BOB BROWN, *Robert Brown Interior Design* LIVING ROOM

USING A COLLECTION OF ANTLERS unearthed at Robuck & Co. as the jumping-off point, Bob Brown and his team created a living room that proves even lodge-inspired elements can work in high-rise living. But the true magic here is in the mix. Museum-quality pieces like the 18th-century Italian breakfront and sideboard give the room strength while acrylic-and-glass furniture, coupled with a creamy palette, keep the overall ambience light. What's more, this space is just as much a treat to the eye as it is to the touch, thanks to luxurious accents like black cashmere and fur throws.
