto manufactures in production and are hopefully identified in service documentation. If not identified, or there is any doubt, then the adhesives should be replaced with a crash durable product to be certain the vehicle is repaired properly. Using a crash durable adhesive where a non-crash durable adhesive was used in production will not cause any negative implications.

Expect to see more crash durable adhesives on all vehicles as panel thicknesses are reduced to eliminate weight. As automobile manufacturers reduce complexity in their manufacturing facilities and improve error-proofing, adhesives are increasingly being used throughout the body and in places where their toughness is not necessarily of prime importance but because only one adhesive is allowed in the plant. When it comes time for repair do not try and guess why a particular adhesive is there, just replace it with a crash durable adhesive and move on.

### Proper Repairs

At the end of the day, collision repair professionals want to complete repairs on damaged vehicles such that the vehicle owner's investment is restored. Part of this restoration process is using the proper methods as defined by the automobile manufacturers, as well as the proper materials to hold it all together. The only way to know the repair is being done correctly is by referring to OEM documentation and having proper repair training, such as from I-CAR, and equipment training so that the key shop tools are used correctly. Many OEMs have created certification and recognition programs whereby shops meeting training, facility, and equipment requirements are embraced as qualified repairers. Chrysler, Ford, and Nissan have partnered with Assured Performance Network (which also has the GM Genuine Repair Provider program) and are growing their "preferred provider" networks. Chrysler just announced a locator app which will guide vehicle owners to these preferred shops.

**See Page 1 for more information on FUSOR No. 2098 Structural Adhesive**

## The Ultimate Spray Gun

### QuickClean Technology

- Incredibly fast cleanup—gun coating has non-stick properties
- Fully coated outside and inside for high corrosion and scratch resistance
- Excellent for solvent-based coatings and a must for waterborne

### All Climate Performance

- Optimized performance in climates varying from hot and humid to cold and dry
- Three air caps developed using advanced fluid dynamics technology for excellent atomization in varying conditions
- Outstanding finishes – from waterborne base coats to the latest high solids clears

### Ergonomic & Lightweight Design

- Compact, form-fitting design helps reduce painter fatigue
- Well-balanced and lightweight for increased comfort and performance
- Smooth trigger action—Comfortable trigger and unique “no kick” co-axial air valve make blends and fades easier

### UPGRADE YOUR LS SERIES TO ENTECH TECHNOLOGY NOW!

Entech technology takes the LS Series to a new level, promising an easy and premium paint job with its WET CONTROL nozzle system. This system offers a Long, Flat, and Uniformed spray pattern with a consistent droplet size which enables an easy to control painting overlap. The result is a premium quality paint job every time, especially for solvent and water basecoat application.

| 5945   | LS400-1505 | 1.5    |

### SPLIT NOZZLE

This innovative technology continues to be the preferred choice for painters and paint companies to provide superior performance with lower pressure.

### 100% STAINLESS STEEL FLUID PASSAGE

NOT Plated or Anodized Aluminum or Brass!

### PERFECT BALANCE

The SUPERNOVA design guarantees perfect balance, even when using disposable cups.

### QUICK AND EASY RELEASE CAP

No need for a removable baffle on the front of the gun, which means fewer spare parts! The air cap has a larger thread, making it both robust and easy to remove.

### RELIABLE AND PRECISE SETTING

SUPERNOVA has new sturdy constructed high precision adjusters. The carefully designed grip delivers the professional painter a reliable and more importantly comfortable feeling even when wearing latex gloves.

**Your Choice - \$798<sup>00</sup> EA!**

\* All guns listed do not include cups.

## NOW . . . Extend The Warranty on Your SATA Spray Guns, Filters or Air Respirators To 3 Years!

Just fill out the Premium Warranty Form and send it to SATA or complete the registration on-line at [www.sata.com](http://www.sata.com) within 30 days of purchase.

### SATAjet 4000B Spray Guns

The new, curved gun handle of the SATAjet 4000 B has been designed to fit the hand like a glove. The low center of gravity improves the balance of the gun, thus minimizing the strain on the wrist. The weight of the SATAjet 4000 B has been reduced by 15 % compared to its predecessor. With integrated digital pressure gauge and RPS disposable cup, it becomes the lightest gun of its class.

- Lightweight, Perfect Balance & Ergonomics
- Extremely Quiet, up to 50% quieter than the SATAjet 3000B
- Soft, controllable fan for even laydown of material, yet maintains high fluid flow rate for fast working speed
- New, One-Turn QC air cap, large smooth threads that are easy to clean and durable
- 1/4 turn fan control knob for easy adjustments
- For use with any waterborne or solvent borne materials
- Each gun includes lids, strainers and a sample of all 3 sizes of RPS cups

### 3M™ Accuspray™ System, the equivalent of having a brand new primer spray gun for a fraction of the cost.

This revolutionary product gives you the performance of a brand new spray gun every time. The innovative technology was designed from the inside out for the efficient and economical application of material. The atomizing heads are designed to deliver a large usable pattern, with very low overspray and exceptional atomization.

#### No. 16577 Kit Includes:

- (1) HG14 Spray Gun
- (3) 1.4mm Atomizing Heads
- (1) Air Flow Control Valve

- Optimizes Efficiency
  - Helps minimize overspray
  - Replaceable head reduces gun cleaning time
  - Designed to provide excellent transfer efficiency with HVLP technology
  - Exceptional atomization

**ONLY - \$193<sup>21</sup>**

No. 16612 Replaceable atomizing heads for use with the 3M Accuspray Spray Gun Model HG14. Refill kit contains 4 atomizing heads. **\$23.94**

No. 16570 HG09 Provides the equivalent of a brand new primer spray gun for a fraction of the cost. Kit contains 1 spray gun and 3 atomizing heads. **\$198.93**

No. 16571 Replaceable fluid needle for 3M™ Accuspray™ Spray Gun Model HG09. **\$80.17**

## 3M Body Protection Systems

ACHIEVE A PERFECT TEXTURE MATCH!

The 3M™ Rocker Protector Pouch is used with the 3M™ Accuspray™ HGP Spray Gun Kit to quickly deliver coatings onto any rigid textured panels on the vehicle. The precision delivery of these coatings allows product to be sprayed at any angle to match OEM textured finishes. Because the spray gun is so accurate, less masking is required and overspray is reduced, practically eliminating solvent use needed for clean up.

#### No. 16587 - 3M™ Accuspray™ HGP Spray Gun Kit Includes:

- 1 - HVLP HGP Spray Gun
- 2 - 2.0mm Nozzles
- 2 - 1.8mm Nozzles
- 1 - Air Control Valve

## FROM ASTRO . . . EuroPro Spray Guns

### FEATURES:

#### DURABLE & LIGHTWEIGHT

- Forged body provides longer tool life
- Anodized body for corrosion protection
- Internal coated passages
- Stainless steel needle and fluid tip

#### HIGH EFFICIENCY

- Unique pattern designed for great coverage, optimal overlapping
- Low overspray (bounce back)
- Great transfer efficiency
- Superior atomization
- Innovative High Efficiency (HE) advanced technology

### QUICK THREAD TECHNOLOGY

- 1 Turn to lock/unlock the air cap
- 3 Turns to lock/unlock the fluid tip
- Wide threads for easy cleaning
- M16\*P1.5 female thread fluid joint
- Compatible with most traditional and disposable cup systems

### SMOOTH OPERATION

- Soft trigger pull to reduce fatigue
- Precise lubricated adjustment knobs for better control
- Innovative CNC machining to avoid the need for gaskets behind the fluid tip

## ASTRO COMPLETE 2 QUART PRESSURE POT SET-UP

- Black Handle Spray Gun with 1.2mm no
- 6 Foot set of hoses for easy movement
- 2 Quart Pressure Pot
- Pressure gauge & fluid pressure regulator

No. 2PG7S REGULAR - \$242.73  
**SALE - \$184.95!**

## SHARPE No. 24A557 2.5 Gallon Pressure Pot

For use with any pressure feed spray gun.  
Includes pressure regulator for fluid pressure  
adjustments. Teflon-Lined for  
easy cleanup

REGULAR - \$540.23

**SALE - \$500.25!**

## ASTRO 2-1/4 Gallon Pressure Tank

- Sturdy Construction  
and compact design  
makes this pressure tank  
the ideal choice for both  
amateur and professional.  
Excellent for spraying large  
areas such as buses, trucks,  
vans, boats, etc.

