

VH Series

100% 10 hour charger

High Efficiency charging solutions

No charger is safer for your battery fleet.

USA Made!

Although ferroresonant technology has been around for many years, improvements are constantly being made and today, our charger boasts a high efficiency, 87% and power factor > .90% close to that of many other manufacturer's high frequency chargers. The charger control monitors the battery throughout the charge and delivers a safe, complete charge to keep your fleet healthy and running!

Standard control P46-267

Automatic equalize: 1,5,7 or 10 cycle user selectable

Constant communication between battery and charger for perfect charge every time. No under or overcharge even with a +6/-10 % AC line.

Underwriters Labs and ULc listed.

LATEST TECHNOLOGY!

INTELENT CHARGING

BENEFITS

- Trustworthy ferroresonant technology.
- Easy field maintenance – non proprietary.
- Recharges 100% discharged battery in 10 hours or less.
- Long operating life: 10+ years.
- Low cost of ownership.

FEATURES

- Available in all AC voltages, single and three phase.
- Fail Safe charge for your battery.
- Rugged case stackable to three high.
- Fully automatic.
- Easy access to tap settings for quick changeover.
