Pest Management Funding Available through USDA

The USDA's National Institute of Food and Agriculture is accepting grant applications for the Pest Management Alternatives Program. PMAP provides support for the development and implementation of integrated pest management practices that reduce human and environmental risks. Applications are open to all individuals and agencies interested in integrated pest management. Grant requests must be received through [Grants.gov](#) by March 3.

Mini-Grants Available for 'Celebrate Urban Birds' Events

The Cornell Lab of Ornithology is offering mini-grants of \$250-\$500 to support the organization of community "Celebrate Urban Birds" events. Information gathered by event participants helps scientists better understand how birds survive in cities and use urban green spaces. Organizers working in underserved communities are strongly encouraged to apply; applications are due Feb. 15.

Project Funding for Rural School Classrooms Available

The UPS Foundation is offering educators 50 percent match funding for classroom projects where students study, explore or clean up the planet. Full-time, public school teachers in rural communities nationwide are eligible to submit up to three requests through donorschoose.org. Project requests may include materials to study or create community gardens, to test or improve water quality or to start school-based recycling programs. Funding is available until exhausted.
