2018

Next Steps Work Group

What Do We Do Next?: Listening Session on Section 113 of the *Strengthening Career and Technical Education for the 21st Century Act*

Presenters:

Sharon Miller, *Office of Career, Technical, and Adult Education:*

U.S. Department of Education

John Haigh, *Office of Career, Technical, and Adult Education:*

U.S. Department of Education

José Figueroa, *Office of Career, Technical, and Adult Education:*

U.S. Department of Education

Guiding Questions

- How will States implement the new CTE concentrator definition in their Perkins accountability systems? How long will it take to transition their data system to accommodate the new definition?
- To what extent can States already gather data on the two (2) new special population categories:
 - youth who are in—or have aged out of—the foster care system
 - youth with a parent who is on active military duty?
 - If States do not already gather this data, what will be their approach to doing so?
- To what extent do States collect data on any of the program quality indicators? If States do not already collect this data, what might be their approaches for doing so?
- How might the States use the optional program quality indicator in their Perkins V accountability systems?
- How will States go about gathering baseline data to establish their State determined performance levels?
- What are States thoughts about how they will submit data disaggregated by programs, programs or study, or career clusters? Do States already gather this data? How long will it take to transition their data systems to accommodate this collection?
- How shall we use our time together at the February 2019 Perkins Data Quality Institute? What items must be on the agenda?
