

1.1 Files used for Perkins and Career and Technical Education

The table below crosswalks the *EDFacts* files to the Perkins indicators. Each file specification contains a more detailed crosswalk.

File	File name	Indicator
142	CTE concentrators academic achievement	1S1 and 1S2 both numerator and denominator
157	CTE concentrators technical skills	2S1 both numerator and denominator
082	CTE concentrators exiting	3S1 denominator
083	CTE concentrators graduates	3S1 numerator
154	CTE concentrators in graduate rate	4S1 both numerator and denominator
158!	CTE concentrators placement	5S1 both numerator and denominator
156	CTE concentrators in programs for non-traditional	6S2 both numerator and denominator
155	CTE participants in programs for non-traditional	6S1 both numerator and denominator

TIP! The CTE files are the only files where the data can be from a previous school year. For SY 2010-11, report the CTE data that the state has agreed to provide for the Perkins report due December 31, 2011. That data may be from a school year prior to SY 2010-11.

New for SY 2010-11 see file specifications for detail

File	Change
All	Data for the CTE indicators at the Secondary level must be submitted through <i>EDFacts</i> for SY 2010-11. Submission through <i>EDFacts</i> was voluntary for SY 2009-10.
158	New file. These data were not previously collected through <i>EDFacts</i> .