Includes: Pressure spray gun equipped  
with pressure gauge and fluid pressure  
regulator for accurate settings and  
12' twin set of hoses.  
No. PT2-4GH

REGULAR - \$422.93

**SALE - \$330.50!**

## DeKUPS Disposable Cup System

- Less Cleaning - Easy disposal vs. traditional gravity cups that require significant cleaning time and solvent use
- Reduces Steps - Mix and spray with one cup.
- Multiple filter options reduce the need to strain paint
- Clean Paint Jobs - Sealed, contamination-free system
- Coatings - Works with a wide variety of coatings
- Safety - Less exposure to cleaning solvents and VOC's
- Storage - Temporarily store unused paint between coatings therefore reducing paint waste
- Better fluid flow for great color match

# AIR CONTROL & FILTRATION

## GOOD

### No. 130525 Desiccant Cartridge Filter

- Cost effective - use anywhere
- Complete air control
- Three stage filtering with 0.1 Micron rating produces clean, oil and humidity free air resulting in outstanding paint finishes.
- A perfect solution for restoration shops, customizing shops and hobbyist.

**REGULAR - \$229.00**

**SALE - \$215.00!**

## BETTER

### No. 130500 CT30 Desiccant Cartridge Filter

- Quick Change 10 lb desiccant cartridge bag is made of a special media which removes oil aerosols and solid particles down to 0.1 microns- meaning no need for coalescing or final filters.
- The perfect point-of-use solution for frequent spraying in production shops.

**REGULAR - \$470.90**

**SALE - \$457.95!**

## BEST

### No. 130522 CTPLUS™ 5-Stage Filter System

- A complete compressed air treatment and drying center
- All the benefits of the CT30 quick change cartridge bag with the added protection of the first 2 stages removing dirt, water and oil from air lines to 0.1 microns assuring increased desiccant life

**REGULAR - \$719.00**

**SALE - \$615.00! %**

## Motorguard Sub-Micronic Filter

The key to our efficiency is based on compressing the element axially and forcing it to expand radially against the tapered walls of the housing. This forces the air to pass between the tightly compressed layers along the length of the element, creating a true depth filter versus the conventional method of passing the air through layers of media.

## Clean Compressed Air For Perfect Finish Results

**High performance filter systems for ultimate air purification; A requirement in all shops.**

The SATA 400 Modular Filter Product Line is designed to meet the highest standards of quality and performance. The modular system allows the user to adapt to varying shop conditions and requirements. Compressor oil, condensation, dust and scale in airlines will be thoroughly removed. SATA filter units provide 100% technically clean air, **bringing your spraying air to breathing air quality**. This is a necessity when spraying waterborne paint, the SATA 3-stage filter with activated charcoal provides that.

Facts, Features, Benefits:

- **High CFM volume capacity**
- **Convenient, precise pressure adjustment**
- **Fully automatic condensation discharge**
- **Particle filtration to 0.01 micron**
- **Fine filter saturation monitored by pressure differential**
- **Corrosion proof**
- **Heavy duty with metal filter housing for long service life**
- **Provides contaminate free air for waterborne and clean breathing air**

## UG7500W WATERBORNE GUN WASHER

Painters that prefer automatic cleaning select the UG7500W. Spray guns are washed automatically using Uni-Rams's effective water cleaner, AQUA-KLEEN PGC then rinsed with water and dried with air. The cleaner is recycled using a Uni-Ram liquid recycler when dirty for continued use, minimizing consumption. Includes "PPS" Adaptor.

REGULAR SHOP PRICE - \$4345.00

**SALE - \$3499.95!** %%

## UG5000W - DUAL SOLVENT/WATERBORNE GUN CLEANER

Clean solvent borne paint from spray guns in Left Tank: Automatically cleans the interior and exterior of the spray guns and pots in under 2 minutes using an auto brush, air rinse and clean rinse cycle. Also manual cleaning using a Flow-through Brush. Water flow is activated by a Foot Pedal. Ready for connection to a solvent recycler. Clean water borne paint from spray guns in Right Tank: Same features as the UM120W.

REGULAR SHOP PRICE - \$3895.00 **SALE - \$4090.00!** %

## DRESTER HIGH PERFORMANCE GUN CLEANERS FOR WATERBORNE PAINT

Waterborne paints are considerably harder to remove from spray guns than conventional paints. These gun cleaners are fitted with a pre-wash brush and rinse gun. The brush is fed with recycled water and the rinse gun with fresh water.

- Compatible with waterborne paint systems
- Low water consumption and recovery
- Efficient two-part filter system
- Powerful diaphragm pump delivers liquid at high pressure, which is the key for cleaning waterborne paint
- Water recovery made possible by adding flocculant to clean contaminated water.
- Cycles can be adapted for different paint systems - Easy to use

No. 1050LD

- Manual Controls
- Simple, Efficient Unit
- Rinse and Wash
- REGULAR - \$1957.00

**SALE \$1859.00** %%

No. QR-10 "QUICK RINSE"

- For all disposable cup systems
- Quick & safe color changes for waterborne
- High pressure flow for cleaning
- Use anywhere. . . Even inside your booth
- Saves time and reduces cost

It's time we take America back . . .  
One Sander at a Time!

## PROFINISHER™

- Profinisher sanders offer American made quality sanders at pricing comparable to the imports.
- Profinisher sanders are lightweight and ergonomically designed.
- They will deliver hours of vibration-free sanding increasing technician productivity and reducing fatigue.
- Profinisher sanders reliability and performance will make this a top choice for professionals.
- Hutchins Manufacturing has over 70 years experience making the highest quality sanders.

There was a time when "American Made" meant something. . .  
That Time is Now!

## IMPORTANT INFORMATION!

**You need to have a dedicated sander when you work on aluminum parts!**

Cross contamination of steel on aluminum can cause serious problems in your shop!

Hutchins Manufacturing is offering shops a solution. Purchase a new Hutchins Profinisher™ sander and Hutchins will send you a color coded red trigger to identify your sander for "aluminum only use" to replace the handle on your sander so technicians will know that particular sander is to be used for aluminum sanding only.

## Dynabrade Autobrade Red Auto File II Abrasive Belt Tool

- Excellent multi-purpose tool for grinding sharp metal edges, rusted bolts, welds, etc.
- Effective for blending, scuffing grooves and contours.

## Spot Weld Drill Bit for High Strength Steels

This is our most popular spot weld drill bit. 8.0mm or 5/16th is the most common size of spot welds that need to be removed. The Titanium coating on this bit will help prevent the bit from dulling due to overheating.

No. DF1680T - 8 X 45mm Titanium Coated

**ONLY - \$27.04 EA!**

## No. 1721 - 8mm Spot Weld Drill Bit

- For use with spot weld drills or standard drills
- No pilot hole design leaves underside panel intact while completely removing spot weld on top panel

REGULAR - \$21.13

**SALE - \$17.95!**

## Blair SPOTWELD CUTTERS

The fast, easy way to remove spot welds in car restoration or auto body repair work..

The spotweld cutter assembly contains one #13216 arbor, one retractable pilot, and one 3/8" double end cutter. The cutting tool is hollow so there's no dead zone as with a twist drill therefore less thrust is required, there's no deforming of stock and burring does not occur. Precision ground instead of stamped like hole saws, gives long tool life. For use in body shops and frame straightening, custom building and detailing, aftermarket trailer hitch installation, rust-proofing and undercoating.

No. 13224 - Carded Double End Spotweld Cutter - \$16.60 EACH  
No. 13214 - Blair Replacement Cutters (3) - \$16.60 PACK

13224

13214

## Blair HOLCUTTER™

When you don't have a lot of holes to make, economical "13,000-Series" Blaircutters provide fast, accurate, burr-free holes in materials up to 3/16" thick. Light duty Blaircutters are annular cutting tools that cut around the edge of the hole and eject the center as a slug. Because they're hollow there's no dead zone as with twist drills. Unlike hole saws, that rip and tear through the material, they quickly give you a quality, virtually burr-free hole. Spring loaded pilot "pops" the slug from the cutter.

No. 13200 - 1/4" - 3 PER PACK - \$13.30 PACK  
No. 13202 - 5/16" - 3 PER PACK - \$15.30 PACK

REGULAR - \$35.00

**SALE - \$29.95!**

## Making the Impossible Possible . . . Reliably Repairing Urethane Bumpers.

In the early days of plastic bumper manufacturing, engineers developed ways to manufacture urethane bumper covers independent of the steel frame to produce a flexible, impact resistant bumper that was lightweight, strong and could be made in complex shapes that were impossible to make in steel. The downside of these bumpers was that they were difficult to repair with any sort of durability.

Urethane bumpers were very popular until polypropylene bumpers came into favor due to lower manufacturing costs when made in large quantities. Unlike urethane, polypropylene bumpers have the added benefit that they can be easily welded using hot air nitrogen welders. Despite the shift to using polypropylene, urethane bumpers are still used on lower production cars because the cost to make them in smaller quantities is less expensive.

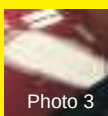

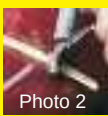

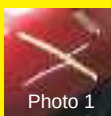

Because urethane is a thermoset material, it does not melt when heated, instead it chemically decomposes. This property makes urethane impossible to weld in a conventional sense, however there is a way to "braz" them using R01 Urethane welding rod and get a repair that is strong and durable.

