

Attachment D

Supplies:

Equipment and supplies to be provided by caterer and included in meal cost:

Any equipment needed to transport the food to each site, maintaining proper hot and cold temperatures.

Any equipment needed to store food at proper temperature until served at all sites and delivered to all home delivered clients.

Steam tables, ovens or alternative heating/holding equipment at all sites

Heating or cooling units used on all catering delivery vehicles including cambros, thermal bags or coolers used to maintain temperature of foods prior to and during home delivery as applicable.

The caterer shall provide all consumable products for all meals including hot, frozen, and fresh breakfast and shelf stable meals. These shall include but are not limited to all paper product, hairnets, gloves, utensils (serving and eating), bags for home delivered meals or other products required to prepare the meal for service and deliver for consumption. Also all products needed to maintain sanitary requirements at sites.
