

Help Clients Manage Their Mobile Devices

IT organizations often spend significant efforts evaluating and supporting the right mobile device management solutions for their organization. The use of smartphones, tablets and laptops has increased — and the number of organizations adopting BYOD policies has skyrocketed. Employees expect to be able to access their business applications like email, contacts, calendars and business data on these devices anytime, anywhere.

The network of Ingram Micro Preferred Providers is here to help you find solutions for your clients that help to support their mobility and BYOD strategy as well as provide support for operating their business.

Service Overview

Ingram Micro is here to help support the success of your clients' mobility initiatives with these professional services.

MOBILITY CONSULTING

Preferred Provider experts are available to provide a scope of work based on customer requirements and need.

- Mobility Strategy Assessments
- BYOD Assessments
- MDM/EMM Proof of Concept Assessments

MOBILE DEVICE ROLLOUTS

Ingram Micro provides wireless activation services for all national wireless carriers. We're your single source to key enterprise mobility solutions including:

- Connected Devices
- Software & Applications