The repair process is similar to that of welding other plastics. First, clean the plastic using 1000-A Super Clean Plastic Cleaner, then V-groove the crack, using a ½" diameter round burr. Make the V-groove about ¾ of the way through the plastic (**Photo 1**). No further prep is required, although many people like to radius the edges and sand the inside of the groove.

With the **5700HT airless welder**, feed urethane rod through the welding tip, completely filling the v-groove in one pass (**Photo 2**). Add as much rod as it takes to raise the level of the melted rod to just above the surface of the surrounding plastic. When the rod cools, flip the part over and v-groove the back side of the crack about half way through the material, so the two v-grooves intersect, allowing the filler rod on the second side to melt into the urethane filler rod on the first side. This locks the filler rod and the base material together.

If the crack goes all the way to an edge of the bumper, make a v-groove perpendicular to the crack a couple of inches long and fill it in as you would the crack. This will help distribute tearing stresses away from the repaired area.

Once cool, sand the front side of the repair smooth and use 2000 series Flex Filler to fill any imperfections before you finish sand and paint the part (**Photo 3**).

### 5700 HT Mini Airless Plastic Welder

- Mini-Weld Model 7 Airless Plastic Welder is the next generation in plastic welding technology
- The temperature control can be taken out of the carrying case for more mobility
- It even has a belt clip attached
- The Mini-Weld Model 7 Airless Plastic Welder is a complete kit that you can use to repair all kinds of plastic
- This welder is NOT some stripped down kit
- It's a complete, ready-to-use kit that is jam packed with benefits
- 200 watt ceramic core element; with seven types of standard welding rod, you will be able to match virtually any type of automotive plastic
- Problem plastics like TEO, TPO, and Polypropylene are no problem to repair with the included FiberFlex universal rod
- Not only that, but you also includes has two different, easy-to-swap welder tips for applying all of the included welding rod, a temperature control that allows you to dial in the perfect temperature for welding whatever type of plastic you are working on

**ONLY - \$289.95!**

## Nitro Fuzer Welding System

Urethane Supply Company's New No. 6057-C Nitro Fuzer Welding System is the most advanced nitrogen plastic welding equipment available. It comes with everything you need to get productive right away doing the fastest, strongest plastic repairs on virtually any type of plastic. Welding with nitrogen gas creates the strongest welds possible because it eliminates oxidation of the plastic during the welding process.

Get it and Go: System comes completely assembled and ready to go and includes;  
Nitrogen Tank Regulator  
Hand Seamer  
Aluminum Tape  
Plastic Welding Rod Selection  
Welding cart

## The "Magna Stitcher"

### Plastic Repair Kit for Stud Welders

Provides an economical solution for plastic repair by turning your stud welder into a plastic repair tool. The Magna Stitcher™ fits all popular stud welders and provides all the features of a plastic repair system at a fraction of the cost!

The MS-1 works by welding a rigid stainless steel stake into the surface of the plastic resulting in a permanent repair of the crack. Repairs can be made on flat surfaces, tabs, holes, ribs, inside and outside corners. Once the back of the broken part is stitched, the cosmetic repair and refinishing can be completed on the outside of the part. This economical attachment can also be used for quick, on-the-vehicle repairs such as mounting tabs underbody components and other out-of-sight components. Simply stitch and go!

Kit Includes;

- 1 Magna Stitcher Adapter
- 25 "S" Shaped Stakes for Flat Surface Repair
- 25 "M" Shaped Stakes for Tabs & Narrow Sections
- 25 "V" Shaped Stakes for Inside Corner Repair
- 25 "W" Shaped Stakes for Outside Corner Repair
- 1 Handy & Durable Storage Case

## 3M™ PPS™ SUN GUN™ II Light Kit

The 3M™ PPS™ SUN GUN™ II Light Kit is the perfect tool for color matching, verifying coverage, highlighting damaged areas of the vehicle and identifying pre- and post-paint defects.

**A bright idea, made better** - We took everything shops loved about the original Sun Gun, made the improvements people asked for, and built you the Sun Gun II.  
**Longer Battery Run Time** thanks to our new NiMH battery.  
**Wider, more even light beam** provided by the new Sun Gun II 50 Watt bulb and light diffuser.  
**Faster Battery Charger.**  
**More Durable Bezel**, re-crafted and molded from more impact-resistant material.

- **Estimator:** Assist in clearly identifying damaged areas prior to writing the estimate
- **Body:** Identify pre-paint defects such as pinholes, sand scratches & solvent-pop
- **Paint:** Choose the correct variant or alternative color chip, verify coverage & match
- **Detail:** Identify post-paint defects such as swirl marks, burn-through, sand scratches and dirt nibs

### PRECISION MASKING TAPE

3M™ Precision Masking Tape is engineered with ultra-thin, exceptionally smooth paper backing, making it ideal for producing sharp paint lines when used with both solvent and waterborne paint systems. The tape is visibly thinner, yet removes from surfaces without tearing or leaving adhesive residue behind.

### PREMIUM FOAM MASKING TAPE

- Apply to fixed or moving parts
- Offset adhesive keeps adhesive away from the paint edge
- Semi-split design conforms easily to most apertures without rolling to ensure a smooth paint edge
- Continuous roll that does not distort when torn

### 3M® Soft Edge Foam Masking Tape PLUS

Masking jamb areas and producing an invisible repair is a constant challenge. Whether using folded tape, foam or conventional masking tape and paper, special care is taken to achieve the desired results in the jamps. This extra effort takes valuable repair time. Introducing the newest development in jamb masking technology that makes jamb masking quick, easy & effective.

3M™ Soft Edge Foam Masking Tape PLUS utilizes a tubular design that allows painters to easily mask both wide and narrow jamb openings in one simple step. The result is improved soft edge masking performance and a high quality finish.

**GOLD PRO Paper-Backed Abrasives**

Delivering Value and Performance. When value is critical, choose USC Abrasives GOLD PRO – the quality paperbacked abrasives that deliver fast, effective results at a great overall value. GOLD PRO's multi-layer construction combines sharp, precise grains with ultra-durable backing and a specialized coating to consistently achieve the fast, uniform finish body you want.

- Special anti-clog coating extends product performance
- Premium, bonded grains efficiently deliver fast, smooth results
- Durable latex paper lasts longer and is ideal for wet and dry sanding

Available:  
6" PSA Rolls from 80 Grit to 500 Grit  
6" PSA Boxes from 40 Grit to 800 Grit  
6" Velcro Boxes from 40 Grit to 800 Grit  
2-3/4" x 16-1/2" PSA File Board from 40 Grit to 220 Grit  
2-3/4" x 16-1/2" Velcro File Board from 40 Grit to 220 Grit  
2-3/4" x 45 Yards PSA Rolls from 80 Grit to 400 Grit

**Abrasives Film**

Advanced Film Technology

**INTRODUCING ORION™ ADVANCED FILM TECHNOLOGY!**

THE NEXT GENERATION IN FILM ABRASIVES

- Polyester film backing for durability, flexibility and uniformity
- Micro-cut precision grains increase cut-speed and accuracy
- Advanced resin-over-resin design reduces shelling and increases performance and durability
- Proprietary anti-clog technology reduces paper loading and friction, as well as extends product life
- Patented SynWave™ Technology simultaneously sands flat and curved surfaces without gouging – reducing finish sanding up to 50%
- Smart-sized packs and simplified pricing

USC ORION Abrasives are proven to reduce finish-sanding time by 20%! The Patented ORION SynWave™ Technology with a scalloped edge simultaneously sands flat and contoured surfaces to reduce the risk of gouging. SynWave is proven to reduce finish-sanding time by 50%!

**New Norton "Ice" Disc**

Norton Ice now includes 6" discs in 1500, 2000, and 3000 grits, as well as 3" 1500 and 3000 grits. Each grit has a unique color for easy identification.

Engineered using an open mesh design for equal pressure distribution, these new products provide a quicker cut with a much more consistent finish. These foam finishing discs are designed to be used moist, to reduce loading and extend product life, and without the aid of an interface pad. These discs work with our NorGrip back-up pads.

***Ice 1500 is used for removing texture and dust nibs from the clearcoat prior to buffing. This step can be followed by either Ice 2000 or Ice 3000 before buffing. The Ice 2000 can also be used as a bridge between the Ice 1500 and Ice 3000 when desired.***

# SANDING PADS - SANDING BLOCKS

21

## Specialty Sanding Blocks

### No. WB-1 "WONDER BLOCK"

Contoured ergonomically designed blocks for maximum gripping power over flat to slightly curved surfaces. Their heavy duty construction provides long life in harsh environments, and supreme sanding power for the toughest applications.

