

Business Consultation Information

The Rule Breaker's Club

This consultation is for...

- ⚡ Online business owners who feel overwhelmed by everything they have to do and all of the hats they have to wear.
- ⚡ Entrepreneurs who are stuck, frustrated, and stressed-out.
- ⚡ Creatives who have burning questions about how to better run their businesses in order to reach their goals.
- ⚡ Anyone planning on launching, growing, marketing, writing, blogging, or otherwise running a business online.

This consultation is *not* a magic cure-all solution for your business' problems. This *will* require bucket loads of hard work. But I want to help you get there!

This consultation entails...

1. You contact me!

2. **You fill out the Pre-Consultation Questionnaire.** This helps me to ensure that you will get the most out of your consultation by doing most of the work *ahead* of time.

3. **Schedule your appointment.** Once you finish your questionnaire, I will send you the information you need in order to schedule your one hour Skype session (video required).

4. **I walk you through the session.** We'll establish the consultation goals, your biggest goals, your blockers, create an action plan (which I *will* be checking in on, of course), and commit this plan to your calendar. We'll also discuss far-off goals that you may not be able to get started on *right now* but that you want to keep in mind. I'll give you the RBC Productivity Hacks list to keep you workin' hard!

As you work through your goals, I'll be checking in on you via email! You're not off the hook yet, *bucko*.

My goals for every consultation...

ONE::

That you walk away with a *bare minimum* of FIVE action steps to take that week.

TWO::

That you'll shed that feeling of overwhelm and fear of the unknown and start marching confidently towards what you desire most.

THREE::

That you become aware of what the next level looks like so that you can prepare to charge into it.

FOUR::

That you feel 142.8% accountable for achieving your goals knowing that I'll be there to support you.
