Mediasite Player Requirements

To view Mediasite webcast presentations on a Microsoft Windows computer, your system should meet the following minimum requirements:

- Microsoft Windows XP, Windows 2003, Windows Vista, or later

- Microsoft Internet Explorer® 6.0 SP1, or later

- Or if using a non Internet Explorer web browser: Mozilla Firefox® 2.0 or later, or Google Chrome 1.0

- Windows Media Player 9.0

- Broadband Internet connection; 256kbps or greater is recommended

To view Mediasite webcast presentations on an Apple Macintosh computer, your system should meet the following minimum requirements:

- Apple Macintosh OS X version 10.4.8, or later

- Apple Safari™ 2.0.4 or later (Safari 3.0.4 or later recommended) OR Firefox 2.0 or later

- Microsoft Silverlight 2.0 or later

To view the webcast, the following ports may need to be opened on the viewers' firewall: TCP/80, TCP/1755, UDP/1755, TCP/554, and UDP/554. Additionally, streaming media over port 80 should be enabled on the viewer's computer.

Note: Remember to configure pop-up blockers to allow site pop-ups. Otherwise, presentations will not appear

For more information, see the Webcast help file [?] available within the webcast viewer.