**ONLY - \$11.50 EACH!**

### No. HT-2 "HOLEY TERROR"

This unique, rugged, semi-rigid versatile sanding block is designed for flat to medium curved surfaces. The strategic hole pattern side provides multiple cutting edges, creating a 30% faster cutting surface, gripping the sandpaper, wet or dry. The back side provides rigidity and a comfortable, easy-to-hold surface. 2 Per Pack

**ONLY - \$19.90 PACK!**

### No. SB-3 "SOFT BLOCK"

The Soft Blocks are unique, double-density blocks that act as two blocks in one, achieving the ultimate in block sanding of curved or irregular shaped surfaces. These blocks require no adhesives; sandpaper sticks like glue. The dense side is for more aggressive blocking, while the soft side is for color sanding. 3 Per Pack

**ONLY - \$20.25 PACK!**

### No. RK-1 "ROCKER BLOCK"

6" PSA facing sanding block. Ideal shape for a variety of sanding applications. From heavy, two-handed rough sanding of filler to fine sanding of finish coats. Perfect size for 6" diameter disc.

**ONLY - \$8.95 EACH!**

### No. RL-1 "ROLLER BLOCK"

The Roller-Block Precision sanding block is specifically designed for wet sanding applications. - The exclusive rounded sides of the block lift the folded edges of the paper away from the work - eliminating defects. - The grip is firm and comfortable - little hand pressure is wasted holding the paper to the pad - allowing more pressure to be put into the work.

**ONLY - \$9.45 EACH!**

## RIGID SANDING BLOCKS

Motor Guard has developed three new Ultra-Rigid Big Block models for fast and aggressive blocking. Engineered from super-dense yet light-weight materials, these new sanding blocks provide just the right amount of flex to conform to body panels and slight contours. Ultra-flat faces result in fast and flawless finishes.

### BGR-1 Rigid Sanding Block (1-1/2" x 11")

Create the ultimate blocking bar by wrapping an abrasive sheet around this narrow, rigid block. Just the right width for power blocking in small areas, this block flexes slightly to follow contours.

**ONLY - \$7.15 EACH!**

### BGR6-1 Rigid Sanding Block (5-1/2")

An ultra-flat super rigid block for use with 2-3/4" PSA rolls or half-sheets with no waste. Finger recesses on the sides allow for a firm yet powerful grip while tackling the toughest jobs.

**ONLY - \$10.35 EACH!**

### BGR12-1 Rigid Sanding Block (11")

For aggressive, two-handed blocking, this long, rigid sanding block is unequaled. Use with 2-3/4" PSA rolls or full sheets with no waste. Power block large areas with ease.

**ONLY - \$13.60 EACH!**

## BIG BLOCKS

A strong and comfortable grip is the key to the Big-Block's power. The exclusive, rounded top edge provides comfort while the soft center layer provides a finger recess for a super-strong grip. Flip the block over and the rounded edges can be used to power sand contours and recesses without the pressure points that come from sharp corners.

No. BG6-1 6-1/2" - **ONLY - \$10.45!** No. BG12-1 12" - **ONLY - \$14.95!**

### No. BGS6-1 6-1/2" with Soft Side:

- Designed for Fine Sanding on Larger Areas
- Soft Outer Layer for Fine Color Sanding
- Rigid Center Layer Prevents Transfer of Finger Marks
- Exclusive Radius Edge for Comfortable Grip and Contour Sanding

**ONLY - \$10.15 EACH!**

### No. BGH6-1 6-1/2" with Hole Side:

- Designed for Maximum Flatness and High Productivity
- Hole Side Provides Aggressive Cutting Action
- Soft Center Layer for Powerful Finger Grip
- Exclusive Radius Edge for Comfortable Grip and Contour Sanding

**ONLY - \$11.25 EACH!**

### No. RR-1 "RUN RAZOR"

The Run Razor is MOTOR GUARD's "cutting edge" technology tool for repair work in the final painting process. This tool is used for "shaving" away runs, sags and dust particles prior to color-sanding the final finish. It uses a calibrated dial to obtain accuracy of .001 inch cuts.

**\$9.95 EACH!**

## The "Spec-Out" Nib File

REMOVES RUNS AND DIRT NIBS  
HONED TIPS OF TEETH SHAVE WITHOUT DIGGING IN  
AVAILABLE IN COARSE OR FINE

COARSE

FINE

No. 35250 "SPEC-OUT Coarse Nib File  
No. 35260 "SPEC-OUT Fine Nib File

**\$16.99 Each!**

## 3M Scotch-Brite™ Durable Flex Hand Pads

Durable Flex Hand Pads combine high performance features to give you the fast, consistent scuff your sanding jobs require.

- Tightly graded with more active mineral sites for fast, consistent action without compromising your final finish
- Flexible construction is conformable for more complete scratch in channels, grooves, tight spots and other hard-to-reach areas
- Durable, specially-coated to resist loading and prolong pad life

Packaged 25 per Box

No. 64659 - Red No. 64660 - Gray

**ONLY - \$24.33 BOX!**

## 3M Scotch-Brite™ Hand Pads 7447 & 7448 PRO

A Very Fine  
General scuffing

S Ultra Fine  
Prep surface prior to color coat

A Very Fine  
Prep surface prior to primer

Unique fibre coating capability assures a fast, consistent scratch.

**Longer Life Uniform**

## BEAR-TEX THIN FLEX

### Scuff Pads

Thin-Flex last longer than competitive pads, gives a very consistent scratch and has incredible flexibility to get into hard-to-reach areas. 4 1/2"x 9" 25 Per Box

No. 06166 Maroon - Fast Aggressive Cut

\$20.72 Box

No. 06167 Gray - For Blending & Blend Areas

\$20.72 Box

### 6" DA Disc

Now available is 6" discs that can be used on dual-action sanders. Scuff the area to be prepped quicker and with more consistency than using a Scuff Pad by hand. These discs can be safely used around edges and contours, and do the same work as a hand, but more efficiently. If there is an area that a sander cannot reach, the size of the discs makes it easy to work with by hand, as well.

No. 34770 Thin-Flex 6" Maroon Disc (25 per Box)

\$21.03

No. 34771 Thin-Flex 6" Gray Disc (25 per Box)

\$21.03

No. 06145 6" Medium Tapered Backup Pad

\$28.82

# BODY FILLERS & PUTTIES

## RAGE *ULTRA* Premium Lightweight Filler No. 125

Rage Ultra is the *world's best sanding body filler*. Its unparalleled sanding qualities are a result of the patent pending formula that contains renewable technology. Its non sag formula has excellent filling properties, while *eliminating the need for finishing putty*. Rage Ultra contains ZNX 7 which quickly provides superior adhesion to galvanized steel and aluminum, eliminating the risk of pulling back the feather edge.

EVERCOAT

## RAGE EXTREME Premium Lightweight Filler No. 120

Rage® Xtreme™ is the world's first truly pinhole-free premium body filler. This technically-advanced, unique formula is self-leveling for easy spreading, reducing sanding time to remove heavy texture. Easily sands with 80 grit sandpaper. Contains Evercoat® ZNX-7™ patented technology which quickly provides superior adhesion.

EVERCOAT

## RAGE Premium Lightweight Filler No. 106

Tack free and stain resistant, which extends the life of sandpaper and reduces the chance of staining. Superior spreading and sanding properties eliminate the need for cheese grating or sanding with coarse papers. Advanced formula with ZNX-7™ provides superior adhesion to galvanized steel, aluminum, SMC and sanded OEM finishes.

EVERCOAT

## Z-GRIP

EVERCOAT

### Premium Lightweight Filler No. 282

Formulated with ZNX-7™ for superior adhesion to galvanized steel, bare steel and aluminum. Part of the MetalWorks® System that honors the OEM corrosion warranty. Contains Hattonite™ for effortless sanding. Blue cream hardener included.

EVERCOAT

## “FUZION”

### Premium Lightweight Filler No. 16000

Formulated with patent-pending N-TEK for maximum adhesion to galvanized, steel, aluminum and all metals.

USC

## “LIGHTWEIGHT”

An economical tack free lightweight auto body filler designed to reduce sandpaper clogging and sand to a fine finish.

EVERCOAT

**BEST FOR** heavy filling and repair of body damaged panels up to 1/2" in depth.  
**USE ON** cold Rolled Steel, galvanized and other zinc coated steel, aluminum, and E-Coat.

# SHOP SAFETY

## What are the most common safety violations in facilities using flammable solvents or chemicals?

The following “**Quick Check List**” is a method Operations, Department, or Safety Managers can use to identify the most common safety violations concerning flammable, combustible, and hazardous liquids. Following it can quickly and effectively make your operation compliant with OSHA and to Industry Best Practices

- 1) Look around. Are there flammable combustible and hazardous liquids stored in open containers? This violates OSHA and the EPA. All hazardous liquids should be stored in functionally closed containers. Insure that lids on those containers are closed adequately and repair or replace containers as required.
  - 2) And as an industry best practice and to meet OSHA Regulations flammable and combustible liquids should be stored in a safety can as approved by UL and FM. Safety cans that have been in service should be inspected to make sure the lid operates and closes effectively, there is a flame arrester, and that it doesn't leak. Replace all safety cans that no longer function properly.
  - 3) Look for fluid soaked rags. They can represent a fire hazard if left lying around or are not discarded in approved containers. Use UL and FM approved oily waste cans. Always make sure to empty those containers each night or at the end of each shift into a safety container located outside the building.
  - 4) Do you have other combustible waste in open or overflowing containers? Replace these containers with approved UL & FM waste receptacles; important to your operation's fire prevention plan.
  - 5) Drum storage usually indicates the storage of bulk flammable, combustible, or hazardous liquid. For EPA compliance, make sure you pick a spill protection pallet for your needs. For indoor applications choose a polyethylene or metal spill pallet. Base your decision on chemical compatibility. Do you have outdoor drum storage? A covered pallet can offer spill protection and protect your sump from overflow due to rain as required to a responsible spill prevention plan.
  - 6) Drum Storage of flammable and combustible liquids should include a safety drum vent on each drum to insure compliance with OSHA. FM approved Safety Drum Vents provide emergency pressure venting in the event of a fire and the vacuum relief require for dispensing operations or to prevent the drum from crushing under vacuum in the event of sudden cooling. Vents are available for horizontal or vertical stored drums.
  - 7) If your operation requires dispensing of flammable and combustible liquids from a horizontal drum through a faucet you need an FM approved self closing faucet as required by OSHA.
  - 8) FM approved flammable safety cabinets help you organize your operation's flammable and combustible liquids, helps you increase the amount of flammable and combustible liquids stored in an area, and provides a margin of safe egress from an area by personnel in the event of a fire. Replace existing safety cabinets if the doors do not operate correctly or if they have been modified, as this indicates the cabinet's performance and FM approval have been compromised.
  - 9) Always properly ground or bond pour and fill containers when dispensing class I flammable liquids.
- By following this short “**Quick Check List**” you can solve the most common safety violations in the handling of flammable, combustible, and hazardous liquid. Following this will make your operation a safer one.

By: Glen Carter

Glen Carter is Chief Technical Officer for Justrite Manufacturing Company and is a recognized authority on flammable liquids storage and handling. He is currently on the following UL Standards Committees: UL 30, Metal Safety Cans; UL 1275, Flammable Liquids Storage Cabinets. He has served as a member of the NFPA 30 Technical Committee, Flammable and Combustible Liquids Code since 2008.

## JUSTRITE Safety Storage Cabinet SALE!

**Ultra 2 Step<sup>®</sup> Buffing System**

- Cuts Fast
- Creates a Flawless Finish
- Cleans Up Easily
- Saves Time & Money

Start with the advanced 2 Step Cutting Compound to remove 1200 grit and finer sand scratches from both new and aged paint. Then, complete the process with the Ultra 2 Step Finishing Polish, an all-in-one polish and swirl remover that creates a deep gloss and a flawless final finish.

**Improves  
Cycle  
Times**

**Kit Includes:**

- 32 oz. Ultra 2 Step Cutting Compound
- 32 oz. Ultra 2 Step Finishing Polish
- 32 oz. Fast Wax
- 22 oz. Spray 'N Shine
- Black & White Wool Compounding Pad
- White Foam Waffle Compounding Pad
- Grey Foam Waffle Polishing Pad
- Flex Foam Backing Plate
- Hornet<sup>™</sup> Wipe Out Cloth

**No. 139089S - \$169.99**

**Pro Appearance Pak**

The chemical and accessory items in the Presta Pro Appearance Pak takes you through complete detail: anything from washing, to protecting, to final detailing.

**Kit Includes:** 1 gal. Conquest, 1 gal. Leather & Vinyl, 1 gal. Ultra Concentrated Glass Cleaner, 1 gal. Sudzz Car Wash, 1 gal. Spray 'N Shine, 22 oz. Tire & Wheel Cleaner, 22 oz. VOC Radiant Dressing and four labelled secondary bottles with triggers.

**No. 136085N - \$120.71**

**Scuff Stuff<sup>®</sup> Surface Prep**

Water-soluble cleaner that strips away waxes, sealers, road film and dirt while creating a consistent surface profile for paint adhesion and blending.

**No. 131732 - 32 oz. - \$26.75**  
**No. 131730 - 3 kg - \$45.58**

**ULTRA BUFFING SYSTEM****Ultra Cutting Creme<sup>™</sup>**

Developed to remove 1200-grit and finer sand scratches from soft and aged paint. Ultra Cutting Creme produces outstanding gloss on all automotive finishes, gel coats and marine coatings.

**No. 131932 - 32 oz. - \$30.17**  
**No. 131901 - Gallon - \$75.74**  
**No. 131905 - 3 kg - \$61.09**

**Ultra Polish**

Removes minor surface imperfections and oxidation from new or aged automotive paint. Ultra Polish creates an extremely high gloss finish that won't wash away.

**No. 133532 - 32 oz. - \$36.68**  
**No. 133501 - Gallon - \$91.52**

**Chroma Swirl Remover**

Designed to remove swirls from both fresh and cured paint surfaces while leaving a high-gloss finish. For heavy, cured swirls, best results are achieved by compounding first and then using Swirl Remover.

**No. 133632 - 32 oz. - \$36.68**  
**No. 133601 - Gallon - \$91.52**

**Spray 'N Shine**

Removes fingerprints and dirt. Spray 'N Shine leaves an attractive shine on any non-porous, painted surface with this easy-to-use enhancer. Also works great as a lubricant with overspray clay or during buffing when the compound, polish or pad gets too dry.

**No. 130922 - 22 oz. - \$13.05**  
**No. 130901 - Gallon - \$31.58**

**Ultra Cutting Creme Light**

Mildly abrasive compound designed to remove 2000-grit and finer sand scratches from any paint surface. UCCL produces a high gloss finish without the use of waxes, silicones or fillers.

**No. 133432 - 32 oz. - \$30.06**  
**No. 133401 - Gallon - \$76.40**

**Non-Acid Tire & Wheel Cleaner**

Powers away brake dust and road grime. Fast-acting, non-acid formula leaves wheels clean and bright. Safe on virtually all types of wheels.

**No. 135622 - 22 oz. - \$8.54**  
**No. 135601 - Gallon - \$24.89**  
**No. 135605 - 5 Gallon - \$113.55**

**VOC Fast Wax<sup>™</sup>**

Breathable liquefied paste wax with natural and synthetic ingredients. Wax an average size car in about 45 minutes. Provides a high-gloss shine and approximately 30 days of protection.

**No. 134132 - 32 oz. - \$24.31**  
**No. 134101 - Gallon - \$63.92**

**Sudzz<sup>™</sup> Car Wash**

Delivers performance and value. This hard-working cleaner penetrates to clean dirt, grease and grime and leaves the surface clean and film-free. 1:128 dilution.

**No. 135501 - Gallon - \$14.57**  
**No. 135505 - 5 Gallon - \$61.38**

**Aerosol Glass Cleaner**

Removes oily films and dirt from automotive, shop and home glass surfaces.

The hard-working foam clings to surfaces and works immediately. Just spray and wipe.

**No. 132920 - \$4.35**

**ReNuLife<sup>®</sup> Headlight Restoration Kit**

The Only Headlight Restoration Process to be Tested & Recommended by Ford Motor Company

Presta's ReNuLife Headlight Restoration Kit restores like-new clarity to cloudy, scratched, oxidized and yellowed plastic lenses. This Restoration Kit effectively removes fine scratches, surface contaminants, oxidation, cloudiness and yellowing, leaving plastics brilliantly clear, polished and protected against future discoloration. Works great on headlights, brake lights, light bars and more! The quickest, easiest, most cost-effective way to professionally restore headlights to like-new condition.

## Silicone-Free Dressing

Body Shop Safe

Meguiars Silicone-Free Dressing is the choice for professionals looking for a high performance dressing which can be used in any silicone sensitive environment. Its VOC compliant formula produces an incredibly deep, rich high gloss shine on all exterior rubber and plastic surfaces.

No. D-16101      Gallon      \$ 35.48  
No. D-16105      5 Gallon      \$167.22

## Super Degreaser

Body Shop Safe

Meguiars Super Degreaser exceeds expectations by quickly breaking down even the toughest grease. It's fast acting, free rinsing formula prevents unsightly white residue stains while its herbal fragrance creates a pleasant work environment. Dilution Ratio is 10:1 Light Duty and 4:1 Heavy Duty

No. D-10801      Gallon      \$ 24.10  
No. D-10805      5 Gallon      \$100.94

## Shampoo Plus

Body Shop Safe

Meguiars Shampoo Plus lubricating formula and luxurious foam team up to gently clean and condition even the most delicate clear coat surface without scratching. Its conditioning formula deepens gloss, boost shine and leaves a highly reflective surface, making it the perfect choice for the ultimate car wash! Dilution ratio is 10:1

No. D-11101      Gallon      \$24.54  
No. D-11105      5 Gallon      \$85.20

## 400:1 Hyper-Wash!

Body Shop Safe

Typical dilution rates are now obsolete when comparing them with Meguiars Hyper-Wash! Using innovative techniques Meguiars has created a product that produces rich, stable foam at an unbelievable dilution rate of 400:1. It's biodegradable formula safely and effectively lifts dirt and grime off all surfaces.

No. D-11001      Gallon      \$ 29.82  
No. D-11005      5 Gallon      \$142.80

## Glass Cleaner Concentrate

Body Shop Safe

Meguiars Glass Cleaner Concentrate easily and consistently removes tough vinyl fog residue, road grime, smoker's film and bug splatter, producing crystal clear, streak-free glass. For every concentrated gallon you get eleven ready-to-use gallons of glass cleaner. Dilution ratio is 10:1

No. D-12001      Gallon      \$20.54  
No. D-12005      5 Gallon      \$99.00

## Last Touch Spray Detailer

Meguiars Last Touch Spray Detailer produces incredible depth, shine and gloss. This spray-on, wipe-off product has a unique blend of polymeric lubricating agents that gently removes dust, fingerprints, smudges and other contaminants, leaving a flawless, showroom shine!

No. D-15501      Gallon      \$ 22.48  
No. D-15505      5 Gallon      \$101.52

## All Purpose Cleaner

Body Shop Safe

Meguiars All Purpose Cleaner is ideal for reconditioning all interior surfaces. The superior foaming action gently lifts the dirt away while its unique blend of fabric softeners and optical brighteners enhance the look and feel of carpet, upholstery, vinyl and even leather. Spray or Wipe on. Dilution is 10:1 Light Duty and 4:1 Heavy Duty

No. D-10101      Gallon      \$16.20  
No. D-10105      5 Gallon      \$69.24

## Wheel Brightener

Body Shop Safe

Meguiars Wheel Brightener is the product of choice for professionals looking for a powerful wheel cleaner that quickly and effectively removes tough brake dust. There is a thin line between effective cleaning and dangerous-to-use products. Wheel Brightener gives users the ultimate in flexibility, cleaning and safety with one product. Dilution Ratio is 4:1

No. D-14001      Gallon      \$ 23.14  
No. D-14005      5 Gallon      \$105.34

## OSHA Compliant Secondary Bottles & Sprayers

| Polex Polishing Kit Dry Sanding (P1912)..... | \$23.62 |
| Polex Polishing Kit Wet Sanding (P1914)..... | \$43.70 |

### Eagle 8-1/2" Multi-Cell Curved Foam Pads

High quality Curved Multi-Cell foam pads have a slow absorption rate and regularly placed pockets that gradually release polish as the operator applies pressure, requiring less polish to complete the task.

#### Eagle Multi-Cell Foam Pads

|                                      |         |
|--------------------------------------|---------|
| 04848 8.5" Orange Med. Cutting Pad   | \$15.62 |
| 04847 8.5" White Light Cutting Pad   | \$15.62 |
| 04848 8.5" Blue Polishing Pad        | \$15.62 |
| 04849 8.5" Red Finishing Pad         | \$15.62 |
| 04623 6-1/4" (5/8-11 Fem. Hub) Plate | \$27.50 |

### Eagle 7-1/2" Multi-Hex Foam Pads

Our vibration free low fatigue Multi-Hex Foam Pads are also self-centering for convenience. The multiple hex pattern on the face of the pad will disperse buffing compound evenly based on the amount of pressure used by the operator, thus reducing grabbing and heat-causing friction.

#### Eagle Multi-Hex Foam Pads

|                                    |         |
|------------------------------------|---------|
| 04638 7.5" Orange Med. Cutting Pad | \$14.63 |
| 04637 7.5" White Light Cutting Pad | \$14.63 |

## PRO-TEX™ 2K CHIP GUARD

**40820 PRO-TEX 2K CHIP GUARD** is a urethane-based coating, designed to protect lower panels that are prone to chipping and corrosion. This formulation provides excellent film build, adhesion, chemical resistance and can be tinted to match existing finishes. Formulated to use a convenient 2:1 mixing ratio, #40820 can be sprayed using the #71101 Economy Coating Gun to match heavier textures or using a standard 1.8 - 2.2mm tip to match difficult OEM textures, such as those found on many Toyota, Mazda and Ford models.

**Features:**  
• 2K Urethane Technology  
• Matches OEM Textures  
• Excellent Color Match  
• Easy to Spray  
• Superior Protection  
• Tintable & Paintable

**New Formula!**  
2:1 Mixing Ratio  
**Kit Contains:**  
1 Quart #40824 Pro-Tex Chip Guard & 2 Half Pints of #40836 Pro-Tex Chip Guard Catalyst

**ONLY  
\$94.49!**

## FLEX FILL Hi-Build Primer Surfacer

A high build primer specially designed to fill sand scratches with great adhesion to all plastics!  
Sanding is amazingly easy and fast without clogging your sandpaper.  
No. SFX - Aerosol Regular - \$10.69

**SALE - \$9.75 EA!**

## ONE-STEP Self Etching Primer

One Step is unique and convenient to use 'etch type' primer that provides excellent adhesion for additional top coats, primers, and sealers to metals. This product is compatible with all primer surfacers for spot repair and refinishing. Apply to steel, aluminum, and most metals. No. SEP Regular - 14.07

**SALE - \$12.95 EA!**

## Hi-Build Zinc Weld-Thru

Dominion Sure Seal's Hi-Build Zinc Rich Weld-Thru Primer / Coating is a very fast drying, anti-corrosive coating that is normally applied to metal surfaces prior to welding. This one stage aerosol is also referred to as "Cold Galvanizing Compound". It will reduce mig weld "splatter" and can be applied to metal surfaces after welding. It will give corrosion protection before and after welding.

No. SZC Regular - \$17.98

**SALE - \$16.25 EA!**

## HIGH #5 1K High Build Primer

High build and Fast Drying Chromate-free. Easy sanding. Can be applied to the following surfaces: Fully cured paint, Polyester body fillers and FRP.

No. 0791V - Gray - 50 State Compliant  
REG - \$22.02

**SALE - \$20.95!**

## FIBER FILL 4:1 From Evercoat

### REINFORCED POLYESTER PRIMER

**DURABILITY AND FLEXIBILITY IN AN EASY TO USE POLYESTER PRIMER!**

Evercoat brings you the first fiber-reinforced polyester primer surfacer. It has excellent filling capability and added strength and flexibility compared to other polyester primers. Fiber Fill 4:1 passes 500 hours in salt spray test (ASTM B117) and can be applied over properly sanded and cleaned bare metal. Mixed 4:1 with either 733 Polyester Catalyst or the new 734 Fast Polyester Catalyst.

- A durable undercoat for holding down troublesome repairs
- Direct to Metal Application eliminates the need for epoxy or self-etching primers
- Ideal for priming over checkered fiberglass, stress cracks and other surface imperfections

No. 736 - Gallon **ONLY - \$117.25 GALLON!**

**EVERCOAT**

## FINISH SAND From Evercoat

### HYBRID POLYESTER PRIMER SURFACER

**PATENTED POLYESTER PRIMER TECHNOLOGY REDUCES CYCLE TIME!**

Finish Sand is a hybrid polyester primer surfacer that provides a smooth, low-texture finish that is easy to sand and level. It is ideal for holding down troublesome repairs on a variety of substrates. Finish Sand 4:1 passes 500 hours in salt spray test (ASTM B117) and can be applied over properly sanded and cleaned bare metal. Mixed 4:1 with either 733 Polyester Catalyst or the new 734 Fast Polyester Catalyst.

No. 738 - Gallon **ONLY - \$96.19 GALLON!**

**EVERCOAT**

## SINGLE COMPONENT SELF-ETCHING PRIMER IN 3 COLORS!

Adheres to steel, aluminum and stainless steel, for overall refinishing or spot repairs. Formulated for use under primer surfacers and with most paint systems.

USE THE POR-15® SYSTEM TO  
STOP RUST PERMANENTLY!

POR-15 products are designed to work as a complete system. When used together, these products provide you with a coating that will not only stop rust, but will prevent it from returning! To aid you in your particular rusty metal project, please see the following steps to explain the various steps in rust prevention. All POR-15 products are available individually and many are available in efficient cost saving kits geared to your specific restoration need.

Here's How The System Works.....

1

Degrease & Clean Surface

Clean the rusty metal surface with **Marine Clean™** degreaser/cleaner. An environmentally safe cleaner, **Marine Clean™** will remove dirt, grease, wax or other contaminants that could interfere with restoration.

2

Neutralize Rust ; Etch Metal

Prepare the rusty metal surface with **Prep & Ready™**. As a rust remover **Prep & Ready™** will neutralize rust, etch metal for better adhesion and coat the metal with zinc phosphate to encourage deep chemical bonding of **POR-15™** to the base metal and rust.

3

Apply Rust Preventative Coating

Seal the rusty metal with **POR-15®** Rust Preventative Coating. As the moisture resistant **POR-15®** bonds to the rusty metal, it will form an unbelievably tough, almost ceramic-like finish that will not crack, chip or peel!

4

Topcoat The Surface

In situations where you are top coating **POR-15®** with an automotive finish, use **POR-15's Self-Etching Primer** prior to applying top coat. It can also be used over very old and cured POR-15. However, we recommend a light sanding with 280 or 320 grit sandpaper prior to applying Self Etching Primer

MARINE CLEAN

Cleans and degreases in one application without leaving residues, noxious fumes or flammable solvents. No other cleaner works as fast or as well. It makes petroleum-based cleaners almost obsolete because **MARINE-CLEAN™** can be diluted with water up to 3, 4, 5 and even 10 times its volume while remaining more potent than other cleaners. Removes grease, oil, mildew, algae, musty odors, soap films, wax. Use it to clean canvas, vinyl, nylon, holding tanks, grease traps, auto parts and more.

No. 40104 (MCQ) - Quart - \$11.60 No. 40101 (MCG) - Gallon - \$23.40

PREP & READY

Provides the best adhesion for POR-15® on any metal surface, including aluminum and shiny polished metal surfaces. Our simple process gently etches metal, creating an ideal anchor pattern for coatings such as POR-15®, while simultaneously leaving a zinc phosphate coating to insure chemical bonding of paint and steel. Avoid other preps that may leave harmful residues which prevent proper adhesion. After thoroughly degreasing your work piece, apply environmentally safe **PREP & READY™** to both neutralize any rust and etch any clean bare metal. This will allow better adhesion of POR-15® or any other paint. **PREP & READY™** is not caustic, corrosive, toxic or flammable.

POR-15 Self-Etching Primer

A quick drying and easy-to-apply coating which enables a restorer to quickly topcoat **POR-15®** and other basecoats, we have developed **POR-15® Self-Etching Primer**. With this product, you can even topc **POR-15®** that's been in place for months or years. It is NOT a high-build primer, like **POR-15's TIECOAT PRIMER**, but it can be sprayed or brushed on almost any painted surface and can be topcoated in 15 - 30 minutes.

WHITE COTE

Here it is, the toughest, most beautiful white coating you'll ever use. Like our internationally famous POR-15®, **WHITECOTE™** cures to a rock-hard, non-porous finish that won't chip, crack, or peel when applied as directed. It's perfect for wrought iron patio furniture, plumbing fixtures, etc., because it's super-tough, not UV-sensitive, and brilliantly white. Use it to repair a bathtub or sink with chips or rust stains, or to paint and protect an old boat, trailer or RV, or anything that you want to be permanently white. INCLUDES ACTIVATOR

No. 43408 (WCP) Pint - \$41.15 No. 43404 (WCQ) Quart - \$72.80 No. 43401 (WCG) Gallon - \$221.50

ENGINE ENAMELS

Extra-pigment **ENGINE ENAMELS** have been formulated by RestoMotive Laboratories to be the best and most beautiful engine enamels you can buy. Enamels are available in incredibly rich colors that flow easily, cover better than any other paint, and last longer. Our enamels are non-flammable and conform to even the strictest California environmental standards. We invite you to compare them with any other product and you'll see what we mean. Typically, a pint is enough for an entire engine.

## SHAKE & SHOOT TOUGH, DURABLE URETHANE BED LINER!

**NEW  
LARGER  
SIZE  
SAME  
PRICE!**

Dominion Shake & Shoot Bedliner is an easy to use urethane bedliner and industrial coating. It provides great protection over virtually any surface and has excellent adhesion properties, UV protection and is as tough as nails. Remains permanently flexible, inhibits corrosion and may increase the value of your truck. The easy mix system minimizes any chance of under or over mixing- simply pour can B into can A, shake and attach to a No. BUPASS\* gun and shoot! Can also be brushed or rolled on too. The finish will last for years, has a semi-gloss finish and different textures can easily be achieved.

## DEFENDER-PRO Epoxy Truck Bed Liner Kit

*The ultimate truck bed liner has arrived—Defender-Pro™ Epoxy Truck Bed Liner with Kevlar®. Ultimate bare metal adhesion. Ultimate chemical resistance. Ultimate durability. Ultimate ease. Defender-Pro's advanced, two-part, epoxy formula is designed to save time and money. Simply pour, shake and spray your way to a beautiful, durable finish in less than 20 minutes (excluding prep time).*

- Epoxy/Kevlar® formulation provides improved bare metal adhesion, chemical resistance and durability compared to urethanes
- Non-isocyanate formulation is more forgiving to shop conditions and humidity than urethanes

- Lower application pressure means less overspray

- Topcoat with single stage or solvent basecoat/clearcoat

- Easy to achieve a uniform texture and appearance

No. 1800-2 - REGULAR - \$154.07

**SALE - \$147<sup>99</sup>**

## "RAPTOR LINER" FROM U-POL Black or Tintable Truck Bed Liner Tough, Durable Urethane Coating

# SPRAY BOOTH AND MIXING ROOM

## You Need To Know!

Spray Booth Filter/Arrestor Maintenance Schedules

### Supply Air / Intake Filter Change-Out

**Crossdraft Booth Intake Filters**  
**Downdraft Booth Pre-Filters**  
**Downdraft Ceiling Filters**

Every 30 to 40 paint jobs or when indicator spot appears dramatically  
Every 3 months or 200 hours of operation  
Every 800 to 1,200 hours of operations or when indicator dot appears dramatically white

### Exhaust Air / Paint Arrestor Change-Out

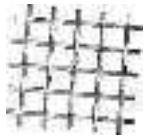

**Crossdraft Booth**  
**Downdraft Booth**

Every 15 to 25 paint jobs  
Every 50 hours of operation

\* **Note** - Do not clean filters with high pressure air; filters are designed for disposal.

\* **Note** - Filter change-out frequency can vary depending on object painted, spray gun velocity, distance of spray gun to paint arrestor pad and the type of spray booth being used.

### VISKON-AIRE™ Premium Intake Booth Filters

**SERIES 55** air intake filters are designed to provide optimum performance over a wide range of design conditions. The unique PBT-32™ Tackifier holds dirt in place; will not dry out, drip or blow off. The self-sealing gasket and internal wire frame eliminate by-pass and flutter to keep dirt out of the spray booth. Substantially outlasts other filters and spreads installation and replacement costs over a longer lifetime. Fits frames fast without adaptors or sharp edges for reduced labor costs.

### SWEEP UP OVERSPRAY WITH A BROOM!

#### Benefits

- Reduces airborne particles in the spray booth by over 50% and traps them on the floor
- Significantly reduces buffing time caused by dirt in the paint job
- Ideal for shops spraying waterborne as increased air movement and low humidity are required

#### Easy to Use

- Fast and easy once-a-day application using a pump sprayer
- Simply sweep up the dirt and overspray with a broom
- One 5-gallon bucket allows for approximately 20 applications

## HOUSE OF KOLOR SHIMRIN2® PREMIUM CUSTOM FINISHES SINCE 1956

Shimrin2® is the 2nd generation of the proven Shimrin® Basecoat technology introduced in 1982. Shimrin2® is the next generation of robust ground-breaking universal basecoats from House of Kolor. Through new polymers and innovative chemistry we are able to meet and exceed waterborne with a solvent based system and allow you the painter to create hundreds of easy to mix and use kolors that are the most exciting, from the latest pearl technology. Shimrin2® basecoats are ultra productive, easy to apply, and range from Metallic Basecoats (BC), Pearl Basecoats (PBC), and Kandy Basecoats (KBC). Shimrin2® Basecoats are a three component system that consists of our S2 FX Karrier Bases, S2-FX Effect Pacs and RU Series Kosmic reducers. This New System is the Future of kustom painting available now, compliant through out the USA including California.

### SOLID BASECOAT

House of Kolor has stepped up its game with the introduction of the Shimrin2® S2-25 and S2-26 Solid Basecoats. With a blacker Jet Black and whiter Brite White, The Best just got Better.

### FX KARRIER BASE

S2-00 Trans Nebulae is the beginning of all Shimrin2® effects, making it the heart of the Shimrin2® product system. This diverse component of the S2 FX Karrier Base Series is used to create straight effects with no pigment, KBC Kandy Basecoats, tri-stage coats, and much more. Color styling is a breeze with S2 FX Karrier Bases S2-01 through S2-16. From classic favorites like Galaxy Gray, Solar Gold, and Planet Green to new trend setting colors like Eclipse Orange, Solar Flare Red, Lunar Yellow, and Mayan Magenta. These new FX Karrier Bases will have your jaws dropping with extreme clarity, Kandy-like micro grind of pigments, and full spectrum of color attributed to advanced manufacturing techniques, innovative chemistry, and robust polymer engineering.

### FX METALUME

The Shimrin2® Metalume® Series FX are as unique as they are brilliant. Using the finest aluminum flake technology, the Metalumes allow you the painter to choose virtually any finish you desire, from Satin to the painter to choose virtually any finish you desire, from Satin to Super Bling, the Spectrum is there!

### FX KOSAMENE

Looking for a natural, earthy finish for your kustom ride? Look no more. further than Shimrin2® FX Kosamene® Series. These earthy fine grain pearls are excellent for Air Brushing or fast coverage on graphics, and more.

### FX KOSMATIC STYLING PEARL

Shimrin2® FX Kosmatic Styling Pearls are as tough as their namesake, House of Kolor Founder Jon Kosmoski. These are the latest in Pearl technology with tinting strength never seen before in any Pearl pigment, and the color flop direction is like nothing you've ever seen. Ride in style.

### FX METAJULS

House of Kolor proudly introduces the next generation of our highly popular Metajuls® MBC Series in the Shimrin2® system. Shimrin2® FX Metajuls® Series feature more kolors than ever in an easy to use system. If you want a metal flake look without the intense labor normally associated with flakes, the FX Metajuls® will blow your mind!

### FX KAMELEON

House of Kolor changed the face of the kustom paint industry with our revolutionary Kameleon® kolors and pearls. We've done it again with the new Shimrin2® FX Kameleon® Series. Do you want kolors that change as you move around your vehicle? Amazing effects are yours with an increased palette of kolors. You set the tone with Shimrin2® FX Kameleons, whether you want subtle or dynamic color shifts.

### FX KOSMIC SPARK

Prepare to be floored by our new Shimrin2® FX Kosmic Spark® Series. These pearls are by far the most brilliant pearls viewed in the Sun ever developed. Kosmic Sparks offer you the whitest White pearl possible, and a spectrum of kolors to expand your palette. FX Kosmic Sparks are the same platelet size as other pearls, but twice as brilliant!

## Tri-Cut II Compound

- Ultimate finish system
  - One product that handles three uses - cuts, micro finishes and polishes
  - 50 state compliant
  - Produces the ultimate, high gloss finish
- No. 5331 (Gallon) **ONLY - \$58.09**  
No. 5334 (Quart) **ONLY - \$23.16**

## AEROSOL TEX-COAT CHIP GUARD

Tex Coat is a rapid drying, flexible, protective coating, the texture can be varied to match OEM textures as found on rocker panels and valances. The product is designed for under paint uses as an original or replacement textured coating. Tex Coat may be used under enamels or lacquers. For optimum results, build up in 2 - 3 light even coats making sure not to exceed 10 - 12 mils film build for total application.

No. 4313 - BLACK 16 oz **ONLY - \$15.98**  
No. 4303 - WHITE 16 oz **ONLY - \$15.98**

## LOW SPOT FINDER "GUIDE COAT"

A specialty coating that will provide the technician with a visual aid to ensure primed surfaces are totally smooth. This product sands easily and will not clog sandpaper. Guide Coat is fast drying and ready to sand in minutes. It provides the quick and efficient method to find low spots on body filler, primer, glazing putties and other repair components.

No. 9183 - 16 oz AEROSOL

**ONLY  
\$8.07 EA!**

## Universal Lacquer Primer

Universal Primer is a high quality lacquer (nitrocellulose) primer surfacer with good filling and sanding characteristics. Universal Primer dries fast and provides very good topcoat holdout. It may be used under acrylic enamels, acrylic lacquers, alkyd enamels and urethane enamels.

No. 6001 - Gray - GAL  
**ONLY - \$64.95!**

No. 6004 - Gray - QT  
**ONLY - \$20.63!**

## 2K "KWIK-PRIME"

2K Kwik Prime is a two component primer surfacer that can be applied direct to metal surfaces. It is quick drying and easy to sand wet or dry. Kwik Prime provides corrosion protection along with excellent fill and build properties. This unique primer provides improvements in productivity and reduces cycle times while providing significant labor and material savings. May be tinted.

No. 6441 - GAL - LIGHT GRAY  
**ONLY - \$130.30!**

No. 6454 2K KWIK-PRIME ACTIVATOR - QT  
**ONLY - \$33.00!**

## 2K "EZ-SAND"

EZ Sand Acrylic Urethane Primer is a premium grade lead & chromate free two component primer surfacer. It provides exceptional fill and build characteristics providing a base that yields excellent top coat hold out, gloss and D.O.I. (distinctness of image). This primer sands easily wet or dry and can be directly topcoated with alkyd enamels, acrylic enamels, lacquers and basecoat/clearcoat systems. Mix ratio is 4:1:1 (four parts primer 6401EZ, to one part activator 6934, to one part Transtar® Urethane Reducer based on shop temperature).

No. 6401 - GAL - GRAY  
**ONLY - \$99.40!**

No. 6934 EZ-SAND ACTIVATOR - QT  
**ONLY - \$55.46!**

## Transtar 7211 Finish-Tec® Euro Kwik Clear, 5 Liter

Euro Kwik Clearcoat is an acrylic urethane clearcoat with a sprayable V.O.C. of 3.5 lb/gal (using EPA Test Method 24). This product meets National Rule V.O.C. regulations of 5.0 #/gal V.O.C. and Bay Area Rule 45 V.O.C. regulation of 4.5 lb/gal for Group 1 vehicles for basecoat/clearcoat systems and can be used with all solvent and waterborne basecoats. Euro Kwik Clearcoat Urethane Clearcoat can be buffed in 2 hours at 75°F (24°C). Its fast dry time enables customers to cycle more cars through their shops. With Euro Kwik Clearcoat a shop can clearcoat, buff/polish and deliver the vehicle in the same day!

No. 7211 - 5 Liter Clear - **\$143.60**

No. 7226 2.5 Liter Activator Fast - **\$127.32**

No. 7236 2.5 Liter Activator Slow - **\$127.32**

## EURO CLASSIC CLEARCOAT

Euro Classic Clearcoat is a 2:1 clear designed for applications requiring the ultimate finish appearance. This high solids clearcoat provides optimum flow and leveling, and imparts a glass-like finish. It has excellent flexibility and is resistant to stone chips and abrasions. Ideal for use over single stage or base/clear applications. May be used in air dry, downdraft, or force dry applications.

No. 7021  
Clear - 5 Liter

**ONLY - \$143.60!**

No. 7096 - 2.5 Liter  
Activator - Slow

**ONLY - \$127.32!**

No. 7086 - 2.5 Liter  
Activator - Fast

**ONLY - \$127.32**

## EURO CLASSIC LOW VOC CLEARCOAT

Designed for applications requiring the ultimate finish appearance. This high solids clearcoat provides optimum flow and leveling and imparts a glass-like finish. 7311 is an acrylic urethane clearcoat with a sprayable V.O.C. of 2.1 #/gal (using EPA Test Method 24) for spot, panel and overall refinishing. This product can be used with all solvent based and water based basecoats.

No. 7311 - 5 Liter Clear - **\$165.07**

No. 7326 2.5 Liter Activator Fast - **\$129.67**

No. 7336 2.5 Liter Activator Slow - **\$129.67**

## "KWIK GLOSS" 4:1 ACRYLIC URETHANE CLEAR

Finish-Tec™ 4.2 Low V.O.C. Kwik Gloss Clear Coat is an acrylic urethane clear with a sprayable V.O.C. of 4.2 lb/gal (using EPA Test Method 24). Kwik Gloss is an excellent choice when speed is required without sacrificing a high gloss finish. Kwik Gloss is National Rule Compliant, and provides excellent flow and leveling properties.

No. 6841 - Clear - GAL

## 2.1 Low VOC Clear System

FINISH-TEC™ 6531 Clear is an acrylic urethane Clear Coat with a sprayable V.O.C. of 2.1 #/gal (using EPA Test Method 24) for spot, panel and overall refinishing. MIX RATIO (by volume) is 4:1 (four parts Clear Coat to one part 6800 Series Extra Solids Activators). This clear offers high gloss and superior finish when allowed to air dry or when force dried. Meets S.C.A.Q.M.D. requirements.

No. 6531 - Clear - GAL
